### **HOMELESS INITIATIVE QUARTERLY REPORT NO. 27 (ITEM NO. 47-A, AGENDA OF FEBRUARY 9, 2016)**

On February 9, 2016, the Board of Supervisors (Board) approved the Los Angeles County (County) Homeless Initiative (HI) recommendations, which included 47 strategies to combat homelessness, and instructed the Chief Executive Office (CEO) to report back to the Board on a quarterly basis regarding their implementation. On December 6, 2016, the Board approved four new strategies as part of the Measure H Ordinance, and they are also included in the CEO's Quarterly Report (QR). In April 2022, the Board approved the HI's New Framework to End Homelessness (New Framework). The QR began reflecting the New Framework beginning in QR 25.

Attached is the HI's 27th QR, which includes data for the full fiscal year (FY) 2022-23, as well as cumulative data, since the beginning of Measure H implementation in July 2017.

This 27th QR continues to reflect the New Framework with information in the report organized according to the framework's pillars: Coordinate, Prevent, Connect, House, and Stabilize. Additionally, the report highlights significant developments underway at the HI, including the implementation actions in response to the Board's declaration of a State of Emergency on January 10, 2023, the launch of the County's encampment resolution initiative Pathway Home, the 2023 Los Angeles Homeless Services Authority (LAHSA) Homeless Count, Homekey Round 3, embedding equity, and more. This QR also provides updates on the outcomes of current HI programs, including Prevention, Outreach, Interim Housing, Permanent Housing, and Supportive Services.

The report highlights the ongoing work of County departments, agencies, and community-based organizations to implement HI strategies, including several inspiring success stories that demonstrate the ways in which HI programs are transforming lives.

### **Key Outcomes in the Quarterly Report**

For most strategies, outcomes over the past year continued to return to, or remain consistent with, pre-pandemic outcomes. For example, the number of new outreach engagements during the last two FYs trended lower than in FY 20-21, when outreach teams prioritized as many light touches as possible to distribute life-saving meals, personal protective equipment, and other COVID resources to people experiencing homelessness. Since FY 21-22, outreach teams have returned to their pre-pandemic focus of bringing people indoors, which requires longer longitudinal relationships with a smaller total number of people.

A few programs showed the highest annual outcomes over the last five years. These include the number of individuals and households who have increased their income, the number of individuals with a Time-Limited Subsidy (TLS) voucher who retained their permanent housing upon exiting the program, the number of Countywide Benefits Entitlement Services Team participants approved for SSI/Veterans' benefits, and more. Measure-H funded outreach teams obtained eight percent more interim housing placements this FY than last, with a significant increase during the second half of the year which was likely due to new interim housing beds opening, including a large Tiny Home Village and expansion of interim housing through the City of Los Angeles' new encampment resolution initiative, Inside Safe.

The next QR will capture the County's own encampment resolution initiative, Pathway Home, which launched in August, as well as outcomes related to ongoing support of Inside Safe.

Additional key outcomes include:

#### **From July 2022 – June 2023:**

- 389 families and 916 individuals in LAHSA's Prevention Programs were prevented from becoming homeless.
- 14,282 individuals were newly engaged by outreach teams.
- 22,808 individuals and family members were active in the Interim Housing Program and 4,143 were active in the Interim Housing Program for people exiting institutions.

Each Supervisor  
October 18, 2023  
Page 3

- 7,279 individuals and family members were permanently housed through the Time-Limited Subsidy program; 2,459 individuals and family members were placed in Permanent Supportive housing; and 1,576 households were housed using landlord incentives.

**Since the implementation of Measure H in July 2017:**

- 72,418 individuals and family members were placed in Interim Housing funded in part or in whole by Measure H.
- 37,137 individuals and family members were placed in Permanent Housing through Measure H funded strategies.

Should you have any questions concerning this matter, please contact me or Cheri Todoroff, Executive Director of the Homeless Initiative and Affordable Housing, at (213) 974-1752 or [ctodoroff@ceo.lacounty.gov](mailto:ctodoroff@ceo.lacounty.gov).

# Los Angeles County HOMELESS INITIATIVE

Quarterly Report #27

October 10, 2023

The [Homeless Initiative](#) (HI) is the central coordinating body for Los Angeles County’s ongoing effort – unprecedented in scale – to expand and enhance services for people experiencing homelessness or at risk of losing their home.

Created by the Board of Supervisors in August 2015, the Homeless Initiative is part of the County’s Chief Executive Office, directing, overseeing, and evaluating strategies to address and prevent homelessness, and administers Measure H and other funding.

[Measure H](#) is the landmark ¼-cent sales tax approved by 69.3% of County voters in March 2017, creating a 10-year revenue stream that began in July 2017 and is set to expire in September 2027, unless renewed by voters.

The Homeless Initiative is leading the County’s response to the [Los Angeles County Homeless Emergency Response](#) proclaimed by the Board on January 10, 2023, focused on three missions:

- **Encampment Resolution** – reduce unsheltered homelessness in partnership with Cities and Councils of Government (COGs)
- **Housing** – increase interim and permanent housing placements
- **Mental Health and Substance Use Disorder Services** – should be provided to sheltered and unsheltered people at the level required to meet their needs

The Homeless Initiative’s [New Framework to End Homelessness](#), approved by the Board on April 2022, laid out key roles for three partners:

- **Mainstream Government Systems** identify and prioritize the most at-risk households for prevention services to reduce the inflow into homelessness and ensure there is “no wrong door” for people seeking help to address their housing insecurity.
- **Homeless Rehousing System** places greater emphasis on housing the “persistently underserved,” those people with the most complex challenges who require ongoing, focused, resource-heavy intervention.
- **Local Jurisdictions:** The County is strengthening collaboration, creative co-investment, and resource pooling with cities and Councils of Government (COGs) to develop more

permanent housing and to decommission encampments while providing pathways to interim and permanent housing and services.

With the scale of the crisis requiring an all-hands-on-deck approach, the Homeless Initiative works with several County Departments and agencies serving County residents.

- [Los Angeles County](#)
  - [Aging and Disabilities \(AD\)](#)
  - [Children and Family Services \(DCFS\)](#)
  - [Economic Opportunity \(DEO\)](#)
  - [Health Services \(DHS\)](#)
  - [Mental Health \(DMH\)](#)
  - [Public Health \(DPH\)](#)
  - [Public Social Services \(DPSS\)](#)
  - [Sheriff's Department \(LASD\)](#)
  - [Probation](#)
  - [Public Defender \(PD\)](#)
- [Los Angeles County Development Authority \(LACDA\)](#)
- [Los Angeles Homeless Services Authority \(LAHSA\)](#)

The Homeless Initiative allocates Measure H and other funding to enable County departments and agencies to contract with over 200 community-based [nonprofits](#) to provide:

- [Homeless Prevention](#) for people at risk of eviction or exiting institutions like foster care, hospitals, and the criminal justice system
- [Outreach](#), to build relationships with people living outdoors or in vehicles, and connect them to housing and services
- [Interim Housing](#), which offers temporary accommodations, like emergency shelters, recuperative care facilities, and more
- [Permanent Housing](#), secured through short or long-term rental subsidies accompanied by supportive services
- [Supportive Services](#), which can include case management and connections to physical and/or mental healthcare, substance use disorder treatment, criminal record clearing, employment support, and more.

[Cities and COGs](#) are also a key partner. Taking a regional approach, the Homeless Initiative supplements their federal, State, and local funding with Measure H and other revenue, as well as providing technical assistance and other resources.

Some of the County's recent and upcoming investments in local governments include the Local Solutions Fund, Cities and COGs Interim Housing Solutions Fund or [CCOGIHS](#), and [Homekey](#). The Homeless Initiative also supports COGs in facilitating regional coordination and innovation among their member city governments.

## Impact Dashboard

---

This **27<sup>th</sup> Quarterly Report** marks the Board of Supervisors declaring a State of Emergency on homelessness as well as updates on ongoing efforts to implement the Homeless Initiative's New Framework to Address Homelessness, with a particular focus on the Homeless Rehousing System.

The report captures data starting from **July 1, 2017, through June 30, 2023**, six years since Measure H funding first became available, during which the County has been implementing strategies on homeless prevention, outreach, interim housing, permanent housing and supportive services.

**98,905** people placed in permanent housing

**37,137** of permanent housing placements (**37.5%**) completely or partially funded through **Measure H**

**137,656** people placed in interim housing

**72,418** of interim housing placements (**52.6%**) completely or partially funded through **Measure H**

**Period Covered: 7/1/2022 - 6/30/2023, representing the full fiscal year (FY) 2-22-23.**

The report also tracks progress from **July 1, 2022 – June 30, 2023**, representing the full fiscal year (FY) 2022-23.

During this period, the Homeless Rehousing System moved 21,461 people into permanent housing and provided interim housing to 36,232 people. This includes 5,775 permanent housing placements and 17,492 interim housing placements through Measure H-funded programs.

## Emergency Response

---

On January 10, 2023, the Board of Supervisors voted to proclaim a [local emergency for homelessness](#) in the County of Los Angeles. Several initiatives and undertakings were noted in Quarterly Report 26; below, updates for these efforts are provided.

### Los Angeles County Encampment Resolution – Pathway Home

The Homeless Initiative, in partnership with County departments and LAHSA, launched [Pathway Home](#), a major expansion of its ongoing efforts to resolve encampments countywide, including recreational vehicles (RVs), in partnership with local jurisdictions and unincorporated communities.

With Pathway Home, the County is using its emergency powers and working with County departments, our invaluable local service providers, LAHSA, and other jurisdictional partners to expand, enhance and expedite:

- **Outreach in Encampments:** We are expanding the number of specialized teams from the LA County Departments such as DMH, DHS, DPH and other agencies – as well as from our trusted partners and community organizations – to work intensively with people with a variety of physical and behavioral health needs.
- **Housing:** This includes expanding a **diverse array of interim housing** at non-congregate hotels and available shelters that people can move into immediately, while being matched to rental subsidies, benefits, and other assistance to secure **permanent housing**. The County will also continue efforts to expand the number of permanent housing units, such as acquiring and refurbishing motels and hotels under Project Homekey.
- **Supportive Services:** Services that clients both want and need at both interim and permanent housing, which can include physical and behavioral healthcare, substance use

disorder treatment, and ensuring they are receiving their entitled benefits for healthcare and subsidized housing.

**The first Pathway Home operation in Lennox launched August 9 and brought 50 people inside, mostly from tents.** The second operation, two weeks later, placed 58 people into interim housing – including families with children – and removed 30 dilapidated RVs being used as makeshift dwellings on the streets of unincorporated East Gardena bordering West Rancho Dominguez.

The County has recently added County Service Connection Events as a routine service for both Pathway Home and in its encampment resolution partnership with the City of Los Angeles, Inside Safe, interim housing sites. During Service Connection Events, County departments come onsite to link clients to County services and resources including health, mental health, and substance use disorder services; DPSS resources including Medi-Cal, CalFresh, and General Relief; and resources for veterans and immigrants.

## **Support for the City of Los Angeles Homeless Emergency Declaration**

In support of Mayor Karen Bass and Inside Safe, the City's encampment resolution program, the Homeless Initiative, and several County departments, including DHS, DMH, DPH, DPSS, and LACDA, have been partnering in support of the City's state of emergency on homelessness. This partnership includes aligning County-operated and contracted resources to support the City, including outreach teams, interim and permanent housing resources, and County department services and resources. The County has participated in all Inside Safe operations, and to date, there have been 26 Inside Safe encampment resolutions that have brought over 1,600 people inside. As mentioned above, in August of 2023, the County began offering Pathway Home Service Connection Event opportunities for clients being sheltered in Inside Safe interim housing.

## **Equity Analysis**

The Board also directed the use of ARDI equity tools to ensure that the Homeless Initiative funded programs and services are equitably aligned to support the City's state of emergency declaration. The Homeless Initiative worked with LAHSA and CIO to provide ARDI with Inside Safe data to support their equity analysis which includes an overview of people experiencing homelessness (PEH) in the County and City, analysis of Inside Safe encampments, characteristics of encampment residents, characteristics of surrounding communities, and key findings. This report is a valuable tool that will be used to refine the County's ongoing partnership with the City and to inform the scale up of Pathway Home.

## Coordinate

---

### Strategy Lead: LAHSA

The County's Coordinated Entry System (CES), managed by LAHSA, is the network that aligns homeless services to ensure that resources are efficiently and equitably distributed countywide to support PEH.

CES serves as the organizational backbone of homeless services and helps service providers work in a similar manner to make the experience of connecting PEH to solutions as quickly as possible.

### Highlights During this Reporting Period

- **Centralized Training Academy:** The Centralized Training Academy (CTA), provided through the LAHSA Training Team, is a large-scale, accessible, and free resource that provides in-depth virtual and in-person instructor-led training for staff in the homeless services industry. During the last quarter of this FY, the CTA had 8,862 training registrations representing 182 service providers. The LAHSA Training Team is now providing professional development training to service provider staff, which includes conflict management, communication, and time management. The Training Team also launched the Trauma-Informed Care 101 and Harm Reduction 101 interactive e-Learning courses in order for service provider staff to access evidence-based training at any time. LAHSA will soon launch Motivational Interviewing 101 and Housing First 101 and is currently working on finalizing contracts to provide Latinx training and provider community care sessions through Social Justice Partners Los Angeles (SJPLA). Furthermore, the LAHSA Training Team has contracted with a new vendor to upgrade and enhance the Centralized Training Academy website.
- **LAHSA Regional Coordination:** LAHSA, in partnership with CES Leadership, has continued its work to implement systems shifts to support improved systems flow from

interim housing to the Time-Limited Subsidies (TLS) program. The focus of these systems shifts remain centered on needed enhancement to the implementation structure, fine-tuning processes, evaluating systems performance, and establishing best practices guidance. LAHSA implemented the Regional System Implementation (RSI) meetings in November 2021 in coordination with CES leads as the main method of communicating system performance and progress on county wide initiatives.

Key Performance Indicators (KPIs) are metrics frequently used in government and the private sector to help managers and service providers understand whether a system is accomplishing goals and, if not, where policies or programs need to be adjusted or improved. LAHSA has been generating [System KPIs using HMIS data](#) for the last four quarters and continues to take time each quarter to do a deep dive into system performance by population.

- **Domestic Violence (DV) System Alignment:** LAHSA's Domestic Violence System Alignment team continued to coordinate and host various training sessions this FY. In partnership with provider-based Domestic Violence Regional Coordinators (DVRCs), the DV System Alignment Team conducted trainings for individual organizations on best practices for survivors of domestic violence, the intersection between homelessness and domestic violence, dynamics of domestic violence, resources, the non-HMIS portal for all DV service providers, and safety planning. During the last quarter, LAHSA's DV System Alignment team created a Resource Landing Page that aims to create a centralized access point of resources to support domestic violence providers, homeless services providers, and survivors.

LAHSA's DV System Alignment team partnered with the Domestic Violence Homeless Services Coalition and DVRCs to host the Domestic Violence Homeless Services Coalition Community Connections Summit on March 2, 2023. The collective facilitated a workshop session on the work of the DV System Alignment highlighting the value of DVRCs role and program accomplishments, the need for more data advocacy, alignment versus integration to continue creating pathways and access to housing resources for survivors, and the direction of future intersectional work.

## Prevent

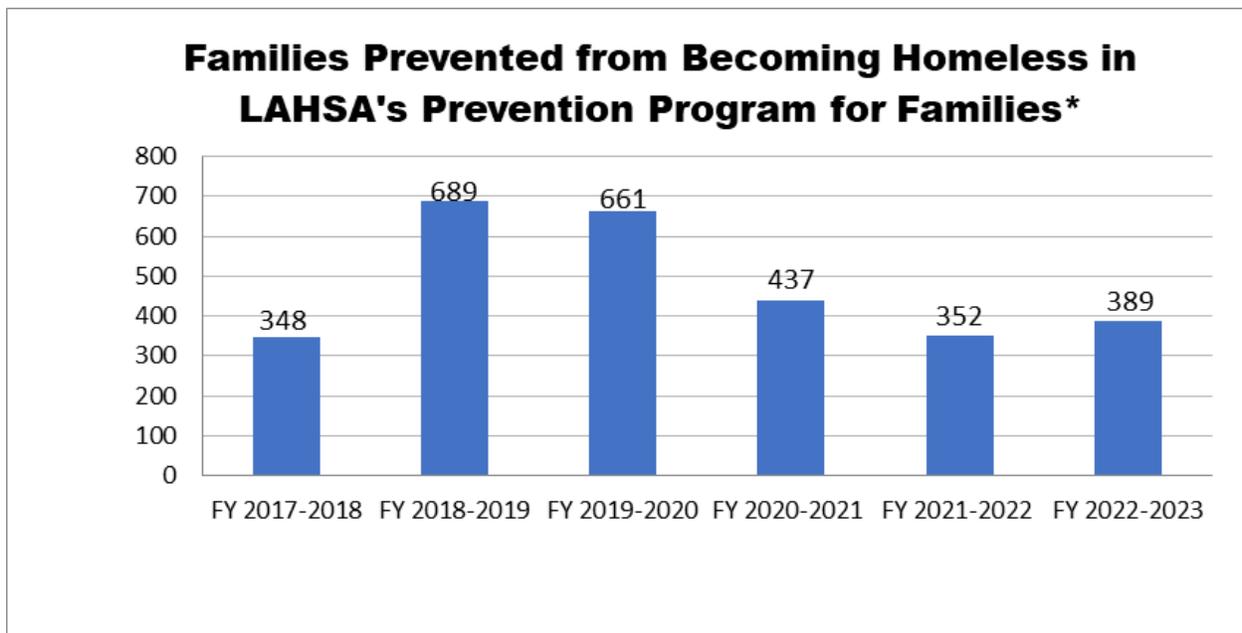

---

### Strategy Leads: LAHSA, DHS, DCFS

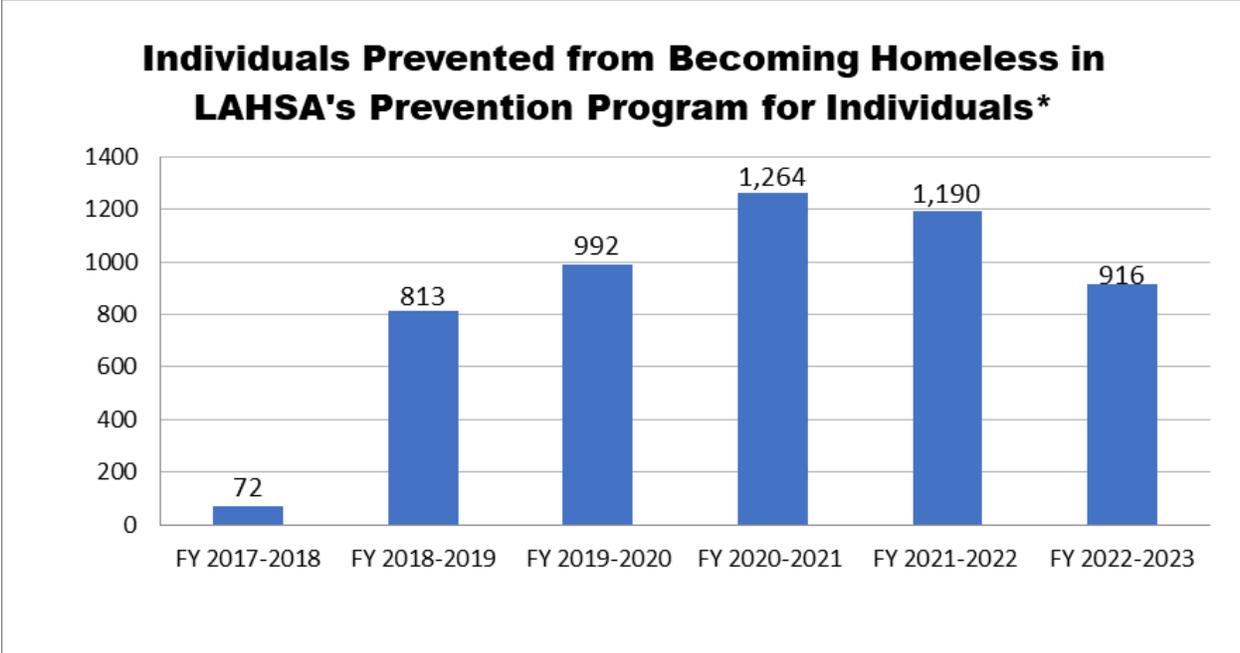

**Homeless Prevention** services help rent-burdened, low-income families and individuals to resolve crises that could cause the loss of their home.

Homeless prevention services include short-term rental subsidies, housing conflict resolution, mediation with landlords and/or property managers, legal defense against eviction, and problem-solving.

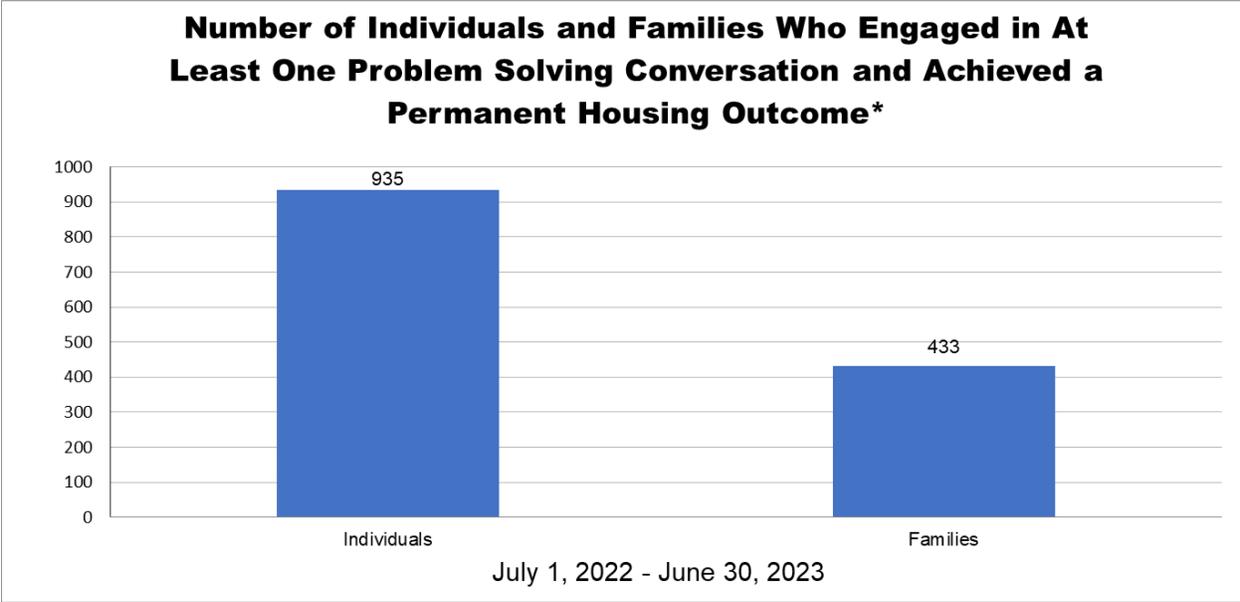

**Problem-solving** is a person-centered, short-term housing intervention that seeks to assist households in maintaining their current housing or identifying an immediate and safe housing alternative within their own social network. This strategy uses exploratory conversation, mediation, empowerment methods, and financial assistance to help resolve the person's crises or quickly connect them to existing emergency or crisis housing services.

\*While prevention outcomes are trending higher this FY than last, they are still lower than prior years because the data no longer includes problem solving outcomes, which are now being reported separately, see below.

\*Prevention outcomes are lower for this FY because the data no longer includes problem solving outcomes, which are now being reported separately, see below.

## Highlights During this Reporting Period

- **DHS Homeless Prevention Unit (HPU):** This proactive, data-driven program identifies and conducts outreach to single adults and families at risk of imminently losing their home and then provides them with four to six months of case management, flexible financial assistance and linkages to supportive services to help stabilize their housing and improve their overall health. The HPU has concluded a period of significant scaling. Since its inception in July 2021, the Unit has grown from 7 to 28 staff members, which now includes an in-house Housing Navigator, an internal data team and 16 Case Managers.

The HPU is currently serving 176 active clients and is working toward a full unit caseload of around 230 clients at any given time. This caseload will turn over 2.5 times per year with the goal of serving 575-600 clients on an annual basis.

In partnership with the California Policy Lab (CPL), the HPU launched its formal evaluation with CPL in February 2023. The evaluation period will last 18 months and will study 1,000 clients in the treatment group and 1,000 individuals who did not receive the HPU's treatment. HPU will collect data for rigorous analysis, including primary and secondary indicators (housing retention and improved overall health) for client outcomes at various intervals beyond their discharge from the program.

- **LAHSA Homeless Prevention:** With local Eviction Protections due to COVID ending in March 2023, the LAHSA Homeless Prevention team collaborated with the LAHSA Systems and Planning Department to provide training for all Service Planning Areas (SPAs) on LA County and LA City tenant rights. LAHSA's homeless prevention providers have been seeing an increased demand for services following the ending of these legal protections. This FY, LAHSA enrolled 1,802 new families and 1,327 single individuals in the Prevention program and are currently serving 2,496 families and 2,046 individuals. While 78% of single individuals who were exited from the prevention program maintained a permanent housing placement, the vast majority (approximately 91%) of families who have exited have maintained permanent housing.

- **LAHSA Problem-Solving:** This year, LAHSA's Problem-Solving Unit provided training and capacity-building support to DV providers working with households fleeing intimate partner violence and human trafficking on exploring safe alternatives to shelter using the household's individualized strengths, resources, and a small amount of assistance funds.

During this FY, 433 families and 935 individuals who engaged in at least one Problem-Solving conversation achieved a permanent housing outcome.

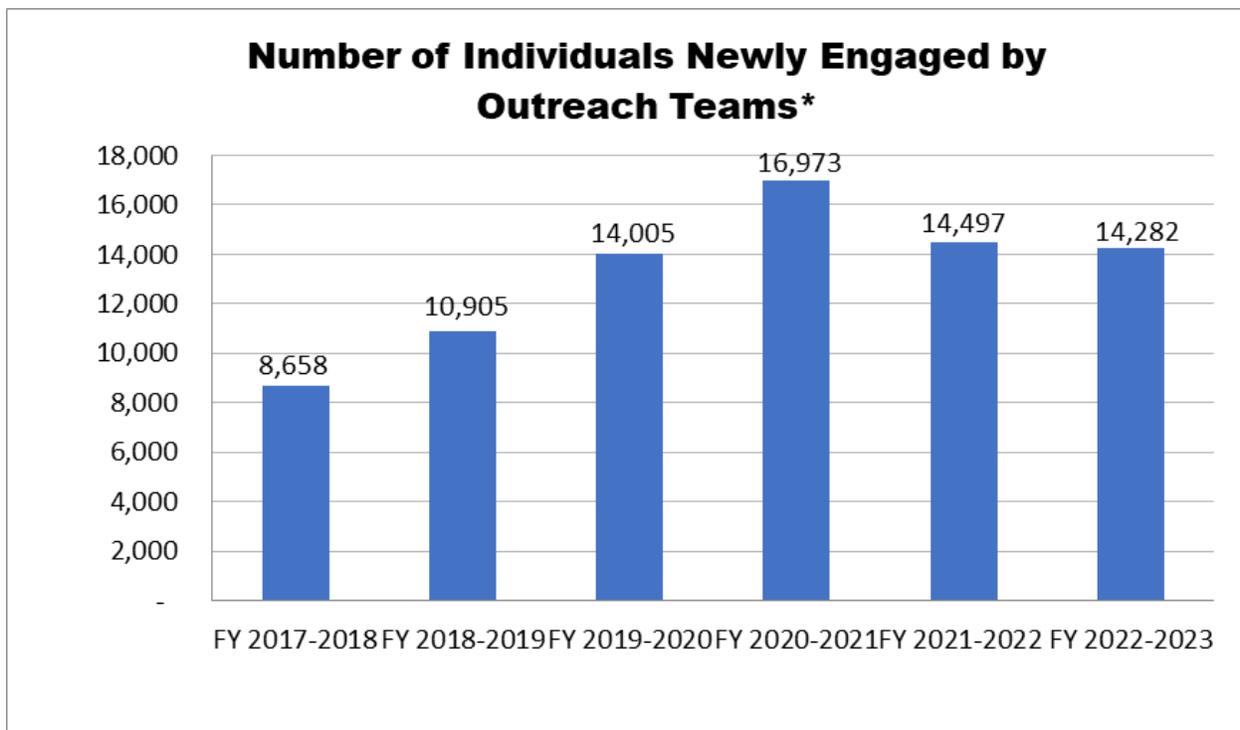

## Connect

### Strategy Leads: LAHSA, DHS, DMH, LASD

**Street-Based Outreach** involves experienced teams building trusting relationships with unsheltered people and connecting them to housing, health and mental health care, substance use disorder treatment, and other services – a process that can vary in length and is customized to meet individuals’ unique needs.

The County deploys different teams to conduct street-based outreach, including DHS Housing for Health’s Multidisciplinary Teams (MDT), which serve clients with more complex health and/or behavioral health needs, and DMH Homeless Outreach and Mobile Engagement (HOME) specialist teams that serve clients with serious mental illness.

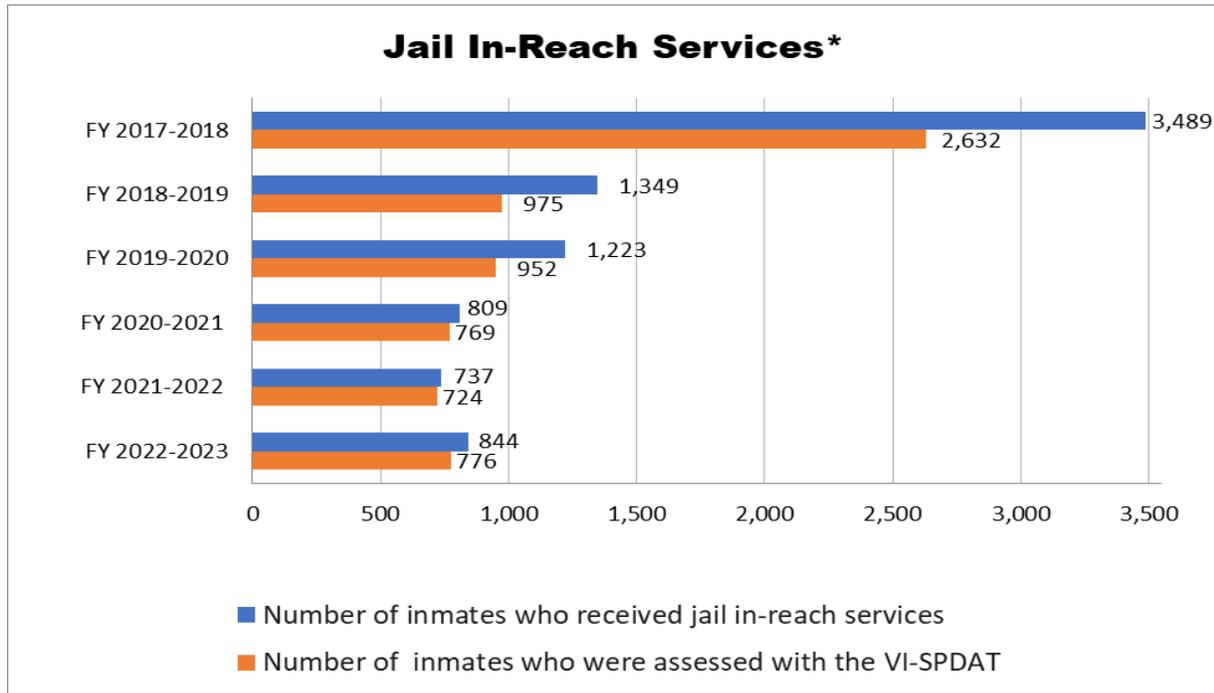

LAHSA’s Coordinated Entry System (CES) Teams and Homeless Engagement Teams (HET) make initial contact and maintain ongoing engagement with people living on the streets, while LASD and LAHSA’s Homeless Outreach Services Teams (LASD HOST and LAHSA HOST) handle outreach at larger encampments and hard-to-reach areas.

\*Number of new engagements for FY 2021-22 and FY 2022-23 are trending lower than FY 2020-21, when outreach teams prioritized as many light touches as possible to distribute life-saving meals, personal protective equipment, and other COVID resources to people experiencing homelessness. Since FY 21-22, outreach teams have returned to

their pre-pandemic focus of bringing people indoors, which requires longer longitudinal relationships with a smaller total number of people.

During the last two quarters of the FY, County-funded outreach teams have played a significant role in the new encampment resolution initiatives, Inside Safe and Pathway Home, shifting much of their efforts to a more targeted population, which has also contributed to fewer overall engagements.

\*DHS and LASD collaborate to provide Jail In-Reach, which helps homeless inmates secure housing and benefits upon their release. The decline in enrollments that began in FY 2018-19, visible in the above chart, reflect an intentional shift to provide more intensive services to fewer clients.

### Highlights During this Reporting Period

- Outreach:** Measure H-funded outreach teams, including DHS-administered Multi-Disciplinary Teams (MDTs), Los Angeles Homeless Service Authority (LAHSA) Homeless Engagement Teams (HET), and LAHSA-administered Coordinated Entry System (CES) Outreach, continue to proactively serve people experiencing unsheltered homelessness throughout the County. These teams play a crucial role in engaging, assessing, and connecting people experiencing unsheltered homelessness to appropriate housing interventions, often addressing a wide variety of housing barriers and providing many immediate supports.

These teams have been critical to the recently launched encampment resolution efforts, including Pathway Home and Inside Safe. Combined, Measure H-funded LAHSA Homeless Engagement Teams, DHS-administered Multi-Disciplinary Teams (MDTs), and CES outreach teams moved 1,618 people into interim housing during the second half of the FY, a significant increase in the pace from the first half of the FY when 708 interim housing placements were obtained. Combined, outreach teams obtained 8% more interim housing placements this FY than the previous FY. LAHSA suggests this is due to an increase in new interim housing beds including the opening of a large Tiny Home Village site as well as the expansion of interim housing beds through the City of Los Angeles' new encampment resolution initiative, Inside Safe.

- **Every Woman Housed:** This initiative seeks to end homelessness for the more than 600 women and families residing on Skid Row.

This FY The People Concern City County Community (C3) Skid Row MDT received additional funding to support two additional C3 Outreach Teams specific to Every Woman Housed, bringing the total number of Skid Row MDTs to 7. These two additional teams are dedicated to providing outreach services specifically to women in the Skid Row area. The teams are responsible for working systematically to engage vulnerable women living on the streets and provide them with immediate access to resources such as interim housing, urgent care, primary care, mental health services, and substance use disorder treatment with the goal of regaining health and housing stability. These teams work closely with the Downtown Women's Center, other service providers in the Skid Row area, and LAHSA's Skid Row Coordinator to ultimately refer and link women to permanent housing.

- **DHS Jail In-Reach:** DHS and the Sheriff's Department collaborate to provide Jail In-Reach, which helps homeless inmates secure housing and benefits upon release. Over the last quarter, DHS and LASD provided in-reach services to 221 individuals in LA County jail facilities, for a total of 844 individuals served over the full FY, an increase over the 737 individuals served in FY 2021-22. The increase in the number of individuals receiving jail in-reach services, VI-SPDATs, referrals for Medi-Cal, and referrals for General Relief assistance, California IDs, and birth certificates this FY can be attributed to a new Statement of Work, regular training, and improvements to existing workflows.

## House (Interim Housing)

Strategy Leads: LAHSA, DHS, DMH, DPH

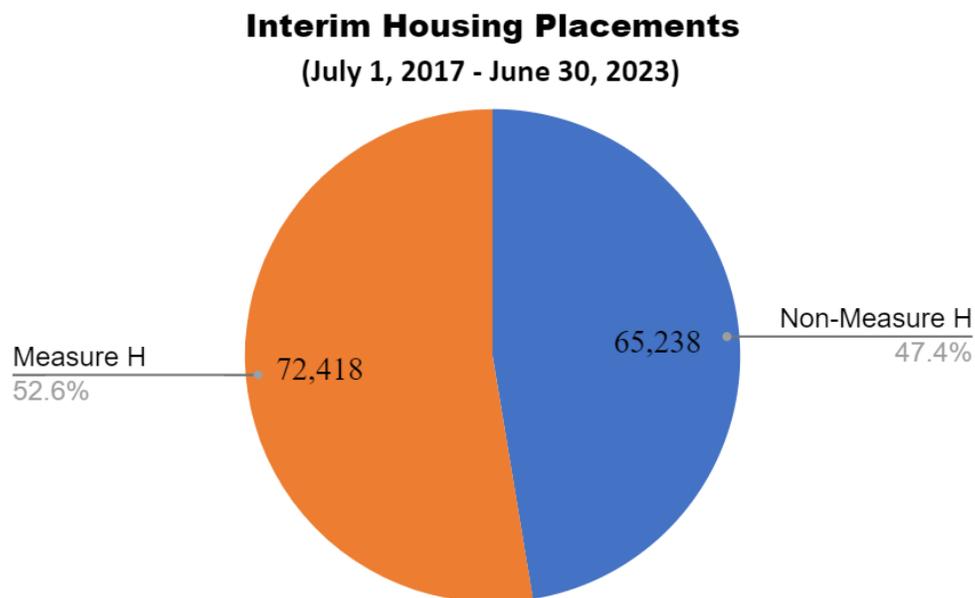

**Interim Housing** provides safe temporary accommodations for people who otherwise have nowhere to stay.

Types of interim housing include but are not limited to: emergency shelter; stabilization housing for individuals with complex health and or/behavioral health conditions; bridge housing; bridge housing for people exiting institutions such as jails, hospitals, or foster care; and recovery bridge housing for people undergoing outpatient treatment for substance use disorder.

The County also provides recuperative care facilities for people recovering from an acute illness or injury. Additionally, it provides Enriched Residential Care facilities (ERCs), also known as Board and Care, that provide 24/7 care and supervision in licensed residential facilities that can be either interim or permanent housing.

Systemwide, 137,656 people experiencing homelessness have used interim housing since Measure H-funding began in July 2017. Of those placements, 72,418 people used interim housing completely or partially funded by Measure H.

During the full FY 2022-23, 36,232 people utilized interim housing. This includes 17,492 people newly placed in interim housing funded with Measure H.

## Highlights During this Reporting Period

- **LAHSA Winter Shelter Program (WSP):** Running from November 1, 2022, through March 31, 2023, this program is operated annually to protect people experiencing homelessness during the colder months. Winter shelters are located countywide and operate 24 hours a day. When severe weather events occur, the Augmented Winter Shelter Program (AWSP) provides people experiencing homelessness with emergency hotel/motel vouchers.

Both programs saw a significant increase in utilization because of severe weather and participants' preference for non-congregate living arrangements. LAHSA is considering changes to WSP, including potentially transitioning it into a year-round emergency response.

During FY 22-23, there were 114 Winter Shelter Beds, and an additional 3,111 unduplicated participants were served by hotel/motel vouchers as part of the Augmented Winter Shelter Program.

- **LAHSA Bridge Housing Program for People Leaving Institutions:** Redesigned in July 2022, this program has been tailored to better serve people involved with the justice system, including those who were formerly incarcerated and those who remain in custody while awaiting court hearings because they lack stable housing.

To facilitate increased participant linkages to permanent housing, LAHSA provided trainings on problem-solving strategies, strategies to link participants to PSH, and affordable housing resources to Bridge Housing providers. In addition, LAHSA and providers continued to engage in Active System Management of adult interim housing resources. Active System Management is a process through which service providers and LAHSA maintain close awareness of the flow of participants toward permanent housing, identify barriers to moving people into permanent housing, and develop system solutions to overcome challenges and improve the efficiency of the rehousing system.

- **DPH Substance Abuse Prevention & Control (SAPC) Recovery Bridge Housing:** Recovery Bridge Housing (RBH) is a type of abstinence-focused, peer-supported housing that provides a safe interim housing environment for individuals who are homeless or unstably housed. Participants in RBH must be concurrently enrolled in treatment, such as outpatient (OP), intensive outpatient (IOP), Opioid Treatment Program (OTP), or Outpatient (aka Ambulatory) Withdrawal Management (OP-WM) settings.

During FY 2022-23, the Recovery Bridge Housing (RBH) network increased bed capacity by 182 additional RBH beds, including 50 funded by Measure H. The total RBH beds in DPH's network increased from 995 in FY 21-22 to a total of 1177 in FY 22-23.

## House (Permanent Housing)

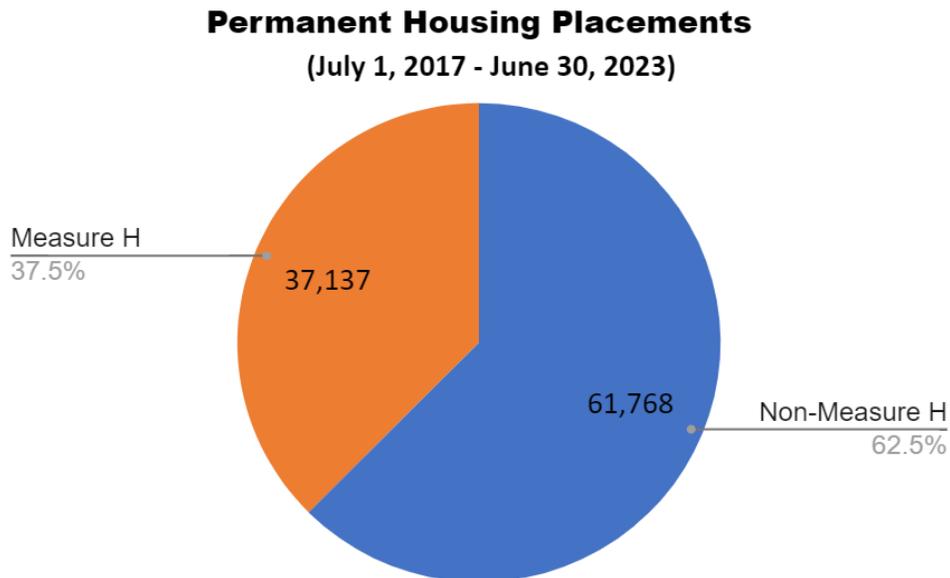

Strategy Leads: LAHSA, DHS, DMH, DPH, LACDA

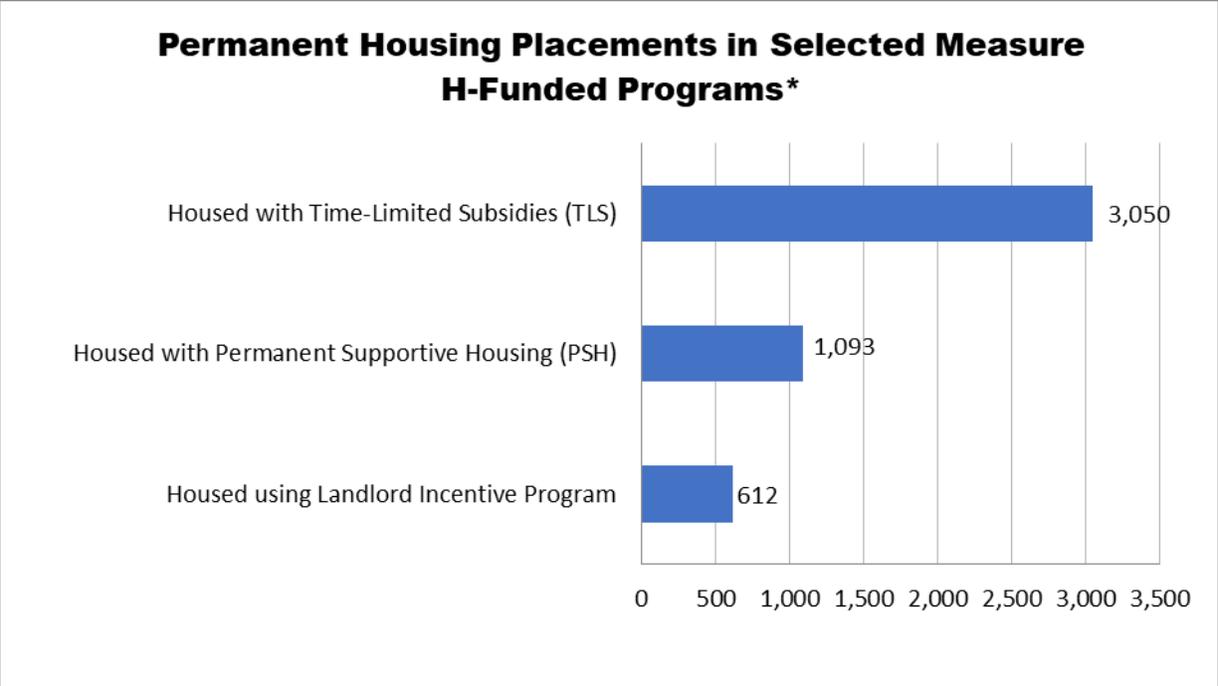

**Permanent Housing** strategies lift people out of homelessness by offering either short- or long-term rental subsidies in combination with varied levels of supportive services.

One type of permanent housing is Permanent Supportive Housing (PSH), which provides long-term rental subsidies and supportive services to individuals who have experienced chronic homelessness and have disabilities, chronic medical conditions, and/or behavioral health conditions.

Since July 1, 2017, the County's homeless services system has placed 98,905 people in permanent housing, with 37,137 of the placements supported by Measure H funding.

In the full FY 2022-23, a total of 21,461 people were placed in permanent housing through the County's homeless services system, including 5,775 Measure H-funded placements. This includes all types of permanent housing, such as the TLS program (formally known as the Rapid Rehousing program) and PSH.

\*There may be duplication between clients who obtained housing with support from the Landlord Incentive Program and clients who were housed with Permanent Supportive Housing (PSH) because the first program is used to incentivize landlords to accept PSH vouchers.

LACDA noted a decline in the number of housing providers interested in participating in the Landlord Incentive Program. The team stayed committed to enhancing lease up efforts, participating in 16 engagements during the second half of the FY.

**Highlights During this Reporting Period**

- **Permanent Supportive Housing (PSH) Retention Rates:** DHS HFH reported strong outcomes for participant retention in PSH: 93.8% for participants who have been housed for 12 months, and 87% for participants who have been housed for 24 months.
- **DHS Intensive Case Management Services (ICMS):** Over the last quarter, Housing for Health has connected ICMS to 524 additional project-based housing units that are leasing up in approximately 13 new buildings.

There was also an increase in individuals housed, with a total of 2,260 participants entering new leases, a 19% increase over the prior FY. DHS worked with their internal and external partners to ensure a faster flow through and the utilization of turnover rates.

- **Client Engagement and Navigation Services (CENS):** In FY 2022-23, DPH established CENS co-locations at 22 additional Permanent Supportive Housing (PSH) sites to facilitate client entry into and navigation through the specialty Substance Use Disorder (SUD) system. These additional sites bring the total of co-located or connected sites to 165.

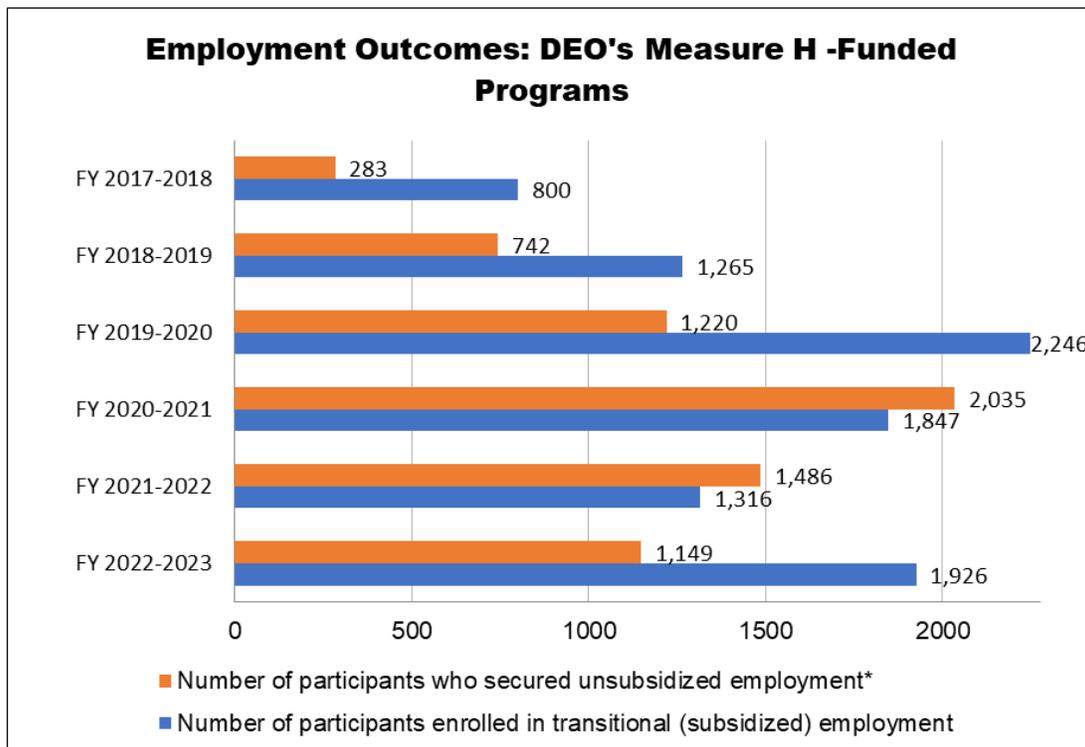

## Stabilize

### Strategy Leads: DHS, DMH, DCFS, LASD, DEO, PD

Most families and individuals experiencing homelessness need some level of case management and [supportive services](#) to secure and maintain permanent housing, though their needs vary greatly depending on individual circumstances.

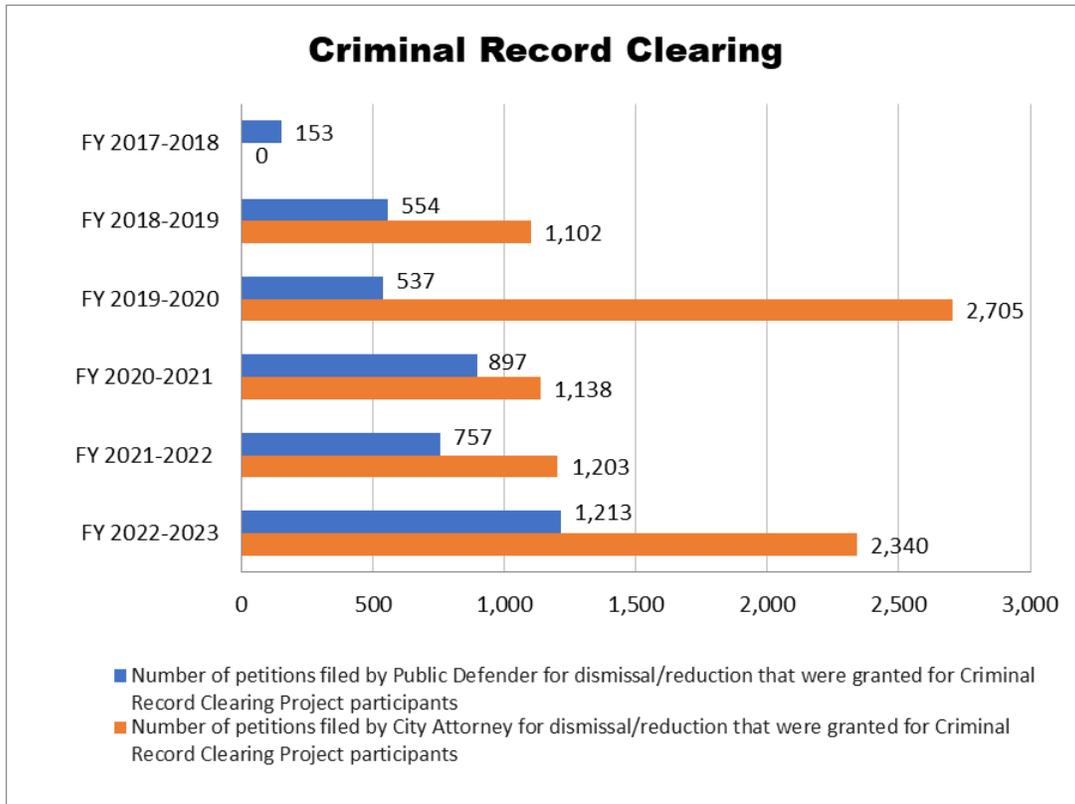

The availability of appropriate case management and supportive services is key to enabling homeless families and individuals to take advantage of rental subsidies, increase their income, and access/utilize public services and benefits. Severely disabled homeless individuals can increase their income through federal disability benefits, while many homeless adults can do so by securing employment.

**Employment Programs:** The Department of Economic Opportunity (DEO) uses Measure H to fund employment programs such as LA:RISE, [Careers for a Cause](#), [Hire Up](#), and [Alternative Staffing Organizations](#).

\*Data for unsubsidized employment is generated based on base wage data reported to the California Employment Development Department. It is updated as it becomes available. The outcomes for unsubsidized employment typically increase significantly in the quarters following the report, which will be reflected in subsequent HI quarterly reports.

With the Criminal Record Clearing Project, the LA County [Public Defender](#) and [LA City Attorney](#) provide legal services to help people experiencing or at risk of homelessness resolve outstanding infractions and associated warrants, which are often barriers to housing, employment, education, and legal immigration.

**Highlights During this Reporting Period**

**Countywide Benefits Entitlement Services Team (CBEST):** During this FY, 730 CBEST clients were approved for benefits, receiving an average of \$994 per month and more than \$8.9 million in back pay. CBEST had a 17% increase in new enrollments this FY, attributed to targeted community outreach efforts and word-of-mouth referrals.

**CBEST & DCBA Partnership:** CBEST’s partnership with the Los Angeles County Department of Consumer & Business Affairs Office of Immigrant Affairs (DCBA-OIA) to assist CBEST clients in need of immigration-related legal services launched in the 3rd quarter of this FY. Fifty-four clients have been referred for specialty immigration services since the launch.

## Additional Developments

---

**2023 Greater Los Angeles Homeless Count:** The Los Angeles Homeless Services Authority reported the [2023 Greater Los Angeles Homeless Count results](#), which occurred over three nights in January, showing a 9% rise in homelessness on any given night in Los Angeles County to an estimated 75,518 people and a 10% rise in the City of Los Angeles to an estimated 46,260 people. While this year's increases are slightly lower than previous year-over-year increases in the homeless count, they continue a steady growth trend of people experiencing homelessness in the annual Point-in-Time Count (PIT Count).

The rise in the County's homeless population coincides with increases in major cities across the United States. Chicago and Portland saw double-digit increases (+57% and +20% respectively), while several Southern California counties experienced increases larger than Los Angeles, including San Bernardino (+26%), San Diego (+22%), Kern (+22%), and Riverside (+12%). While the number of unhoused people in interim housing held steady at 20,363, the rise in the number of people experiencing unsheltered homelessness coincided with the overall increase in the PIT Count.

### **Project Homekey**

A joint effort between the County and the State, Homekey enabled the County and its partners to acquire 24 properties, mostly hotels and motels, for conversion into interim and permanent housing for people experiencing homelessness – 1,567 units so far. The Board of Supervisors (Board) has allocated American Rescue Plan Act (ARPA) and Coronavirus Aid, Relief, and Economic Security (CARES) Act funding as a local match to the State's Homekey funding, in order to fully leverage the opportunity. During this FY, several Homekey Round 2 sites opened, including two sites providing interim housing to youth, two sites providing interim housing to families, and one permanent supportive housing site. The State released its Homekey Round 3 Notice of Funding Availability in March 2023. The County submitted 10 proposals for additional funding and is awaiting notification.

### **Embedding Equity**

In July 2020, the Board of Supervisors passed a motion that created the Board's eighth Board-directed priority known as the Anti-Racism, Diversity, & Inclusion (ARDI) Initiative, led by Dr. D'Artagnan Scorza as Executive Director of Racial Equity. The Board's motion boldly articulated an anti-racist agenda that will guide, govern, and increase the County's ongoing commitment to fighting racism in all its dimensions. This motion called for the implementation of the Black People Experiencing Homelessness Recommendations into the County's Homeless Initiative strategies.

The Homeless Initiative is working with the Anti-Racism Diversity & Inclusion (ARDI) initiative, County departments, and LAHSA to develop an equity framework and benchmarks to reduce disproportionality in the homeless population and address the rising number of Latinx people experiencing homelessness. Further, ARDI is supporting HI's efforts to build capacity to integrate equity within the three Emergency Response PEH Missions and utilize data to track, measure and report on outcomes.

## Success Stories

---

### Victor

*"You guys truly changed my life. I'm very grateful and happy. I would never have expected so much. I have a home where I'm at peace now, and I thank God and all of you for it."*

Victor, 55, was on the verge of falling into homelessness. He was living in a converted garage that wasn't suitable as a home, and his landlord wanted a year of back rent and a long-term lease. The DHS Housing for Health's [Homeless Prevention Unit](#) (HPU) team stepped in, providing Victor with rental assistance to avoid eviction and keep his housing until something more appropriate became available. HPU connected Victor to Enki Mental Health, where he was able to reestablish regular visits with a psychiatrist and start medications. HPU also connected Victor to DHS' Countywide Benefits Entitlement Services Team (CBEST), which helped him access benefits that he was eligible for, regardless of immigration status. Finally, HPU worked with the nonprofit homeless services provider, [The People Concern](#), to place Victor into a permanent supportive housing (PSH) unit. "I feel great!" he said through a translator. "You guys truly changed my life. I'm very grateful and happy. I would never have expected so much. I have a home where I'm at peace now, and I thank God and all of you for it."

## Christopher

*"I will tell all individuals that are going through the same situation not to give up, stay positive, use all the resources that are out there."*

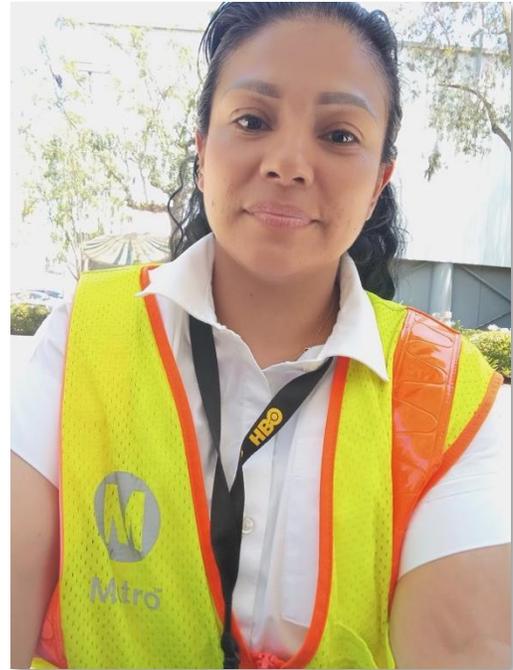

Christopher, 48, moved in with his mother and sister in 2017 after serving time in prison. Unfortunately, his sister passed away a few months later. As Christopher and his mother were not on his sister's lease, they became homeless. Without stable housing, his mother's health declined, and she passed away as well, in 2018. Christopher was able to stay at a shelter in Whittier in 2020, which referred him to a case manager with [St. Joseph's Center](#) who helped him secure a rental voucher. With no credit, steady income or housing references, Christopher struggled to find a unit until a [LACDA Homeless Incentive Program \(HIP\)](#) housing advisor stepped in to help. HIP offers monetary incentives to encourage landlords to rent their available units to voucher holders experiencing homelessness. Christopher is now living in his own home and hopes to find a job or attend trade school. "I will tell all individuals that are going through the same situation not to give up, stay positive, use all the resources that are out there," he said.

## Berit

*“You guys make a difference in people’s lives. I truly appreciate you.”*

Berit, 41, spiraled into addiction after the traumatic death of a child in the early 2000s, and experienced chronic homelessness. She went into [Social Model Recovery Systems](#) (SMRS) Royal Palms residential substance use disorder treatment facility and later its Sabina Home Recovery Bridge Housing. She also sought care through the Pasadena Council of Alcoholism and Drug Dependence (PCADD). Berit learned invaluable coping skills through individual counseling and group therapy while residing in a safe and sober structured living environment and has since moved into stable housing in the community and while remaining enrolled in intensive outpatient treatment. She is now off probation, has a new career as a driver for Los Angeles County Metropolitan Transportation Authority, and is looking forward to having full custody of her remaining child, a toddler daughter. “I feel like you all really cared about me,” Berit said. “You guys make a difference in people’s lives. I truly appreciate you.”

## Yvette

*“FTS picked me up from the ground, fed me, and made me feel welcomed - you guys were my success.”*

After losing her job of 28 years at the VA Long Beach, Yvette, 62, lived in her car and in shelters in Santa Ana, Bell, and Whittier for about 10 years. After being hospitalized in Whittier and later Compton, she was referred to a DHS interim housing program operated by the nonprofit First To Serve (FTS), which supported her search for permanent housing. “FTS picked me up from the ground, fed me, and made me feel welcomed - you guys were my success,” said Yvette. “I’m looking forward - like I am joining the world again.”

## Paula

*“I felt so lost and overwhelmed by the fire and how difficult it was to get housing, but SBCC kept cheering me on, pushing me not to give up. Thank you.”*

Paula, a 55-year-old Native American single mother, and her three children, lost their home in a fire caused by a faulty outlet earlier this year. She had become unemployed shortly before the fire, and homelessness took a toll on the entire family. Paula felt depressed and overwhelmed and her children also struggled suffered anxiety and other ailments. She was able to get help with diapers and other necessities for her foster child through the Cambodian Association of America (CAA). The South Bay Center for Counseling (SBCC) helped the family with hotel stays and groceries until they were able to get into a shelter operated by Harbor Interfaith. Working together, SBCC and Harbor Interfaith helped the family secure an apartment. Paula said the family now feels at peace. “I thank God for SBCC for their help, support, guidance, and advocacy. If it were not for them, I will still be homeless,” Paula said. “I felt so lost and overwhelmed by the fire and how difficult it was to get housing, but SBCC kept cheering me on, pushing me not to give up. Thank you.”

## Alberto

*“Keep your flame lit, and you will never feel darkness.”*

After serving three tours of duty in Iraq with the U.S. Army, Alberto, 37, returned home only to battle homelessness for nearly 10 years. He had found it extremely difficult to navigate civilian life, resources, and benefits but said he was too “prideful” to seek help. When his relationship with his family deteriorated, Alberto turned to support groups at the Salvation Army in the City of Bell Gardens and the East Los Angeles Veteran Center, who helped him access disability benefits. However, his internal struggles continued but he started on the road to recovery when a fellow veteran he had befriended died of a drug overdose.

Alberto went back to the Salvation Army, who connected him to the VA, where he was able to access additional resources, including a vocational work program called Compensated Work Therapy. He then started to apply for permanent housing, overcoming obstacles along the way. The LACDA HIP housing advisor team was an essential part in streamlining the new contract process for the property owner and helping to move Alberto into permanent housing. Now, he is focused on paying it forward, applying for steady employment at the VA and taking a leadership role in veteran support groups. “Keep your flame lit, and you will never feel darkness,” he said.

\*The County's New Framework to End Homelessness merges the interim housing strategies to create greater flexibility and reduce administrative burdens. Per the August 2022 Board memo on Implementing the New Framework to End Homelessness, DHS began using the same eligibility criteria for E8 and B7 beds in January 2023.

\*CBEST's decline in enrollments over the last few quarters is due to: data clean-up since 7/2020; loss of two one-time funding streams in FY21-22; and DPSS' closure during the pandemic, which impacted referral volume in FY20-21. CBEST anticipates an increase in enrollments with new funding now available and DPSS' reopening.

**Notes:**

- D7 SPA data is based on location where participant is housed.
- E6 data is broken down by the Service Planning Area in which the participant was served. Data is for three types of outreach teams: Department of Health Services' Multidisciplinary Teams (MDTs), Los Angeles Homeless Services Authority Homeless Engagement Teams (HET), and Coordinated Entry System (CES) teams. Due to participants being enrolled into multiple programs across countywide outreach teams, the total number per SPA does not equal the sum of all teams added together. Data for metrics on services/referrals, crisis housing, and permanent housing include individuals who were engaged during the reporting period but may have been engaged for the first time in a prior reporting period. Therefore, the total number who received services/referrals exceeds the total number who were newly engaged.

| <b>E6: Countywide Outreach System</b> | <b>Number of unduplicated individuals initiated contact</b> | <b>Number of unduplicated individuals newly engaged during reporting period</b> | <b>Number of unduplicated individuals who received services or successfully attained referrals</b> | <b>Number of unduplicated individuals who are placed in crisis or bridge housing</b> | <b>Number of unduplicated individuals who are linked to a permanent housing resource</b> | <b>Number of unduplicated individuals who are placed in permanent housing</b> |

**Notes:**

- For A1/A5, "Newly Enrolled" only includes data for clients enrolled in homeless prevention programs.
- "Newly Enrolled" refers to all participants enrolled during the reporting period (June 2022-July 2023)
- For A1/A5, "Number Served" includes data for clients in homeless prevention and problem solving.
- "Number Served" refers to all participants served during the reporting period, some of whom were enrolled prior to the reporting period.
- Strategy E6: Outreach includes three types of outreach teams - Coordinated Entry System Teams, Department of Health Services' Multidisciplinary Teams (MDTs), and Los Angeles Homeless Services Authority (LAHSA) Homeless Engagement Teams (HETs). The data provided is de-duplicated. Family counts for the E6 data may be underrepresented due to incomplete household identifying data.
- For E8, "All Exits" only include demographic breakouts for DHS data.
