"To Enrich Lives Through Effective and Caring Service"

900 SOUTH FREMONT AVENUE ALHAMBRA, CALIFORNIA 91803-1331 Telephone: (626) 458-5100 www.ladpw.org

ADDRESS ALL CORRESPONDENCE TO: P.O. BOX 1460 ALHAMBRA, CALIFORNIA 91802-1460

IN REPLY PLEASE REFER TO FILE: PD-3

March 23, 2006

The Honorable Board of Supervisors County of Los Angeles 383 Kenneth Hahn Hall of Administration 500 West Temple Street Los Angeles, CA 90012

Dear Supervisors:

DRAINAGE BENEFIT ASSESSMENT AREA NO. 24
EXPANSION OF AREA OF BENEFIT AND
LEVYING OF ASSESSMENTS
UNINCORPORATED COUNTY AREA OF PLUM CANYON
SUPERVISORIAL DISTRICT 5
3 VOTES

### IT IS RECOMMENDED THAT YOUR BOARD:

- 1. Receive and file the enclosed March 2006 Engineer's Report, prepared by the Department of Public Works, regarding the expansion of the area of benefit of Drainage Benefit Assessment Area (DBAA) No. 24 to include one additional, publicly-owned parcel, and the levy of revised annual assessments on the parcels of real property located therein, for the purpose of providing funds for the operation and maintenance of a drainage system.
- 2. Instruct the Executive Officer of the Board to set a date for a public hearing on the Engineer's Report, the expansion of the area of benefit, and the levy of revised annual assessments on the parcels of real property located in DBAA No. 24.
- 3. Instruct the Executive Officer of the Board to cause notice of the filing of the Engineer's Report and of the time, date, and place of the public hearing to be published in accordance with Section 6066 of the

Government Code and posted in at least three public places within the County.

### AFTER THE PUBLIC HEARING, IT IS RECOMMENDED THAT YOUR BOARD:

- 1. Authorize the tabulation of assessment ballots submitted, and not withdrawn, in support of and in opposition to the proposed assessment, and determine whether a majority protest against the proposed assessment exists.
- 2. If no majority protest against the proposed assessment exists:
  - a. Find that the enclosed Resolution is being adopted for the purpose of meeting operational expenses, and is, therefore, exempt from the California Environmental Quality Act (CEQA) pursuant to Section 21080(b) (8) of the Public Resources Code and Section 15273 of Title 14 of the California Code of Regulations (the State CEQA Guidelines);
  - b. Adopt the enclosed Resolution to expand the area of benefit of DBAA No. 24 and revise and levy annual assessments on the real property located therein either as proposed or as modified by your Board.
- 3. If a majority protest against the proposed assessment exists, refer the item back to Public Works.

### PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The purpose of the recommended action is to expand the area of benefit of DBAA No. 24 to include one additional, publicly-owned parcel, and revise and levy annual assessments on the real property located within DBAA No. 24.

As described in the enclosed 2006 Engineer's Report, the assessments are necessary to finance the operation and maintenance of drainage facilities serving a residential subdivision in the Plum Canyon area of the unincorporated territory, north of Santa Clarita.

The Honorable Board of Supervisors March 23, 2006 Page 3

### <u>Implementation of Strategic Plan Goals</u>

This action is consistent with the County Strategic Plan Goal of Fiscal Responsibility since the proposed actions will provide the necessary funds to operate and maintain drainage facilities serving the residential subdivision known as Tract No. 31158 (Unit Tract Nos. 31158, 37081, 44966, 46268, 46269, and 46270). This action is also consistent with the Goal of Service Excellence as the operation and maintenance of the drainage system benefits the residents and occupants of each of the properties within the subdivision, which improves the quality of life in the County.

### FISCAL IMPACT/FINANCING

The County's General Fund will not be impacted. Funding for the operation and maintenance of the drainage system will be provided by the imposition of annual special benefit property assessments and future annual Special Road District 5 Fund Budgets as set forth in the enclosed March 2006 Engineer's Report.

### FACTS AND PROVISIONS/LEGAL REQUIREMENTS

On August 5, 1993, Synopsis No. 24, your Board adopted a Resolution Determining Assessment, which established DBAA No. 24 and levied assessments in accordance with the July 1993 Engineer's Report. This proceeding was conducted pursuant to the Benefit Assessment Act of 1982 (Government Code Section 54703 et seq.), which authorizes local agencies to finance the operation and maintenance costs of drainage services through the levy of an assessment upon the properties, which benefit from those services.

As described in more detail in the enclosed March 2006 Engineer's Report, the drainage facilities serving DBAA No. 24 have been expanded, and additional lots have been created within the assessment area since the district was formed and initial assessment was levied. It is necessary to revise the annual assessments for DBAA No. 24 to reflect these changes.

In addition to the Benefit Assessment Act of 1982, the proposed revision of the annual assessments for DBAA No. 24 is governed by Proposition 218 (Articles 13C and 13D of the California Constitution), which was enacted subsequent to the formation of DBAA No. 24 and the levy of the initial assessment.

The Honorable Board of Supervisors March 23, 2006 Page 4

The Benefit Assessment Act of 1982 requires that the amount of the assessment imposed on any parcel of property must be related to the benefit to the parcel, which will be derived from the provision of the service, and that the annual aggregate amount of the assessment shall not exceed the estimated annual cost of providing the service. See Government Code Section 54711.

Additionally, pursuant to Proposition 218:

- No assessment shall be imposed on a parcel of property that exceeds the reasonable cost of the proportional special benefit conferred on that parcel.
- Only special benefits are assessable, and that an agency shall separate the general benefits from the special benefits conferred on a parcel.
- Publicly-owned parcels shall not be exempt from assessment unless the agency can demonstrate by clear and convincing evidence that those publicly-owned parcels in fact receive no special benefit.

The Benefit Assessment Act of 1982 and Proposition 218 also require that the following procedures be complied with:

- For the first fiscal year in which an assessment is proposed to be imposed, your Board must cause a detailed engineer's report supporting the proposed assessment to be prepared by a registered professional engineer certified by the State of California and filed with the Executive Officer.
- Your Board must conduct a public hearing to hear and consider all public comments, objections or protests regarding the proposed assessment.
- The Executive Officer is required to cause notice of the filing of the Engineer's Report and of the time, date, and place of the public hearing to be published pursuant to Government Code Section 6066 and posted in at least three public places within the jurisdiction of the County.

- Public Works must give notice by mail to the record owner of each parcel within the assessment area, including an assessment ballot by which the owner can indicate his or her support or opposition to the proposed assessment.
- At the conclusion of the public hearing the Executive Officer is required to tabulate the assessment ballots submitted, and not withdrawn, in support of or opposition to the proposed assessment.
- If a majority protest exists (i.e., the assessment ballots in opposition to the proposed assessment exceed the assessment ballots in favor of the proposed assessment, weighted according to the proportional financial obligation of each property), the proposed assessment may not be levied. If there is no majority protest, your Board may adopt or modify the enclosed Resolution levying the revised assessment.

The enclosed Resolution and other documents referred to herein have been reviewed and approved as to form by County Counsel.

### **ENVIRONMENTAL DOCUMENTATION**

The levy of the proposed assessments is for the purpose of meeting operating expenses of DBAA No. 24. Accordingly, the adoption of the enclosed Resolution is exempt from the CEQA, pursuant to Section 21080(b) (8) of the Public Resources Code and Section 15273 of Title 14 of the California Code of Regulations (the State CEQA Guidelines).

# **IMPACT ON CURRENT SERVICES (OR PROJECTS)**

Not applicable.

The Honorable Board of Supervisors March 23, 2006 Page 6

### CONCLUSION

Upon approval, please return one adopted copy of this letter and a copy of the signed Resolution to Public Works, the County Assessor, the Auditor-Controller, and County Counsel.

Respectfully submitted,

PONALD'L WOLFE

Director of Public Works

### INTRODUCTION

Drainage Benefit Assessment Area (DBAA) No. 24 was formed on August 5, 1993, for the purpose of maintaining and operating a drainage system for Tract No. 31158 (consisting of Unit Tract Nos. 31158, 37801, 44966, 46268, 46269, and 46270). The drainage system was to consist of canyon subdrains and 11 monitoring/dewatering wells with appurtenant pumping equipment. The cost to operate and maintain the system was estimated to be \$30,100. Since only a portion of the canyon subdrains and five wells were operational as required for the three Unit Tracts (37801, 44966, and 46268) that had been recorded at the time, an annual assessment of \$64 was determined and imposed on the 301 buildable parcels within Unit Tract Nos. 37801, 44966, and 46268. The annual assessment was to be redistributed and the annual assessment rate revised upon recordation of Unit Tract Nos. 31158, 46269, and 46270. The assessments were to be collected upon completion of the drainage system and after one year of operation and maintenance by the developer.

In the fall of 1993, it was determined by the engineering geologist of record, Leighton and Associates, Inc., that the hydro-geologic characteristics of the area required the construction of additional monitoring/dewatering wells with appurtenant pumping equipment to fulfill the original drainage system design objectives. Accordingly, the drainage system was expanded to include canyon subdrains and 21 monitoring/dewatering wells with appurtenant pumping equipment.

Unit Tract Nos. 46269 and 46270 were recorded on January 14, 1999, and Unit Tract No. 31158, the last remaining unit, was recorded on March 29, 2000.

We anticipate that the developer will fulfill the construction, operation, and maintenance obligations relative to the drainage system in 2006. Therefore, it is appropriate to revise the annual assessment rates to reflect the operation and maintenance costs associated with the additional wells as well as the recordation of Unit Tract Nos. 31158, 46269, and 46270.

The Benefit Assessment Act of 1982 (Government Code Section 54703 et seq.) authorizes the County to impose an annual benefit assessment on parcels within the unincorporated areas of the County to finance the costs associated with provision of drainage services to these areas.

Government Code Section 54716 provides that, for the first fiscal year in which a benefit assessment is proposed to be imposed by a local agency, the legislative body of the local agency shall cause a written report pertaining to the proposed assessment to be prepared and filed with the clerk of the local agency.

Additionally, Article 13D of the California Constitution, approved by the California voters in November 1996 as Proposition 218, requires that all proposed assessments and/or any proposed increased assessment be supported by a detailed engineer's report prepared by a registered professional engineer certified by the State of California.

Article 13D of the California Constitution also provides for property owners to determine by assessment ballot whether or not they approve of the proposed assessment.

This Engineer's Report has been prepared in conformity with provisions of the Benefit Assessment Act of 1982 and Article 13D of the California Constitution.

The purpose of the proposed assessment is to fund the costs required to operate and maintain drainage facilities required as a condition of approval for Tract No. 31158 (Unit Tract Nos. 31158, 37801, 44966, 46268, 46269, and 46270), which provide special benefits to the properties within the proposed assessment area.

Part I sets forth the improvements, services and the total of the drainage service costs proposed to be financed by the proposed assessments; Part II sets forth the Boundary Map, Assessment Diagram, and identification of the parcels to be included in the proposed assessment area; Part III sets forth special benefits to be conveyed on the identified parcels and the costs to the proposed assessment area; Part IV sets forth the basis upon which the proposed assessment was calculated; and Part V sets forth the proposed annual and proposed total assessments on each of the identified parcels.

### PART I

# PROPOSED SERVICES AND THE TOTAL OF THE COSTS

### **Proposed Services**

The proposed services consist of the operation and maintenance of a drainage system required as a condition of approval of a subdivision of land known as Tract No. 31158 (Unit Tract Nos. 31158, 37801, 44966, 46268, 46269, and 46270). The benefiting parcels are within the unincorporated area of the County of Los Angeles known as Plum Canyon in the vicinity of the City of Santa Clarita.

The drainage system is comprised of 5,000 linear feet of subdrain and 21 monitoring/extraction wells with appurtenant pumping equipment constructed within the defined assessment area.

The general nature, location, and extent of the drainage system are set forth in Appendix A. The As-Built plans for the drainage system are on file in the Executive Office of the Board of Supervisors and the Department of Public Works and are incorporated herein by reference.

### The Total of the Costs

The estimated annual cost of the proposed services is \$67,300. The basis of the estimated annual cost of the proposed services is set forth in Appendix B. Operation and maintenance costs will be incurred until such time as the appropriate legislative body finds alternate funding sources and rescinds/disbands the proposed assessment area. Since it is not feasible to estimate the total of the costs for a proposed assessment that will be incurred indefinitely, the total of the costs for the first 100 years of this assessment is \$6,730,000 as indicated in Appendix B.

To account for the effects of inflation, operation and maintenance costs will be annually adjusted using the Los Angeles-Riverside-Orange County Consumer Price Index for all Urban Consumers. For the purposes of clarity, the Consumer Price Index adjustments of the operation and maintenance costs have not been specifically included in the estimated annual assessments.

### **PART II**

# BOUNDARY MAP, ASSESSMENT DIAGRAM, AND PARCELS IDENTIFIED TO BE INCLUDED IN THE ASSESSMENT AREA

The area of benefit of DBAA No. 24 will be expanded to include Assessor's Parcel Number 2812 009 900 as a part of this proceeding. This publicly-owned parcel is the site of David March Park, which receives a special benefit from the provision of the proposed services. No other changes are proposed to the boundary of the assessment area.

The Boundary Map (Map No. 1), entitled "Boundary Map for Drainage Benefit Assessment Area No. 24" and the Legal Description (Exhibit A) set forth the boundaries of the assessment area as recommended by this Engineer's Report. In accordance with Section 4 of Article 13D of the California Constitution, publicly-owned parcels within the proposed assessment area will be assessed unless there is clear and convincing evidence that a publicly-owned parcel receives no special benefit.

The Assessment Diagram (Map No.2), entitled "Assessment Diagram for Proposed Drainage Benefit Assessment Area No. 24, County of Los Angeles, State of California," sets forth each individual parcel of land to be assessed. Each parcel is identified by its Assessor Parcel Number (APN), which property owners can find on their Annual Property Tax Bills. An assessment number has been assigned to each parcel as set forth in the first two columns of Appendix C. Said Assessment Diagram references the Los Angeles County Assessor's Maps, Book 2812, for particular dimensional information pertaining to each Assessor's Parcel.

### **PART III**

#### SPECIAL BENEFITS TO BE CONVEYED

Article 13D of the California Constitution requires the separation of general benefits from special benefits as only special benefits are assessable. Special benefit is defined by Article 13D as "a particular and distinct benefit over and above general benefits conferred on real property located in the assessment area or to the public at large." General enhancement of property value does not constitute a special benefit; however, the specific enhancement of property value is a special benefit. In essence, an assessment, levy, or charge on a parcel must be based on a special and distinct benefit to the parcel and shall not include any general benefits conferred on the public at large including real property within the assessment area.

The total of the costs for the proposed services over the first 100 years (since it is not feasible to estimate the total of the costs for an assessment that will be incurred indefinitely) has been separated as either a special benefit or a general benefit on a proportional basis. The total amount to be assessed for special benefits conferred on the identified parcels within the proposed assessment district for each assessment year is summarized in Appendix D.

### **Special Benefits**

The proposed services will provide for the operation and maintenance of a drainage system for Tract No. 31158 (consisting of Unit Tract Nos. 31158, 37801, 44966, 46268, 46269, and 46270).

Leighton and Associates, Inc., engineering geologist of record for Tract No. 31158, determined that Tract No. 31158 was underlain by an ancient landslide known as Landslide Qols-2. Stability analysis showed that the landslide stability factor of safety would decrease should the ground water rise above certain levels as more fully described in Appendix A. As such, development approval of Tract No. 31158 was conditioned on the construction, operation, and maintenance of a subsurface drainage system.

The drainage system provides ancient landslide stabilization as recommended by Leighton and Associates, Inc., as a condition of development of the parcels overlaying the ancient landslide.

The County of Los Angeles Building Code and standard industry practice established the drainage system performance criteria, which was a condition of approval for Tract No. 31158.

Further, the developer was required to disclose this requirement and the ongoing financial obligation to the buyers of parcels within Tract No. 31158. The developer met the disclosure requirement by including information regarding the Drainage Benefit Assessment Area in the Addendum to Offer to Purchase and Deposit Receipt for each of the unit tracts, copies of the Addendums are included in Appendix E.

Therefore, the operation and maintenance of the subsurface drainage system specially benefits each parcel within DBAA No. 24 by mitigating an adverse geologic condition affecting each parcel that would otherwise prevent each parcel from meeting the minimum criteria for geologic stability required for development for human use and occupancy.

### General Benefit

The proposed services will also provide general benefits to the proposed assessment area and the public at large. General benefits are provided to a segment of Plum Canyon Road which is a major thoroughfare, a segment of Via Joyce Drive which provides vehicular access to David March Park and segments of Santa Catarina Road, Franks Way, and Alfreds Way which provide vehicular access to Plum Canyon Elementary School. All of these segments are within the proposed assessment area and serve the public at large. There are 9.11 acres of County road right of way associated with these roadway segments within the proposed assessment area. The proposed assessment area is 215.97 acres. Therefore, 4.22 percent of the cost of the proposed services is considered a general benefit cost that will not be allocated to the proposed assessment area. This information is summarized in the table below.

	ACREAGE	PERCENTAGE
County Public Road Right of Way	9.11	4.22%
Proposed Assessment Area	215.97	

### Special Benefit Share of the Proposed Services Costs

The proposed services costs will be paid in the year incurred. The estimated annual cost of the proposed services is \$67,300 as set forth in Appendix B. Since the special benefit proportionate share of the total of the costs is 95.78 percent, the special benefit share of the estimated annual costs is \$64,460.

The special benefit proportionate share of the proposed services costs will be incurred until such time as the appropriate legislative body finds alternate funding sources and rescinds/disbands the proposed assessment area. Since it is not feasible to estimate the total of the special benefit costs for a proposed assessment that will be incurred indefinitely, the total of the special benefit costs for the first 100 years of this assessment has been calculated by multiplying the estimated special benefit proportionate share of the proposed services costs by 100 and has been determined to be \$6,446,000.

To account for the effects of inflation, operation and maintenance costs will be annually adjusted using the Los Angeles-Riverside-Orange County Consumer Price Index for all Urban Consumers. For the purposes of clarity, the Consumer Price Index adjustments of the operation and maintenance costs have not been specifically included in the estimated annual assessments.

### PART IV

#### BASIS OF ASSESSMENT

The basis for assessment that was approved by the Board of Supervisors on August 5, 1993, was one benefit unit per buildable lot. The previously approved basis for assessment has been updated to be more representative of the special benefit conveyed on the parcel by the service to be provided and to include a proportionate share for condominium and non-residential uses.

All parcels will be assessed on the basis of parcel size. Single-family residential lots will be assessed one benefit unit. The average single-family residential lot size is 9,001 square feet. The average condominium lot size is 2,226 square feet, which is 25 percent of the average single-family residential lot size. Therefore, each condominium unit will be assessed 0.25 benefit unit. All other lots will be assessed one benefit unit for every 9,001 square feet of lot size.

The assigned Benefit Unit for each parcel is set forth in the Benefit Unit column of Appendix C. The sum total of all Benefit Units for the proposed assessment area is 671.78 as shown at the bottom of the Benefit Unit column in Appendix C.

### **PART V**

#### TOTAL ASSESSMENTS

The Benefit Assessment Act of 1982 and Article 13D of the California Constitution require that assessments be based on the special benefits that properties within the assessment area receive from the improvements and/or services. The statutes do not specify the allocation method or formula. The Assessment Engineer analyzes the facts and determines the allocation of the assessment, and the legislative body, by confirming the Engineer's Report, determines the special benefit to each parcel within the assessment area. The final authority with respect to the finding of special benefit rests with the County of Los Angeles Board of Supervisors. After hearing all testimony and evidence presented at a public hearing, the Board must determine whether or not the assessment allocation has been made in direct proportion to the special benefits received.

Part I sets forth the total of the costs of the proposed improvements and services. Part II sets forth the identified parcels. Part III sets forth the total of the costs to the proposed assessment area. Part IV sets forth the Basis of Assessment.

This Part sets forth the Total Assessments. The proposed annual assessment rate of \$95.95 per Benefit Unit was determined in accordance with the following formula.

Proposed Annual Assessment Rate = Annual Proposed Assessment Area Costs
Sum Total of All Benefit Units

The annual assessment for each identified parcel was determined in accordance with the following formula.

Annual Assessment for Parcel = Proposed Annual Assessment Rate X Benefit Unit for Parcel

The Annual Assessment Columns in Appendix C indicate the proposed annual assessment for each identified parcel. To account for the effects of inflation, the annual assessments will be annually adjusted using the Los Angeles-Riverside-Orange County Consumer Price Index for all Urban Consumers. For the purposes of clarity, the Consumer Price Index adjustments of the operation and maintenance costs have not been specifically included in the proposed annual assessment.

The Total Assessment Column of Appendix C indicates the total assessment for each identified parcel for the first 100 years since it is not feasible to estimate the total assessment for each parcel for a proposed assessment that will be incurred indefinitely.

Percent of Ballot Column 6 in Appendix C indicates the weighted value of the ballot for each identified parcel as a percentage of the total.

### 1. INTRODUCTION

### 1.1 Purpose

This manual is an update of the manual prepared by Leighton and Associates, Inc. (Leighton) dated January 21, 1994 (Leighton, 1994). The purpose of this manual is to provide guidelines for monitoring and maintenance of the sub-drain system and monitoring/dewatering wells. The County of Los Angeles (County) will be responsible for the maintenance and monitoring of the wells, and this manual provides guidelines for the format of reports of the proposed monitoring by the County.

### 1.2 Geotechnical Conditions

An ancient landslide (known as Landslide Qols-2) has been recognized to underlie the subject residential tracts in Plum Canyon, Saugus, Los Angeles County, California. Since recognition of this landslide, extensive subsurface exploration and geotechnical analysis were performed to define the landslide geometry, limits, strength of materials, and level of stability. Stability analysis of the landslide with its current ground water level shows that the factor of safety is above 1.5. Further analysis shows, however, that the landslide stability decreases should ground water begin to rise. Leighton has designed and the developer has installed, a sub-drain system to control the possible future rise in ground water. In addition, a backup system of monitoring/dewatering wells has been designed and constructed. These wells are located in the central and toe areas of the landslide to form a backup system to ensure safety factors of at least 1.5 should the effectiveness of the sub-drain system be reduced over the years.

The geotechnical conditions and the construction of the system are summarized in the companion report Final Geotechnical Report, Ground Water Dewatering System for Landslide Qols-2, Drainage Benefit Assessment Area (D.B.A.A.) No. 24, Tracts 37081, 31158, 44966, 46268, 46269, and 46270, Saugus, California, dated November 9, 1993. The surveyed locations of the monitoring wells, sub-drain manholes are included on the D.B.A.A. 24 Subdrain Plans and Monitoring Well Locations Exhibits, dated August 20, 2004, by Sikand Engineering in Appendix D. Sheets 3-12 (Sikand, 1993) showing the as-built conditions of the storm drain along with pump installation details are included. Sheets 1, 2, and 13 have been superceded by the attached exhibits.

### 2. <u>DESCRIPTION OF DEWATERING SYSTEM</u>

### 2.1 Subdrain System

The sub-drain system is a series of perforated polyvinyl chloride (PVC) pipe that is embedded in a gravel drain in excavated trenches. These are located at the base of the fill and the less permeable fill/bedrock contact. The sub-drains are to collect water that may migrate through the surrounding earth deposits, through the drain material, and into the perforated pipe. The sub-drain pipe directs the subsurface water from the earth deposits into a storm drain or a retention basin.

Approximately 5,000 lineal feet of 8-inch diameter sub-drain have been placed along the sides and through the middle of the landslide mass. These are shown as Lines A and B on the Plum Canyon Mitigation Plans. Some of these drains have been placed in deep trenches excavated in the area of subsidiary landslide backscarps.

Manholes have been installed at strategic locations to provide access to maintain and monitor the dub drain system. At these locations, the drains can be observed to see if they are plugged and can be cleaned out if necessary. The sub-drain system is a passive system that drains water by the force of gravity. No pumping is required.

### 2.2 <u>Monitoring/Dewatering Well System</u>

A network of 21 monitoring/dewatering wells were installed as a backup to the sub-drain system. These wells are strategically placed in Landslide Qols-2 as depicted on the D.B.A.A. No. 24 exhibits (Appendix D). The wells are located in parkways dedicated to the County. The wells were constructed according to Leighton and Associates, Inc. specifications (see final geotechnical report dated November 9, 1993).

The first function of the wells is to enable the monitoring of changes in ground water levels in Landslide Qols-2. These monitoring wells have been designed to be converted to pumping wells to extract ground water and lower the ground water table if the water rises to critical levels.

Monitoring Well MW-7 was constructed with an additional piezometer to monitor ground water below the slide plane in the upper potion of the landslide. The piezometer is constructed with a 4-inch diameter casing that is only perforated below the slide plane.

### 3. MONITORING PROGRAM

### 3.1 Subdrains

The sub-drain system should be monitored in October of each year. If flow is observed, the sub-drains shall be monitored semi-annually. It should be noted that no flow has been observed or measured in the sub-drain system between 1994 and 2004. The observations should include measurement of the discharge and the turbidity of the water by visual observation at the sub-drain outlets. The western outlet is located in a catch basin on Via Joyce Drive near the northeast corner of the intersection with Plum Canyon Road. The eastern outlet is located on Plum Canyon Road northwest of the intersection with Santa Catarina Road.

The discharge shall be measured using a scale with 0.1-inch increments to measure the depth of the water flow. The chart in Appendix B shall be used to determine the discharge amount from this measurement. Turbidity should be measured by taking a sample of water in a quart jar and measuring the depth of sediment that settles after being undisturbed for an hour. Sand will settle first and then the silt. The clay will stay in suspension. The length of the sand and silt layers, if any, should be measured and recorded. A long-term time plot of these values will show the effectiveness of these subdrains and provide a basis for clean-out.

The sub-drains should be cleaned if there is evidence of diminishing effectiveness. For example, if water levels in the wells continue to rise above the subdrain levels, the discharge in the subdrains decreases. The discharge should be determined before clean-out and 24 hours after clean-out. Flushing the system at least three times within a 24-hour period should do cleaning. To flush the system without affecting the County of Los Angeles Department of Water and Power (DWP) easement, the manholes should be filled with water to the following levels:

#### **Manhole Location**

### **Depth from Surface to Maximum Level**

Park	26.5 feet
Gina Court	19.0 feet
Franks Way	7.0 feet

A water truck may be used as the water source. This method of cleaning does not require personnel to enter the manholes.

If entering the manholes becomes necessary for unanticipated reasons, the proper safety precautions outlined in Article 108 of the General Industrial Safety Orders, or the most recent safety rules that apply, should be followed.

### 3.2 Monitoring Wells

Monitoring of ground water levels in the monitoring wells should be performed at least quarterly and monthly if the water levels are rising. The wells are equipped with a removable plug at the head that should be kept locked when not in use. The watersensing device provided to the D.B.A.A. 24 should be lowered down the well casing to determine the depth to water. Care should be taken not to touch the sides of the well casing as the sensor is lowered because this may give erroneous results by sensing moisture on the sides of the casing.

Monitoring Well MW-7 contains an additional 4-inch diameter pipe perforated below the slide plane. This monitoring well, or piezometer, should be read at the same time and in the same manner as the 6-inch diameter monitoring well.

Table 1 and Table 2 list the recommended monitoring schedule and the depths for each well. Table 1 lists the action levels for ground water elevations. Three categories of water level are listed: safe, intermediate, and critical.

For safe water level depths, the monitoring may continue on a quarterly schedule.

Should water rise to the intermediate level, the monitoring schedule should be increase to monthly.

If water continues to rise through the intermediate level and reaches the critical level, pumps should be installed in the wells and pumping initiated. Monitoring Wells should have 10 gpm pumps installed.

The pumping should be on an individual well basis, i.e., if only one well reaches critical level, then at least that well should be pumped. Discretion should be used to determine if other wells not at the critical level should be pumped. The rate of ground water rise through the intermediate range will provide additional data on the implementation of additional pumping. This will enable prediction of lead-time necessary to install the pumps in the other wells.

Drawdown of the well should be monitored and documented when each pump is place and turned on. Equilibrium of the drawdown should be noted (when the water level lowers no more than a tenth of a foot per day). During pumping, the water level can be read by removing the plug on the sanitary seal. Pumping may be stopped when drawdown of more than 3 feet occurs after equilibrium has occurred or if drawdown is within 10 feet of the pump elevation. Actual ground water levels should be read after the well recovers, approximately two to three days from pump turn-off. A form for recording data during pumping is provided (Appendix B).

### 4. REPORTING

The subdrain system and monitoring wells should be monitored and maintained by the County D.B.A.A. #24. In the above text, we have described the frequency of monitoring and the data to be collected. To summarize:

- 1. Subdrains, if flowing, should be monitored once every six months and sediment and water flow data should be collected and recorded.
- 2. The ground water elevations should be measured in the monitoring wells once every three months until the ground water rises to the intermediate levels specified in Table2. Measurements should then be taken once a month. Measurement frequency may accelerate at the discretion of the County depending on the rate of rise in the ground water.

If pumping should ever be needed, the water levels of the pumping wells should be measured on a daily basis.

Three forms have been prepared for documenting water level monitoring for the subdrain system and the monitoring well system. These forms are provided in Appendix B. Measurements should be documented on the accompanying forms along with a short narrative that interprets the data and recommends action. The narrative should describe the weather conditions and the recent rainfall history along with unusual ground water conditions, if any. Rising water in localized areas should also be reported along with interpretations as to why the anomaly exists and what actions, if any, should be taken.

### 5. MAINTENANCE

As described above, flushing of the subdrains may become necessary when signs of reduced flow occur. It is also recommended that the sub-drains and manholes be video-inspected a minimum of every 5 years.

Cleaning the wells can also be accomplished by alternately "surging and bailing" each well with a surge block and a bailer. Prior to surging and bailing, the depth to groundwater should be measured and the total depth of the well recorded. The depth to groundwater should be measured to the nearest 0.01 feet using a Solinst water level indicator. The depth of the well should be measured by extending a weighted tape measure to the bottom of the well casing. Once the depth of the well was recorded, the well should be surged for approximately 15-20 minutes by raising and lowering a surge block attached to a metal cable along the entire length of the screened interval using a well development rig. The surge block consists of a metal disc with a rubber gasket surrounding the disc. The disc has perforations or holes in it and is attached to the end of a metal rod. The perforations in the disc allow water to be pushed in and out of the well screen and filter pack. This will bring sediment into the well and in essence flush the sediment out of the well. After the sediment is brought into the well casing, water and the sediment suspended in the water should be bailed out of the well with a 6-inch diameter bailer. If necessary, if a heavy accumulation of fines occurs in any well, the wells can also be pumped to remove sediment. Surging, bailing and pumping of the wells should be performed if the groundwater elevation data does not appear to be correct, or if a relatively thick accumulation of sediment collects on the bottom of the well. If installation of pumps becomes necessary, they should be maintained according to the specifications of the vendor. It would be advisable to obtain two extra pumps so pumping could be continued should the pumps need to be cleaned and repaired.

#### **APPENDIX B**

#### DRAINAGE BENEFIT ASSESSMENT AREA NO. 24

#### ANNUAL COST OF SERVICES

Administration	\$1,500
Maintenance & Operation	··
Monthly measurement and reporting of monitoring wells	\$12,200
Emergency Pumping (assumed to be once a year)	\$3,300
Annual Pump test at monitoring wells	\$4,000
Misc. Electrical repairs	\$2,000
Flush sub-drain (every 5 years)	\$2,100
Well redevelopment (3 wells per year)	\$20,900
Utilities	\$8,400
Contingencies (approx.10%)	\$5,300
Geotechnical Review	\$7,600
TOTAL	\$67,300

#### TOTAL OF COSTS (100 YEARS)

		<del>,</del>	<del></del>	
2007	2008	To	2106	Total
\$67,300	\$67,300		\$67,300	\$6,730,000

### **APPENDIX E**

### ADDENDUM TO

### OFFER TO PURCHASE AND DEPOSIT RECEIPT

### BOUQUET COUNTRY HOMES TRACT 37081

LOTS 17 THROUGH 23 LOTS 30 THROUGH 33

This Addendum is part of an Offer to Purchase and Deposit Receipt submitted by the undersigned BUYERS to SELLER, and the terms hereof form part of the consideration of such offer.

### BUYERS UNDERSTAND AND AGREE AS FOLLOWS:

### PROPERTY LOCATION AND CHARACTERISTICS. I.

BUYERS acknowledge that they have personally inspected the specific property ("Lot") they are purchasing from Shapell-Monteverde Partnership ("SELLER") at Bouquet Country Homes ("Development") and have familiarized themselves with its location, orientation and physical characteristics, including lot lines and any easements. BUYERS further acknowledge that the actual lot lines are shown on the recorded tract map and all recorded easements and other matters of record will be described in the Title Insurance Policy.

### II. VIEWS.

BUYERS acknowledge that SELLER and its representatives have made no representations concerning any view, present or future, the Lot/
residence may enjoy or how such view, if any, will change or be
affected by: (a) the construction of other homes, improvements,
structures, fences, walls, and/or landscaping by SELLER or other
owners of property within the Development; (b) activities on
property outside the Development; and/or (c) the growth of trees and/ or other vegetation within or outside the Development. BUYERS acknowledge and agree that such matters may impair their view, if any.

### LANDSCAPE MAINTENANCE DISTRICT/DRAINAGE BENEFIT ASSESSMENT AREA. III.

A Landscape Maintenance District has been formed in this subdivision to maintain designated portions of residential lots owned by individual homeowners. The Landscape Maintenance District is a division of the Los Angeles County Department of Parks and Recreation. Landscape maintenance easements have been granted to this district over the designated areas. No encroachment by the individual homeowners over these easement areas is permitted. An annual agreement to provide the required maintenance of these areas is included as a part of your annual property tax bill.

The landscape maintenance services are provided for the following areas as outlined on the Landscape Maintenance District Exhibit in the sales office:

- planted slopes consisting of irrigation, trees, shrubs, and ground cover;
- medians and parkway panels consisting of irrigation, turf, trees, shrubs, and ground cover; and designated natural open space areas.

Current fire department regulations require that brush be cleared within an area of 100 feet from all structures. Brush clearance is performed on an annual basis within required areas by the Landscape Maintenance District.

A budget is prepared and adopted annually by the Landscape Maintenance District to provide funds necessary to continue these services. Your prorata share of these funds assessed by the County will be included on your property tax bill. The amount may vary due to increases or decreases in the cost of living or level of services required.

### ADDENDUM TO

### OFFER TO PURCHASE AND DEPOSIT RECEIPT

### BOUOUET COUNTRY HOMES TRACT 37081

LOTS 17 THROUGH 23 LOTS 30 THROUGH 33

### III. LANDSCAPE MAINTENANCE DISTRICT/DRAINAGE BENEFIT ASSESSMENT AREA (CONT.)

A Drainage Benefit Assessment Area has been formed to maintain the subdrain and the dewatering system which was installed by SELLER within the subdivision as required by the County of Los Angeles.

A budget is prepared and adopted annually by the Drainage Benefit Assessment Area to provide funds necessary to continue these services. Your prorata share of these funds assessed by the County will be included on your property tax bill. The amount may vary due to increases or decreases in the cost of living or level of services required.

### IV. SLOPES/LANDSCAPE/IRRIGATION.

SELLER will landscape certain slopes within the project in accordance with plans approved by the County of Los Angeles. These slopes are shown on the landscaping exhibit in the sales office. BUYERS shall maintain all slopes which border BUYERS' property and are not maintained by the County Landscape Maintenance District.

Some lots contain drains or drainage devices which maybe located above or below the surface and which may not be altered, modified or removed. BUYERS shall be responsible to keep such drainage devices free of debris and operational.

### V. RESTRICTED USE.

The County of Los Angeles has the right to restrict the construction of buildings or other structures within certain areas designated as Restricted Use Areas. BUYERS should review the plot plan exhibited in the sales office for the location of these areas and consult with the appropriate department of the County of Los Angeles for additional information.

### VI. RETAINING WALLS/FENCING.

Retaining walls, if any, where installed by SELLER cannot be removed or altered in any manner. Fencing is not included with your purchase. However, fencing may be installed by BUYERS subject to issuance of any required permits in accordance with County Codes.

### VII. EASEMENTS/SPECIAL DRAINAGE/ACCESS ROADS.

Certain Lots may be subject to utility easements (storm drains/drainage, sewer, water, electric, gas, etc.), ingress/egress easements, landscape maintenance easements, and/or any other easements for any purpose as may be recorded prior to close of escrow. Utility companies may locate in-ground or above-ground utility apparatus, such as electrical vaults and/or transformers, telephone boxes, street lights, fire hydrants, cable television boxes, etc., on BUYERS' Lot. Grading requirements may necessitate the installation of subdrains which may interconnect with other lots.

A 12-foot County right-of-way setback exists from street curbs. The County requires landscaping within this setback, but no structures may be installed by BUYERS. The County will retain access rights to this area. SELLER will install trees, which may not be removed, in the setback in accordance with County specifications. All landscaping between sidewalk and BUYERS' property line must be installed and maintained by BUYERS.

### OFFER TO PURCHASE AND DEPOSIT RECEIPT

### BOUQUET COUNTRY HOMES TRACT 37081

LOTS 17 THROUGH 23 LOTS 30 THROUGH 33

### VII. EASEMENTS/SPECIAL DRAINAGE/ACCESS ROADS (CONT.)

SELLER also will install mailboxes, which must be maintained by BUYERS, within the right-of-way in accordance with U.S. Postal regulations and County requirements.

To the east and adjacent to a portion of this project is located a Los Angeles City Department of Water and Power right-of-way with Electrical Transmission lines.

### FUTURE HIGHWAY. VIII.

For your convenience, a direct thoroughfare from Bouquet Country Homes to Sierra Highway and the Antelope Valley (14) Freeway is to be constructed and funded, in part, by the SELLER.

This new Plum Canyon route will tie into Whites Canyon Road from both the north and south, and may alleviate traffic congestion and reduce travel time for residents of Bouquet Country Homes.

### IX. PUBLIC PARK.

An approximate twelve (12) acre Public Park site is located within the development at Plum Canyon Road and Via Joyce Drive and has been dedicated by the SELLER to the County of Los Angeles.

### ADDENDUM TO OFFER TO PURCHASE AND DEPOSIT RECEIPT

### COTTAGE GLEN

### TRACTS 46268 LOTS 6 THROUGH 15 AND 53 THROUGH 58

This Addendum is part of an Offer to Purchase and Deposit Receipt submitted by the undersigned BUYERS to SELLER, and the terms hereof form part of the consideration of such offer.

### BUYERS UNDERSTAND AND AGREE AS FOLLOWS:

### 1. PROPERTY LOCATION AND CHARACTERISTICS.

BUYERS acknowledge that they have personally inspected the specific property ("Lot") they are purchasing from Shapell-Monteverde Partnership ("SELLER") at Cottage Glen ("Development") and have familiarized themselves with its location, orientation and physical characteristics, including lot lines and any easements. BUYERS further acknowledge that the actual lot lines are shown on the recorded tract map and all recorded easements and other matters of record will be described in the Title Insurance Policy.

### II. VIEWS.

BUYERS acknowledge that SELLER and its representatives have made no representations concerning any view, present or future, the Lot may enjoy or how such view, if any, will change or be affected by:
(a) the construction of other homes, improvements, structures, fences, walls, and/or landscaping by SELLER or other owners of property within the Development; (b) activities on property outside the Development; and/or (c) the growth of trees and/or other vegetation within or outside the Development. BUYERS acknowledge and agree that such matters may impair their view, if any.

### III. MASTER PLANNED COMMUNITY

Cottage Glen is a part of the Plum Canyon Master Plan Community which is proposed to include two public park sites, an elementary school, a fire station site and a future commercial development.

### IV. LANDSCAPE MAINTENANCE DISTRICT/DRAINAGE BENEFIT ASSESSMENT AREA.

A Landscape Maintenance District has been formed in this subdivision to maintain designated portions of residential lots owned by individual homeowners. The Landscape Maintenance District is a division of the Los Angeles County Department of Parks and Recreation. Landscape maintenance easements have been granted to this district over the designated areas. No encroachment by the individual homeowners over these easement areas is permitted. A budget is prepared and adopted annually by the Landscape Maintenance District to provide funds necessary to continue these services. Your prorata share of these funds assessed by the County will be included on your property tax bill. The amount may vary due to increases or decreases in the cost of living or level of services required.

The landscape maintenance services are provided for the following areas as outlined on the Landscape Maintenance District Exhibit in the sales office:

- certain planted slopes consisting of irrigation, trees, shrubs, and ground cover;
- (2) medians and parkway panels consisting of irrigation, turf, trees, shrubs, and ground cover; and
- (3) designated natural open space areas.

Current fire department regulations require that brush be cleared within an area of 100 feet from all structures. Brush clearance is performed on an annual basis within required areas by the Landscape Maintenance District.

BUYERS' INITIALS DATE 10-26-7

### ADDENDUM TO OFFER TO PURCHASE AND DEPOSIT RECEIPT COTTAGE GLEN TRACTE 46268

### IV. LANDSCAPE MAINTENANCE DISTRICT/DRAINAGE BENEFIT ASSESSMENT AREA (CONT.)

The Landscape Maintenance District may also be responsible for the maintenance of slope, landscaping or other improvements located in other residential developments in the vicinity of Cottage Glen. With the passage of Proposition 218 the registered voters located in the District are on an annual basis, entitled to contest maintenance costs incurred by the District. If this occurs it is possible that funding of the District may be cut off and the District may no longer be able to perform its maintenance responsibilities. If the District cannot perform its maintenance responsibilities, the individual owners on whose lots the Maintenance Areas are located would be responsible for maintaining such areas. This would include the separate metering of such Maintenance Areas for irrigation purposes and the cost of all landscape and other maintenance of same. No representative of Seller has provided any representations, warranties or assurances as to the likelihood or timing of any disruption in the funding of the District.

A Drainage Benefit Assessment Area has been formed to maintain the subdrain and the dewatering system which was installed by SELLER within the subdivision as required by the County of Los Angeles.

A budget is prepared and adopted annually by the Drainage Benefit Assessment Area to provide funds necessary to continue these services. Your prorata share of these funds assessed by the County will be included on your property tax bill. The amount may vary due to increases or decreases in the cost of living or level of services required.

### V. SLOPES/LANDSCAPE/IRRIGATION.

SELLER will landscape certain slopes within the project in accordance with plans approved by the County of Los Angeles. These slopes are shown on the landscaping exhibit in the sales office. BUYERS shall maintain all slopes which border BUYERS' property and are not maintained by the County Landscape Maintenance District.

Some lots contain drains or drainage devices which maybe located above or below the surface and which may not be altered, modified or removed. BUYERS shall be responsible to keep such drainage devices free of debris and operational.

### VI. RESTRICTED USE.

The County of Los Angeles has the right to restrict the construction of buildings or other structures within certain areas designated as Restricted Use Areas. BUYERS should review the plot plan exhibited in the sales office for the location of these areas and consult with the appropriate department of the County of Los Angeles for additional information.

### VII. WALLS/PENCING/RETAINING WALLS.

Rear and side yard fencing consisting of slumpstone, wrought iron or combination of both, without gate or return is included with your purchase and will be installed per SELLER'S plans and specifications. Additional fencing may be installed by BUYERS at their expense subject to the issuance permits by the County of Los Angeles, if necessary.

Retaining walls installed on your Lot, if any, are in accordance with SELLER'S plans and specifications. These may not be removed, altered or modified in any way and shall be maintained by the individual homeowners.

### ADDENDUM TO OFFER TO PURCHASE AND DEPOSIT RECEIPT

### **COTTAGE GLEN**

### TRACTS 44966 AND 37081

### VII. WALLS/FENCING/RETAINING WALLS.

Rear and side yard fencing consisting of slumpstone, wrought iron or a combination of both, without gate or return, is included with your purchase and will be installed per SELLER'S plans and specifications. Additional fencing may be installed by BUYERS at their expense subject to the issuance permits by the County of Los Angeles, if necessary.

Retaining walls installed on your Lot, if any, are in accordance with SELLER'S plans and specifications. These may not be removed, altered or modified in any way and shall be maintained by the individual homeowners.

### VIII. EASEMENTS/SPECIAL DRAINAGE/ACCESS ROADS.

Certain lots may be subject to utility easements (storm drains/sub-drains, sewer, water, electric, gas, etc.), ingress/egress easements, landscape maintenance easements, and/or any other easements for any purpose as may be recorded prior to close of escrow. Utility companies may locate in- or above-ground utility apparatus, such as electrical vaults and/or transformers, telephone boxes, street lights, fire hydrants, cable television boxes, etc. on BUYERS' Lot or adjacent common areas. Grading requirements may necessitate the installation of sub-drains which may interconnect with other lots.

A 12-foot County right-of-way setback exists from street curbs. The County requires landscaping within this setback, but no structures may be installed by BUYERS. The County will retain access rights to this area. SELLER will install trees, which may not be removed, in the setback in accordance with County specifications. All landscaping between sidewalk and BUYERS' property line must be installed and maintained by BUYERS.

SELLER will also install mailboxes, which must be maintained by BUYERS, within the rightof-way in accordance with U.S. Postal regulations and County requirements.

To the east and adjacent to a portion of this project is located a Los Angeles City Department of Water and Power right-of-way with electrical transmission lines.

### IX. FUTURE HIGHWAY.

For your convenience, a direct thoroughfare from Cottage Glen to Sierra Highway and the Antelope Valley (14) Freeway is to be constructed and funded, in part, by SELLER.

The Los Angeles County Master Plan of Highways designates Plum Canyon Road as a major arterial four-lane highway which, when extended easterly and southerly approximately 1-1/2 miles to White Canyon Road, will complete a highway link to Soledad Canyon/State Highway 14.

### X. PUBLIC PARK.

An approximate twelve (12) acre Public Park site is located within the development at Plum Canyon Road and Via Joyce Drive. This site has been dedicated by SELLER to the County of Los Angeles.

### XI. RESTRICTIONS.

This Development is part of the "El Dorado Village Estates" subdivision and is subject to the Restrictions recorded in the office of the Los Angeles County Recorder on September 14, 1989 as Instrument No. 89-1484519.

For information as to your obligations and rights, you should refer to the Homeowner Guide provided to you by SELLER which includes copies of these Restrictions.

# NOTICE OF FILING OF ENGINEER'S REPORT REGARDING THE PROPOSED EXPANSION OF THE AREA OF BENEFIT OF DRAINAGE BENEFIT ASSESSMENT AREA NO. 24 AND THE REVISION AND LEVY OF ANNUAL ASSESSMENTS ON THE REAL PROPERTY LOCATED THEREIN AND OF A PUBLIC HEARING THEREON

Notice is hereby given that an Engineer's Report, dated March 2006, pertaining to the proposed expansion of the area of benefit of Drainage Benefit Assessment Area (DBAA) No. 24 and the revision and levy of annual assessments on the real property located therein, has been filed with the Clerk of the Board of Supervisors of the County of Los Angeles. The Engineer's Report was prepared by the County of Los Angeles Department of Public Works.

Notice is further given that the Board of Supervisors will conduct a public hearing to consider the Engineer's Report and the proposed expansion of the area of benefit of DBAA No. 24 and the revision and levy of annual assessments on the real property located therein. Said hearing will be held on Tuesday, \_\_\_\_\_\_\_, at 9:30 a.m., in the Hearing Room of the Board of Supervisors, Room 381B, Kenneth Hahn Hall of Administration, 500 West Temple Street (corner of Temple Street at Grand Avenue), Los Angeles, California 90012.

DBAA No. 24 is generally located in the unincorporated County territory of Plum Canyon and is more specifically shown in the attached map. The purpose of DBAA No. 24 is to finance the costs of the operation and maintenance of drainage facilities constructed as a condition of approval of a subdivision of land known as Tract No. 31158 (Unit Tract Nos. 31158, 37801, 44966, 46268, 46269, and 46270), through the levy of annual assessments on the real property located within DBAA No. 24.

The proposed expansion of the area of benefit and the proposed assessments for DBAA No. 24 are more specifically described in the Engineer's Report.

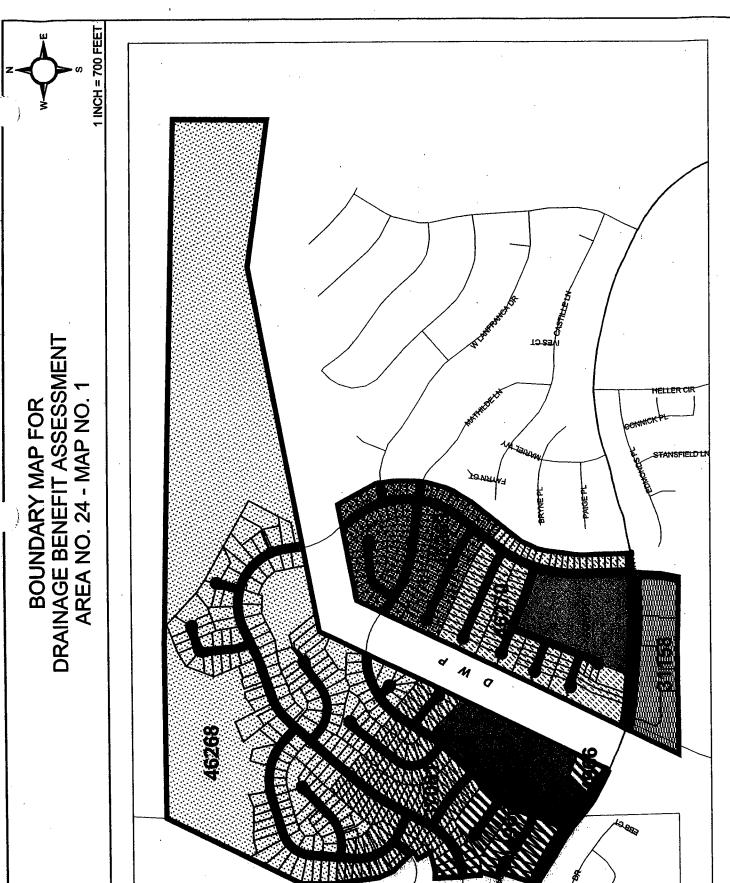

The Engineer's Report is on file and available for public review in the Executive Office of the Board of Supervisors, Room 383B, Kenneth Hahn Hall of Administration, 500 West Temple Street, Los Angeles, California 90012. Additionally, the Engineer's Report is available for review at the Canyon Country Jo Anne Darcy Library, 18601 Soledad Canyon Road, Santa Clarita California 91351, Newhall Public Library, 22704 West Ninth Street, Santa Clarita, California 91321, and at www.ladpw.org/services/water.

If you have any comments about the recommended changes to DBAA No. 24, you may address them in writing to the County of Los Angeles Department of Public Works, Attention Benefit Assessment Unit, Programs Development Division, P.O. Box 1460, Alhambra, California 91802-1460. In your letter, please include your name, address, and parcel identification number as they appear on your property tax bill.

For further information, please contact the Benefit Assessment Unit at (800) 216-6658 or by e-mail at jnamming@ladpw.org.

Auxiliary aids and services for disabled persons are available with at least three business days notice before the public hearing date by calling (626) 458-4081 or TTD (626) 282-7829.

## RESOLUTION OF THE COUNTY OF LOS ANGELES TO EXPAND DRAINAGE BENEFIT ASSESSMENT AREA NO. 24 AND TO REVISE AND LEVY ANNUAL ASSESSMENTS ON THE REAL PROPERTY LOCATED THEREIN

WHEREAS, the Board of Supervisors of the County of Los Angeles, State of California (Board) established an area of benefit, designated Drainage Benefit Assessment Area (DBAA) No. 24, on August 5, 1993, pursuant to the Benefit Assessment Act of 1982 (California Government Code Section 54703, et seq.), to impose an annual assessment on the parcels located therein to finance the operation and maintenance costs of drainage facilities constructed as a condition of approval of a subdivision of land known as Tract No. 31158 (Unit Tract Nos. 31158, 37801, 44966, 46268, 46269, and 46270); and

WHEREAS, since the formation of DBAA No. 24, the drainage facilities serving DBAA No. 24 have been expanded and certain property within the DBAA has been subdivided into additional legal parcels; and

WHEREAS, the Board has received an Engineer's Report for DBAA No. 24, dated March 2006, pertaining to the expansion of DBAA No. 24 to include one additional, publicly-owned parcel and the revision and levy of annual assessments on the real property located therein (Engineer's Report), prepared by the Department of Public Works in accordance with the Benefit Assessment Act of 1982 and Article 13D of the California Constitution, and filed with the Clerk of the Board; and

WHEREAS, the Clerk of the Board has caused notice of the filing of the Engineer's Report and of the time, date, and place of a public hearing on the proposed expansion of DBAA No. 24 and the revision and levy of annual assessments on the real property located therein, to be given in the manner required by law; and

WHEREAS, the Board has conducted the public hearing on the proposed expansion of the area of benefit of DBAA No. 24 and the revision and levy of annual assessments on the real property located therein, and has considered all objections and protests to the proposed assessments; and

WHEREAS, the assessment ballots required by Article 13D and Government Code Section 53753, which were submitted and not withdrawn, have been tabulated, and it has been determined that a majority protest against the levying of the proposed assessments does not exist.

NOW, THEREFORE, the Board of Supervisors of the County of Los Angeles resolves as follows:

1. DBAA No. 24 is hereby expanded to include the real property known as Assessor's Parcel Number 2812 009 900, as described in Exhibit A, attached hereto.

- 2. The annual assessments on the real property located within DBAA No. 24 are hereby revised, in accordance with and as described in the Engineer's Report.
- 3. The annual assessments are hereby levied and imposed on the real property located within DBAA No. 24, in accordance with and as described in the Engineer's Report.
- 4. The annual assessments shall be collected on the tax roll, each year, in the same manner, by the same persons, and at the same time as, together with and separately from, the general taxes of the County of Los Angeles, without further action by this Board.
- 5. The Clerk of the Board is hereby authorized and directed to file a certified copy of this Resolution, upon its adoption, with the County Assessor, Ownership Services Section, and the County Auditor-Controller, Tax Section.

The foregoing Resolution was on the \_\_\_\_\_ day of \_\_\_\_\_, 2006, adopted by the Board of Supervisors of the County of Los Angeles and ex officio of the governing body of all other special assessment and taxing districts for which said Board so acts.

JOANNE STURGES
Acting Executive Officer of the
Board of Supervisors of the
County of Los Angeles

Ву		
	Deputy
