MONITORING REVIEW**

The Department of Probation, Placement Permanency & Quality Assurance (PPQA), Group Home Monitoring (GHM) conducted a review of New Concept Group Home in December 2013. New Concept is located in the Second Supervisorial District of Los Angeles County. New Concept provides services to Los Angeles County Probation children and the Department of Children and Family Services (DCFS). According to New Concept's program statement, its purpose is to treat boys who have behavioral, social and emotional difficulties. New Concept is an 8-bed Group Home, which provides care for boys 12 - 17 years of age. At the time of the review, New Concept was providing care for five (5) Probation children and three (3) DCFS children. The placed children's overall average length of stay was seven (7) months, and their average age at the time of review was 18 years old.

Four (4) children, two (2) Probation children and two (2) DCFS children were randomly selected for the interview sample. There were no placed children who were on psychotropic medication, at the time of this review. Additionally, three (3) discharged children's files, two (2) Probation and one (1) DCFS, were reviewed to assess compliance with permanency efforts and five (5) staff files were reviewed for compliance with Title 22 Regulations and County Contract Requirements.

SUMMARY

During the PPQA/GHM review, the interviewed children reported feeling safe at New Concept, and that they were provided with good care and appropriate services, were comfortable in their environment and treated with respect and dignity. New Concept was in compliance with six (6) of the ten (10) areas of the Contract Compliance Review: Education and Workforce Readiness; Health and Medical Needs; Psychotropic Medication; Personal Rights and Social/Emotional Well-Being; Personal Needs/Survival and Economic Well-Being, and Discharge Children.

However, deficiencies were noted in the areas of Licensure/Contract Requirements, Facility and Environment, Maintenance of Required Documentation and Service Delivery and Personnel Records. Related to Licensure/Contract Requirements, the upholstery in one of the facility vans required attention. Related to Facility and Environment, there were some minor deficiencies in the Common Area and Children's Bedrooms that needed to be repaired or replaced. Related to Maintenance of Required Documentation and Service Delivery, New Concept needs to develop Needs and Services Plans (NSPs) that are child specific and obtain the Caseworker's/Probation Officer's signature in order to implement the child's NSP. Lastly, related to Personnel Records, New Concept needs to update the staff files that had expired driver's licenses.

REVIEW OF REPORT

On December 23, 2013, Probation PPQA Monitor Joseph Ninofranco held an Exit Conference with New Concept Administrator Suretta Small. Ms. Small agreed with the review findings and recommendations and was receptive to implementing systemic changes to improve their compliance with regulatory standards, as well as, address the noted deficiencies in a Corrective Action Plan (CAP).

A copy of this compliance report has been sent to the Auditor-Controller and Community Care Licensing.

New Concept provided the attached approved CAP addressing the recommendations noted in this compliance report. A follow-up visit was conducted, and all deficiencies cited in the CAP were corrected or systems were put in place to avoid future deficiencies. Assessment for continued implementation of recommendations will be conducted during the next monitoring review.

**NEW CONCEPT GROUP HOME
CONTRACT COMPLIANCE MONITORING REVIEW
FISCAL YEAR 2013-2014**

SCOPE OF REVIEW

The purpose of this review was to assess New Concept's compliance with the County contract and State regulations and include a review of the New Concept's program statement, as well as, internal administrative policies and procedures. The monitoring review covered the following 10 areas:

- Licensure/Contract Requirements
- Facility and Environment
- Maintenance of Required Documentation and Service Delivery
- Educational and Workforce Readiness
- Health and Medical Needs
- Psychotropic Medication
- Personal Rights and Social Emotional Well-Being
- Personal Needs/Survival and Economic Well-Being
- Discharged Children
- Personnel Records

For the purpose of this review, four (4) placed children were selected for the sample, two (2) Probation children and two (2) DCFS children. Placement Permanency & Quality Assurance (PPQA), Group Home Monitoring (GHM) interviewed each child and reviewed their case files to assess the care and services they received. Additionally, three (3) discharged children's files were reviewed, two (2) Probation and one (1) DCFS, to assess New Concept's compliance with permanency efforts. At the time of the review, no placed children were prescribed psychotropic medication.

PPQA/GHM reviewed five (5) staff files for compliance with Title 22 Regulations and County contract requirements, and conducted a site visit to assess the provision of quality of care and supervision.

CONTRACTUAL COMPLIANCE

The following 4 areas were out of compliance.

License/Contract Requirements

An inspection was done of New Concept's vehicles that transport residents to and from school, drug therapy, religious services, home passes and regular outings. One of the vehicles had the upholstery torn and ripped on the seats.

Recommendation

New Concept management shall ensure that:

1. The aforementioned deficiencies cited will be corrected and repaired in a timely fashion in order to ensure the safety and security of all residents at

the New Concept Group Home, and that all vehicles shall remain in good repair for the safety of the New Concept Group Home residents.

Facility and Environment

A walkthrough inspection was completed in and around the facility. The home is in good condition; although, there were several deficiencies found in the common areas and in youth's bedrooms.

- A wire in the corner of the living room where the television is located needs securing
- In bedroom #1, there was graffiti observed on the dresser. Also, there was a torn curtain on the window.
- In bedroom #4, there was graffiti etching observed on the dresser.

Recommendation

New Concept's management shall ensure that:

1. The aforementioned deficiencies cited in the common areas will be corrected and repaired in a timely fashion in order to ensure the safety and security of all residents at New Concept Group Home. New Concept Group Home needs to secure the wires in the living room with the television.
2. The aforementioned deficiencies cited in the bedrooms will be corrected and repaired in a timely fashion in order to ensure the safety and security of all residents at New Concept Group Home. New Concept Group Home shall remove all graffiti, repair torn curtain and ensure that an inspection is conducted by staff daily upon start of shift.

Maintenance Of Required Documentation and Service Delivery

A review was completed of New Concept Group Home residents' files. Of the files, four (4) placed children were selected for the sample, two (2) Probation children and two (2) DCFS children. PPQA/GHM interviewed each child and reviewed their case files to assess the care and services they received.

- In one child's file, the signature of the DPO on the Needs and Services Plan (NSP) was missing.
- In two children's files, the goals for the Updated NSP were cut and pasted from the previous NSP, as evidenced by the fact that they were "cookie cutter" and not child specific.

Recommendation

New Concept's management shall ensure that:

1. The County Worker's Authorization to Implement NSPs is secured by ensuring that the Probation Officer/Social Worker signatures are obtained for all Needs and Services Plans.
2. All reports are comprehensive and child specific written for each child's individual needs, with no "cutting or pasting" from previous reports.

Personnel Records

A review was done of the Personnel files of New Concept staff. A sample of five (5) employee files was selected and reviewed for compliance. Of the files reviewed, one file had an expired driver's license.

Recommendation

New Concept's management shall ensure that:

1. All files are updated and that all drivers' licenses are current and valid.

PRIOR YEAR FOLLOW-UP FROM THE PROBATION PPQA GHM GROUP HOME CONTRACT COMPLIANCE MONITORING REVIEW

Re: Corrective Action Plan
Audit Date 12/23/2013

I LICENSURE/CONTRACT REQUIREMENTS

Findings:

1. White van upholstery has a torn seat

Corrective Action:

01/15/2014

The upholstery on the seat was replaced.

Daily mechanical and operating inspections are done on the vehicles. In the past we have relied on the staff to also report interior and exterior maintenance problems with the vehicles. This responsibility is now assigned to the Facility Manager on duty. Any issues will be recorded on the Vehicle Evaluation Checklist, and given to the Administrator to make arrangements for any necessary repairs.

II FACILITY AND ENVIRONMENT

Findings:

1. Wire in corner of TV room needs securing.

Corrective Action:

12/23/2013

The cable wire was removed by the maintenance person.

New cable wires were installed when the cable box was updated. We were not aware that the old cable wires were cut down, but not removed. When we have installations or repairs, the on duty Facility Manager will check for anything that should be removed from the facility after completion.

2. Bedroom #1, graffiti on dresser, and torn window curtain

Corrective Action:

12/23/13

The graffiti was removed, and the torn window curtain was replaced. The windows also have blinds.

Removing the graffiti is a daily challenge. We will continue to inspect and remove the graffiti daily. We maintain extra supplies of window curtains for each bedroom, and replace them when needed. All bedroom windows also have blinds.

3. Bedroom #4, graffiti scratches on dresser

Corrective Action:

12/23/13

The graffiti was removed from the dresser.

Visual inspections are done daily for graffiti, and removed by the staff whenever possible. If not removed by the staff it is documented in the maintenance log for the maintenance person to remove. The graffiti is sometimes in pencil, ink, or something scratched or carved.

III MAINTENANCE OF REQUIRED DOCUMENTATION AND SERVICE DELIVERY

1. Minor's NSP for 06/16/13 was signed on 11/26/13 by the DPO
08/16/13 & 11/16/13, The Probation monitor felt was cut and paste
2. Minor's NSP 03/17/13 and 06/17/13, The Probation monitor felt was cut and paste

Corrective Action:

All NSPs and Quarterly reports are emailed to the Administrator. They are reviewed and discussed with the therapist. After they are finalized, the Administrator emails the final reports to the DPO for review and signature. If we don't receive the signature page back in five (5) days, we will email again, and cc the SDPO. If no response in another five (5) days, we will email the Director.

I met with our therapist and he assured me that he does not copy and paste the NSP reports. He stated that these two minors had not met the goals that were listed in their previous NSP, and the information was the same. Going forward when evaluating the minors and their goals, the therapist will adjust or change the goal when necessary.

X PERSONNEL RECORDS

1. Staff-DL expired on 11/28/13

Corrective Action:

12/31/13

A copy of the Staff's DL renewal was scanned and emailed to the Probation Monitor on record.

We maintain a documented list for DL renewals for all staff, and a copy is requested one month prior to expiring. We will review the personnel files one week prior to the expiration date to ensure we have received a copy of the renewals.
