HOMELESS INITIATIVE QUARTERLY REPORT NO. 29 (ITEM NO. 47-A, AGENDA OF FEBRUARY 9, 2016)

On February 9, 2016, the Board of Supervisors (Board) approved the Los Angeles County (County) Homeless Initiative (HI) recommendations, which included 47 strategies to combat homelessness, and instructed the Chief Executive Office (CEO) to report back to the Board on a quarterly basis regarding their implementation. On December 6, 2016, the Board approved four new strategies as part of the Measure H Ordinance, and they are also included in the CEO's Quarterly Report (QR). In April 2022 the Board approved the HI's New Framework to End Homelessness (New Framework). The QR began reflecting the New Framework beginning in QR 25.

Attached is the HI's 29th QR, which includes data for the first two quarters of fiscal year (FY) 2023-24, as well as cumulative data since the beginning of Measure H implementation in July 2017.

This 29th QR continues to reflect the New Framework with information in the report organized according to the framework's pillars: Coordinate, Prevent, Connect, House, and Stabilize. Additionally, the report highlights significant developments underway at the HI, including the implementation actions in response to the Board's declaration of a State of Emergency on January 10, 2023, the expansion of the County's Encampment Resolution Initiative Pathway Home, the FY 2024-25 HI Annual Funding Recommendation listening sessions, Homekey 3 awards, the

Prevention and Promotion Systems Governing Committee, and more. This QR also provides updates on the outcomes of current HI programs, including prevention, outreach, interim housing, permanent housing, and supportive services. The QR highlights the ongoing work of County departments, agencies, and community-based organizations to implement the HI framework, including several inspiring success stories that demonstrate the ways in which HI programs are transforming lives.

Key Outcomes in the Quarterly Report

For most strategies, outcomes in the first and second quarters have remained consistent or have continued to trend upwards; in cases where outcomes show a decline, the reasons for this decline are indicated in the report. Several programs have shown significant increases compared to previous years. Systemic changes in matching criteria implemented by the Department of Health Services Housing for Health have led to a significant increase in the number of interim housing participants matched to Permanent Supportive Housing resources. The number of participants newly enrolled in Time-Limited Subsidies more than doubled, and the number of CalWORKS participants who were connected to subsidized employment grew by nearly 50 percent. Encampment Resolution efforts, such as the County's Pathway Home program and the City of Los Angeles' Inside Safe program, continue to engage more people through outreach. These programs, along with the newly opened interim housing sites, have led to an increase in the number of individuals placed in interim housing.

The next QR will capture continued growth in Pathway Home Encampment Resolutions and Pathway Home Service Connection Events, updated demographic standards from the U.S. Department of Housing and Urban Development, unit acquisition strategies, and more.

Additional key outcomes include:

From July 2023 – December 2023:

- 154 families and 574 individuals in the Los Angeles Homeless Services Authority's prevention programs were prevented from becoming homeless.
- 7,128 individuals were newly engaged by outreach teams.
- 16,588 individuals and family members were active in the interim housing program, and 1,782 were active in the interim housing program for people exiting institutions.
- 2,997 individuals and family members were permanently housed through the Time-Limited Subsidy program; 1,933 individuals and family members were placed in permanent supportive housing; and 574 households were housed using landlord incentives.

Each Supervisor
July 1, 2024
Page 3

Since the implementation of Measure H in July 2017:

- 77,709 individuals and family members were placed in interim housing funded in part or in whole by Measure H.
- 40,711 individuals and family members were placed in permanent housing through Measure H funded strategies.

Should you have any questions concerning this matter, please contact me or Cheri Todoroff, Executive Director of the Homeless Initiative and Affordable Housing, at (213) 974-1752 or ctodoroff@ceo.lacounty.gov.

Los Angeles County HOMELESS INITIATIVE

Quarterly Report #29

The [Homeless Initiative](#) (HI) is the central coordinating body for Los Angeles County’s (County) ongoing effort – unprecedented in scale – to expand and enhance services for people experiencing homelessness or at risk of losing their home.

Created by the Board of Supervisors (Board) in August 2015, the Homeless Initiative is part of the County’s Chief Executive Office, directing, overseeing, and evaluating strategies to address and prevent homelessness, and administers Measure H and other funding.

[Measure H](#) is the landmark ¼-cent sales tax approved by 69.3% of County voters in March 2017, creating a 10-year revenue stream that began in July 2017 and is set to expire in September 2027, unless renewed by voters.

The Homeless Initiative is leading the County’s response to the [Los Angeles County Homeless Emergency Response](#) proclaimed by the Board on January 10, 2023, focused on three missions:

- **Encampment Resolution** – reduce unsheltered homelessness in partnership with cities and Councils of Government (COGs).
- **Housing** – increase interim and permanent housing placements.
- **Mental Health and Substance Use Disorder Services** – should be provided to sheltered and unsheltered people at the level required to meet their needs.

In October 2023, the Board added **Eviction Prevention** as a fourth mission, with a goal to reduce inflow into homelessness by helping at-risk households remain housed.

The Homeless Initiative’s [New Framework to End Homelessness](#), approved by the Board in April 2022, laid out key roles for three partners, each taking action to **Coordinate**, **Prevent**, **Connect**, **House**, and **Stabilize** people experiencing or at risk of homelessness.

- **Mainstream Government Systems** identify and prioritize the most at-risk households for prevention services to reduce the inflow into homelessness and ensure there is “no wrong door” for people seeking help to address their housing insecurity.
- **Homeless Rehousing System** places greater emphasis on housing the “persistently underserved”, those with the most complex challenges who require ongoing, focused, resource-heavy intervention.
- **Local Jurisdictions:** The County is strengthening [collaboration](#), creative co-investment, and resource pooling with cities and Councils of Government (COGs) to develop more permanent housing and to decommission encampments while providing pathways to interim and permanent housing and services.

Homelessness in Los Angeles County requires an all-hands-on-deck approach, and the Homeless Initiative works with several County departments and agencies serving County residents:

- [Los Angeles County](#)
 - [Aging and Disabilities \(AD\)](#)
 - [Children and Family Services \(DCFS\)](#)
 - [Economic Opportunity \(DEO\)](#)
 - [Health Services \(DHS\)](#)
 - [Mental Health \(DMH\)](#)
 - [Public Health \(DPH\)](#)
 - [Public Social Services \(DPSS\)](#)
 - [Sheriff's Department \(LASD\)](#)
 - [Probation](#)
 - [Public Defender \(PD\)](#)
- [Los Angeles County Development Authority \(LACDA\)](#)
- [Los Angeles Homeless Services Authority \(LAHSA\)](#)

The Homeless Initiative allocates Measure H and other funding to enable County departments and agencies to contract with over 200 community-based [nonprofits](#) to provide:

- [Homeless Prevention](#) for individuals and families at imminent at risk of homelessness who are exiting institutions like foster care, hospitals, and the criminal justice system.
- [Outreach](#) to build relationships with people living outdoors or in vehicles and connect them to housing and services.
- [Interim Housing](#), which offers temporary accommodations, such as emergency shelters, recuperative care facilities, and more.
- [Permanent Housing](#) secured through short- or long-term rental subsidies accompanied by supportive services.
- [Supportive Services](#), which can include case management and connections to physical and/or mental healthcare, substance use disorder treatment, criminal record clearing, employment support, and more.

[Cities and COGs](#) are also key partners. Taking a regional approach, the Homeless Initiative supplements their federal, state, and local funding with Measure H and additional revenue, as well as providing technical assistance and other resources.

Some of the County's recent and upcoming investments in local governments include the Local Solutions Fund, Cities and COGs Interim Housing Solutions Fund or [CCOGIHS](#), and [Homekey](#). The Homeless Initiative also supports COGs in facilitating regional coordination and innovation among their member city governments.

Exhibit 3A: Demographic Enrollment/Service Data for Select Strategies	
Exhibit 3B: Visualization of Demographic Service Data for Select Strategies	

This **29th Quarterly Report** marks nearly one year since the Board of Supervisors declared a State of Emergency on homelessness. It reflects progress made during that time, as well as updates on ongoing efforts to implement the Homeless Initiative’s New Framework to Address Homelessness, with a particular focus on the Homeless Rehousing System.

This report highlights data beginning **July 1, 2017, through December 31, 2023**, capturing six years’ worth of progress since Measure H funding first became available. During this time frame, the County has implemented strategies on homeless prevention, outreach, interim housing, permanent housing, and supportive services.

Period Covered: July 1, 2017 - December 31, 2023 (78 months total)

108,969 people placed in permanent housing.

40,711 of permanent housing placements (**37.4%**) were completely or partially funded through **Measure H**.

148,026 people placed in interim housing.

77,709 of interim housing placements (**52.5%**) were completely or partially funded through **Measure H**.

34,265 people have been prevented from becoming homeless.

9,351 of people prevented from becoming homeless (**27.3 %**) were completely or partially funded through **Measure H**.

The report also tracks progress from **July 1, 2023 – December 31, 2023**, representing the first two completed quarters of the current fiscal year (FY) 2023-24.

During this period, the Homeless Rehousing System moved **14,604** people into permanent housing, provided interim housing to **19,572** people, and prevented **6,244** people from becoming homeless. Of these, **5,092** people were moved into permanent housing, **8,107** moved into interim housing, and **1,104** people were prevented from becoming homeless through Measure H-funded programs.

STATE OF EMERGENCY

On January 10, 2023, the Los Angeles County Board of Supervisors unanimously adopted a motion to proclaim a State of Emergency for homelessness. The County's local emergency declaration provided the Homeless Initiative office and other County departments with increased authority to take steps to expedite and streamline the creation of housing, expand services, more effectively and efficiently use funds, and other administrative processes that have enabled the County to be nimbler and more responsive.

Los Angeles County is responsible for the many tools that make homelessness solvable, but we can only achieve success by harnessing the collective expertise and resources of all our partners. The Board of Supervisors has tasked the Homeless Initiative to lead an unprecedented collaboration among County departments, elected officials, local jurisdictions, service providers, and people who have lived the experience of homelessness. Together, we have a shared plan and focus: we're tightening our region's social safety net, increasing efforts to prevent homelessness, and scaling up bold new solutions to end it.

Several initiatives within this shared plan were noted in Quarterly Report 28 and updates on these efforts are provided below.

Los Angeles County Encampment Resolution – Pathway Home

Launched in August 2023, Pathway Home is an innovative encampment resolution program designed to promote system flow by moving people off the streets and into permanent, stable housing while also returning community spaces to their intended use.

Through Pathway Home, the County is leveraging its emergency powers and working with County departments, invaluable service providers, LAHSA, and other local jurisdictional partners to expand, enhance and expedite:

- **Outreach in Encampments:** We are expanding the number of specialized teams from County Departments such as DMH, DHS, DPH and other agencies – as well as from our trusted partners and community organizations – to work intensively with people who live with various physical and behavioral health needs.

- **Housing:** This includes expanding a diverse array of **interim housing options** at non-congregate hotels and available shelters that people can move into immediately while being matched to rental subsidies, benefits, and other resources to enable them to secure **permanent housing**. The County will also continue acquiring and refurbishing motels and hotels under Project Homekey, which will bring new permanent homes online faster and more cost efficiently than is possible through traditional construction.
- **Supportive Services:** Services such as physical and behavioral health care, substance use disorder treatment, benefits enrollment support, and more are critical to supporting people transitioning out of homelessness in regaining long-term housing and enabling formerly homeless individuals residing in permanent housing to remain successfully housed.

Eight Pathway Home operations took place during the first two quarters of the current fiscal year, bringing more than 390 people off the streets and into safe interim housing, where they began receiving supportive services and other resources to help them transition out of homelessness and into permanent housing. These operations also removed 99 dilapidated recreational vehicles being used as makeshift dwellings from community streets.

During this reporting period (the second quarter of the current fiscal year), the Homeless Initiative, in partnership with local jurisdictions, executed **six Pathway Home encampment resolutions** across the County, in communities including Hawthorne, Unincorporated East Gardena, Pomona, Lynwood, and Unincorporated Walnut Park/Firestone. Additionally, HI provided a Pathway Home to dozens of Tropical Storm Hilary evacuees from encampments that were precariously located near the Rio Hondo and San Gabriel Rivers and Santa Fe Dam spillway.

In July 2023, the County added **Pathway Home Service Connection Events** as a routine service provided at interim housing sites utilized for both the County's Pathway Home and Inside Safe, the City of Los Angeles's (the City) Encampment Resolution program. Pathway Home Service Connect Events are County-organized “one-stop-shops” for people experiencing homelessness as they come indoors. The

County mobilizes government and nonprofit partners to activate a day of local, state, and federal resource navigation at the interim housing sites where people experiencing homelessness are newly housed, giving them the opportunity to access essential resources to continue their journey to housing stability. Service Connection Events usually take place at the motel-based interim housing sites a few weeks after move-in day to enable residents to acclimate to their new location and give the interim housing provider time to develop an interest list of services for their new residents.

During the first two quarters of FY 2023-24, **Fourteen Service Connection Events** took place, connecting approximately **745 Inside Safe and Pathway Home participants** with County services and resources including health, mental health, and substance use disorder services; DPSS resources including Medi-Cal, CalFresh, and General Relief; resources for veterans and immigrants; and more.

Support for the City of Los Angeles Homeless Emergency Declaration

In support of Mayor Karen Bass and Inside Safe, the City's Encampment Resolution program, the Homeless Initiative, and several County departments (including DHS, DMH, DPH, DPSS, and LACDA) have been partnering in support of the City's state of emergency on homelessness. This partnership includes aligning County-operated and contracted resources to support the City, including outreach teams, interim and permanent housing resources, and County department services. The County has played a key role in all Inside Safe operations. **Thirteen Inside Safe Encampment Resolutions** took place during the first two quarters of FY 2023-24, bringing an estimated 650 people inside.

Strategy Leads: LAHSA

The County's Coordinated Entry System (CES), managed by LAHSA, is the network that aligns homeless services to ensure resources are efficiently and equitably distributed Countywide to support people experiencing homelessness.

CES serves as the organizational backbone of homeless services and enables service providers to connect people experiencing homelessness to solutions as quickly as possible.

Highlights During this Reporting Period

- Coordinated Entry System:** During this quarter, 12,762 unique households were assessed for housing and services for the first time. Additionally, 11,256 people/households increased their income during this reporting period.

- Domestic Violence (DV) System**

Alignment: This quarter saw numerous developments for the Domestic

Violence Regional Coordinator (DVRC) program. SPAs 4 and 5 each hired and onboarded a DV Coordinator, resulting in all DV Regional Coordinator positions being fully staffed. The DVRC established 32 unique partnerships and hosted 41 training and education opportunities for victim service providers and homeless service providers across the County.

During the month of October, Domestic Violence Awareness month, the DVRC hosted numerous events and presentations to highlight the intersection of domestic violence and homelessness. In SPA 1, the DVRC put together the SPA's first-ever C.O.U.R.A.G.E. (Community and Organizations Unite: Resources, Advocacy, Guidance and Education) Conference. The conference featured a panel of nine service providers and advocated with lived experience who discussed SPA-specific needs and challenges and created space for community connection to resources.

Additionally, the DVRC provided technical assistance (TA) in collaboration with LAHSA's Permanent and Interim Housing Departments to assist contracted providers with

program enrollment and spenddown of program funding. The DV Programs Coordinator held DV Shared Space TA calls to further streamline connections to permanent housing, build partnerships between providers, and provide training and guidance related to specific victimizations.

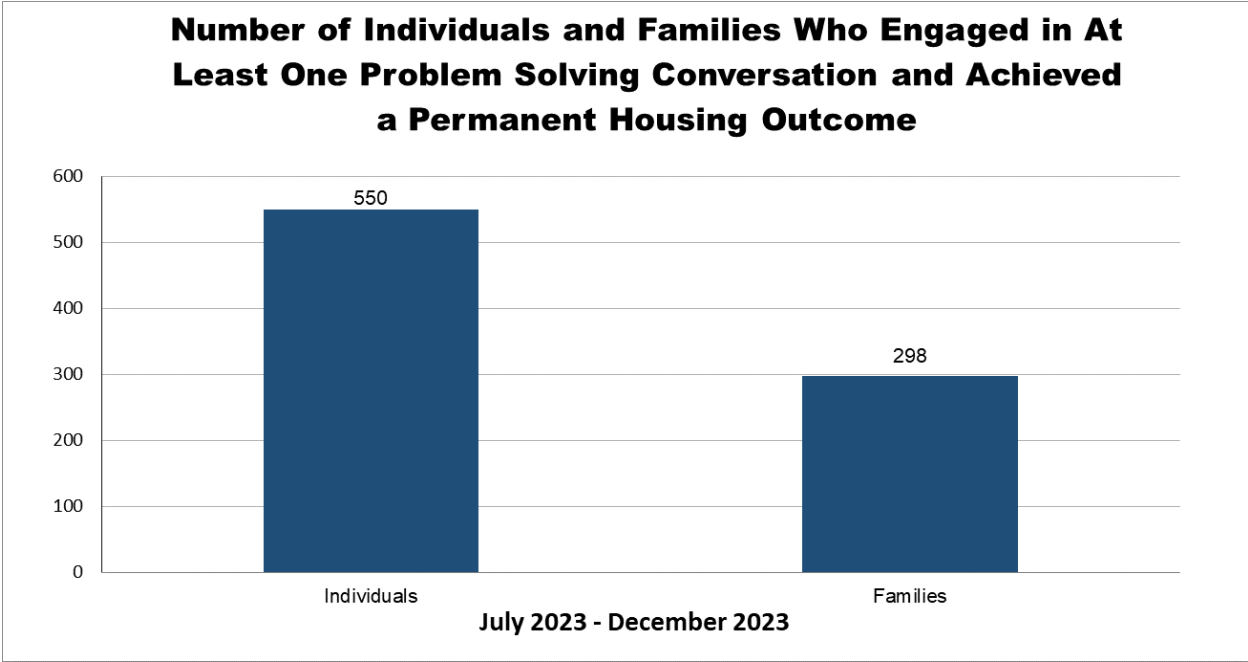

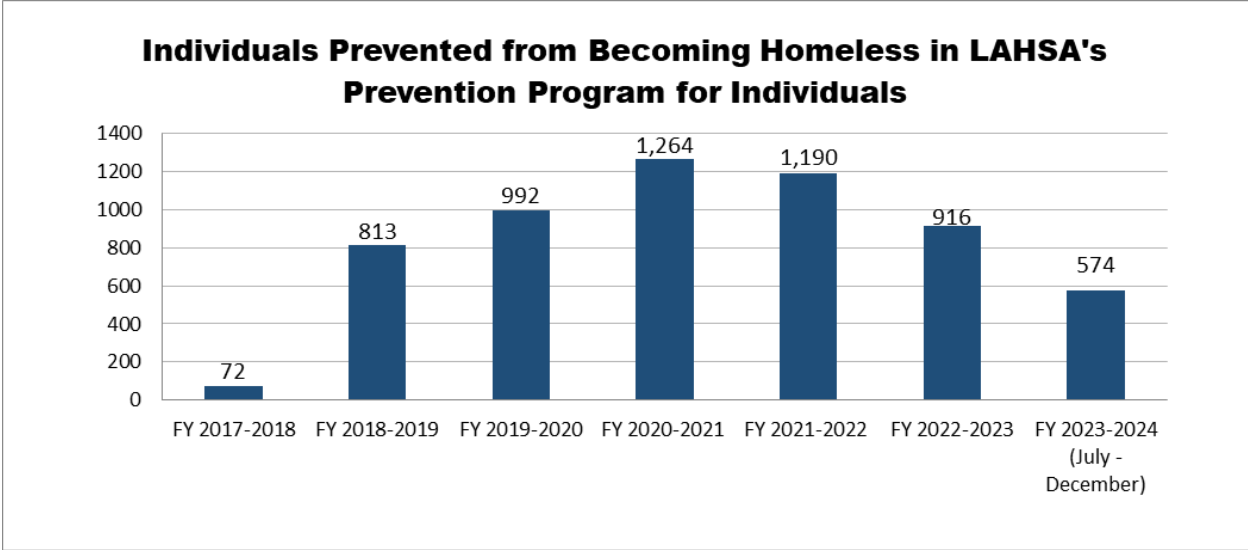

Strategy Leads: LAHSA, DHS, DCFS

[Homeless Prevention](#) services support rent-burdened, low-income families and individuals in resolving crises that could cause the loss of their home.

Homeless prevention services include short-term rental subsidies, housing conflict resolution, mediation with landlords and/or property managers, legal defense against eviction, and problem-solving.

[Problem-solving](#) is a person-centered, short-term housing intervention that assists households in maintaining their current housing or identifying an immediate and safe housing alternative within their own social network. This strategy uses exploratory conversation, mediation, empowerment methods, and financial assistance to help resolve the person’s crises or quickly connect them to existing emergency or crisis housing services.

Highlights During this Reporting Period

- **LAHSA Homeless Prevention:** During this reporting period, LAHSA served **2,039** families and **1,583** individuals. Approximately 86% of single individuals and families who were exited from the prevention program maintained a permanent housing placement.

This quarter, the Homeless Prevention team facilitated several trainings, including a DV training for service providers to ensure that staff is adequately trained in best practices and resources when supporting DV survivors.

In addition, Homeless Prevention providers received information on the United to House Los Angeles Emergency Renters Assistance Program (ULA ERAP), which assists low-income residents with unpaid rent as a result of COVID-19. Providers also participated in California's Income Discrimination Law Training, which provides an overview on legal ramifications for landlords who are unwilling to work with programs. Lastly providers received a list of resources targeted toward undocumented individuals, including information on options for this population to increase their income and public benefits for which they are eligible to apply.

- **LAHSA Problem-Solving:** LAHSA's Problem-Solving Unit is creating a Housing Problem-Solving Intervention training for LAHSA outreach staff to increase street-to-home efforts for any unsheltered household that identifies housing through problem-solving intervention strategies. The Problem-Solving Unit also trains and engages interim housing staff on how to use problem-solving intervention to support transitions into permanent housing whenever possible.

During this reporting period, **179** families and **281** individuals who engaged in at least one problem-solving conversation moved into a permanent home.

CONNECT

Strategy Leads: LAHSA, DHS, DMH, LASD

[Street-Based Outreach](#) involves experienced teams building trusting relationships with people experiencing unsheltered homelessness and connecting them to housing, health and mental health care, substance use disorder treatment, and other services – a process that can vary in length and is customized to meet individuals' unique needs.

The County deploys different teams to conduct street-based outreach, including DHS Housing for Health's Multidisciplinary Teams (MDT), which serve clients with more complex health and/or behavioral health needs, and DMH Homeless Outreach and Mobile Engagement (HOME) specialist teams that serve clients with serious mental illness.

LAHSA’s CES Teams and Homeless Engagement Teams (HET) make initial contact and maintain ongoing engagement with people living on the streets, while LASD and LAHSA’s Homeless Outreach Services Teams (LASD HOST and LAHSA HOST) conduct outreach at larger encampments and hard-to-reach areas.

Number of Individuals Newly Engaged by Outreach Teams*

*Number of new engagements for FY 2021-22 and FY 2022-23 are trending lower than FY 2020-21 due to outreach staff returning to their standard activities, with a renewed focus on document readiness, and no longer widely conducting emergency COVID response.

Highlights During this Reporting Period

- Outreach:** Measure H-funded outreach teams, including DHS-Administered Multi-Disciplinary Teams (MDTs), LAHSA HET, and LAHSA-administered CES Outreach, play a crucial role in engaging, assessing, and connecting people experiencing unsheltered homelessness with appropriate housing interventions and lead encampment resolution efforts such as Pathway Home.

Through these efforts, Measure H-funded outreach teams connected **9,194** individuals with services and referrals during this reporting period and moved **1,848** and **328** people into interim and permanent housing, respectively.

- DHS Mobile Clinics:** Measure H-funded outreach teams work closely with the DHS Mobile Clinic program to deliver preventative care, specialty care, urgent care, psychiatry, behavioral health care, and other clinical services to unsheltered people experiencing homelessness directly in the field. The goal of the Mobile Clinic is to provide consistent, low-barrier, trauma-informed care that addresses the health and social needs of patients experiencing homelessness across the County. The DHS Mobile Clinic program also participated in Service Connection Events hosted by the Homeless Initiative to support Inside Safe and Pathway Home participants. The DHS Mobile Clinic provided services to **145** participants during this quarter.
- Mobile Showers:** Mobile shower providers including the Foothill Unity Center, Supports Solutions, Testimonial Community Love Center, and Shower of Hope continue to provide shower and hygiene services to participants who access their respective sites. Each provider also distributes hygiene kits with lotion, shampoo, conditioner, and towels to all participants, as well as bagged lunches, clothing, and light touch case management for identification vouchers and service navigation to other resources. During this reporting period, **1,176** unduplicated individuals were served.

HOUSE (INTERIM HOUSING)

Strategy Leads: LAHSA, DHS, DMH, DPH

[Interim Housing](#) provides safe temporary housing for people transitioning out of homelessness.

Types of interim housing include but are not limited to: emergency shelter; stabilization housing for individuals with complex health and or/behavioral health conditions; bridge housing for people exiting institutions such as jails, hospitals, or foster care; and recovery bridge housing for people undergoing outpatient treatment for substance use disorder.

Additionally, the County provides recuperative care facilities for people recovering from an acute illness or injury. It also provides Enriched Residential Care facilities (ERCs), also known as Board and Care, that provide 24/7 care and supervision in licensed residential facilities that can be either interim or permanent housing.

Systemwide, 148,026 people experiencing homelessness have used interim housing since Measure H-funding began in July 2017. Of those placements, 77,709 people used interim housing completely or partially funded by Measure H.

During this reporting period, 19,572 people utilized interim housing. This includes 8,107 people newly placed in interim housing funded with Measure H.

Highlights During this Reporting Period

- **DHS Interim Housing:** The DHS Housing for Health (HFH) Interim Housing Program partnered with CEO-HI and interim housing provider Volunteers of America to open a 45-bed interim housing facility in Pomona as part of the County’s Pathway Home program. Participants moved in directly from encampments in Pomona and are receiving robust case management, housing navigation services, and other resources. The DHS HFH Interim Housing Program will continue partnering with CEO-HI and interim housing providers to oversee upcoming Pathway Home projects in Compton, Santa Monica, Signal Hill, and Lancaster.

During this reporting period, the DHS HFH Interim Housing Program saw a significant increase in the number of interim housing participants matched to permanent supportive housing (PSH) resources compared to previous reporting years. This is due to systemic matching criteria changes which allow for the DHS HFH Interim Housing Program to identify “match ready” interim housing participants, who are then matched to project based PSH resources within the same geographic region.

- **LAHSA Interim Housing:** During this quarter, LAHSA made efforts to improve the homeless response system with a particular focus on encampments resolution efforts

and activating assistance during inclement weather events. These efforts included releasing a Request for Proposal (RFP) to identify additional interim housing providers for the Pathway Home program in anticipation of a significant increase in bed capacity. Additionally, LAHSA has also funded and operated the County’s Winter Shelter Program to provide care for unhoused individuals during inclement weather events with an increased focus on providing connections to permanent housing.

LAHSA has also continued efforts to increase services available to families seeking interim housing by transitioning families from motel voucher-based programs to new site-based Project Homekey family programs. In May 2023, Hope the Mission used Homekey Round 2 funding to open the 818, a 100-unit Family interim housing site in Woodland Hills. The site was fully leased up and occupied by August 2023.

- **Interim Housing Cost Study:** In response to concerns from service providers about cost reimbursement rates for interim housing sites, CEO-HI and LAHSA, in collaboration with Abt Associates, conducted a cost study analysis on the interim housing portfolio across the County. CEO-HI and LAHSA are now working with DMH, DHS and the City of Los Angeles to develop an equitable cost rate formula to inform future interim housing bed rates. An initial webinar to solicit feedback from providers took place in November 2023, and more opportunities for provider feedback are planned to ensure the new bed rate formula incorporates the difficulties providers face in serving interim housing participants.

HOUSE (PERMANENT HOUSING)

Strategy Leads: LAHSA, DHS, DMH, DPH, LACDA

[Permanent Housing](#) strategies lift people out of homelessness by offering either short- or long-term rental subsidies in combination with varied levels of supportive services.

One type of permanent housing is Permanent Supportive Housing (PSH), which provides long-term rental subsidies and supportive services to individuals who have experienced chronic homelessness and have disabilities, chronic medical conditions, and/or behavioral health conditions.

Since July 1, 2017, the County’s homeless services system has placed 108,969 people in permanent housing, with 40,711 of the placements supported by Measure H funding.

During the first two quarters of FY 2023-24, a total of 14,604 people were placed in permanent housing through the County’s homeless services system, including 5,092 Measure H-funded placements. This includes all types of permanent housing, such as rapid rehousing and PSH.

*There may be duplication between clients who obtained housing with support from the Landlord Incentive Program and clients who were housed in PSH because the first program is used to incentivize landlords to accept PSH vouchers.

Highlights During this Reporting Period

- **LAHSA Time-Limited Subsidies (TLS):** LAHSA continues to advance racial equity through TLS and permanent housing placements. Two of LAHSA’s TLS team members are actively participating in strategic planning goals and objectives associated with LAHSA’s Equity Committee. The TLS team is collaborating with the LAHSA Ad Hoc Committee on Black

People Experiencing Homelessness (Committee) to develop objectives centered on permanent housing and the recommendations noted in the [“Report and Recommendations of the Ad Hoc Committee on Black People Experiencing Homelessness.”](#) During this reporting period, the LAHSA TLS team presented an action plan to the Committee outlining strategies being implemented within TLS practices to promote and advance racial equity among TLS programs.

During this reporting period, **15,209** individuals were served. Of these, **2,997** individuals secured permanent housing.

- **DHS Permanent Supportive Housing:**

DHS HFH targets tenant-based voucher holders and uses internal programs to ensure clients are leasing up with vouchers more quickly. During this reporting period, DHS HFH leased up **1,752** new participants in PSH. Additionally, DHS HFH saw a one-year client retention rate of 92% and a two-year retention rate of 85%. There was a slight decrease in the two-year retention rate during this reporting period, potentially due to the ending of COVID-era eviction protections. DHS is working with contracted providers to ensure participants can work through challenges with landlords and take appropriate action to avoid further evictions.

DHS HFH is collaborating with LAHSA to ensure all ICMS slots are being utilized to promote system flow. During this reporting period, DHS HFH has funded ICMS for an additional **697** project-based housing slots corresponding with units that are in the process of leasing up in approximately 16 new project-based PSH buildings. These buildings are in SPAs 2, 4, 5, 6, and 8.

- **DHS Intensive Case Management Services (ICMS):**

DHS HFH is collaborating with LAHSA to ensure all ICMS slots are being utilized to promote system flow. During this reporting period, DHS HFH has funded ICMS for an additional **697** project-based housing slots corresponding with units that are in the process of leasing up in approximately 16 new project-based PSH buildings. These buildings are in SPAs 2, 4, 5, 6, and 8.

- **Centralized Master Lease Pilot:** During this quarter, CEO-HI and LAHSA launched the Centralized Master Lease pilot in which LAHSA leases entire buildings and subleases units to tenants. LAHSA is engaging with property owners, service providers, property managers, and a fiscal agent to operate the pilot. This allows for tenants to lease their units quickly without the traditional barriers of screening criteria and document readiness needed to use tenant-based subsidies. The pilot has opened **160 new units** this quarter.

Strategy Leads: DHS, DMH, DCFS, LASD, DEO, PD

Most families and individuals experiencing homelessness benefit from some level of case management and [supportive services](#) to secure and maintain permanent housing, though their needs vary depending on individual circumstances.

Appropriate case management and supportive services enable families and individuals transitioning out of homelessness to use rental subsidies, increase their income, and access public services and benefits. Individuals experiencing homelessness who live with a severe disability can increase their income through federal disability benefits while many adults can do so by securing employment.

Employment Programs:

The Department of Economic Opportunity (DEO) uses Measure H to fund employment programs such as [LA:RISE](#), [Careers for a Cause](#), [Hire Up](#), and [Alternative Staffing Organizations](#).

*Data for unsubsidized employment is generated based on base wage data reported to the California Employment Development Department. It is updated as it becomes available. The outcomes for unsubsidized employment typically increase significantly in the quarters following the report, which will be reflected in subsequent CEO-HI quarterly reports.

Through the [Criminal Record Clearing Project](#), the LA County [Public Defender](#) and [LA City Attorney](#) provide legal services to support people experiencing or at risk of homelessness in resolving outstanding infractions and associated warrants, which are often barriers to housing, employment, education, and legal immigration.

Criminal Record Clearing Project

Highlights During this Reporting Period

- Countywide Benefits Entitlement Services Team (CBEST):** The CBEST team filed **633** initial applications, **148** reconsiderations, and **60** appeals on behalf of approximately **519** clients during this reporting period. Of the applications filed, **127** CBEST clients were approved for benefits, receiving an average of \$1,120 per month and more than \$2 million in backpay. Seven veterans were awarded an average \$2,699 per month and over \$220k in backpay. During this reporting period, the CBEST team also provided onsite services at eight Pathway Home Service Connection events to assist Pathway Home and Inside Safe participants in enrolling for disability benefits.
- The Department of Public Social Services (DPSS):** The Transitional Subsidized Employment (TSE) Program is offered to CalWORKs participants experiencing homelessness at various points in their welfare-to-work journey. The Greater Avenues for Independence (GAIN) program works with local partners to provide TSE opportunities to participants completing job readiness and school activities. There were

146 referrals and **63** subsidized employments during this reporting period – a 47% increase over the same reporting period in fiscal year 2022-2023.

ADDITIONAL DEVELOPMENTS

Homekey

Los Angeles County's latest round of Homekey 3.0 grants will create **562** units for people experiencing homelessness, including youth and young adults, and support Pathway Home efforts in Exposition Park, Hollywood, Lancaster, Palmdale, Baldwin Park, and Carson.

The State of California announced a combined total of \$162 million in Homekey 3.0 grants to Los Angeles

County and its nonprofit partners to develop 186 units of interim housing for youth and young adults, and Pathway Home initiatives, and 376 units of permanent housing with supportive services for individuals who are elderly and/or have physical and/or behavioral health disabilities.

With support from these latest grants, the County now has 31 Homekey-funded projects with a combined **2,021** units in the development pipeline.

FY 2024-25 Annual Funding Recommendations

During the months of October and November 2023, the Homeless Initiative held a series of 17 community listening sessions to strengthen strategies for addressing and preventing homelessness and to inform our annual funding recommendation for homeless services and housing in fiscal year 2024-2025.

During these listening sessions, CEO-HI solicited feedback from a diverse array of stakeholders and partners to ensure the updated strategies and budget respond to the unique needs and priorities of communities countywide. This year, the goal for these listening sessions was to understand the limits and capabilities of CEO-HI funding in relation to other homeless and housing funding sources to ensure the most restrictive funds are paired with nimble resources. CEO-HI is using flexible resources, such as Measure H, to fill gaps, expand capacity where

needed, and calibrate investments to maximize impact by anchoring to CEO-HI's New Framework.

Prevention and Promotion Systems Governing Committee (PPSGC)

Last summer, the Board adopted a [motion](#) recognizing the Prevention Services Task Force (Task Force) for its efforts in helping the County outline a vision for prevention and promotion services as well as taking several actions to advance and build a Countywide prevention infrastructure. Among other actions, the Board also moved to establish the PPSGC, whose specific and immediate focus is to oversee the coordination and collaboration of prevention and promotion services Countywide. The PPSGC is also responsible for establishing three initial key focus areas to anchor foundational prevention and promotion services infrastructure: child welfare and family wellbeing; homelessness and housing; and behavioral health. During this reporting period, Task Force members and staff continue to compile the finalize an inventory of various prevention domains which will then be submitted to the PPSGC to assist its planning, oversight, and implementation of coordinating activities, both in the three initial focus areas but also across all other relevant prevention programs.

SUCCESS STORIES

Antonio

When the company where Antonio, 49, had worked for several years closed its doors, he found himself at risk of homelessness without a consistent source of income. He struggled to find employment that covered basic expenses and recognized that a different skill set would better serve him and his family long-term. Eventually, he discovered the LA:RISE program through the County Department of Economic Opportunity. Antonio began meeting with an LA:RISE case manager who helped him set attainable employment goals and develop a plan to achieve them. With support from his case manager, Antonio set a goal to become a truck driver and obtain his Class A Commercial Driver's License.

In October 2023, Antonio completed the required drivers' trainings, overcoming significant financial and personal hardship to do so. LA:RISE provided him with transportation support to travel to and from the training site and ongoing job search support after he completed his training. As a newly trained driver, it was challenging for Antonio to find an employer willing to accommodate the necessary year of driving experience he would need to secure most professional driving jobs. After months of perseverant searching, he was offered a position as a Trash Collector with the City of Burbank, a role that put his new driving skills to use and served as steppingstone on his path to financial stability for him and his family.

Young

Young, 59, became homeless following a string of devastating events that derailed his life. He lost several loved ones and sustained life-altering injuries in a traumatic car accident, which led him to become addicted to prescription drugs. From that point, Young fell into a downward spiral. He lost his housing and spent years in and out of prison. Upon his most recent release in February 2023, a switch flipped. Young set three goals for himself: sobriety, housing, and employment.

Young connected with Chrysalis Enterprises through the County Department of Economic Opportunity, where he began meeting with an employment specialist, working in a transitional employment role full time, and earning consistent income through Chrysalis. He looks forward to using his transitional employment experience to secure a long-term, meaningful job that meets his financial goals and enables him to maintain housing stability.

“A better life is waiting. All you have to do is try. It can happen for them because it’s happening for me.”

Saul

Saul, 25, was living with his parents when a family disagreement landed him in jail. With nowhere to go after his release and no support network to lean on, he fell into homelessness. Saul was referred to Home At Last through the County Department of Public Social Services, a re-entry program to support men in regaining housing stability after they are released from jail.

Through the Home At Last program, Saul received comprehensive services to help him achieve long-term housing stability, including regular therapy appointments and support in producing the essential documents he needed to apply for employment and begin his housing search. He began working with a housing navigator who helped him enroll in the Time-Limited Subsidy program, which enabled him to quickly move into a permanent apartment. Saul also began working with a case manager to update his resume, complete job applications, and prepare for interviews. Eventually, he was offered a job at El Pollo Loco.

Jasmine

Jasmine, now 25, experienced homelessness off and on after exiting the foster care system when she turned 18. After years of constant stress over where she was going to sleep each night, she began researching programs to help find housing. Through her research, she learned she was eligible for the Family Unification Program (FUP), which provides Housing Choice Vouchers to Transition-Age Youth who have exited the foster care system and not yet reached age 25.

Then 24, Jasmine sprang into action. She applied for the FUP program through LAHSA, which connected her with the Los Angeles County Development Authority (LACDA). She began working with a housing navigator at LACDA who helped her secure the necessary

paperwork to apply for the voucher, identify housing leads, and submit applications for available units. Eventually, they found a perfect one-bedroom home. Jasmine moved in just three days before her 25th birthday. Now that she finally feels comfortable and safe in her own space, Jasmine is back in school and deciding on a future career path.

Robert

Robert, 41, and his family were receiving housing support through the Shallow Subsidy program, which provides support to cover a portion of tenants' rent as they transition off Time-Limited Subsidies and have sufficient income to contribute about half of the rent, when he unexpectedly lost his job. Around this time, his partner gave birth to the couple's second child, which put additional financial strain on the family. Without a steady source of income to supplement their Shallow Subsidy, the family quickly became rent-burdened, and Robert immediately began researching and applying for affordable housing programs. He and his family eventually connected with a case manager at The Salvation Army, where they began receiving comprehensive case management and regular check-ins to support their search for affordable housing.

Eventually, Robert and his family were accepted into an affordable housing unit through the Many Mansions program and moved into their new home in 2023. Robert has achieved his goal of securing long-term housing subsidy to support housing stability for him and his family. No longer rent-burdened, he now has leftover income each month to put into savings. He and his partner look forward to watching their children grow up in their new home.

Fiscal Year 2023-2024**

STABILIZE							
STRATEGY	METRIC	FISCAL YEAR 2019/2020	FISCAL YEAR 2020/2021	FISCAL YEAR 2021/2022	FISCAL YEAR 2022/2023	Q1 of FISCAL YEAR 2023/2024 (July- September 2023)	Q1 & Q2 of FISCAL YEAR 2023/2024 (July- December 2023)
Countywide SSI/Veterans Benefits Advocacy Program for People/ Veterans/ Inmates Experiencing Homelessness or at Risk of Homelessness* (Formerly known as Strategy C4/5/6)	Number of individuals newly enrolled in CBEST	5,739	3,439	4,570	5,343	1,753	2,983
	Number of individuals currently enrolled in CBEST	16,888	12,839	9,945	10,202	7,028	8,165
	Number of CBEST participants whose applications for SSI/Veterans' benefits were submitted	2,168	1,564	2,133	2,005	625	1,153
	Number of CBEST participants whose applications for SSI/Veterans' benefits were denied	78	95	119	94	31	86
	Number of CBEST participants whose applications for SSI/Veterans' benefits are pending disposition	2,007	1,673	1,842	1,820	Unavailable	2,055
	Number of CBEST participants approved for SSI/Veterans' benefits	839	584	697	730	204	346
	Number of Clients Receiving Case Management Services to Resolve Vital Document Issues <i>(New Metric for FY 23-24)**</i>	Not available	1,442	2,418	2,144	989	1,429

*CBEST's decline in enrollments over the last few quarters is due to: data clean-up since 7/2020; loss of two one-time funding streams in FY 21-22; and DPSS' closure during the pandemic, which impacted referral volume in FY 20-21. CBEST anticipates an increase in enrollments with new funding now available and DPSS' reopening.

** Previously reported as Number of Participants Receiving Benefits Advocacy Services (BAS) Intensive Case Management Services, which was a subset of this new metric.

Notes:

- Countywide Outreach System data is broken down by the Service Planning Area in which the participant was served. Beginning FY 2023-24 data is for two types of outreach teams: Department of Health Services' Multidisciplinary Teams (MDTs) and Los Angeles Homeless Services Authority (LAHSA) Homeless Engagement Teams (HET). Due to participants being enrolled into multiple programs across countywide outreach teams, the total number per SPA does not equal the sum of all teams added together. Data for metrics on services/referrals, crisis housing, and permanent housing include individuals who were engaged during the reporting period but may have been engaged for the first time in a prior reporting period. Therefore, the total number who received services/referrals exceeds the total number who were newly engaged.

Demographic Enrollment/Service Data for Select HI Strategies for Quarter 2 FY 2023-24

Notes:

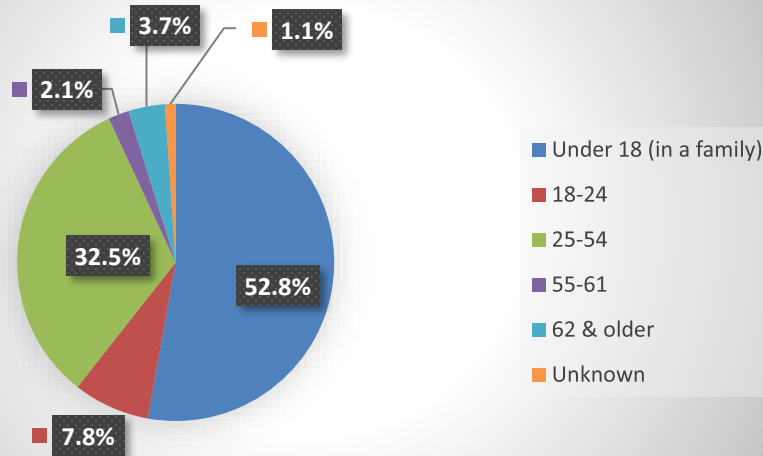

- For Prevention for families and individuals, data is only reported for clients in homeless prevention programs for the following metrics: newly enrolled, number served, permanent housing exits, and those that retained housing for 6 months. Problem Solving clients are only reported under problem solving: those that achieved a permanent housing outcome.
- "Number Served" refers to all participants served during the reporting period, some of whom were enrolled prior to the reporting period.
- Beginning FY 2023-24 data is for two types of outreach teams: Department of Health Services' Multidisciplinary Teams (MDTs) and Los Angeles Homeless Services Authority (LAHSA) Homeless Engagement Teams (HET). The data provided is de-duplicated. Family counts for the E6 data may be underrepresented due to incomplete household identifying data.
- The Interim/Bridge housing data only includes data from LAHSA and DPH for this quarter as DHS's Interim/Bridge housing data is now encompassed in the
