ALERT!
Forwarded Claims
Approved

Recently, the Los Angeles County Department of Mental Health (DMH) has received approved Medi-Cal claims without the accompanying electronic remittance file (HIPAA 835 or 835). These approvals are for the forwarded claims that were adjudicated by the State from May 2011 to April 2012. The claim status will be updated to “approved” in the Electronic File Transfer (EFT) for each respective contracted provider. Please review the rpt_FinClaimList table and use the CVStatus field to identify these claims with “**Excluded State File.**”

These claims will continue to appear in the Integrated System (IS) with “forwarded” claim status until the State sends the 835s for these claims. The State will create the original 835s once they have resolved their technical issues and then the IS will update the claim status accordingly. As a reminder, although you may void a claim at any time, only claims showing a Medi-Cal approved status in the IS will be sent to the State. This means that if you wish to void any of the impacted claims, the void request will not be submitted to Medi-Cal until the 835 has been received.

Please note that these claims have already been paid to providers and will not affect the payment report or payment processing.

If you have any questions about your EFT data, please e-mail the CIOB Data Management and Business Intelligence Division at Reporting@dmh.lacounty.gov.
