INTRODUCTION

This Guide, prepared by DMH, lists and defines the compliant codes that the DMH believes reflects the services it provides throughout its system, whether by directly-operated or contracted organizational providers or individual, group, or organizational network providers. This analysis does not, however, absolve Providers, whether individuals or agencies from their responsibility to be familiar with nationally compliant codes and to inform and dialogue with the DMH should they believe differences exist.

Brief History

Since the inception of the DMH's first computer system in 1982, DMH directly-operated and contract staff have reported services using Activity Codes. These Activity Codes were then translated into the types of mental health services for which DMH could be reimbursed through a variety of funding sources. On April 14, 2003, health care providers throughout the Country implemented the HIPAA Privacy rules. This brought many changes to the DMH's way of managing Protected Health Information (PHI), but did not impact the reporting/claiming codes. On October 16, 2003, all health care providers throughout the USA are required to implement the HIPAA Transaction and Codes Sets rules or be able to demonstrate good faith efforts to that end. These rules require that providers of health care services anywhere in the USA must use nationally recognized Procedure Codes to claim services.

HIPAA Objectives and Compliant Coding Systems

One of the objectives of HIPAA is to enable providers of health care throughout the country to be able to be conversant with each other about the services they were providing through the use of a single coding system that would include any service provided. In passing HIPAA, Legislators were also convinced that a single national coding system would simplify the claims work of insurers of health. Two nationally recognized coding systems were approved for use: the Current Procedural Terminology (CPT) codes and the Level II Health Care Procedure Coding System (HCPCS). The CPT codes are five digit numeric codes, such as 90804 and the HCPCS are a letter followed by four numbers, such as H2012.

Definitions found in this Guide are from the following resources: CPT code definitions come from the CPT Codes Manual; HCPCS codes are almost exclusively simply code titles absent definition so these definitions were established either exclusively or in combination from one of these sources – 1) Title 9 California Code of Regulations, Chapter 11, Specialty Mental Health Services, 2) State DMH Letters and Informational Notices, or 3) program definitions such as the Clubhouse Model. Reference citations follow all of the State code definitions.

Implications for Service Delivery

These changes are being made in conjunction with the much larger implementation of a new Management Information System known simply as the Integrated System (IS). In light of all these very extensive changes in the way the DMH reports and claims it's services, it is important to note that, while the DMH will continue to examine its service delivery system and implement creative programs as appropriate, the change from Activity Codes to Procedure Codes is NOT about a change in the services provided by the DMH nor the reimbursement rates for those services. In fact, DMH staff have been diligent in their efforts to ensure that all services that are currently provided have found a place in the new (to the DMH) HIPAA compliant coding system. This will ensure that revenues after October 16, 2003, the implementation date of the new HIPAA compliant Integrated System (IS), will continue to flow into the DMH unchanged from revenues prior to October 16, 2003.

HELPFUL HINTS FOR USING THE GUIDE

DMH directly-operated and contract staff should address **questions and issues** to their supervisors/managers, who may, as needed, contact their Services Area Procedure Codes Liaisons for clarifications. Network Providers should contact Provider Relations.

- Readers will quickly note that, except for those services funded entirely by CGF, there are no codes that identify payer information, such as PATH. Payer information will be maintained by providers in the administrative part of the new IS and when claims are being prepared, will match the service code on the clinical side of the IS with the payer information on the administrative side of the IS. Therefore, if claims are to go to the correct payer source, it is imperative that the Administrative side of the system be maintained.
- The codes have been categorized into types of services similar to those now in use in order to facilitate the transition to Level I (CPT) and Level II (HCPCS) codes.
- Medicare does not reimburse for travel and documentation time, so in order to appropriately claim to both Medicare and Medi-Cal total service time for the Rendering Provider must be broken out into face-to-face and other time for most services. Both of these times need to be entered into the IS and documented in the clinical record.
- While the basic structure of the tables is the same, many vary in their content because the requirements of different sets of codes are so different.
- The “Scope of Practice” column that used to define who could report the code is now headed “Rendering Provider”. This is HIPAA language that the DMH is embracing, but the information in the column provides the same information regarding usage of the code. The categories of staff the DMH will continue to recognize are these: physician (MD or DO); licensed or waived clinical psychologist (PhD or PsyD); licensed or registered Social Worker; licensed or registered MFT; registered nurse (RN); nurse practitioner (NP); clinical nurse specialist (CNS); psychiatric technician (PT); licensed vocational nurse (LVN); and mental health rehabilitation specialist (MHRS). See Page vi, Reporting and Documentation Notes, for documentation comments.
- The table heading on each page indicates whether the codes on that page may be used by Network and/or SD/MC Providers. Individual, Group, and Organizational Network Providers may only use lined or shaded Services and shaded codes and only the disciplines as noted under the Network header. SD/MC Organizational Providers may use shaded codes on pages 1-2, 7-9, and 27 & 28 AND any unshaded codes. The Table of Contents also indicates whether the codes on a page are applicable to Network, SD/MC, or both.

LIST OF ABBREVIATIONS

- **CGF** – County General Funds
- **CPT** – Current Procedural Terminology; codes established by the American Medical Association to uniquely identify services for reporting and claiming purposes.
- **Disciplines:**

CNS	Clinical Nurse Specialist	Authorized CNS	Authorized Clinical Nurse Specialist
DO	Doctor of Osteopathy		
LCSW	Licensed Clinical Social Worker		
LVN	Licensed Vocational Nurse		
LPCC	Licensed Professional Clinical Counselor		
MD	Medical Doctor		
MFT	Marriage & Family Therapist		
MHRS	Mental Health Rehabilitation Specialist		
NP	Nurse Practitioner	Authorized NP	Authorized Nurse Practitioner
PhD	Doctor of Philosophy, Clinical Psychologist		
PsyD	Doctor of Psychology, Clinical Psychologist		
PT	Psychiatric Technician		
RN	Registered Nurse	Authorized RN	Authorized Registered Nurse
- **DMH** – Los Angeles County Department of Mental Health or Department; also known as the Local Mental Health Plan (LMHP)
- **ECT** – Electroconvulsive Therapy
- **FFS** – Fee-For-Service
- **HCPCS** – Health Care Procedure Coding System
- **IMD** – Institutions for Mental Disease
- **IS** – Integrated Systems (formerly known as the MIS, Management Information System)
- **LMHP** – Local Mental Health Plan (in Los Angeles County, the Department of Mental Health)
- **PHI** – Protected Health Information
- **SD/MC** – Short-Doyle/Medi-Cal (*Terminology carried forward from pre-Medi-Cal Consolidation: Medi-Cal Organizational Providers who can be reimbursed for a full range of rehabilitation staff*)
- **SFC** – Service Function Code
- **STP** – Special Treatment Patch
- **TCM** – Targeted Case Management

County of Los Angeles – Department of Mental Health
A GUIDE TO PROCEDURE CODES – MARCH 2015

REPORTING AND DOCUMENTATION NOTES

DMH directly-operated and contract staff should address **questions and issues** to their supervisors/managers, who may, as needed, contact their Service Area QA Liaison for clarifications. Network Providers should contact Provider Relations.

- **Telephone Service:** When using the Daily Service Log to report telephone services, the telephone box next to the Service Location Code must be checked. When telephone services are entered into the IS, the “telephone” box on the “Outpatient – Add Service” screen must be checked. This is the only way to ensure that telephone services are claimed to the appropriate payer. Face-to-Face time is always “0” for telephone contacts. Some procedure codes are not telephone allowable meaning they may not be used for telephone services (see “Face to Face time” below); only those procedure codes specifically identified as telephone allowable may be claimed as a telephone service. For Contract providers submitting electronic claims, the SC modifier must be placed on the procedure code for all telephone services.
- **Telepsychiatric Service:** When using the Daily Service Log to report telepsychiatric services, the telepsychiatric box next to the telephone box must be checked for all telepsychiatric services. When telepsychiatric services are entered in the IS, the “telepsychiatric” box on the “Outpatient – Add Service” screen must be checked. This is the only way to ensure that telepsychiatric services are appropriately claimed. For Contract providers submitting electronic claims, the GT modifier must be placed on the procedure code for all telepsychiatric services.
- **Combined Services:** In those instances where two or more significant and distinct services (e.g. assessment and collateral) or service types (e.g. MHS and TCM) are delivered within a single contact, each service must be documented in a separate progress note that meets all documentation requirements. It is not appropriate to combine multiple significant and distinct services under a single progress note that simply reflects the predominant service. Per the Organizational Providers Manual, plan development activities are an exception and may be combined into a single progress note with another service.
- **Penal facilities, including Juvenile Halls:** Services delivered in these facilities are not Medi-Cal reimbursable unless delivered to a youth who has been adjudicated for suitable placement and is awaiting placement.
- **More than one staff participating in a single direct service:** Anytime more than one staff participate in a service, each must be identified in the note indicating the time spent by each in providing the service, and the specific interventions performed by each.

REPORTING AND DOCUMENTATION NOTES (continued)

- **Claiming Payers:** Not all staff listed in the Rendering Provider column who can report the service may claim to all payer sources. The DMH will keep its employees informed, and, as appropriate, its contractors, regarding rules and regulations for service delivery and reimbursement.
- **Scope of Practice:** A Rendering Provider may only provide services within his/her job specification and scope of practice. Staff without credentials that meet a category's requirements may deliver rehabilitation services to the extent that they function within the job specification with commensurate training and skill development in accord with the services s/he may be rendering. The DMH will also continue to require that students and staff without two years mental health experience or a bachelor's degree in a mental health related field must have all documentation co-signed until these minimum requirements have been met and his/her supervisor believes him/her to be competent to document services independently. **Please note that co-signature does NOT allow any level staff to provide services that are outside his/her scope of practice and job specification.** Staff at all levels must have appropriate supervision.
- **Face-to-Face time:** Note that for SD/MC Providers, only the psychotherapy codes on pages 3 and 4 indicate Face-to-Face time. This is because, for the same service, different codes are available and must be selected based on the Face-to-Face time. The absence of Face-to-Face times for other codes only means that time is not a determinant in selecting the code; it does not mean that the code has no Face-to-Face time requirement. Assessment, Psychological Testing, and Individual Medication all require Face-to-Face time that must be both documented in the clinical record and entered into the IS. No other Mental Health, Medication Support, or Targeted Case Management Services require Face-to-Face time, but if it occurs, it should be both noted in the clinical record and entered into the IS. All groups, except Collateral Group, require Face-to-Face time, but that time does not need to be documented in the clinical record or entered into the IS separate from the total time of the contact. Collateral, Team Conference/Case Consultations and No-Contact – Report Writing should always be reported with “0” Face-to-Face time.

**County of Los Angeles – Department of Mental Health
A GUIDE TO PROCEDURE CODES – MARCH 2015**

ASSESSMENT – SD/MC & NETWORK PROVIDERS (MODE 15)

**Assessment services are a required component of Day Treatment Intensive and Day Rehabilitation.
These services will not be separately authorized for clients in one of these programs.**

This is an activity that may include a clinical analysis of the history and current status of a client’s mental, emotional, or behavioral disorder; relevant cultural issues and history; and diagnosis (§1810.204). These codes should be used when completing an Initial Assessment form or when performing subsequent assessment activities that are documented on an assessment form.

Service	Code	Network MC Rendering Provider	Cost Report SFC	SD/MC Rendering Provider
Psychiatric Diagnostic Interview	90791	MD/DO PhD/PsyD LCSW MFT Authorized NP Authorized CNS	42	<u>MD/DO:</u> Licensed <u>PhD/PsyD:</u> Licensed or Waivered <u>LCSW & MFT:</u> Licensed, Registered or Waivered <u>Authorized NP or Authorized CNS:</u> Certified <u>Authorized RN</u> <u>LPC</u> Licensed or Registered and student professionals in these disciplines with co-signature
<i>INACTIVE</i> <i>Interactive psychiatric diagnostic interview using play equipment, physical devices, or other non-verbal mechanism of communication</i>	90802			
Psychiatric Diagnostic Interview with Medical Services	90792	Not Reimbursed	42	<u>MD/DO:</u> Licensed <u>Authorized NP or Authorized CNS:</u> Certified

Notes:

- These services are recorded in the clinical record and reported into the IS in hours/minutes.
- For Directly-Operated clinics, nurses must be authorized to provide Psychiatric Diagnostic Interviews per Policy 200.04. For Contractors, nurses must meet the requirements of the Board of Registered Nursing to be considered authorized.

County of Los Angeles – Department of Mental Health
A GUIDE TO PROCEDURE CODES – MARCH 2015

PSYCHOLOGICAL TESTING – SD/MC & NETWORK PSYCHOLOGISTS & PHYSICIANS (MODE 15)

All psychological testing performed by Network Providers and claimed to Medi-Cal must have prior authorization.

Service		Code	SD/MC Rendering Provider	Network MC Rendering Provider
Psychological Testing (includes psychodiagnostic assessment of emotionality, intellectual abilities, personality and psychopathology, eg, MMPI, Rorschach, WAIS)	Face-to-face administration; interpretation and report writing	96101	Licensed PhD/PsyD Trained MD/DO	Licensed PhD/PsyD Trained MD/DO
Psychological Testing (includes psychodiagnostic assessment of emotionality, intellectual abilities, personality and psychopathology, eg, MMPI, Rorschach, WAIS)	Face-to-face administration; interpretation and report writing	96102	Qualified Health Care Professional*	NA
Psychological Testing (includes psychodiagnostic assessment of emotionality, intellectual abilities, personality and psychopathology)	Administration by computer; interpretation and report writing	96103	Qualified Health Care Professional*	NA

*For LACDMH, a Qualified Health Care Professional includes:

- Waivered PhD/PsyD
- Doctoral psychology students w/co-signature

Notes:

- Testing is recorded in the clinical record and reported into the IS in hours:minutes of staff time.
- Providers must document and submit a claim for the administration of tests on the day of the administration indicating which tests were administered.
- Interpretation and report writing must be completed in accord with documentation timelines in 104.09 by the same person as testing. The note should document tests administered, interpretation, and writing of the report; the interpretation and report writing time should be “Other” time.
- When interpretation and report writing are completed on another day, a separate note for that activity should be documented with no face-to-face time and referencing the report filed in the clinical record. When testing and interpretation and report writing are done by different staff categories (one by licensed and the other by Qualified Health Professional) each staff should document their activities and time independently.
- Scoring time is not reimbursable.
- For children, referrals are made to clarify symptomology, rule out diagnoses and help differentiate emotional from learning disabilities.
- These services are reported as SFC 34.

**County of Los Angeles – Department of Mental Health
A GUIDE TO PROCEDURE CODES – MARCH 2015**

PSYCHOLOGICAL TESTING – SD/MC & NETWORK PSYCHOLOGISTS & PHYSICIANS (MODE 15)

All psychological testing performed by Network Providers and claimed to Medi-Cal must have prior authorization.

Service		Code	SD/MC Rendering Provider	Network MC Rendering Provider
Assessment of Aphasia (includes assessment of emotionality, intellectual abilities, personality and psychopathology, eg, MMPI)	Administration by computer; interpretation and report writing	96105	Licensed PhD/PsyD Trained MD/DO or Qualified Health Care Professional*	NA
Developmental Testing; Limited (eg, Developmental Screening Test II, Early Language Milestone Screen)	Interpretation and report writing	96110	Licensed PhD/PsyD Trained MD/DO or Qualified Health Care Professional*	NA
Developmental Testing; Extended (includes assessment of motor, language, social, adaptive and/or cognitive functioning by standardized developmental instruments)	Interpretation and report writing	96111	Licensed PhD/PsyD Trained MD/DO or Qualified Health Care Professional*	NA
Neurobehavioral Status Exam (clinical assessment of thinking, reasoning and judgment, eg, acquired knowledge, attention, language, memory, planning and problem solving, and visual spatial abilities)	Interpretation and report writing	96116	Licensed PhD/PsyD Trained MD/DO	NA
Neuropsychological Testing (eg, Halstead-Reitan Neuropsychological Battery, Wechsler Memory Scales and Wisconsin Card Sorting Test)	Face-to-face administration; interpretation and report writing	96118	Licensed PhD/PsyD Trained MD/DO	Licensed PhD/PsyD Trained MD/DO
Neuropsychological Testing (eg, Halstead-Reitan Neuropsychological Battery, Wechsler Memory Scales and Wisconsin Card Sorting Test)	Face-to-face administration; interpretation and report writing	96119	Qualified Health Care Professional*	NA
Neuropsychological Testing (eg, Wisconsin Card Sorting Test)	Administration by computer; interpretation and report writing	96120	Qualified Health Care Professional*	NA
Standardized Cognitive Performance Testing (eg, Ross Information Processing Assessment)	Face-to-face administration; interpretation and report writing	96125	Qualified Health Care Professional*	NA

*For LACDMH, a Qualified Health Care Professional includes:

- Waivered PhD/PsyD
- Doctoral psychology students w/co-signature

County of Los Angeles – Department of Mental Health
 A GUIDE TO PROCEDURE CODES – MARCH 2015
MEDICATION SUPPORT – SD/MC PHYSICIANS & NURSE PRACTITIONERS (MODE15)
EVALUATION AND MANAGEMENT

- Evaluation and Management (E&M) procedure codes are utilized by SD/MC Physicians and Nurse Practitioners when providing face-to-face Medication Support Services for the purpose of medication evaluation and prescription.
- There is a set of E&M procedure codes for “Office/Other Outpatient Services” and a set for “Home” services; there is also a set for “New Clients” and a set for “Established Clients”. For the purposes of E&M procedure codes, a new client is defined as someone who has not been seen by an MD/DO/NP within the past three years at the same Billing Provider/Reporting Unit for the purposes of E&M procedure codes.
- The E&M procedure code should be chosen based on: History, Examination and Medical Decision Making. See the grid below for additional information regarding these elements.
- Time is NOT a determining factor in the choice of the E&M procedure code.

Component	Determining Factors	Types and Elements of each Type
History	<p>Refers to the amount of history that is gathered which is dependent upon clinical judgment and on the nature of the presenting problem(s).</p>	<p>Problem focused - chief complaint, brief history of present illness or problem</p> <p>Expanded problem focused – chief complaint, brief history of present illness, problem pertinent system review</p> <p>Detailed – chief complaint, extended history of present illness, problem pertinent system review extended to include a review of a limited number of additional systems, pertinent past/family/and or social history directly related to the client’s problems</p> <p>Comprehensive – chief complaint, extended history of present illness, review of systems that is directly related to the problem(s) identified in the history of the present illness plus a review of all additional body systems, complete past/family/social history</p>
Examination	<p>Refers to the body and/or organ systems that are examined which is dependent on clinical judgment and on the nature of the presenting problem(s).</p> <p>“Psychiatric” is considered an Organ System and must be included in the examination. Additional Organ Systems include: Eyes, Ears/Nose/Mouth/Throat, Cardiovascular, Respiratory, Gastrointestinal, Genitourinary, Musculoskeletal, Skin, Neurologic, Hematologic/Lymphatic/Immunologic. Additional Body Systems include: Head (including the face), Neck, Chest (including breasts and axilla), Abdomen, Genitalia/Groin/Buttocks, Back, Each Extremity</p>	<p>Problem focused – a limited examination of the affected body area or organ system</p> <p>Expanded problem focused – a limited examination of the affected body area or organ system and other symptomatic or related organ system(s)</p> <p>Detailed – an extended examination of the affected body area(s) and other symptomatic or related organ system(s)</p> <p>Comprehensive – a general multisystem examination or a complete examination of a single organ system</p>
Medical Decision Making	<p>Refers to the complexity of establishing a diagnosis and/or selecting a management option based on 1) the number of diagnoses and/or management options 2) the amount and/or complexity of medical records, diagnostic tests and/or other information that must be obtained, reviewed, analyzed 3) the risk of significant complications, morbidity, and/or mortality associated with the presenting problem (s), diagnostic procedure(s) and/or possible management options</p>	<p>Straightforward – minimal diagnoses and/or management options, minimal or no data to be reviewed, minimal risk of complications</p> <p>Low complexity - limited diagnoses and/or management options, limited data to be reviewed, low risk of complications</p> <p>Moderate complexity - multiple diagnoses and/or management options, moderate data to be reviewed, moderate risk of complications</p> <p>High complexity - extensive diagnoses and/or management options, extensive data to be reviewed, high risk of complications</p>
