

## Joint Area Plan Summary of the Draft FY 2026-2027 Update

The purpose of this document is to provide the public with the goals, proposed services and strategies for the FY 2026-2027 Area Plan updates. The delivery of programs and services in FY 2026-2027 is contingent upon the availability of funds from all sources (Federal, State and County). The California Department of Aging has not released funding estimates for FY 2026-2027. As these amounts are unknown, adjustments will be made to the services to be provided next fiscal year.

This document is considered the summary of the draft which is a snapshot of proposed services to be provided. A more formal and longer plan will be submitted to the Board of Supervisors for approval in April 2026.

### WHO ARE WE?

The Los Angeles County Aging and Disabilities Department (AD) and City of Los Angeles Department of Aging (LADOA) are the principal agencies that address issues that relate to older adults, people with disabilities, and their caregivers. In addition to providing several direct programs, we also develop, enhance and maintain community-based systems of care that provide services, which support independence and protect the quality of life of older persons and persons with functional impairments. We also promote citizen involvement in the planning and delivery of services for Los Angeles County's older population, people with disabilities, and their caregivers. We accomplish these objectives through a network of education, advocacy, problem-solving, program planning, public hearings and service delivery, and by utilizing a variety of funding sources.

The Los Angeles County Aging and Disabilities Department is governed by the Los Angeles County Board of Supervisors. They set the policy, determine funding, oversee the operations and approve the strategic plan and its submission to the California Department of Aging. We also have a 25-member Commission on Aging that determines programming, funding priorities, advocacy efforts and makes recommendations to the Board of Supervisors. The Commission on Aging is comprised of representatives from each of the five (5) supervisorial districts.

The City of Los Angeles Department of Aging is governed by the City Council and the Mayor. The Council is the governing body of the City and is responsible for ordering elections, levying taxes, authorizing public improvement, approving contracts, and adopting traffic regulations. All of the Council's actions are subject to the approval of the Mayor. The LADOA serves as the Area Agency on Aging (AAA) administrator over programs and services to serve older adults and their family caregivers in the City in its function as an AAA. LADOA also has an advisory board, referred to as the Council on Aging, consisting of older adults throughout the City that provide updates and feedback to the department.

Annually, we submit a joint plan to the California Department of Aging outlining our regional approach to providing comprehensive services to older adults, people with disabilities and caregivers.

## WHOM DO WE SERVE?

We provide services to:

- Older adults 60 years of age and older
- Persons with disabilities
- Unpaid caregivers

Services provided are dependent upon the funding requirements as well as program eligibility.

Our goal is to target our services to those in need and to ensure that our program participants mirror the composition of the community we serve. According to the California Department of Aging, the current total population of people over the age of 60 in Los Angeles County is 2,255,603 which is less than a .23% decrease from 2024. The steady population level emphasizes the importance of improving and maintaining the services rendered to older adults.

Of these 2,255,603 individuals:

- 163,325 are non-English speakers
- 1,354,834 are minorities
- 362,805 have incomes below the federal poverty level
- 736,007 are Medi-Cal eligible
- 21,857 are geographically isolated
- 205,109 are aged 65 or older and SSI/SSP eligible
- 724,129 are older than 75
- 381,295 live alone
- 66,500 are LGBTQIA+
- 110,000 are Veterans over the age of 65
- 778,000 are immigrants that are 60+

Our demographics align with the state averages but reflect a more diverse population.

This means that although all the objectives listed below are important, as are the additional strategies and activities to be undertaken to meet these goals, additional efforts that may include staff time and resources will be focused on these priorities.

### **Goal 1: Promote Safe, Sustainable, Accessible Outdoor Spaces & Buildings**

**Rationale:** The LA Region is committed to creating and maintaining streets, facilities, and open spaces that are environmentally friendly, accessible, and available to all residents including special accommodation for older adults and adults with disabilities. To meet this objective, the LA Region will partner with museums, stadiums, studios, convention centers and other tourist attractions in the Los Angeles Region to enhance age-friendly building features and generate awareness of and attention around tourist facilities that have taken steps to become age-friendly.

## **Goal 3: Address Issues of Homelessness and Promoting Affordable Housing**

**Rationale:** Los Angeles Region is one of the most unaffordable housing markets in the nation, directly contributing to homelessness among older adults. The older adult population is the fastest growing demographic of the homeless population. The LA Region has declared emergency declarations given the crisis in unhoused persons in the community. Of particular concern is that an estimated half of all new unhoused adults are over the age of 50.

## Goal 8: Promoting Emergency Preparedness & Resilience Efforts

**Rationale:** The Los Angeles Region is susceptible to natural and man-made disasters. The development and implementation of emergency training and education will ensure the safety, wellness, and resilience of older adults in emergency situations. In collaboration with the OEM, the City EMD and County and City First Responder agencies, the LA Region will develop and implement emergency preparedness strategies that engage older adults and others with functional/ access needs, in preparing and responding to community emergencies.

## **Goal 9: Strengthen Quality, Accountability and Effectiveness Across all Funded Programs**

**Rationale:** As the Aging & Disabilities system continues to expand its portfolio of contracted and directly delivered services, it is critical to ensure that public funds are used efficiently, equitably, and in ways that demonstrably improve outcomes for older adults and people with disabilities. A structured approach to accountability, grounded in data, performance metrics, and consumer feedback—supports continuous quality improvement, promotes transparency, and ensures programs are responsive to the diverse needs of the communities we serve.
