

2024 ANNUAL APIARY REGISTRATION

In accordance with Section 29043 of the California Food and Agricultural Code, you are required to register your apiary with the Agricultural Commissioner of the county in which your bees are kept. Persons registering their apiary for 2024 must do so before December 31, 2023, or when your apiary first enters the county. Migratory beekeepers should list specific months of activity in the county.

Important Information

The Food and Agricultural Code (FAC) Section 29044 was recently amended via legislation requiring an associated registration fee to be identified in regulation. The California Department of Food and Agriculture is actively working with the Apiary Advisory Board to establish a proposed fee schedule for apiary registration, but no finalized regulation has yet been adopted. There will be no registration fees collected until the schedule has been finalized in regulation. Absence of a registration fee does not impact the beekeeper requirement to register with the county.
