

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

WEBVTT

1 "BOS Commission Services" (1510505472)

00:00:00.556 --> 00:00:15.359

Well, don't. I requested it. I can I'll tell you about it in a second. I know and I even do either way. You can choose. I've just requested that we have also playcoms. Okay.

2 "BOS Commission Services" (1510505472)

00:00:15.359 --> 00:00:33.600

Yeah, great. Good morning, everyone. We are going to officially begin this meeting. Today is Thursday 7th 2026. This is the regular meeting of the Los Angeles County civil brand Commission for institutional inspection.

3 "BOS Commission Services" (1510505472)

00:00:33.600 --> 00:00:50.310

We will do a call to order now and begin with the Los Angeles county land acknowledgement. The county of Los Angeles recognizes that we occupy land originally and still inhabit and paired for by the Tomba. Sarano, Heish, and Chumash Peoples.

4 "BOS Commission Services" (1510505472)

00:00:50.310 --> 00:01:10.310

We honor and pay respect to their elders and descendants past, present and emerging as they continue their stewardship of the lands and waters. We acknowledge that colonization resulted, disease, subjections, slavery, relocation, broken promises, genocide and multi generational trauma. This acknowledgement demonstrates our responsibility.

5 "BOS Commission Services" (1510505472)

00:01:10.310 --> 00:01:17.970

Commitment to truth healing and reconciliation and to elevating the story of culture and the community of the original inhabitation of Los Angeles County.

6 "BOS Commission Services" (1510505472)

00:01:17.970 --> 00:01:36.450

We are grateful to have the opportunity to live and work on the excessor lands. We are dedicated to growing and sustaining relationships with native peoples and local tribal governments, including in NO particular order, done Fernando and Danielle, Tatabium band of Mission Indians, the Gabrielino, Tomba, Indians of California Tribal council.

7 "BOS Commission Services" (1510505472)

00:01:36.450 --> 00:01:56.450

The Gabrielino, Tomba, San Gabriel band of Mission Indians, the Gabrielino Band of Mission Indians nation. The Coastal Band of Chumash Nation, the Gabrielino Tomba Nation, the Gabrielino tombs.

8 "BOS Commission Services" (1510505472)

00:01:56.450 --> 00:02:09.660

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

To learn more about the 1st peoples of Los Angeles county, please visit the Los Angeles City/county Native American Indian Commission website@LANAIC.LA county.gov.

9 "BOS Commission Services" (1510505472)

00:02:09.660 --> 00:02:24.900

Alright, so today is 7 May as I mentioned. I want to acknowledge at the top of this meeting that since January 2026, there have been 17 deaths in the Los Angeles County jails.

10 "BOS Commission Services" (1510505472)

00:02:24.900 --> 00:02:44.900

There have been six deaths since our last meeting, which was held in March. I will acknowledge that on 1 May there was a death in MCJ, on 28 April there was a death in MCJ on 21 April.

11 "BOS Commission Services" (1510505472)

00:02:44.900 --> 00:03:04.740

There was a death in TTCF on 10 April there was a death at TTCF. On 4 April, there was a death at mcjs, and April second there was a death at Win Towers correctional facilities. I want to acknowledge those lives lost and acknowledge the impacted families and community members.

12 "BOS Commission Services" (1510505472)

00:03:04.740 --> 00:03:20.310

And, I hope again that we can continue to work to make changes in this facility so that premiss your deaths do not happen. Thank you. Can we please do roll call?

13 "BOS Commission Services" (1510505472)

00:03:20.310 --> 00:03:40.310

Vice chairperson guides. Commissioner Pam with Hompsonville. Commissioner Edonis here. Thank you, and commissioner Mary for all. Thank you. We do have an in person forum present.

14 "BOS Commission Services" (1510505472)

00:03:40.310 --> 00:04:00.310

Thank you so much. I'd also like to begin today with the introduction of our new commissioner. We have Pamela Thompson Bell president this morning, and I would love if we could get a little space for you to introduce yourself. Yes. Well, my name is Paula Thompson. I'm a new commissioner. I'm very excited to be here and I'll.

15 "BOS Commission Services" (1510505472)

00:04:00.310 --> 00:04:13.800

If you want to share anything about your background about where which board district you're representing, anything like that? Yes, so I'm representing Hilda Ceilise district. I'm farmed incarcerated.

16 "BOS Commission Services" (1510505472)

00:04:13.800 --> 00:04:33.800

And, we are so glad to have you on the commission. We are so glad that you'll be joining us but hopefully we'll get you up to speed to be able to get on inspection soon. I know we're working through that already and

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

have sent your paperwork process and getting that moved through. So hopefully you have a sense of the time.

17 "BOS Commission Services" (1510505472)

00:04:33.800 --> 00:04:49.769

Probably not yet, but I just wanted documented that we are unable to do our job.

18 "BOS Commission Services" (1510505472)

00:04:49.769 --> 00:05:06.389

Absolutely. And so we have Pamela joining which is amazing, amazing news and hopefully a new SD three commissioner joining soon, and then there is a still a macancy in SD five and so we're hoping SD five can fill that soon so we can be fully.

19 "BOS Commission Services" (1510505472)

00:05:06.389 --> 00:05:26.389

Team commission full ready to go and able to do our full duty and responsibilities. So thank you commissioner Thompson now, thank you so much for being here and for being part of the commission, and we are very much looking forward to working with you. Thank you. I will officially call this meeting to order.

20 "BOS Commission Services" (1510505472)

00:05:26.389 --> 00:05:42.269

Oh alright, into our 1st order of business which is reports. We have, we did not have a meeting in April due to lack of forum, and so we have quite a few follow UPS that we need.

21 "BOS Commission Services" (1510505472)

00:05:42.269 --> 00:06:01.139

There are both follow UPS that came from inspections which were emailed over and so we have some questions listed on there and then some from the previous meeting as well. So 1st I will turn it over to you commander Ventoy, if there's anything you want to share at the top and then we can go through the questions. Thank you. And.

22 "BOS Commission Services" (1510505472)

00:06:01.139 --> 00:06:18.419

Commissioner Commissioner Brotter, just to expand, again, it's unfortunate we did have 17 debts so far forth the year of 2026. With that, five of them have been natural. Twelve, the autopsies are still pending. Eleven occurred in hospitals.

23 "BOS Commission Services" (1510505472)

00:06:18.419 --> 00:06:34.499

And as you mentioned, three occurred at men Central jail, two at Twin Towers correctional facility, and one at North County Correctional facility. Thank you. Going on into some of the follow up questions that were asked.

24 "BOS Commission Services" (1510505472)

00:06:34.499 --> 00:06:54.499

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

Regarding men Central jails, the population for dorm of 5900, the capacity is 124. However, as of yesterday, there were only 74 individuals housed in that area. Can I ask a question on that? So Commissioner Vernald and I will mention.

25 "BOS Commission Services" (1510505472)

00:06:54.499 --> 00:07:04.859

Considering our report which addresses that inspection where that question came up from. Where does that capacity number come from? Is that like a fire safety code?

26 "BOS Commission Services" (1510505472)

00:07:04.859 --> 00:07:24.859

So full with only probably 74 in there. It's very crowded. And I assume it's because they can be true, you're allowing triple box. Right, and unfortunately, because of our limited capacity and our growing population regarding special classifications, we have to continuously evaluate and expand certain housing areas, that's why you will see.

27 "BOS Commission Services" (1510505472)

00:07:24.859 --> 00:07:27.179

The some areas will have a higher.

28 "BOS Commission Services" (1510505472)

00:07:27.179 --> 00:07:45.029

Capacity for individuals while other areas, the population capacity will be a lot smaller. And we would love to have smaller capacities in all of our housing areas except we just have to accommodate all of our special classifications. So on the 5004.

29 "BOS Commission Services" (1510505472)

00:07:45.029 --> 00:08:02.609

Now with our incarcerated persons who have varying degrees of mental health issues, our mental health population has expanded. Right now we're looking at, I believe 49 % of our total population have or are classified as.

30 "BOS Commission Services" (1510505472)

00:08:02.609 --> 00:08:22.609

Having a mental health concern that are classified as either MOH or HOH inmates. And because of that we have to make additional housing areas for them so that we can continue assisting the inmate reception center with their processing. So because of the ratherford decision at the inmate reception.

31 "BOS Commission Services" (1510505472)

00:08:22.609 --> 00:08:31.619

Center, we have only 24 h to move incarcerate persons out of our intake area. Our intake area is also the area where.

32 "BOS Commission Services" (1510505472)

00:08:31.619 --> 00:08:48.329

We need to bring individuals down from other facilities so that they can have emergency and mental health evaluations so that they, if they're

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

experiencing a mental health crisis, they can be reevaluated and then housed appropriately. So we have to ensure that there's continual movement out.

33 "BOS Commission Services" (1510505472)

00:08:48.329 --> 00:09:08.329

Out of the inmate reception center, therefore we have to ensure that we have enough housing to place people and due to the time constraints and due to the proximity, it's only 20 Towers correctional facility and med Central jail, that we have the option of moving them out so that we we maintain compliance with the Brotherford decision and the temporary.

34 "BOS Commission Services" (1510505472)

00:09:08.329 --> 00:09:25.469

Restraining order that we're under. So with that, we have to increase housing, whether it's at Twin Towers correctional facility or it's men Central jail. Unfortunately, we all understand there are challenges with men men Central jail, but at this point, that's where.

35 "BOS Commission Services" (1510505472)

00:09:25.469 --> 00:09:44.729

That has been designated as an area where that we are, we are able to expand. Unfortunately, we do have to utilize the triple bunks, but again, that's because we need that space so that we can accommodate the special classifications. I think that's really helpful to understand because it's, it's a system and so when the department talks about that they're.

36 "BOS Commission Services" (1510505472)

00:09:44.729 --> 00:10:01.499

Meeting the demands of the TRO, they're really it's just kind of permeating through the rest of the jail so it's kind of not really being addressed. And maybe this is a CHS question, but I, can you talk a little bit about what sort of.

37 "BOS Commission Services" (1510505472)

00:10:01.499 --> 00:10:18.149

Other things MOH people get that they have to be segregated like that because that dorm is not getting mental health care at all except for I think maybe comes in sometimes and says.

38 "BOS Commission Services" (1510505472)

00:10:18.149 --> 00:10:38.149

Do you want to kill yourself in this moment? And that's it, and they get meds, but there's not mental health care that I can tell and I think it's probably making them significantly worse with their mental illness given the conditions. So I don't I that was sort of my question. And then maybe for our next meeting, it might be.

39 "BOS Commission Services" (1510505472)

00:10:38.149 --> 00:10:45.659

Helpful for us to have someone from population management hero or something come in and explain to us or help us understand.

40 "BOS Commission Services" (1510505472)

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

00:10:45.659 --> 00:11:05.659

The flow of why the department chooses to use the most decreuded facility that even the sheriff talks about thinking is horrible to stage people. And it seems like it's logistics and convenience more than the safety and security of the people that you're responsible for taking care of. So maybe we, maybe we can understand that.

41 "BOS Commission Services" (1510505472)

00:11:05.659 --> 00:11:09.389

And let me just expand them up. It's time. So.

42 "BOS Commission Services" (1510505472)

00:11:09.389 --> 00:11:28.919

Unfortunately because of the layout of the facilities, we also have to accommodate our higher observation inmates. And with that Twin Towers correctional facility is more it it has the the type of structure where it's, it would accommodate the higher observation inmates. So unfortunately.

43 "BOS Commission Services" (1510505472)

00:11:28.919 --> 00:11:48.919

That's where the majority or that's where all of our higher observation incarcerated persons are housed. So the question is the moderate observation housing and incarcerated individuals. Those are the ones, the individuals who we have difficulty with in terms of the expansion of their population. At Northcas.

44 "BOS Commission Services" (1510505472)

00:11:48.919 --> 00:11:54.929

Ability at our detention center facilities that used to be a general population housing area.

45 "BOS Commission Services" (1510505472)

00:11:54.929 --> 00:12:14.929

That has now turned into a moderate observation housing areas, so all of the mohs are going to north facility, so we we've expanded housing, not only for mental health, incarcerated individuals at Twins Towers directional facility, but now north facility is completely.

46 "BOS Commission Services" (1510505472)

00:12:14.929 --> 00:12:24.389

The MOH housing. So the only other facility that we have available is unfortunately men Central Jail because of the proximity to the inmate Reception Center.

47 "BOS Commission Services" (1510505472)

00:12:24.389 --> 00:12:43.169

And from there, when we can, when there's a bit availability at north facility, they will be transferred to the north facility. So again, it's that constant revolving constant revolving movement that we have where as soon as there's space availability, we will move them.

48 "BOS Commission Services" (1510505472)

00:12:43.169 --> 00:12:59.309

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

So that there's less people at our med central jail, so that we have that, that space to accommodate anyone coming in through the inmate reception center. Again, it's, it's a constant juggling act, and unfortunately it comes down to space.

49 "BOS Commission Services" (1510505472)

00:12:59.309 --> 00:13:19.309

Yeah, I mean I think it's just and I think it'd be helpful to get a better sense of that cause it does sound like it's it's logistics and convenience that place people who are very melly ill in those conditions, it's a choice that's being made every day and it's really bad. But I and I still don't maybe it's maybe I should ask see.

50 "BOS Commission Services" (1510505472)

00:13:19.309 --> 00:13:20.519

Just when they come.

51 "BOS Commission Services" (1510505472)

00:13:20.519 --> 00:13:40.519

Because it's not our next agenda item we can bring it up. Can I ask, I know that the triple bunking piece violates bscc's rated capacity for dorms. How do, how does that work? So not that it violates the rated capacity I think you mean in terms of their.

52 "BOS Commission Services" (1510505472)

00:13:40.519 --> 00:13:42.809

Greater capacity versus where we're at. Yeah.

53 "BOS Commission Services" (1510505472)

00:13:42.809 --> 00:14:02.099

Yeah. It's just overall, and I don't have the BSCC numbers in front of me. It's a matter of we need to move people, we need to comply with the brotherhood decision and the temporary restraining order at the inmate reception center.

54 "BOS Commission Services" (1510505472)

00:14:02.099 --> 00:14:19.409

So it's just that we need a place for them to, there's NO other spot. Yeah, there is NO other spot. If we had it in our downtown conflicts, we would completely make space for it, but unfortunately, we don't, and being that there's varying classifications and there's keep away statuses.

55 "BOS Commission Services" (1510505472)

00:14:19.409 --> 00:14:39.409

It's just, it makes it difficult, and that's important because some of like the facility is not in apple. Like there's parts that can't be right. I don't know, I would have to check with correctional facility to see if there's any closed floors, but again there's closed floors due to rent.

56 "BOS Commission Services" (1510505472)

00:14:39.409 --> 00:14:43.859

So it's a constant constant that we have.

**Transcript for the May 7, 2026
Sybil Brand Commission for Institutional Inspections Meeting**

57 "BOS Commission Services" (1510505472)

00:14:43.859 --> 00:15:02.819

Yeah, every time we go into a facility we ask for the count and the capacity and the capacity is always or the count is always very different. The capacity changes every every time we go in based on what's being able to be opened or not. And so last time I was in Twin Towers at least, the count was 2554.

58 "BOS Commission Services" (1510505472)

00:15:02.819 --> 00:15:19.199

Capacity was 4247, but then the time after that the capacity was, I think 4500 or something like that. So it changes that. And again, with that, you have some areas in terms of capacity.

59 "BOS Commission Services" (1510505472)

00:15:19.199 --> 00:15:39.199

You may have a cell that has two, two bunks in it, but being that it is for a certain classification, there maybe an individual that can only be housed by themselves. So unfortunately, we might have the capacity and it looks like we have available, but based on the classification, and special circumstances.

60 "BOS Commission Services" (1510505472)

00:15:39.199 --> 00:15:55.739

That they may not be available, if that makes sense. All right, thank you. Our next question was about grievance and medical forms. We've been reporting regularly that in certain modules out across all of the different facilities.

61 "BOS Commission Services" (1510505472)

00:15:55.739 --> 00:16:15.089

Sometimes grievance and medical forms are only available if requested by deputies. We've heard different reasons for that in CCF, e.g., they were saying that people were like blastering the forms on the walls and using them for other things, stuff like that. At other places they're saying that they just need to ask and they can't ask.

62 "BOS Commission Services" (1510505472)

00:16:15.089 --> 00:16:35.089

We've been hearing that people ask and are not given them always or that they'll be given them if the deputies don't like it sometimes things like that. So we're wondering if an incarceration person needs to ask deputies for that form, receive it, and then return it to the deputy who puts it in the box outside of the module, how are we.

63 "BOS Commission Services" (1510505472)

00:16:35.089 --> 00:16:53.369

Ensuring proper access to these forms across the board. So with that, we'll take that back to the facility to men central jail. They have reoccurring briefings so that they our staff understand that if someone asks for the grievance forms that they are to supply them to them.

64 "BOS Commission Services" (1510505472)

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

00:16:53.369 --> 00:17:13.369

But being that there's certain, different logistical layouts at men Central jail, it makes it difficult so that they don't have they don't have direct access to the inmate grievance forms or the box to deliver them. So it's something that they can hold on to and then when they leave their housing area.

65 "BOS Commission Services" (1510505472)

00:17:13.369 --> 00:17:22.109

They can drop the form off or they can hand it to a deputy if they feel comfortable doing so and then the deputy will place it in the box. So it's just those reoccurring.

66 "BOS Commission Services" (1510505472)

00:17:22.109 --> 00:17:42.109

Briefings that we have with their staff to ensure and enforce that they are providing them when asked. We do understand that there is an issue with that, but at the same time it's because of the, sometimes it's because of the logistical layout of the facilities where someone is does not have free.

67 "BOS Commission Services" (1510505472)

00:17:42.109 --> 00:17:44.909

Access to leave their south so they don't.

68 "BOS Commission Services" (1510505472)

00:17:44.909 --> 00:18:04.909

Because of that, they don't have that to grab the forms for it to place the forms in the box whenever anytime that they want. That's not happening across the board though. That's something that we've seen at NCCF in large dorms where they do have free access. We've seen it at CRDF, same thing, and so it's, it's not being handled the same across all facilities.

69 "BOS Commission Services" (1510505472)

00:18:04.909 --> 00:18:09.749

So not just an MCJ issue and we want to make sure that there's access especially because.

70 "BOS Commission Services" (1510505472)

00:18:09.749 --> 00:18:29.749

Some of these grievance forms are being written about specific interactions with deputies and then that deputy has to read the form and then there's specific retaliation against that person for submitting the grievance to the deputy that they're handing the form to or they're told not to submit the form because it has their name or we've seen grievances that are just still in box later on.

71 "BOS Commission Services" (1510505472)

00:18:29.749 --> 00:18:46.979

Yes, and so at with that, again, there's different layouts at different facilities. Some of the boxes will be in the healthy areas with access to the forms. The forms we check at the start of every shift to ensure that they're out. It's documented in EU dolls, however.

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

72 "BOS Commission Services" (1510505472)

00:18:46.979 --> 00:19:02.159

They can be depleted at any time, so it's just a matter of ensuring that we can, have access to additional ones and put more forms out constantly throughout the shift, but it's just again.

73 "BOS Commission Services" (1510505472)

00:19:02.159 --> 00:19:22.159

When the deputies are aware of it, when they have, in between their other tasks that they have the availability to replenish the forms. But incarcerated individuals can either submit the forms in the box themselves when they have the opportunity to or the other option is to hand it to a deputy if.

74 "BOS Commission Services" (1510505472)

00:19:22.159 --> 00:19:25.169

They so, they felt comfortable doing so.

75 "BOS Commission Services" (1510505472)

00:19:25.169 --> 00:19:45.169

The deputy will place it in the form in the box. Can I request our meeting or prior to our next meeting you share with us the number of grievances received per facility per week? Is that possible? I don't believe I have a report that can that I can generate it per.

76 "BOS Commission Services" (1510505472)

00:19:45.169 --> 00:19:50.129

A week or per month. I can see what I can bring that I can give you.

77 "BOS Commission Services" (1510505472)

00:19:50.129 --> 00:20:10.129

It might be, I will see what we can do for you. Thank you. Because the process is like you put it in the box and then it submitted like somebody types it up, right? Like somebody types it into the system. It will be entered yes. So what I can do is I can pull numbers from the system, but I don't know how I can I don't know the reporting feature from that system that I can present on. So let me find.

78 "BOS Commission Services" (1510505472)

00:20:10.129 --> 00:20:28.559

Find out and keep what I can on report you. Next step. Commissioner. What does the department do to ensure that this is happening like from a supervisorial or we watch commander level? Because I mean, I I think that like it's great to deputies is not really working. So how is that being checked?

79 "BOS Commission Services" (1510505472)

00:20:28.559 --> 00:20:48.559

Other than like they put the form in, but are they going in and talking to people and asking because every time we go they ask. So I'm just wondering if that's kind of feedback is happening or what are the steps that super supervisor supervisors are doing to ensure that the deputies are doing their job. So it comes down to.

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

80 "BOS Commission Services" (1510505472)

00:20:48.559 --> 00:21:07.949

To just being on the floor, monitoring their staff, but on top of that, it's the supervisors responding to the grievances, not the deputies themselves. So the deputies will assist with requests. So if it's a minor request, they will handle that if it's something that they can, if it's simple information that's being requested, if it's.

81 "BOS Commission Services" (1510505472)

00:21:07.949 --> 00:21:25.829

Different uniforms, different shoes, something like that that the deputy can handle, they will handle, but if it's a complaint, the complaint is what the supervisor handles. I understand that, and I think that this the sergeant gets the complaint once it's made it through the seven steps to get to the box.

82 "BOS Commission Services" (1510505472)

00:21:25.829 --> 00:21:45.689

I guess my question is, how are they ensuring that this is happening other than like they see the complaint, but they don't see the complaints they don't see and they don't see it just it I I don't I I don't, it doesn't seem like any supervisions happening because.

83 "BOS Commission Services" (1510505472)

00:21:45.689 --> 00:22:04.769

I, I don't think just saying do it and then just like thinking people do it. So is there anything else happening besides just telling them to do it? Other than receiving a complaint from an individual saying I submitted here are copies of them or even when they, these individuals meet with.

84 "BOS Commission Services" (1510505472)

00:22:04.769 --> 00:22:20.789

Yourself or other outside oversight entities, they will show them copies or duplicates of what that has been submitted, then that's something that we can look into we follow up with. But other than that, it's something that can be addressed during town hall meetings that if.

85 "BOS Commission Services" (1510505472)

00:22:20.789 --> 00:22:38.399

Multiple complaints have not been addressed. That's something that we would hope would be raised during the town hall meetings, but other than that, there's NO, nothing else set in place where the supervisors will have just audit.

86 "BOS Commission Services" (1510505472)

00:22:38.399 --> 00:22:55.529

Other than ensuring that when they do receive the grievance that the grievances are handled and then they're meeting with the individuals, they're interviewing them, and during that time, if it's mentioned that there was other grievances, then that's something that they can look into as well. Do you think that.

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

87 "BOS Commission Services" (1510505472)

00:22:55.529 --> 00:23:10.619

Supervisors of deputies are aware of the concerns that incarcerate folks have that when they do submit forms, they aren't getting the input.

88 "BOS Commission Services" (1510505472)

00:23:10.619 --> 00:23:25.949

I don't know that it's a matter of forms to not be I think it's more of an issue with the timeliness. I'm more so mean that is an anxiety that people have, that they will receive a.

89 "BOS Commission Services" (1510505472)

00:23:25.949 --> 00:23:45.949

Think that it will not go through or they will receive retaliation for putting something in, in terms of a complaint. Do you think that supervisors are aware of that impact on the incarcerated population out their facilities or like that, that that's an experience that's happening? I just don't know what they are. I can't speak.

90 "BOS Commission Services" (1510505472)

00:23:45.949 --> 00:23:49.229

For them and every facility is different.

91 "BOS Commission Services" (1510505472)

00:23:49.229 --> 00:24:09.229

So I can't really speak to that, but I mean there's other avenues besides just going through the deputies to drop off the complaints, so if it's something where they did they don't feel confident that a deputy will put the complaint in the box, it's something that they can hold on to and then put it themselves in the box the next.

92 "BOS Commission Services" (1510505472)

00:24:09.229 --> 00:24:27.449

Day or, Yeah that's yeah. Okay. I hear that. And of course it's hard when it's something that's like urgent or impeding on your immediate safety, right? And so but you have to wait until to have hazard timing you're getting out the door. But.

93 "BOS Commission Services" (1510505472)

00:24:27.449 --> 00:24:47.449

I'm not sure if there's just the supervisor to that, but I think that specific, we've heard it numerous times from numerous individuals at numerous facilities and so that specific concern about the forms being at least brought to the supervisor's attention I do think is important at.

94 "BOS Commission Services" (1510505472)

00:24:47.449 --> 00:24:50.609

Minimum and ideally of course we're solving for the problem.

95 "BOS Commission Services" (1510505472)

00:24:50.609 --> 00:25:10.609

And that's something that I would ask the commissioners as you're engaging with these individuals because what they share with you is gonna be different than what they share with with my staff because they see a

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

uniform. So sometimes some will shut down and not want to be forthcoming or open with this. But I would share with them that during the town hall meeting.

96 "BOS Commission Services" (1510505472)

00:25:10.609 --> 00:25:14.729

Because that's a perfect opportunity to bring it to a supervisor's attention.

97 "BOS Commission Services" (1510505472)

00:25:14.729 --> 00:25:34.729

To let them know this is how they're feeling, this is what's going on so that supervisors are aware of it, and it's something that they can monitor their staff as well. Isn't there a possibility of like aren't deputies there too at the town halls? Some are, but I believe we have maybe one or two that maybe a scribe, but for the most.

98 "BOS Commission Services" (1510505472)

00:25:34.729 --> 00:25:51.809

This part, it's the supervisors that should be closed in these town halls. Okay, thank you. Commissioner Galado. I'm listening and trying to see a picture when I'm out there looking at things. And it seems like.

99 "BOS Commission Services" (1510505472)

00:25:51.809 --> 00:26:11.809

This is something, you know, the submission of grievance forms or medical requests and things like that is, is a process that goes across the whole jail system and it would seem like there's an inconsistency as to how that process is.

100 "BOS Commission Services" (1510505472)

00:26:11.809 --> 00:26:29.429

Done per facility. And it's I think that leaves the opportunity for inconsistent processing pieces to be put into place, but yet it seems so easy to.

101 "BOS Commission Services" (1510505472)

00:26:29.429 --> 00:26:47.729

Fix given if there is a blanket process and and and responsibilities to make sure that there is the ability for the incarcerated population to be able to submit these if they feel that it is something that they would prefer it being.

102 "BOS Commission Services" (1510505472)

00:26:47.729 --> 00:27:04.439

Submitted directly and not have to go through a 3rd party which might be a staff on, on duty so that they feel comfortable that the right person will read the the information and have proper action.

103 "BOS Commission Services" (1510505472)

00:27:04.439 --> 00:27:24.149

And I'm wondering if perhaps maybe the process can be looked at to make sure that there is consistency throughout the whole system so that if an individual has moved from one facility to another, they'll know that

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

there is that same policy going on here as opposed to the new location that they're at.

104 "BOS Commission Services" (1510505472)

00:27:24.149 --> 00:27:41.609

It it to me, it doesn't seem like it might be that big a deal to institute something like that so that there isn't a feeling that the the individuals who are incarcerated would have the ability to feel that what they submit will be seen by the proper person.

105 "BOS Commission Services" (1510505472)

00:27:41.609 --> 00:27:56.729

And not, you know, might have some, intervention in between that so that they maybe fearful for even submitting things because I'm under the impress pressured by some of the conversations I've had with.

106 "BOS Commission Services" (1510505472)

00:27:56.729 --> 00:28:13.919

Some of my visits that they don't feel that they're gonna have any follow up on what they say and they just let it go and hopefully it won't happen again or they'll feel better or whatever. So perhaps maybe there is some process that that can be put in place so that we can.

107 "BOS Commission Services" (1510505472)

00:28:13.919 --> 00:28:33.919

Feel that it's, it's, it's a process across the board and people are gonna feel more confident that they are gonna be heard when the need is to be heard. I know LASD has been working on, on the tablet system and the online tracking system and things like that. Is there any update there? Yes.

108 "BOS Commission Services" (1510505472)

00:28:33.919 --> 00:28:37.079

So and hope and our hope is that when we do.

109 "BOS Commission Services" (1510505472)

00:28:37.079 --> 00:28:54.179

Receive the tablets that we will have more access and exactly to your point where these will be direct submittals so there won't be that 3rd party to go through and that will get away from the paper form, so now it will be electronic so there's not that missed.

110 "BOS Commission Services" (1510505472)

00:28:54.179 --> 00:29:12.029

You know, the missed form that was in the box or behind the box that didn't make it to a sergeant. So with that, we do have our, the contract that is currently under negotiations.

111 "BOS Commission Services" (1510505472)

00:29:12.029 --> 00:29:31.289

We hope that we will be able to come to an agreement with this contract and the next step would be presenting to the board of supervisors for final approval. It was with our county council for a while, now it's back with the.

**Transcript for the May 7, 2026
Sybil Brand Commission for Institutional Inspections Meeting**

112 "BOS Commission Services" (1510505472)

00:29:31.289 --> 00:29:51.289

Proposed vendor, so I think once we hear back and is the terms and agreements are accepted, then I'll be able to provide you with a better, better response to that question. But it is currently still in contract negotiations. The next step, if you disagree to your terms and agreements, then we will go before the.

113 "BOS Commission Services" (1510505472)

00:29:51.289 --> 00:29:55.259

4th for final approval and appointment.

114 "BOS Commission Services" (1510505472)

00:29:55.259 --> 00:30:15.259

It's not until we hear back from the, from the vendor. And you said you hope that it will be something that the complaint forms can be done. Not part of in what you've requested to this vendor? It will be part of a process, so again with the tablets they have that capacity. This vendor has that capacity.

115 "BOS Commission Services" (1510505472)

00:30:15.259 --> 00:30:19.799

It will be something that they will work with us, so whether it's with our team who has.

116 "BOS Commission Services" (1510505472)

00:30:19.799 --> 00:30:39.799

Who has created the process, but it will be something that they have the capability to include our applications on their tablets. So they do have that capacity, it's just something that we're working towards. So NO. It's like yes or NO. It's something that we're working towards. We don't know, we don't know.

117 "BOS Commission Services" (1510505472)

00:30:39.799 --> 00:30:58.889

Everything has to be developed. Okay, so you don't know. Okay. All right. And our next question was about the follow up for medical items after a search removes them, particularly important health and safety items such as kings, mobility aids, and inhalers. This come because.

118 "BOS Commission Services" (1510505472)

00:30:58.889 --> 00:31:18.889

At an MCJ inspection last month that commissioner Barrell and I conducted, there had been a search that morning and many individuals in that module told us that they NO longer had their inhalers, canes, walkers, things like that, that they had had before and that they had all of their stuff taken in that search.

119 "BOS Commission Services" (1510505472)

00:31:18.889 --> 00:31:38.219

And needed some of the medical things in particular. Can you tell us about that follow up? So in general, we typically do not remove medical

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

especially in tailors unless they are not prescribed to the individual or if they've been altered. So there are metal components of.

120 "BOS Commission Services" (1510505472)

00:31:38.219 --> 00:31:58.219

The inhalers, if they have been altered, if they're missing components, then we will remove them. They'll be referred back to correctional health services so that they can be issued new new inhalers. So unless it was if it wasn't prescribed from them, then absolutely it's taken away because it's considered.

121 "BOS Commission Services" (1510505472)

00:31:58.219 --> 00:32:00.899

Or if it's been altered it will be considere.

122 "BOS Commission Services" (1510505472)

00:32:00.899 --> 00:32:20.899

How does the deputy who's doing a search make an assessment in that moment that it's been prescribed? It should have either a, a bag or it might even have a name on the inhaler I'm not sure if there's any name on it or the bag that when we distribute medica.

123 "BOS Commission Services" (1510505472)

00:32:20.899 --> 00:32:39.899

They have on. So they're literally asked they're doing that because that's not been my because my impression was that the person is in the hallway. These, these particular people were on the room for about 5 h in this lunch, but how are they doing that assessment that this.

124 "BOS Commission Services" (1510505472)

00:32:39.899 --> 00:32:59.899

This thing is for this person. If the person's If the person's not there. That I wouldn't know. I mean I didn't have the information regarding the search, but we wouldn't arbitrarily just takers from the funk they did. So what we were told is that.

125 "BOS Commission Services" (1510505472)

00:32:59.899 --> 00:33:05.909

This module was all taken to the roof. The search was conducted when they come came back.

126 "BOS Commission Services" (1510505472)

00:33:05.909 --> 00:33:21.239

Walkers pains, inhalers, all gone. Like across the board, we heard this from whatever 75 people were in. Yeah, yeah. Also, I have an inhaler and I'm not sure what metal piece betters.

127 "BOS Commission Services" (1510505472)

00:33:21.239 --> 00:33:36.899

Like how it could be modified. Or if it has a name on it. Yeah. If you break it, you can manipulate it and then you now have either a sign tool or sharp edge that becomes that you can attach to something else.

128 "BOS Commission Services" (1510505472)

**Transcript for the May 7, 2026
Sybil Brand Commission for Institutional Inspections Meeting**

00:33:36.899 --> 00:33:53.459

Now you have a handle and now you have the shock object. Like the part that actually has the medicine in it. Yeah, so either the medicine, the metal aluminum yeah ok Commissioner brown, do you have your? No, that was the underline. But just to be clear, if.

129 "BOS Commission Services" (1510505472)

00:33:53.459 --> 00:34:13.459

What was conducted was or just to be clear, a search that's conducted without the individuals there and their medical devices were there, but they can be asked about their medical devices or, you know. We wouldn't have to weigh their medication. Their medications were like medical devices or the medical devices. So with the with that.

130 "BOS Commission Services" (1510505472)

00:34:13.459 --> 00:34:33.179

That like, but if that had happened, that is the violation of what shouldn't, what should we wouldn't take away their prescribed medication and unless there was a reason for it, just so arbitrarily just taking off a bunch, we wouldn't. That is what happened. I mean I know you're saying that's.

131 "BOS Commission Services" (1510505472)

00:34:33.179 --> 00:34:50.789

Not what's supposed to happen, but I guess. What do we do? Notify the watch matter. That's You know what I mean? I'm like, I hear. That's not what supposed to happen. What do we do? And with that, I mean.

132 "BOS Commission Services" (1510505472)

00:34:50.789 --> 00:35:06.569

We can go, we can ask the facility about that if they're aware of it, if, again, it's medication, so I'm assuming medical would see an uptick because all of these individuals would have needed would need to.

133 "BOS Commission Services" (1510505472)

00:35:06.569 --> 00:35:25.559

So or or kings or ok thank you alright anything else on that? Okay, can we follow up on the facilities and ISD contracts? Anything to bring up there?

134 "BOS Commission Services" (1510505472)

00:35:25.559 --> 00:35:45.559

No, so I did provide you an email with the list of the ISD managers. So unfortunately, internal services division, their processes for contracts and, how they go about their whole selection or the onboarding process.

135 "BOS Commission Services" (1510505472)

00:35:45.559 --> 00:35:46.739

The sheriff's department.

136 "BOS Commission Services" (1510505472)

00:35:46.739 --> 00:36:06.739

We don't have any say in their, in their processes. So because they're governed by county roles and regulations, that's something you would have

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

to reach out to them directly. So hopefully those two managers can help you with that. I just wanted to make a point that we told the watch commander and.

137 "BOS Commission Services" (1510505472)

00:36:06.739 --> 00:36:12.389

You all on three and a half weeks ago, the inhalers and et cetera, were.

138 "BOS Commission Services" (1510505472)

00:36:12.389 --> 00:36:27.809

Taken during a search, and I have not heard anything back so I mean it wasn't like the department wasn't made aware of it immediately, so I don't know. I don't know what's been followed up on that, but it was communicated.

139 "BOS Commission Services" (1510505472)

00:36:27.809 --> 00:36:43.379

Thank you. Do you have an update on the new dietary regulations and inspections on the new guidelines including the number of meals for special diets? So for the numbers of special.

140 "BOS Commission Services" (1510505472)

00:36:43.379 --> 00:37:01.679

Diets. We do have, so currently we have 401 religious and lifestyle diets and 3501 medical diets, so a total of 3902.

141 "BOS Commission Services" (1510505472)

00:37:01.679 --> 00:37:16.979

Special diets. And in terms of the new dietary regulations, we are working with the Department of Public health. Right now, they do approve all of our menus at this.

142 "BOS Commission Services" (1510505472)

00:37:16.979 --> 00:37:36.359

Time they do not have, a date yet for implementation, so they will be continuing to work with us as we move forward towards the new menu to ensure that it covers all of the new new regulations. Okay, and do you have an update on the rollout of the new, new meal hot dinner?

143 "BOS Commission Services" (1510505472)

00:37:36.359 --> 00:37:56.359

Service. No, I don't have that. Okay. Do you have an update on the water situation at CRDF, including how water bottles are being distributed and how that's documented? So again, the water bottles will be distributed whenever it's determined that there are issues with the plumbing, the water's coming up discolored.

144 "BOS Commission Services" (1510505472)

00:37:56.359 --> 00:38:04.559

Staff is to notify the watch commander, the watch commander, will work with our food services and ensure that we have proper.

145 "BOS Commission Services" (1510505472)

00:38:04.559 --> 00:38:20.730

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

Water bottles and distribute those water water bottles to the floors. They should be logging them in the EU doll and food services also has an alert that they put out so they notify the, their staff as well as the.

146 "BOS Commission Services" (1510505472)
00:38:20.730 --> 00:38:35.910

As well as the CRDF operations staff that they that there was an issue and that they've supplied water bottles. So with that, there was an incident on 4 May where we had an issue with our hot water tank.

147 "BOS Commission Services" (1510505472)
00:38:35.910 --> 00:38:55.560

So because there was NO hot water in the, in the module dream that day or in that tower, they CRDF requested an emergency work order. Plumbers arrived. Plumbers started working on the pipes with that when they shut down the water, when they turned the water back on. That's when we typically see the discoloration of the water.

148 "BOS Commission Services" (1510505472)
00:38:55.560 --> 00:39:12.540

Due to the discoloration of the water, it was noted and water bottles were distributed with the evening meal. So, again, we're moving towards better documentation. We can always improve on our documentation.

149 "BOS Commission Services" (1510505472)
00:39:12.540 --> 00:39:32.540

That it is getting logged in the EU roles and we are receiving alerts from food services documenting that those cases were distributed. So in that case, y'all anticipated there would be discoloration it's only one thing. Right, so it was one, they knew that they were working on the pipes, I think the work took longer than expected.

150 "BOS Commission Services" (1510505472)
00:39:32.540 --> 00:39:40.200

Did the water was still coming out discolored, so at that time we knew that it was going to be dinner time, so they ordered though.

151 "BOS Commission Services" (1510505472)
00:39:40.200 --> 00:40:00.200

Waterson, they supply the water bottles with their email meals. Got it. Do you have an update on the water filtration systems to be? We're still, we're still working towards that. Our facility services Bureau have conducted their site visits. They've noted that in.

152 "BOS Commission Services" (1510505472)
00:40:00.200 --> 00:40:14.070

For every module, noted locations for that and encountered that they will have to build out infrastructure, whether it's electrical as well as plumbing because the areas that were designated didn't have electric pockets.

153 "BOS Commission Services" (1510505472)
00:40:14.070 --> 00:40:31.980

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

So they're still working out their plans, but it's something that we are still moving forward towards and it's on their, their list as a priority to, to work towards. Okay, I will note that at our 25 March inspection of CRDF.

154 "BOS Commission Services" (1510505472)

00:40:31.980 --> 00:40:51.980

The watch commander had told us that she believed there was water bottles provided at certain areas across the facility. We went to those areas and checked there were NO water bottles provided except for two pregnant women, even though they were saying that the water was still dirty and we were still observing it coming out discolored. And then at the 30 April.

155 "BOS Commission Services" (1510505472)

00:40:51.980 --> 00:40:58.860

Inspection of CRDF we were told that the entire West tower was being distributed with bottled water.

156 "BOS Commission Services" (1510505472)

00:40:58.860 --> 00:41:14.580

And that was occurring. We also are continuing to see bugs in the water, in the drains, these little worms that we've talked about before, and discolored water across the board and are are continue to be very concerned.

157 "BOS Commission Services" (1510505472)

00:41:14.580 --> 00:41:30.300

And we're working towards that. So I've, I've met with CRDF as well as, an interested vendor who has a product that can help with the bugs. Again, it has a lot to do with.

158 "BOS Commission Services" (1510505472)

00:41:30.300 --> 00:41:48.090

Just the food particles going down the drain, a lot of soap scumb hair being trapped in the pipes. So we're trying to find a solution that will not corrode our pipes, that is biodegradable, that is a safe product to have in our jails.

159 "BOS Commission Services" (1510505472)

00:41:48.090 --> 00:42:08.090

So hopefully right now, due to the end of the fiscal year, there is a hold on our purchasing, but we're looking forward to, working with and finding this new product that can help with cleaning up these pipes without causing any issues to our existing plumbing noting that we do have plumbing issues already at C.

160 "BOS Commission Services" (1510505472)

00:42:08.090 --> 00:42:26.760

Yeah. So we are, we are exploring options besides the one that we currently are using the mr. Digester digester? Yes. So mr. Digester is still being. It's still being used and we're trying, we're looking towards another product to hopefully I'm hoping that it's superior to that so that it might help reduce this issue.

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

161 "BOS Commission Services" (1510505472)

00:42:28.500 --> 00:42:48.500

Anything from the commission? How has have you added the 3rd party water inspection? I have not been able to circle back with food services about that. I know they were I'm sorry not food services facilities planning.

162 "BOS Commission Services" (1510505472)

00:42:48.500 --> 00:43:05.880

They were going to put that up for bid. I don't know where we are in that process. I am hopeful that we can move that on a lot faster because that water is all above. Use of the planning girls?

163 "BOS Commission Services" (1510505472)

00:43:05.880 --> 00:43:25.880

Okay, anything else? We have a lot of questions we'll go through as we share our reports, but I will open it up now for a public comment. So now we'll move on to virtual public comments if there are any members of this public which provide virtual.

164 "BOS Commission Services" (1510505472)

00:43:25.880 --> 00:43:43.290

Please press star three. Please choose to raise hand feature. So we don't have any virtual public comments. Are there any in personal members of the public that you'd like to provide public comment if you can come on the.

165 "BOS Commission Services" (1510505472)

00:43:43.290 --> 00:44:02.700

You have 3 min if you can see the name for the record. Good morning, Alan Berkley Dollarvin. She her with soakaw. Thank you for the follow up on these items. I just wanted to name my concern around.

166 "BOS Commission Services" (1510505472)

00:44:02.700 --> 00:44:22.700

Research in 5900 with folks getting their mobility devices getting taken away possibly without checking. I I know I can't ask a question in this space and get an answer, but I am curious about, you know, the role between deputies and CHS in those moments and how someone's prescription does get checked in the moment.

167 "BOS Commission Services" (1510505472)

00:44:22.700 --> 00:44:26.250

Have the search to confirm whether that should be taken or not.

168 "BOS Commission Services" (1510505472)

00:44:26.250 --> 00:44:43.290

Impose a potential security risk, I suppose, but if they have it to begin with, it's likely because it's prescribed or has been at some point. I also really wanna emphasize the need for tracking the grievance forms and making sure that they're readily available to folks.

169 "BOS Commission Services" (1510505472)

00:44:43.290 --> 00:45:03.210

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

I often also see the boxes empty and remind folks, you know deputies to fill them up and their responses will they get taken right away like would be good when people have them available to them, which tells me that that is a need for the population and that they need to be sufficiently provided with the opportunity to grieve the issues that they're.

170 "BOS Commission Services" (1510505472)

00:45:03.210 --> 00:45:18.510

That they're experiencing, and they should not be denied those medical forms just because they don't physically have access to a box depending on their housing. So I look forward to the, to the system, the vendor who will hopefully build that capacity in because that's severely needed and.

171 "BOS Commission Services" (1510505472)

00:45:18.510 --> 00:45:34.140

Just also echoing the concerns of the commissioner around the water and CRDF and really needing to put some more action towards that. Thank you. Thank you. So that includes the in person and we do not receive any.

172 "BOS Commission Services" (1510505472)

00:45:34.140 --> 00:45:52.770

Thanks so much. We will now move on to item three. Do we have dr. Henderson on the line? Dr. Henderson is not on the line. Okay, we will skip directional health services and come back when dr. Henderson joins, and we will move to number four, which is commissioners reports on detention facilities.

173 "BOS Commission Services" (1510505472)

00:45:52.770 --> 00:46:10.110

The reports are all on our website and are publicly available and can be downloaded and accessed with full details. But we'll do a brief overview of any key high level notes that LAST should be aware of, the public should be aware of.

174 "BOS Commission Services" (1510505472)

00:46:10.110 --> 00:46:26.490

Or any major concerns. We will begin with Commissioner vice chairperson Dads and commissioner Barrells Twin Towers fractional facility inspection on 16 March 2026. Do you have anything to specifically want to bring up?

175 "BOS Commission Services" (1510505472)

00:46:26.490 --> 00:46:45.630

Just that I think the last three or four times I've been at the towers, I walk in, there's usually five to ten deputies sitting around watching something on a computer and then when we walk in, they get up as a.

176 "BOS Commission Services" (1510505472)

00:46:45.630 --> 00:47:02.010

So that would be the biggest thing on this particular inspection that I would highlight, and then also we observed inside the controlled station with a custody assistant who was extremely.

177 "BOS Commission Services" (1510505472)

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

00:47:02.010 --> 00:47:22.010

Informative, the process of the security checks for a 6th dorm of what I understand to be high observations so specific claim mentally ill individuals, I think it took the entire thing was under 3 min, so I don't think that that is.

178 "BOS Commission Services" (1510505472)

00:47:22.010 --> 00:47:23.580

It's it was really fast.

179 "BOS Commission Services" (1510505472)

00:47:23.580 --> 00:47:43.580

Yeah, so I would just highlight that. Two other things, we have looked at this through the watch planner, but we did both of us see a deputy who was asleep at post and we even walked up asking questions and he didn't wake up, and then the people around him he.

180 "BOS Commission Services" (1510505472)

00:47:43.580 --> 00:48:00.960

That way came up and then he was not eyes open sitting up before he left the module, and we did tell the supervisor, but we didn't get his like batch number which then nothing can happen because of that technically, but also I told them that whoever was like the name.

181 "BOS Commission Services" (1510505472)

00:48:00.960 --> 00:48:18.060

Person there when they saw us coming in and tried to wake that person up so whoever's in that module, we told them the module does know that that deputy was a sleep bet policy which of course is concerning. And then the other thing is that I keep hearing different than what told us about the.

182 "BOS Commission Services" (1510505472)

00:48:18.060 --> 00:48:38.060

Yes. Every time we go, I've been asking them about it and they're just saying, and like every can and It's the same exact wording so I don't it's almost like it is the training of like only when things are kind of getting intense or something's like going down, do they have to turn it on.

183 "BOS Commission Services" (1510505472)

00:48:38.060 --> 00:48:42.930

One and I, we heard that on this inspection that we asked about it, I also heard it in.

184 "BOS Commission Services" (1510505472)

00:48:42.930 --> 00:49:00.570

In April inspection that should not be mentioned because I also have a different time. Yeah and so I'm just curious for that consistency, is it your leveling, you know, and these are deputies who are saying this and they're doing like their watches and stuff like that or like.

185 "BOS Commission Services" (1510505472)

00:49:00.570 --> 00:49:17.370

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

What if didn't they say Mary, like big, big bodies of movement, but then he was like, but I didn't like so we were like saw you do one, he's like, NO, not that. Yeah, but it was like the whole door. So, but y'all it but it's correct that it should be said anything. There's a list.

186 "BOS Commission Services" (1510505472)

00:49:17.370 --> 00:49:37.370

They have a list of on in the policy the things that they mentioned were like mandown, large movements. What else did they say Joe? Man down, large movement, some medical or medical or OD. Is there anything else? And like you mentioned, something was not right or going.

187 "BOS Commission Services" (1510505472)

00:49:37.370 --> 00:49:56.670

Like they felt was gonna go bad. So for risk management, so if there's a recalestrate in the they're gonna turn on their their cameras. Something right or yes, if they're refusing, if they're refusing to go to the court, that's something that we would want to capture. But also if they're gonna escort them off the floors, that's gonna be their escort too.

188 "BOS Commission Services" (1510505472)

00:49:56.670 --> 00:50:15.000

The clinic areas that will be recorded as well. Could we get that list so that because I feel like I'm witnessing things where it should be turned on and but I don't feel confident enough to say like, I'm asking them when are you supposed to turn it on opposed to, I know from.

189 "BOS Commission Services" (1510505472)

00:50:15.000 --> 00:50:35.000

Whatever that you're supposed to have it on right now. Okay, thank you. That was the biggest things that I wanted to uplift from that inspection. Thank you so much. Moving on to my, inspection with commissioner Batya CRDF on 25 March 2026. This was a pretty concerning.

190 "BOS Commission Services" (1510505472)

00:50:35.000 --> 00:50:52.140

Inspection. What? I said what does it not? Water remains a very persistent issue, both observed by me and commissioner Batchyatt dirty water, light drawn color, warms and both showers and sing cells consistently recorded by the woman and observed by us.

191 "BOS Commission Services" (1510505472)

00:50:52.140 --> 00:51:12.140

Water smelling of chlorine. Women saying the water was making them sick with various medical issues including diarrhea fungus infections and rash. Water bottles had not been offered. When issues persisted, when asked deputies told women to request it for your medical or to purchase through commastery at \$2 per bottle per max of five bottles per week or via bending machine.

192 "BOS Commission Services" (1510505472)

00:51:12.140 --> 00:51:30.420

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

If available at a dollar 95 for 16 oz ounces, but paying for bottles with that max, the vendor machines were running out pretty quickly. We also saw water hot pots that were broken kind of across the board.

193 "BOS Commission Services" (1510505472)

00:51:30.420 --> 00:51:48.690

And persistent medical issues where medical grievance forms had been filed with NO response. We followed up with CHS on many of those. There was one issue I just want to highlight here where we raised a medical issue involving a incarcerated person's need for a.

194 "BOS Commission Services" (1510505472)

00:51:48.690 --> 00:52:04.770

Mobility aid, and they said that they were needing that or fearing that they would fall, and that they had followed multiple times and needed one. We flagged in this report that this indigenous needed the mobility aid.

195 "BOS Commission Services" (1510505472)

00:52:04.770 --> 00:52:24.770

And said please address this ASAP. We also brought it to the watch commander and I received a call a couple days ago saying that she had fallen and had not been given that mobility aid. So I'm pretty concerned about that follow up and what's going on there. We also saw a.

196 "BOS Commission Services" (1510505472)

00:52:24.770 --> 00:52:34.560

Additional Priya issues reported on including continued cross gender shower viewing by male deputies of female inmates when we asked the watch commander.

197 "BOS Commission Services" (1510505472)

00:52:34.560 --> 00:52:54.560

About that, they were like, what do you want us to do about that there's a staffing shortage? There was some issues with misinformation being spread also. There was a report that a deputy pulled a dorm that for every non emergency medical ref.

198 "BOS Commission Services" (1510505472)

00:52:54.560 --> 00:52:59.010

Request form they submitted, \$3 would be taken from a person's commentary account.

199 "BOS Commission Services" (1510505472)

00:52:59.010 --> 00:53:19.010

And so there were certain, you know, fears of, of things going around where people were like, ok, we shouldn't, shouldn't follow up, shouldn't do this. The other thing I want to report, there were certain areas where there's water kind of leaking and things like that causing multiple women to fall.

200 "BOS Commission Services" (1510505472)

00:53:19.010 --> 00:53:23.370

In certain modules and reports that.

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

201 "BOS Commission Services" (1510505472)

00:53:23.370 --> 00:53:39.870

Somebody had fallen and deputies were accusing this mandown situation of lying and and not needing actual medical follow up. That is the big issue from that one.

202 "BOS Commission Services" (1510505472)

00:53:39.870 --> 00:53:58.800

The next one is my inspection with Commissioneronez of MCJ on 26 March 2026. Missioner, is anything you want to add for that one? So there was just we went into the the K6G.

203 "BOS Commission Services" (1510505472)

00:53:58.800 --> 00:54:18.800

Module areas and just multiple reports of like the medical care. Deputies refusing to contribute medical request forms and then just illnesses into the water. Also too, in that module there's in 9400 we visited a triple.

204 "BOS Commission Services" (1510505472)

00:54:18.800 --> 00:54:36.870

He wasn't observed. Water acceleration, they brought that to us, olding to which we could present just over populated limited access to fish kids and partial access to functioning televisions. So there was a lies help break there.

205 "BOS Commission Services" (1510505472)

00:54:36.870 --> 00:54:53.520

And two individuals instead of giving treatment, they just buzz their head off. Oh, yeah. Yes. And then also just Priya concerns with the consistent enforcement of designated shower terms or.

206 "BOS Commission Services" (1510505472)

00:54:53.520 --> 00:55:11.310

Transgender individuals and then the staffs pretty much let us know like cause there's NO staffing, the reason for like the non compliance, they don't have enough people. The one that I think maybe we can talk more about is our observation with.

207 "BOS Commission Services" (1510505472)

00:55:11.310 --> 00:55:29.550

The deputies in the 4808 hundred. Right. And so just the overall of refusing to acknowledge gender identity and demonstrating a lot of this dismissive and conversational behavior, not only with the inmates that we observe, but directly with us.

208 "BOS Commission Services" (1510505472)

00:55:29.550 --> 00:55:49.550

And also, just learning to provide basic needs, functional toilet access. Also, some of the staff are not wearing body cameras and they also lacked the awareness of policy requirements right now. But just just a quick quick note on that one in 4800 we're.

209 "BOS Commission Services" (1510505472)

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

00:55:49.550 --> 00:56:09.210

So a commissioner Toadranez and I came across a trans woman who was saying that she needed to use the toilet herself, but the toilet had been broken for a while, and she said that she needed to deprecate. And so we went and tried to find somebody to.

210 "BOS Commission Services" (1510505472)

00:56:09.210 --> 00:56:26.310

We moved her to a different cell so that she could use that toilet. We were basically told that that wasn't possible then like four or five deputies came in and told us that they were going to offer.

211 "BOS Commission Services" (1510505472)

00:56:26.310 --> 00:56:42.090

To him to move, and we said this person uses she, her pronouns, they're trans women, this is their generated in needs, and they repeatedly told us multiple times we will move him. We'll move him, we will move him, we'll move him, and we said, she her please.

212 "BOS Commission Services" (1510505472)

00:56:42.090 --> 00:57:00.210

That's what they want to be referred to. They said we will move him and we were asked to observe the deputies asking her if she would move to a different cell, and they told us beforehand she will not want or he will not want to move.

213 "BOS Commission Services" (1510505472)

00:57:00.210 --> 00:57:15.630

And we said, ok, please ask her anyway and see if, if that will happen and the deputies were indeed right. She did not want to move. She did not want to go to the dorm. She said that she didn't feel safe moving to a dorm from her individual cell area.

214 "BOS Commission Services" (1510505472)

00:57:15.630 --> 00:57:35.580

And so, they deputies said that they were not able to move her to any of the empty cells in the row or to the shower area to defecate and then go back to her cell. I don't remember the resolution of this. This was gonna go. I think the other thing that just heard me was that, you know, they they referred to her as.

215 "BOS Commission Services" (1510505472)

00:57:35.580 --> 00:57:54.030

As he would have fun, but the the other thing too was they they kept referring to her as the problem person. Yes. And to me, I'm just having to be blunt like they're in your guys's custody and so regardless if they have issues or not, they still should be having functioning towards like that's just the basic need.

216 "BOS Commission Services" (1510505472)

00:57:54.030 --> 00:58:10.500

And your I know your deputies go through trainings and briefings and all of that but these deputies that were in that module at the time, at least

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

I don't know if he was a supervisor or what he was, but I mean, we got surrounded in there.

217 "BOS Commission Services" (1510505472)
00:58:10.500 --> 00:58:26.700

And on on top of wanting to make the point of we don't need to do this and so that is the under handing feeling I have is you need to watch it so that you can see that when you bring these things up to us nothing's gonna happen.

218 "BOS Commission Services" (1510505472)
00:58:26.700 --> 00:58:44.070

Or to show that this is a problem in me. And so I wouldn't want to be moved either if I got rolled up by like five or six people on top of two commissioners so I just told hey I don't have functioning for it. The, the roommate got moved. She remained there.

219 "BOS Commission Services" (1510505472)
00:58:44.070 --> 00:58:59.430

And then on our way out, we got, we got our contact information, taken from us and also more deputies started rolling into the the hallway more exit. So for me, just the feeling of.

220 "BOS Commission Services" (1510505472)
00:58:59.430 --> 00:59:15.870

You only have two commissioners in here. I just imagine what it's like when we are not there. That is, that is our, that is always our our concern is if it happens while we're here, what happens when we're not here? And so.

221 "BOS Commission Services" (1510505472)
00:59:15.870 --> 00:59:32.490

For me, it was just more of the I I did ask and I know he was in here, we're two small women, were surrounded by a bunch of deputies for letting us know. I I feel more familiar with the admins to be honest. So, I just wanted to bring that concern up.

222 "BOS Commission Services" (1510505472)
00:59:32.490 --> 00:59:51.090

He gave us her information, you know, the exchange info and then we left to let the watch provider know as well so I don't be able to add. Thank you. I will just add that when we brought this to the watch commander, he was extremely dismissive of us and so that he didn't believe that the.

223 "BOS Commission Services" (1510505472)
00:59:51.090 --> 01:00:08.190

Deputies had misgendered the person and we said, you know, this was happened multiple times and the washmanner said I don't believe that would happen and you know the watchmanter also told us that he didn't believe us that there was trouble bumping happening.

224 "BOS Commission Services" (1510505472)
01:00:08.190 --> 01:00:26.610

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

In 9400 and made us put it on the TV for him. He had us literally go up to the TV, find 9400, find the camera for him and show him the room and he said look there's triple bunking here, and he goes, Oh I guess there is. So we had a great, great time on that one. Commissioner Girl? I mean, I can.

225 "BOS Commission Services" (1510505472)
01:00:26.610 --> 01:00:44.400

When we get to mine, I think that there was a similar five, but I just want to highlight that we have made a decision as a commission to do two person inspections, part largely frankly, because of safety issues with LASD staff when we go in and.

226 "BOS Commission Services" (1510505472)
01:00:44.400 --> 01:01:00.090

LASD staff dismissing what we affirmatively as community members who are pointed by board of supervisor people by the board of supervisors to observe things that we are told that that is they they don't believe us.

227 "BOS Commission Services" (1510505472)
01:01:00.090 --> 01:01:18.360

So we have made a point to do two, which was not typically what happened, but it also decreases the amount of inspections that we can do as a commission because we have to pair up, and I just wanted to highlight that because we're also, you know, still waiting for one of our commissioners, but we're also only able to do.

228 "BOS Commission Services" (1510505472)
01:01:18.360 --> 01:01:36.870

Fewer inspections because we have to pair up because of Sagea shoes from LASD staff and them not believing us when it's our own witness when that is our job appointed by the board to be witnesses of what we see and when we're that when that's the response, it's extremely concerning.

229 "BOS Commission Services" (1510505472)
01:01:36.870 --> 01:01:56.400

Yeah, and it's not been a one off. We are not just going in and like reporting willy nittly, we're very about this is what we're seeing and when we've we've said this a million times in these meetings, when we see something, we say, Hey commissioner Terromos or whoever would be may you also see this? Am I see or can you confirm that this is.

230 "BOS Commission Services" (1510505472)
01:01:56.400 --> 01:02:16.400

What I'm seeing such as the news incident from two years ago at MCJ. Commissioner Miller, is this what you see? I see this. Yes, this is what I see. Okay, and then we will proceed. We're, we're trying to make sure that this is very clearly what is happening and then we bring it to the sheriff's department. The sheriff's Department is like nope that's.

231 "BOS Commission Services" (1510505472)
01:02:16.400 --> 01:02:17.190

Will happen.

**Transcript for the May 7, 2026
Sybil Brand Commission for Institutional Inspections Meeting**

232 "BOS Commission Services" (1510505472)

01:02:17.190 --> 01:02:37.190

I just want to bring up something else too is that you know when we went into the the inspection, a lot of the, a lot of the field that they weren't able to specific supplies because.

233 "BOS Commission Services" (1510505472)

01:02:37.190 --> 01:02:39.780

Their LGBTP plus TGI.

234 "BOS Commission Services" (1510505472)

01:02:39.780 --> 01:02:59.780

And so razors were not able for them to get for them, for themselves. It's shown as it's not available and because of the classification so part of that is my district.

235 "BOS Commission Services" (1510505472)

01:02:59.780 --> 01:03:15.900

Deputy or justice deputies went ahead and made a board motion for it. So I think part of it too is understanding that a lot of the things that we are going in, we are letting the board know and they are gonna be making motions on it. The last thing too is that.

236 "BOS Commission Services" (1510505472)

01:03:15.900 --> 01:03:32.520

It is the the wording of the not being able to or they're not wanting to use like pronouns. So I'm wondering if, if the department has any policy on that. And then also just to highlight it is the majority of the inmates in their word letting us know.

237 "BOS Commission Services" (1510505472)

01:03:32.520 --> 01:03:48.300

The deputies do be passing violent and they'll say things like, Oh man, that's all you or, you know, oh that you know, that's all you kind of it's in a degrading way. And I think part of it is the deputy should be.

238 "BOS Commission Services" (1510505472)

01:03:48.300 --> 01:04:07.380

Being professional in that sense. So she's the ones that are there, I don't know if they're choosing to like her or if they're not. If they don't want to be there, then I'm hoping that the supervisors. There was one deputy, I can't remember the name that the whole line said it was a female deputy, they're like I really wish she was still here and she had.

239 "BOS Commission Services" (1510505472)

01:04:07.380 --> 01:04:24.990

She, when they said when she was here, she had this whole, our whole line working well, we didn't have any issues, NO issues with showering she would make time for individuals to shower transgender to shower and everybody else afterwards. And so.

240 "BOS Commission Services" (1510505472)

01:04:24.990 --> 01:04:42.930

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

I think it just comes down to also of of the wording, but also the deputy doesn't want to be there. I don't understand why it would happen. Yeah, and on that note, also, there were deputy, there was a deputy and watch commander on that same visit where we we were reporting about a hunger strike that had been happening.

241 "BOS Commission Services" (1510505472)

01:04:42.930 --> 01:04:59.820

And the latenant told us that he was wasting his time and was being absurd quote. And so there's just there's certain ways that we're hearing deputies talk about incarcerated people continuing to defer to them as bodies, continuing to.

242 "BOS Commission Services" (1510505472)

01:04:59.820 --> 01:05:18.810

Really, you know, not treat them as humans and acknowledge what's going on and that's what we're, we're continuing to see as, as a big issue in this. Yeah, very concerning visit as well.

243 "BOS Commission Services" (1510505472)

01:05:18.810 --> 01:05:37.050

I have a question. Please, is there training for folks who are specific or everybody really probably around just going even sensitivity trainings or LGBTQ two, like, I understand that some people don't have the.

244 "BOS Commission Services" (1510505472)

01:05:37.050 --> 01:05:56.070

Pre information around what that's our importance or gender and other identifications and stuff. Is that training that classification? No, we don't have any specific training.

245 "BOS Commission Services" (1510505472)

01:05:56.070 --> 01:06:14.070

Towards that's just sensitive sensitivity training, but just as commissioner Toronas had mentioned, we do have policy regarding use of proper pronouns and it's expected Yes, it's expected that when it's made NO to.

246 "BOS Commission Services" (1510505472)

01:06:14.070 --> 01:06:32.910

To the best of our ability to use the proper pronouns, so yes, that is intertwined with our policy, so other than doing our policy trainings unfortunately we have training geared towards the escalation tactics but.

247 "BOS Commission Services" (1510505472)

01:06:32.910 --> 01:06:48.060

Sensitivity training like you're mentioning not for our individual line staff. But in terms of the policy, like.

248 "BOS Commission Services" (1510505472)

01:06:48.060 --> 01:07:04.740

Okay, maybe the quickest thing is definitely concerning especially when you bring it to an attention and the supervisor's there. So I, again,

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

when it's made known, then we need to make that active concerted effort to use the proper.

249 "BOS Commission Services" (1510505472)
01:07:04.740 --> 01:07:24.740

Is it possible to have the specific access policy sent to us just so we can know what folks are supposed to be confined to, and also I think that it legitimizes us, which unfortunately as commissioner Bara was saying, is unfortunately necessary inside of these conversations especially with supervisors. Yeah.

250 "BOS Commission Services" (1510505472)
01:07:24.740 --> 01:07:42.360

No, but we know, but this is what supposed to happen. Thank you. Absolutely. Thank you for that. Alright, I will move to Commissioner Roll and my inspection of MCJ on 12 April 2026.

251 "BOS Commission Services" (1510505472)
01:07:42.360 --> 01:08:01.470

Would you like to begin question around? I don't know that we have more to add beyond, we talked a lot about this is the one day with 5900 things. I would just, like I said on my other inspection, again, watching security checks for 70 plus.

252 "BOS Commission Services" (1510505472)
01:08:01.470 --> 01:08:21.470

Mentally ill people as you identified who have mental health issues are triple bunked and three deputies go in and I'm using air quotes, security check in like two sections. There's not an opportunity for people. There's, they're definitely not looking into the bunks. I watched them, not looking to the.

253 "BOS Commission Services" (1510505472)
01:08:21.470 --> 01:08:25.410

There it's not an opportunity for people to ask them.

254 "BOS Commission Services" (1510505472)
01:08:25.410 --> 01:08:45.410

Like, hey, you know, can I have a complaint form? They're running in and running out. Otherwise they're locked in the dorm like that, so they don't have access to people. The deputy just sits in the the station at the top and there's actually people told us, I don't remember if there was a sign that said, you know, you get in trouble if you knock too much, like kind of.

255 "BOS Commission Services" (1510505472)
01:08:45.410 --> 01:08:49.380

Like when you're at the hospital and you push the emergency button too often, you get.

256 "BOS Commission Services" (1510505472)
01:08:49.380 --> 01:09:09.380

Like that's not allowed, there was definitely like don't be asking us for stuff. So, yeah. There was, as we mentioned in 5900 that they, that

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

search that took place a couple hours before we came in and as we mentioned, we heard that.

257 "BOS Commission Services" (1510505472)

01:09:09.380 --> 01:09:28.800

And mobility. We were also told there was one individual who told a deputy at the start of the search I really need to use the restroom, I really need to use the restroom. I'm diabetic and they took his inhaler and told him to pee on himself, and he ped on himself because he could not hold it too.

258 "BOS Commission Services" (1510505472)

01:09:28.800 --> 01:09:48.800

Get to the, to the restroom because the search had just begun and they were supposed to line up to go to roof. We also heard many many things there about canes being taken and hailers being taken, walkers being taken, things like that in the search, so we definitely want to follow up with CHS and see what that coordination.

259 "BOS Commission Services" (1510505472)

01:09:48.800 --> 01:09:59.400

It's looking like, but there were multiple ADA individuals in that module who did not have accommodations. There were NO bars in the showers, NO bars on the toilets.

260 "BOS Commission Services" (1510505472)

01:09:59.400 --> 01:10:15.390

There's NO shower chair, NO chair next to the phone for them to be able to sit and access the phone in that way. And so there's certain things that can absolutely be changed to make that module more accessible and safer for those individuals because we are hearing quite a few things about falls.

261 "BOS Commission Services" (1510505472)

01:10:15.390 --> 01:10:35.390

What's happening there and we're also, we're hearing in that module in particular that there were a couple different manned down incidents where, they're yelling and begging for help and nobody's coming in for a while. We were told that two months prior to this visit, there had been a death in that same module, and there were thir.

262 "BOS Commission Services" (1510505472)

01:10:35.390 --> 01:10:51.930

30 min where the, the incarcerated people in that module were trying to help and yelling for help and yelling and nobody came in to help for what felt like at least 30 min from, from their report and.

263 "BOS Commission Services" (1510505472)

01:10:51.930 --> 01:11:11.930

Another person told us that he fell a man down and it took over 2 h for a deputy to come in and help him, even though people were coming in to do security checks and they were ignoring him and those needs. So we're, we're concerned about that. We're concerned about the triple bunking and we also.

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

264 "BOS Commission Services" (1510505472)

01:11:11.930 --> 01:11:15.240

Saw in there that there were two cameras in the bathroom.

265 "BOS Commission Services" (1510505472)

01:11:15.240 --> 01:11:32.010

That looks straight onto the toilets and straight onto the shower. The deputy said that they were not operational, we went back into the and saw that they were indeed operational. That is that. Anything to add Commissioner Roman?

266 "BOS Commission Services" (1510505472)

01:11:32.010 --> 01:11:49.800

Alright Commissioner and Christer Rolls TTCF from 24 April we went to I can't remember that we only went to one module because it took so long. It was a.

267 "BOS Commission Services" (1510505472)

01:11:49.800 --> 01:12:09.800

K Ten men only L M O H or H oh H I think it might have been both module. Just to piggyback what Commissioner Torona said, I walked out of that inspection, very feeling extremely unsafe. We heard both.

268 "BOS Commission Services" (1510505472)

01:12:09.800 --> 01:12:29.670

Of us from three different people complaints about a particular deputy. One, the one person I talked to had filed a Priya complaint about this person who was making comments to him about his penis and the person had made the complaint.

269 "BOS Commission Services" (1510505472)

01:12:29.670 --> 01:12:46.950

Been interviewed by a sergeant on video, at least two and a half weeks prior to my visit, had asked for like emotional supportive services as a result, had heard nothing since then, and the deputy about whom the complaint was was.

270 "BOS Commission Services" (1510505472)

01:12:46.950 --> 01:13:02.220

Working the day that we were there and while I was standing in the module talking to the person, this deputy walked around the module multiple times and what very much felt like a intimidation.

271 "BOS Commission Services" (1510505472)

01:13:02.220 --> 01:13:17.730

Tactic, to either hear or whatever. I mean there he wasn't doing this check. He wasn't At one point he put in a phone to the person next to him to do a supposed legal call, but when I talked to the guy.

272 "BOS Commission Services" (1510505472)

01:13:17.730 --> 01:13:37.730

About his legal call, he was like, I don't know, they just brought me the phone, so I don't know what was going on, but it was very intimidating.

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

And it's really concerning that someone has had three different people independently tell us stuff about this person and he was still working that module.

273 "BOS Commission Services" (1510505472)

01:13:37.730 --> 01:13:49.080

That day, I've received information that maybe this person is not working on that module anymore. I don't know, but.

274 "BOS Commission Services" (1510505472)

01:13:49.080 --> 01:14:05.100

Yeah, if that's true, that's, I guess promising but it's a little concerning that it took us reporting it because we can't see everything. So I don't know. It was it was extremely upsetting.

275 "BOS Commission Services" (1510505472)

01:14:05.100 --> 01:14:25.100

Thank you, Commissioner. Could I ask you a question? Please put a name of the deputy? Yeah yes. What is it? Let me get it. So this was shared to the watch commander. It's in our report. Share it with me. Okay, I'll give it. Yeah.

276 "BOS Commission Services" (1510505472)

01:14:25.100 --> 01:14:43.590

The Towers Operations is aware they're reviewing the complaints that were submitted and the outcomes of the complaints, so they are aware of it and they are working towards doing an assessment of what occurred. And so is it's typical that if someone files a Priya complaint.

277 "BOS Commission Services" (1510505472)

01:14:43.590 --> 01:15:01.440

About a deputy that they still are fully interacting with that person until the investigation's complete. And so there's NO like accommodation or supportive services like so if the deputy like sexually salted me in a jail.

278 "BOS Commission Services" (1510505472)

01:15:01.440 --> 01:15:16.770

That person is still in charge of my safety and security until an investigation is completed. That's the. That's the person who's still watching me in the shower who's still responsible for my safety. Unfortunately, we do not have the.

279 "BOS Commission Services" (1510505472)

01:15:16.770 --> 01:15:36.600

Capability the staff to reassign everyone for every complaint that we've received against staff? I appreciate that. I guess I'm just wondering, are there there's NO accommodations. It's just free for all until Unless it's any emergent that the watchmander sees that there's an outcome that's gonna be.

280 "BOS Commission Services" (1510505472)

01:15:36.600 --> 01:15:53.940

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

Leaning towards or it looks like there's gonna be some substantiated findings subjective. So it's a subjective determination by the department. If we move the person out at that moment, if not, why don't you move that in the.

281 "BOS Commission Services" (1510505472)

01:15:53.940 --> 01:16:09.390

It all depends on the classification, I might not be able to. I I think that's extremely upsetting because it was very dangerous and I haven't I've been going to the jail for 20 years. I have not been so glad to be able to get to my car, ever.

282 "BOS Commission Services" (1510505472)

01:16:09.390 --> 01:16:25.650

After that visit, I felt so unsafe. I can't imagine what's happening to that person. It's and there were three of them. It's I I I think it's really upsetting that the department just sits on that and is ok with that kind of behavior. It was deputy.

283 "BOS Commission Services" (1510505472)

01:16:25.650 --> 01:16:43.500

M E R E. W M E R E Mary Marie Marie, I don't know how to pronounce his name. Okay, so the last name is N E E R M as in Mary. E R E. Mary. Okay.

284 "BOS Commission Services" (1510505472)

01:16:43.500 --> 01:17:01.740

And I, I really apologize. I'm a public transit refugee today. I got to experience my 1st bless bridge, that was a amazing thing. So I do apologize for being late. Give me a hand. Hi, hello. I have to interrupt.

285 "BOS Commission Services" (1510505472)

01:17:01.740 --> 01:17:21.740

From sorry. I'm not on that project and we do have a speaker for the COC today and for those reasons I have to have you speak during the public comment time. I thought that was more of a kind of a participant.

286 "BOS Commission Services" (1510505472)

01:17:21.740 --> 01:17:31.230

Thank you, but if not, I'll just have to pointe and so we didn't have Hans change to you today. If we had him changed to you, then we could.

287 "BOS Commission Services" (1510505472)

01:17:31.230 --> 01:17:51.230

Apologies. But we will, we will bring you in for all the public comments you would like, please. I just want to be in on what's going on. I appreciate you being here. Commissioner Berl, thank you for sharing that information. Committer mcpoyia, is there anything on that?

288 "BOS Commission Services" (1510505472)

01:17:51.230 --> 01:18:08.970

You can share with us. No other than the towers operations is aware of and they're reviewing the the complaints that were submitted. We do, I believe they do have, records of of pre complaints being submitted that was mentioned.

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

289 "BOS Commission Services" (1510505472)

01:18:08.970 --> 01:18:26.880

And they're reviewing their investigations, the entities that were conducted, and then they'll make the final determination, but that's a follow up that they are that they are following. And then will they report to us or how will we get feedback about not necessarily the priya complaint, but because we've talked about it at previous meetings where if people.

290 "BOS Commission Services" (1510505472)

01:18:26.880 --> 01:18:44.790

You know, experience something traumatic like this and make a complaint that we were told that there's supportive of mental health services that they just have to ask and they asked. So how do we, was that done? That's the CHS will not follow up. But I mean the department had to tell them, so I would like to know during this.

291 "BOS Commission Services" (1510505472)

01:18:44.790 --> 01:19:04.790

Video like is it reviewed that this person did ask for supportive services A, B, was that related to CHS? Yeah. And what did CHS do with it? But what I can say is I can refer this to the captains. When I return to ensure that they.

292 "BOS Commission Services" (1510505472)

01:19:04.790 --> 01:19:07.230

I would like to know.

293 "BOS Commission Services" (1510505472)

01:19:07.230 --> 01:19:25.350

What happened why it didn't happen if it didn't happen because we had people we had a whole meeting about it and it was reported to us as a commission by the department and by CHS that, oh, they just have to ask for support and will be there. We communicated to CHS.

294 "BOS Commission Services" (1510505472)

01:19:25.350 --> 01:19:44.520

Like as if it happens and then we're learning here it didn't at least according to our inspection. So I would like to know, if what you all told us at the meeting, I think it was March or February that this is what happened. Well, this is an incident where it's reported that it didn't happen, so I would like to know.

295 "BOS Commission Services" (1510505472)

01:19:44.520 --> 01:20:00.960

What happened? Thank you. Alright, my inspection with commissioner Caronez of CRDF 30 April. Commissioner Toronas anything you'd like to begin with?

296 "BOS Commission Services" (1510505472)

01:20:00.960 --> 01:20:20.960

We went into their went into their reception area. And so it was just, there's just a lot of trash, there was a flooding in one of the cells.

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

There was still people in both of those cells. We had asked them to have the.

297 "BOS Commission Services" (1510505472)
01:20:20.960 --> 01:20:24.420
But at least removed from there.

298 "BOS Commission Services" (1510505472)
01:20:24.420 --> 01:20:44.420
And then it was just kind of overall just lack of their shortage of supplies, not being able to clean themselves, be trustee, right? We went through dinner times with trustee was just very overwhelming. I know who she actually talked to the trustees.

299 "BOS Commission Services" (1510505472)
01:20:44.420 --> 01:20:48.510
And I just think overall everybody's just.

300 "BOS Commission Services" (1510505472)
01:20:48.510 --> 01:21:06.240
In herself, they haven't been out and they're all I had to assist at one of the girls she was having a panic attack in herself, and so I was able to assist her with that. Again, that's another thing though it would if we weren't there, I don't know what would happen to her. She's in her suicide.

301 "BOS Commission Services" (1510505472)
01:21:06.240 --> 01:21:24.000
And I walked through a panic attack. I want to just flag right there. You did such a beautiful job walking through that. I was at a window next to her and you just supported this person so beautifully in that moment and I'm really glad that you were there to give that attention. Thanks.

302 "BOS Commission Services" (1510505472)
01:21:24.000 --> 01:21:40.380
Which again, you know, I mean, I I it's it's one of those things of that there was there were I think there was only like three deputies in the whole area, so there wasn't too many staff there a lot of people. Yeah, but there was, there was a lot of of.

303 "BOS Commission Services" (1510505472)
01:21:40.380 --> 01:21:56.400
The they did have water bottles that we did notice, but just overall the cleanliness, not water bottless. The shower had worms coming out of it that we observed.

304 "BOS Commission Services" (1510505472)
01:21:56.400 --> 01:22:16.400
The water coming out of the sinks was disgusting. There was a woman who told a deputy who she was in the sec center section out in the on the floor and she said that she had to deprecate and the deputy said you wouldn't do that and then she did on herself and had to be taken out and given new clothes.

**Transcript for the May 7, 2026
Sybil Brand Commission for Institutional Inspections Meeting**

305 "BOS Commission Services" (1510505472)
01:22:16.400 --> 01:22:16.980
Those.

306 "BOS Commission Services" (1510505472)
01:22:16.980 --> 01:22:36.980
We were told there's a facility wide sock shortage, and so they're having a hard time giving out socks to everybody. And we also, I I talked this trustee for a while and this trustee has put in a really hard position as the only person there managing the full food dis.

307 "BOS Commission Services" (1510505472)
01:22:36.980 --> 01:22:46.200
Distributions more and more she was like rubbing back and forth. She was super sweaty and hot and like red and overwhelmed and she cried at one point and she was saying that.

308 "BOS Commission Services" (1510505472)
01:22:46.200 --> 01:23:03.930
Things are just terrible. The deputies aren't helping her, she's assigned to be by herself in this and she said that she's been experiencing issues where she's been told by the deputies to say that there's NO food left when there is more food even when people are asking for more food and saying that they're hungry.

309 "BOS Commission Services" (1510505472)
01:23:03.930 --> 01:23:19.650
And, she was, she was having a very hard time. We also were asked by a few incarcerated women for abroads, and we spoke with the deputy, she told us that they were not being given them because they were just using them to clean the cells.

310 "BOS Commission Services" (1510505472)
01:23:19.650 --> 01:23:39.650
The cells themselves were, were quite filthy and the deputies were telling us that if, when somebody goes into that cell, it's dirty, they're supposed to tell a trustee to come and clean it, but it's like that one trustee who's running around doing 5 million things and so it's not really possible. And so we.

311 "BOS Commission Services" (1510505472)
01:23:39.650 --> 01:23:47.000
Heard from a couple people in the cells that they came in and they were biohazards and crumbs and urine and feces all over their.

312 "BOS Commission Services" (1510505472)
01:23:47.000 --> 01:24:07.000
So if we're hearing that maybe they're using the broad to clean up perhaps that explains why, that they still are are asking for the broad and for the socks and treet brushes and fish kits. We heard also, and I wanted to clarify this, that fish kits are handed out not there, the hygiene kits they're.

313 "BOS Commission Services" (1510505472)

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

01:24:07.000 --> 01:24:32.860

We're handed out like right when they arrive only and that there's NO follow up hygiene kit given out at all. Is that the case or is there a possibility to be given out more hygiene kits later on in processes? Cause we're we're hearing across all facilities MCJ, CRDF TTCSF constant requests for hygiene kits. And I think that sometimes those are fulfilled, but maybe that's not spread equally across the board when.

314 "BOS Commission Services" (1510505472)

01:24:32.860 --> 01:24:54.160

Do you have any information on that? I can't see for a student, they're definitely provided at the reception area when they're coming in. On the floors, I, I wanna say they do have some on the floors, but I don't know. I would have to reach out to crdf on that. Okay. I have a question, is there any policy about putting put into.

315 "BOS Commission Services" (1510505472)

01:24:54.160 --> 01:25:11.810

Like dirty cells or like even at least biohazards because we also I've also What is it called? I've also observed that at IRC where like there's faces in the back of a cell. Yeah.

316 "BOS Commission Services" (1510505472)

01:25:11.810 --> 01:25:31.810

And the people are put in there or like there's an active leak that people are put in there. Is there any policy around the state of the cell that they can be put into? So I know I would have to reach out to CRDF, but I know that they typically clean the cells prior to moving new persons in site.

317 "BOS Commission Services" (1510505472)

01:25:31.810 --> 01:25:50.930

Trustees to clean them. And unfortunately, we have a lack of trustee pool at this moment, so I wish there were more people who would be interested in working, but unfortunately we have less and less.

318 "BOS Commission Services" (1510505472)

01:25:50.930 --> 01:26:08.030

Individuals who want to work inside our jails. So that does unfortunately mean those who do, now it's an additional burden, so like you saw one person handling all of the dinner service, maybe one person handling the cleaning area. At CRDF we, they do allow.

319 "BOS Commission Services" (1510505472)

01:26:08.030 --> 01:26:28.030

Individuals to clean their own cells, so as they are moved into a new cell, they are provided or they should be provided cleaning IRC. Not in the intake area. But people are in those cells for five days sometimes it sounded like IRC. Yeah.

320 "BOS Commission Services" (1510505472)

01:26:28.030 --> 01:26:50.600

Not at CRDM. So there's the intake area, the reception area where the most that's in there is only 4 h or so. For 1400 14 hundred's different.

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

14 hundred's in housing area. With that there are because of classifications, you're right. They do not provide them with cleaning.

321 "BOS Commission Services" (1510505472)

01:26:50.600 --> 01:27:10.600

Supplies because we, they haven't been properly classified. So for that we do have our trustees who do clean that area and the goal is to have it cleaned before we move a new person inside the cell. It was really built. There were bugs that we observed crawling on on the like walls.

322 "BOS Commission Services" (1510505472)

01:27:10.600 --> 01:27:33.800

On the floors, the shower was had standing water in it and trashed all over the back of it. The warms were coming out of the shower drain. We were being told by women that they hadn't had showers since their arrival multiple days before, and they were covered in like blood bikes and things like that. Somebody said that they, they needed a shower and a deputy replied to her, you should try about it.

323 "BOS Commission Services" (1510505472)

01:27:33.800 --> 01:27:51.770

Also specifically, is there a policy about the state of the cell that people can be put into or not? We have or like the state of the cells that you, that can be operational. So we have a general sanitation policy which I can share with you.

324 "BOS Commission Services" (1510505472)

01:27:51.770 --> 01:28:07.160

So because and also just for additional context, when we see things that, of course, could make become reliable such as feces because that's a biohazard blood because that's a biohazard leaks because people can slip and fall in the soup. Yeah.

325 "BOS Commission Services" (1510505472)

01:28:07.160 --> 01:28:24.109

We asked deputies to move them and it's a little it can be annoying. The response that we get in advance or back sometimes is annoyance, and so to say because this is out of compliance and we want to make sure that we get back into the compliance would be helpful. Thank you.

326 "BOS Commission Services" (1510505472)

01:28:24.109 --> 01:28:44.109

Thank you. I know we've talked about this before, but just I, and this is my term, but, you know, when, when there isn't enough like free slave labor that the county can rely on to clean cells and that's two parts not really been my experience with talking to people they want to work, they want to get out of their cells.

327 "BOS Commission Services" (1510505472)

01:28:44.109 --> 01:29:04.159

So I don't really know where that's coming from that people don't want to work because people want to do stuff, but if the county doesn't have enough like low enough classification or whatever to get their free labor, is there any expansion of the like cleaning people? Cause we were

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

at CJ once and there was some like cleaning people seen them a few times. So they're at CRDF.

328 "BOS Commission Services" (1510505472)

01:29:04.159 --> 01:29:19.339

Yes, so we've expanded, we do have some at CRDM. Okay. It's now it's a matter of expanding the areas that we can clean areas that they can enter so that they can clean as well as personnel right now.

329 "BOS Commission Services" (1510505472)

01:29:19.339 --> 01:29:39.339

Unfortunately, we just have a minimal amount of contracted workers so we're looking towards expanding that. As we see that, our need is growing, we would like to grow that contract as well. It's been in janitorials where they can be, and that's based on like clearance stuff. Clearance as well as.

330 "BOS Commission Services" (1510505472)

01:29:39.339 --> 01:29:57.469

Their agreement as well. Okay, thank you. Again, these aren't county employees, this is a contracting. Right, right. All right. Any additional questions, notes on any of these inspection reports?

331 "BOS Commission Services" (1510505472)

01:29:57.469 --> 01:30:27.799

Can we go to public comment, please, then, which is sure any members of the public who owns oh sorry I see a comment, a hand up from the the chair of the COC chair Constan. Oh I'm not the chair of the CEO saying. I see. Good. Are you off mute? Can you, can you, can we hear you?

332 "HansJohnson" (800494336)

01:30:27.799 --> 01:30:46.399

Yeah, so thank you for having me join this meeting and thank you all for your work to inspect our jails and make reports and I want to thank the representatives of the department who are there to receive these reports and to respond to questions raised by commissioners.

333 "HansJohnson" (800494336)

01:30:46.399 --> 01:31:06.399

In light of the comments and the reports about violations of human rights at the jails and the misgendering and repeated abuse of incarcerated people by misgendering, I want to just note that this transcends sensitivity training and that sensitivity.

334 "HansJohnson" (800494336)

01:31:06.399 --> 01:31:36.369

Training is an important feature that can be addressed and is of urgent need as the reports make clear, but that those are grow task violations of human rights that are being reported and that we are all witnessed to today and that the deliberate naming and misgendering of inmates is extremely worrisome and when it's added to referring to incarcerated people as pro.

335 "HansJohnson" (800494336)

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

01:31:36.369 --> 01:31:55.429

Problem persons, as Commissioner Varal has indicated, if that is happening in the presence of inspectors, we all need to pause and think about the forms and the many clandestine and insidious forms of mistreatment that can.

336 "HansJohnson" (800494336)

01:31:55.429 --> 01:32:11.599

Emerge and be inflicted without the presence of inspectors. That we had a moment of an inspector herself rushing back to a car to attain safety, feeling chilled by what she had witnessed, should give all of us.

337 "HansJohnson" (800494336)

01:32:11.599 --> 01:32:31.599

Chills and should prompt immediate and sustained action by the department. And I thank the representatives of the department who are there, including Commander Montoya, and I ask that these reports be escalated within the office of constitutional policing and that all.

338 "HansJohnson" (800494336)

01:32:31.599 --> 01:33:01.099

Responsive action of an urgent nature be conducted at Twin Towers and at any other facilities where similar reports are being made. One final note, the Priya issues being raised and the routine use of staffing constraints as an excuse for non compliance or non responsiveness to what appeared to be urgent reports of violations of Priya and the monitoring and cross gender examination of shower facilities by.

339 "HansJohnson" (800494336)

01:33:01.099 --> 01:33:20.479

Personnel are extremely troubling and job with worrisome reports and violations of Priya that are being reported and have been escalated within the department. And so I just want all of the commissioners to know and the staff at LASD that we at the COC take this very seriously.

340 "HansJohnson" (800494336)

01:33:20.479 --> 01:33:40.479

And the work of our sibling commission is one that we commend and will do our own part to be active participants in the necessary accountability and follow up action. And I really thank all of the commissioners for their diligent visits to the commission. You keep the spirit.

341 "HansJohnson" (800494336)

01:33:40.479 --> 01:33:57.724

Of civil brand alive, she may have passed away at a hundred and four, but all of us need to keep that same tenacity and our own collaboration and teamwork alive to address these protest violations that we've heard today. Thank you. Thank you.

342 "BOS Commission Services" (1510505472)

01:33:57.724 --> 01:34:12.889

Thank you so much. There is comment here from Commissioner Renewal. I'd like to kind of piggyback on the comments just made by our commissioner from the COC and.

**Transcript for the May 7, 2026
Sybil Brand Commission for Institutional Inspections Meeting**

343 "BOS Commission Services" (1510505472)

01:34:12.889 --> 01:34:29.599

Identify the fact that it is very much the meaning when a person cannot be identified by their gender and the fact that they feel that they are put into a separate class for a separate category when.

344 "BOS Commission Services" (1510505472)

01:34:29.599 --> 01:34:46.159

Being dealt with in a, in a blocked facility that will minimize their, their human aspect in that regard. Training is very much an important aspect of this and I'd like to see.

345 "BOS Commission Services" (1510505472)

01:34:46.159 --> 01:35:06.159

Say that the county of Los Angeles has a resource for this type of training, and that's the human relations commission. That's the, the commission that I work for for over 20, close to 22 years, and we deal with the importance of identifying the.

346 "BOS Commission Services" (1510505472)

01:35:06.159 --> 01:35:23.239

Gender gender recognition, preference, and so on and how that works on communities when it is ignored. So I'd like to suggest that it's a very small department, but yet they're very good at doing what they do.

347 "BOS Commission Services" (1510505472)

01:35:23.239 --> 01:35:43.239

And it might be worth the opportunity to engage the human relations commission. I probably should have checked with them because they are small, but I I'll take the chance of them getting upset with me being that, they can only do so much. They can't fire me anymore. But I think it might be something that is worth.

348 "BOS Commission Services" (1510505472)

01:35:43.239 --> 01:36:08.629

Having a conversation with to see how there might be some maybe in house training in and around that because that's such an easy thing to accomplish in our facilities, but yet it is, has huge implications when a person is purposely misidentified in their, in their role or in their humanity within.

349 "BOS Commission Services" (1510505472)

01:36:08.629 --> 01:36:26.179

A incarcerated facility, so I would be happy to intercede and talk to the commission, people who I work with, who, people who work for me in that capacity and and if there's anything I can do to help with that, I'd love to be able to do.

350 "BOS Commission Services" (1510505472)

01:36:26.179 --> 01:36:43.039

I'm sorry, can I get the name of that training again? It's not training, it's the human relations Commission that does this type of work and

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

emphasizes the importance of it in all aspects of our Los Angeles County community of which.

351 "BOS Commission Services" (1510505472)

01:36:43.039 --> 01:37:03.039

Our jail system is within our community. I'm gonna refer this to our Priya director. I know he has been working towards arranging additional training for our line staff and hopefully I can be connecting with it with you or with this human relations commission so maybe they can.

352 "BOS Commission Services" (1510505472)

01:37:03.039 --> 01:37:23.529

And help guide him and as he's developing this new training program for us. Perfect. Thank you. Commissioner Barrell? Oh, sorry, I forgot. Oh, you don't mean to have it? No I forgot to put it down. Okay. Public comment, please. Thank you. Oh, now we'll move on for.

353 "BOS Commission Services" (1510505472)

01:37:23.529 --> 01:37:40.924

Virtual public comment, if there are any members of the public who would provide a public comments. A virtual public comment, please press star three for using a smart question two, please use raise hand feature. Okay, we do have a virtual public comment from Janet A Janet A, who are unmuted, you have 2 min, ok?

354 "Janet A" (471500800)

01:37:40.924 --> 01:37:49.069

The dignity and power now and the Justice LA coalition. And I joined this meeting in large part because.

355 "Janet A" (471500800)

01:37:49.069 --> 01:38:09.069

It is beyond time for us to close men's central jail. But yesterday I also received photos and videos from a public defender showing worms inside of the water at the Linwood facility and then to come on to this meeting and to hear things horrors beyond my imagination and just when you think.

356 "Janet A" (471500800)

01:38:09.069 --> 01:38:30.049

Things can't get any worse, you hear another thing that makes things even worse, and these are not matters of neglect, these are not matters of neutrality. Some of these things are outright, intentional cruelty, and a complete lack of humanity, and I just can't imagine being somebody who's inside right now.

357 "Janet A" (471500800)

01:38:30.049 --> 01:38:47.449

And knowing that my complaint reached a body like this and still nothing happened, it is beyond time for actual accountability, actual consequences to be brought to those within the department. I don't know how LASD can sit there and listen to these things and offer excuses when there's people suffering.

**Transcript for the May 7, 2026
Sybil Brand Commission for Institutional Inspections Meeting**

358 "Janet A" (471500800)

01:38:47.449 --> 01:39:07.643

To the point of, blood being on your hands should they perish? We need to close men's central jail. We can talk about these issues all we want, but the department needs to actually be held accountable, and they should not be responsible for human beings if they can't care for them and keep them safe. Thank you.

359 "BOS Commission Services" (1510505472)

01:39:07.643 --> 01:39:17.986

Thank you so much. Next we have public public comment from Anthony Gov. Anthony Douglas, if you are unmuted, you have 2 min.

360 "Anthony Robles" (1607996928)

01:39:17.986 --> 01:39:26.209

Anthony Roberts with Dignity Parnoun, justice talent, and Carefords California. We're a resident of district one.

361 "Anthony Robles" (1607996928)

01:39:26.209 --> 01:39:41.569

I want to diddle what Janet just stated about the cruelty, the neglect, the outright barbarity of those who administered the jail, Los Angeles sheriff's department. I do not see how.

362 "Anthony Robles" (1607996928)

01:39:41.569 --> 01:40:00.289

The, our civilian oversight commission or the Los Angeles D A has not held anyone accountable or even or even feels like attempted to hold anyone accountable and we need to get beyond not just systemic accountability but also individual accountability.

363 "Anthony Robles" (1607996928)

01:40:00.289 --> 01:40:20.289

And, you know, most of our, our discretionary budget the the most goes to, the sheriff's department and to the Carsville system in LA county. And it's not solving any problems when prop 36, more people are ending up in a jail. The last I checked was just.

364 "Anthony Robles" (1607996928)

01:40:20.289 --> 01:40:37.579

The other day, top 36 accounts for 1100 more people in the alley county jails. And so we were on a path to, we were on a path that we were slowly decarcerating alley county jails and now it's going back up because of a law that.

365 "Anthony Robles" (1607996928)

01:40:37.579 --> 01:40:57.579

Hypercriminalizes people for theft and drugs and there's NO treatment centers, there's NO treatment to actually divert people to. And that's a choice. That's a choice from our board of supervisors, but we can push that and we need to close this jail. You know, we can push that from different bodies from the SBC to the COC.

366 "Anthony Robles" (1607996928)

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

01:40:57.579 --> 01:41:21.423

But the end of end all be all is, you know, JC just came out of report, we need a closed all the kind of jail, the min central jail in particular. I've been in the min Central jail. I've been on the 2000 blocks I've been in wayside, and not both are delapidated, but there's really NO comparing to min central jail on how delapidated it was, how the time?

367 "BOS Commission Services" (1510505472)

01:41:21.423 --> 01:41:35.224

Next we will move on to Marcella Rosen. Marcella Rosen, you are unmuted. You have 2 min.

368 "Marcella Rosen" (52376064)

01:41:35.224 --> 01:41:42.964

Can you hear me? Okay. Hi, my name is Marcela Rosen. I'm with Dignity Empower now.

369 "BOS Commission Services" (1510505472)

01:41:42.964 --> 01:41:43.867

And so.

370 "Marcella Rosen" (52376064)

01:41:43.867 --> 01:42:13.529

Hey, yeah, it's just sick to hear what's being reported inside these jails and to know that Los Angeles sheriff's department doesn't care at all. You're talking about how it's hard to hire people for these positions including like food workers. I mean, who, who would wanna work inside a facility where people are murdered and raped indiscriminately with NO consequences really like who would want to be in that setting other than obviously the representatives who are.

371 "Marcella Rosen" (52376064)

01:42:13.529 --> 01:42:43.444

Here today and the other deputies who work there. It's, it's criminal what you are doing. It's horrible to human rights violation again and again and there's obviously NO internal interest in changing those systems. They're enabled, they're supported, they're abusive facilities, and it's just I appreciate the civil brand commission for continuing to enter those spaces and see those things and report on them because otherwise we really wouldn't know what was happening.

372 "Marcella Rosen" (52376064)

01:42:45.244 --> 01:42:51.765

Closen central jail and all the deputies should be fired. Thank you.

373 "BOS Commission Services" (1510505472)

01:42:51.765 --> 01:43:08.443

Thank you. Next we have Sahira. Sahira, you have 2 min, you are unmuted. Sahira? Can you hear me? Yes.

374 "saharra" (2007192832)

01:43:08.443 --> 01:43:27.609

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

Hearing the details in the MCJ report was beyond disturbing and very triggering for me today. To hear that during the so called safety checks, people were being ignored while begging for help. To hear that a man fell and it took 2 h for someone to respond while deputies ignored his Christ beforehand.

375 "saharra" (2007192832)
01:43:27.609 --> 01:43:48.039

That is not cared, that's a neglect. My loved one Quinton Thomas died inside of Twin Towers correctional facility on 9 March of 2018. On a video from his final moments, Quinton was banging on the door, asking for help while deputy set there flipping through channels, watching TV and ignoring him. So when families hear these stories.

376 "saharra" (2007192832)
01:43:48.039 --> 01:44:14.209

Understand that it's not an isolated incident. This is a pattern. This is a culture of protein. And then to hear that somebody was reported being sexually harassed by the very person responsible for overseeing their safety and the sheriff's department's response was basically, well, we can't move staff unless something worse happens. What do you mean unless something worse happens? What, what are you talking about? People are expected to suffer abuse.

377 "saharra" (2007192832)
01:44:14.209 --> 01:44:31.069

Before action is taken LA County already faces billions of dollars in lawsuits tied to sexual abuse and misconception in detention facilities and yet nothing is changing. Meanwhile, we're only 18 weeks into the year and there's already been 17 deaths in LA county custody.

378 "saharra" (2007192832)
01:44:31.069 --> 01:44:49.789

Rather all time high rate for in custody dress and somehow the response is still delayed, still excuses and still denial instead of the urgency and taking accountability. This is exactly why missed sexual jail needs to be closed. The JC already laid a five year report timeline to close the jail.

379 "saharra" (2007192832)
01:44:49.789 --> 01:45:07.225

And this is unacceptable. The 1st year of the decarceration funding must be fully funded now so people can start coming home and getting it connected to real services, not punishment and neglect. How many more people have to die? How many more families have to.

380 "BOS Commission Services" (1510505472)
01:45:07.225 --> 01:45:41.439

So now we'll respond to in person public comment. Are there any members of the public who provide in person public comment? All right. You can save your name for the record, you do have 2 min. My name is Berkley Dollnoman I'm with ACLU SoCal and I am pretty disgusted by these reports this month and thank you to all the other community members who have already spoken. I want to focus on the fact that we are at a record high

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

for incustody deaths and what the things that are directly in these reports relate to that. So if the.

381 "BOS Commission Services" (1510505472)

01:45:41.439 --> 01:46:01.439

Water is brown, health issues will and have followed for ones. If mandown calls are not responded to, it directly signals that the department does not care for the health of those in their care. If medical care is in general is being denied, people's conditions worsened. When people's conditions worsened, they're handed medical request forms to wait for extend.

382 "BOS Commission Services" (1510505472)

01:46:01.439 --> 01:46:24.229

Periods of time often not getting a response at all. And if they're being denied those medical grievance forms, health issues cannot be sufficiently treated. And it goes beyond that because getting limited to NO access to shower yard or daytime, people are being kept in moldy, rusty, stale cells worsening their health. Infrequent lynnson exchanges leads to dirty bacteria filled betting that folks are inhaling and touching on their bodies.

383 "BOS Commission Services" (1510505472)

01:46:24.229 --> 01:46:40.879

Infrequent showers means that they aren't able to sufficiently clean themselves after lying in dirty bedding. Lack of hygiene supplies continues to further health issues. If needs aren't being met, grievances aren't being responded to and people choose to go on a hunger strike in response, their help once again worsense.

384 "BOS Commission Services" (1510505472)

01:46:40.879 --> 01:47:00.709

Flooded leaking showers that cause falls and stitches to someone's head means unnecessarily that unnecessarily exposes people to health risks that requires follow up treatment, which they're not gonna be getting because they're being denied medical forms when they're given long wait times. And when safety checks continue to be cursory and insufficient, health issues will absolutely get missed.

385 "BOS Commission Services" (1510505472)

01:47:00.709 --> 01:47:20.709

And yet debts are being determined as natural. None of this is natural, and it's a culture that the sheriff's department has continued to perpetuate forever and it has to stop. It has to stop. Thank you. Thank you. That concludes again there were NO written public comment.

386 "BOS Commission Services" (1510505472)

01:47:20.709 --> 01:47:37.789

Here. Thank you so much. All right. I believe the sheriff's Department has to leave at this time. Thank you for being here with us. So we will send you a follow up with the items that we discussed today. Thank you. Thank you. Thank you're gonna to your horn.

387 "BOS Commission Services" (1510505472)

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

01:47:37.789 --> 01:47:57.679

We do get ridiculous clearance. Oh Yeah most of my team is at Bodyorne camera training right now, so I text their sergeant thank you. That is fantastic. We have another commissioner who is able to go into the jails.

388 "BOS Commission Services" (1510505472)

01:47:57.679 --> 01:48:27.540

That has never happened so past to the history of far as I know. Amazing amazing news. Thank you. Wow. That's what. Can we real quick have the updates from COC and then we'll take a 5 min break for item number five? That would be the Blessons County sheriff's civilian oversight commission's announcements from Chair Hans Johnson. Yeah.

389 "HansJohnson" (800494336)

01:48:27.540 --> 01:48:35.629

Hello, thank you.

390 "HansJohnson" (800494336)

01:48:35.629 --> 01:48:52.939

In the 9 April forum that we held in East LA over in custody deaths, chair Broaders participation in this wide ranging forum was extremely valuable and shed light on the testimony of other.

391 "HansJohnson" (800494336)

01:48:52.939 --> 01:49:12.939

Participants and the rise and record of recent deaths in jails. I would just note based on the reports we heard here today that LASD appears on course after four months of 2026 to set yet another record of at least fif.

392 "HansJohnson" (800494336)

01:49:12.939 --> 01:49:39.669

51 in custody deaths in 2026 if the projections hold. But that forum on the 9th sponsored by the COC also featured the voices of people in correctional health services and members of the department. I want to give a particular note to director Tim Bellevitch for correctional health services.

393 "HansJohnson" (800494336)

01:49:39.669 --> 01:49:59.669

But also, the very valuable contributions of Captain Monica Boteo from LESD responding to questions and concerns, but also providing testimony about the process for notification of Next of Kin and perhaps some revision in the counting of in.

394 "HansJohnson" (800494336)

01:49:59.669 --> 01:50:19.669

Custody deaths that we may have even seen some progress in today's announcement at this very meeting in that deaths in hospitals are being flagged as in custody deaths and given a distinct identifier in the tabulations by the department. That is a helpful shift that may even relate to.

395 "HansJohnson" (800494336)

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

01:50:19.669 --> 01:50:42.259

The kind of interaction and feedback that shared Broader was part of at our forum on 9 April. I also just want to note that that is going to be a continuing emphasis by the COC. We will have further community forums about in custody deaths, especially as the numbers sadly rise and the factors contributing to them that we.

396 "HansJohnson" (800494336)

01:50:42.259 --> 01:50:58.129

Continue to jointly look into, bear on our duties as commissioners to report to the public and engage the public in that conversation and engage the supervisors in responsive policy and motions.

397 "HansJohnson" (800494336)

01:50:58.129 --> 01:51:18.129

To highlight and to take action to reverse that trend, which may including the change of facilities or closure of facilities. An ongoing priority of the supervisors and that we can play a role in activating. I also just want to note in the wake of the.

398 "HansJohnson" (800494336)

01:51:18.129 --> 01:51:39.529

The commission's own meeting on 16 April. Resolution passed by our commission that has some relevance to the SBC, our, our sibling commission and that is about the mounting use of meet and confer negotiations by the county of Los Angeles.

399 "HansJohnson" (800494336)

01:51:39.529 --> 01:51:59.529

And flagging the conflicted status of county council in its role providing legal advice to our commissions while simultaneously providing council to the sheriff's department. The council, the commission at our 16 April meeting unanimously approved a resolution laying out the recent.

400 "HansJohnson" (800494336)

01:51:59.529 --> 01:52:32.619

Events involving the failure of the department to comply with our subpoenas, for use of force cases, one of which involves detention at a station jail of Emmett Brocke following use of force that ended up becoming the basis of a federal lawsuit and the conviction and decertification of officer of deputy Joseph Benza involving the abuse and brutality against Emmett Brocco who survived and continues to bear witness to circumstances involving.

401 "HansJohnson" (800494336)

01:52:32.619 --> 01:53:06.519

That arrest and detention at a station lock up and the misgendering and degrading treatment that Emmett Brock was subjected to, not unlike some of the facts that we've heard here today. But on that resolution, it notes that we are also seeing changes in the law in California. I wanna flag for this commission the 26 March ruling of the Court of Appeal involving efforts by the Sonoma County sheriff to defy subpoenas by their oversight commission and in that.

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

402 "HansJohnson" (800494336)
01:53:06.519 --> 01:53:26.519

At 26 March through ruling of the Court of Appeals, the lower court ruling was overturned and the sheriff was ordered to comply with subpoenas by the oversight Commission of Sonoma County, and that ruling held that memoranda of understanding involving labor relations cannot be.

403 "HansJohnson" (800494336)
01:53:26.519 --> 01:53:46.519

Used as a precondition by a county or any local government in California for compliance with state law. That is an important holding of law by the justices of the app Court of appeal, and it is noted in the resolution by the oversight commission as we.

404 "HansJohnson" (800494336)
01:53:46.519 --> 01:54:14.109

Seek to get our subpoenas, our three subpoenas from 2025 complied with by the department, notwithstanding reliance by the office of constitutional policing in the department on the county council's guidance. It is of I think additional concern that a legal mind and a trusted former US attorney for Los Angeles would rely on.

405 "HansJohnson" (800494336)
01:54:14.109 --> 01:54:38.319

In the county council's guidance for failure to comply with subpoenas by the oversight commission. We are still looking to get the records that are necessary for an investigation of our commission. We saw those records by request. They were not provided by polite repeated requests, so subpoenas were in order. Those were lawfully filed subpoenas.

406 "HansJohnson" (800494336)
01:54:38.319 --> 01:54:58.319

Now, we believe that there is NO excuse for not fulfilling or complying with those subpoenas by our oversight commission. So we will continue to shine a light, we will continue to keep you updated, and we hope that all of the commissioners of the SBC can read that resolution because it provides in one.

407 "HansJohnson" (800494336)
01:54:58.319 --> 01:55:22.099

Will document a summary of recent developments and the importance of our shared quest for sunlight and transparency and accountability to write some of the abuses and the continuing questions that have led to such breaches of distrust with Los Angeles county residents and that we have to take our duty seriously to overcome and to close the gap.

408 "HansJohnson" (800494336)
01:55:22.099 --> 01:55:41.205

In meetings. So with that, I thank you for your continued attention to our shared work and look forward to your involvement in our own meeting on 21 May, our regular monthly meeting of the civilian oversight commission. Thank you again. Thank you.

409 "BOS Commission Services" (1510505472)

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

01:55:41.205 --> 01:56:14.739

Any public comments? I said at all. No public comment. Any public comment on online? Okay so now we'll move on to virtual public comment. If there are any members of the public who wish to provide virtual public comment, please press star three. For using a smart device computer, please use the raise hand feature. Okay so we don't have the virtual public comment. Next we'll move on to in person public comment. Are there any in person members of the public who wish to provide in person public comment? Okay, see none and for the record we're not receiving written public comment chair. Thank you so much.

410 "BOS Commission Services" (1510505472)

01:56:14.739 --> 01:56:31.219

Thank you so much Chair Johnson. We are going to take a 5 min break. We will reconvene at 11:20 A.M.. We have a lot more business to talk through today. We have a lot of monthly activities to discuss, a ton of administrative matters.

411 "BOS Commission Services" (1510505472)

01:56:31.219 --> 01:56:50.419

A lot of board motions to go through. We have our annual report to discuss among other things. We'll try to get through it in a quick manner as much as we can, but we'll take 5 min now. Thank you. Thank you.

412 "BOS Commission Services" (1510505472)

01:56:50.419 --> 01:57:12.979

Yeah. Thank you all so much for coming back into the session. Let's take a day before I. Our back in session, we're moving on to item number six chairperson's report and correspondence received monthly activities as.

413 "BOS Commission Services" (1510505472)

01:57:12.979 --> 01:57:30.349

Chair Johnson mentioned on 9 April the COC held a new custody death forum. We were really grateful to participate in that, so thank you to the COC for, for putting them on and for organizing a a really difficult and timely conversation.

414 "BOS Commission Services" (1510505472)

01:57:30.349 --> 01:57:50.349

There were there were families there, there were impacted families on the panel as well. I spoke with a lot of impacted families after 26 or past years from this past year, from 2026 2025 and beyond. And there were many many family members who were there, who spoke a.

415 "BOS Commission Services" (1510505472)

01:57:50.349 --> 01:58:12.469

About how the conditions of confinement that we report are directly line up with the conditions that led to their loved person's loved ones premature death. So, I'm glad the COC hadn't organized that and we'll continue to put things like that on and I'm glad we were able to participate.

416 "BOS Commission Services" (1510505472)

01:58:12.469 --> 01:58:27.709

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

Real quick did an amazing job cause I got on that to watch it and she really represented this long. And it was really hard breaking to hear just things that have been happening for 20 plus years. The stories haven't changed.

417 "BOS Commission Services" (1510505472)

01:58:27.709 --> 01:58:44.809

Yeah. Thank you. Sorry. Do we? No, we don't. No. Hey lead it. Oh, I'm just wondering, are you aware of the.

418 "BOS Commission Services" (1510505472)

01:58:44.809 --> 01:59:01.789

There's a, video, not video, there's a web training tonight from. Nope, at least sure. Okay, it's not with us, but it's with San Diego. They just had it. Alright, so we are on item six chairpersons report on correspondence received a monthly activity, so you're talking about.

419 "BOS Commission Services" (1510505472)

01:59:01.789 --> 01:59:21.789

A big thank you to the COC for the in custody death forums most of 9 April, there were many impacted families there. It was a really impactful conversation and I do hope that there are things that come out of it and there are continued dialogues, I am very grateful of that civil brand.

420 "BOS Commission Services" (1510505472)

01:59:21.789 --> 01:59:46.269

Was included and that we were able to talk about the conditions of the assignment that we see that we see as directly correlated to these premature gaps. The commission's assignments, I heard some of this happening at our our break time, so thank you thank you assignments have been sent out for May. I will add Pamela assignment for you as well for this month now that you are clear.

421 "BOS Commission Services" (1510505472)

01:59:46.269 --> 02:00:19.869

Which is the best news ever and we will have everybody hoping to do their two inspections for the month of May. Please try to coordinate before you leave today or like by end of day today so that you have it on your calendar and can just have it done and ready and then you don't run into issues like last week where I was like Joe, are you available on the last day of the month? Can you come with me too CRCF so we can make that happen? But Joe, thank you for being available and making that happen. I'm glad you're able to.

422 "BOS Commission Services" (1510505472)

02:00:19.869 --> 02:00:40.699

To to go. So coordinate 4 June is our next meeting. Quorum count. I will not be able to be present. I will be on a work trip. Is there, will we have quorum? 4 June? I will be here. You will be here. Commissioner Raal Commissioner Toronoz.

423 "BOS Commission Services" (1510505472)

02:00:40.699 --> 02:00:57.859

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

Do we have any info from the people who are not here Mr. will be able to be there I saw. She said that we'll need to confirm. Okay, so we won't know, so we don't even need to check. Cause if even if we're all here and you're not, we won't. But maybe we'll have an additional district.

424 "BOS Commission Services" (1510505472)

02:00:57.859 --> 02:01:17.859

Okay cool. I should be able to be here. Commissioner Dogs should be here. Commissioner will be here. Okay, so likely we will still have forum and commissioner or vice Chair Dogs will lead a beautiful meeting. Can we like confirm that soon because if not, I have work travel that I would like to do.

425 "BOS Commission Services" (1510505472)

02:01:17.859 --> 02:01:34.759

So, maybe staff can reach out today to the two commissioners who are not present and check on 4 June availability, and if both of them are not available, then we'll need to cancel that meeting. And if they are available, then we should be good to go. Okay. Thank you.

426 "BOS Commission Services" (1510505472)

02:01:34.759 --> 02:01:50.089

Sorry, I did assume. We should assume you're always here. Or, you know, we changed the name.

427 "BOS Commission Services" (1510505472)

02:01:50.089 --> 02:02:08.930

Okay, month activities or can I get a follow up for the commission's assignments and we send out those reminders and those instructions if the commissioners can please, please please please reply to those requests so that we're informed and that we're able to submit when we need to submit our time on your behalf.

428 "BOS Commission Services" (1510505472)

02:02:08.930 --> 02:02:30.040

And, and when we don't get them to get them too late, can't need to make it on the agenda, yeah. So when we put it, you're asking when we put them in the report to make sure we send the email saying we put in the report and if you haven't put in the report let us know that you've ducted the instruction because if we're not aware of it, I can't follow up. I can't ask Sorry, it sounded like you were.

429 "BOS Commission Services" (1510505472)

02:02:30.040 --> 02:02:45.080

Asking once we get the assignments to let you know. Relatedly, is there a way to automatically have staff send us a PDF of the form that we submit because we can send it to the department so they can't say that they don't get it.

430 "BOS Commission Services" (1510505472)

02:02:45.080 --> 02:03:05.080

Yeah I think just as a matter of course like send a PDF when it's submitted. Okay cool. Thank you. Thank you. Alright, so monthly

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

assignments are good to go. I think that is all Oh, I do, I do have one thing. Remember at our last lovely meeting how we went.

431 "BOS Commission Services" (1510505472)

02:03:05.080 --> 02:03:26.320

Room we assigned folks to fun things to take on. How did that go for everybody? I think I left before that was. You did, but you were still assigned something lucky. It was not communicated we sent out a communication to everyone? No, I think I was supposed to call you. I did not receive.

432 "BOS Commission Services" (1510505472)

02:03:26.320 --> 02:03:56.030

So Commissioner Mural was assigned a task that she did anyway, even though she didn't know about it. The minutes Commissioner was assigned to review minutes for the meetings. Commissioner Botchya was assigned to compile a list of follow UPS for the sheriff's department. She sent that to me and I, I have it. I would like to add a backup person to that role in case that commissioner.

433 "BOS Commission Services" (1510505472)

02:03:56.030 --> 02:04:16.030

The the follow up request for sheriffs. I. What? I wrote today. I already sent the email for today, thank you. I unfortunately should have brought this up at the start of the call, but you wanna also be our backup person on that one? Perfect. I would just highlight because this is a public meeting and there aren't privacy issues.

434 "BOS Commission Services" (1510505472)

02:04:16.030 --> 02:04:31.880

I have started using AI to capture that stuff and it's disturbingly accurate, so I mean just I think we could have that as a backup too cause it really captures what people say they're supposed to do.

435 "BOS Commission Services" (1510505472)

02:04:31.880 --> 02:04:50.420

We also had Commissioner Regulato, can you tell me what we had you, you were gonna make a list of? I do. I do. Just give me a second, but I bounced back. You're gonna make a list of the patterns that were minutes.

436 "BOS Commission Services" (1510505472)

02:04:50.420 --> 02:05:07.580

Thank you. Patterns of what we're seeing with what we hear from the sheriff's department in their follow up? Yep. And, here it is. Thank you. And then mr. Chanonas, you were gonna make the templates.

437 "BOS Commission Services" (1510505472)

02:05:07.580 --> 02:05:27.580

Perfect. Yeah, great. Thank you. And then do you remember the reports or email? Oh, I think the report, I mean yeah beautiful, but the reports. Yeah, amazing. Then we had Commissionersian was going to be our coc.

438 "BOS Commission Services" (1510505472)

02:05:27.580 --> 02:05:46.550

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

And be it at those meetings. I will follow up with Kate for that meeting to be held on the 21st. Yep. Am I missing other assignments? I can find it in the meeting, if not.

439 "BOS Commission Services" (1510505472)
02:05:46.550 --> 02:06:02.180
Meeting minutes.

440 "BOS Commission Services" (1510505472)
02:06:02.180 --> 02:06:23.150
Yes, so Commissioner hen again ECMCSC report, vice Chairperson Jackson Commissioner roll, review minutes. Commissioner Therode's agenda follow up but you're the the templates. Commissioner. To track and follow up on LASD short term issues.

441 "BOS Commission Services" (1510505472)
02:06:23.150 --> 02:06:39.140
Immediate past chairperson Regulato to track long term continuous patterns and issues. And if you could work with commissioner Batya on that one, because she started a beautiful plan of of what that could look like. Okay.

442 "BOS Commission Services" (1510505472)
02:06:39.140 --> 02:06:59.140
Any questions or needs on those things? Right now. Do you think it's worth having a backup on the COC? Yes, I would love a backup on the COC. Thank you. My double also. Is there anyone who might be available on the Thursday COC meeting day to be able to.

443 "BOS Commission Services" (1510505472)
02:06:59.140 --> 02:07:23.140
To be our our backup and and share out. Commissioner maybe you could be virtual. Yes, I can. Amazing. Thank you so much. So we're allowed to be virtual for those? Yes. I could be a 3rd one? I'm always virtual sorry for those but yeah Commissioner Mural and commissioner Regularato are our backup.

444 "BOS Commission Services" (1510505472)
02:07:23.140 --> 02:07:43.700
That's fine. Amazing. Thank you so much. Appreciate that. We're gonna have representation there. And then we'll follow up at our our next meeting probably with a few other things that we canceled up. But one thing that and I were talking about before this meeting began was I know that it's hard sometimes for everyone to get their two inspections a month.

445 "BOS Commission Services" (1510505472)
02:07:43.700 --> 02:08:03.700
But there are other things that can be done to support the commission that are not inspections, so if you don't have a couple hours to get out to the jail or can't coordinate with somebody due to childcare or personal or work or things like that, please reach out to me and there are tasks that need to be done that could be supported that are not inspection.

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

446 "BOS Commission Services" (1510505472)

02:08:03.700 --> 02:08:24.580

Related. I know we didn't have a meeting last month, still so many things happened and took place and there's so much important work being done that happens outside of this meeting space. So just wanna flag that if you can't do an inspection, NO problem, sort of a problem. I mean like trying to do an inspection, but if you can't do an inspection, then.

447 "BOS Commission Services" (1510505472)

02:08:24.580 --> 02:08:44.300

And there are still other tasks that need to get done that we could use support on such as report writing and fundings like that. I know that everybody wants to go in here's but I would kind of encourage you all is not available, there maybe a Dell station in your history in this.

448 "BOS Commission Services" (1510505472)

02:08:44.300 --> 02:09:00.290

A better workboard house. I need something that you could do on your home, because it's so visible to the public and so letting them know that we exist is important.

449 "BOS Commission Services" (1510505472)

02:09:00.290 --> 02:09:17.840

I think we should really think hard about that, though, because I don't think we should be doing inspections just to check it off the list and say that, hey, we exist. We're doing inspections, look at us when the the issues are at places.

450 "BOS Commission Services" (1510505472)

02:09:17.840 --> 02:09:36.500

Where we have to be in Paris because they don't they don't believe us and that we're not safe. So I think like as a very ultimate last resort like maybe your second inspection should be that, but like, I don't think that we should be doing that just to then.

451 "BOS Commission Services" (1510505472)

02:09:36.500 --> 02:09:56.500

Say that we did an inspection and like look at us as a commission, everybody's doing inspections when the horrors are going on, but then we're able to say we didn't. I mean you can also partner up with COC and OID doesn't have to be a commissioner. Has reached out and said that they are interested in doing.

452 "BOS Commission Services" (1510505472)

02:09:56.500 --> 02:10:23.270

Doing inspections with us too, so if you cannot get one of your inspections coordinated with somebody on the commission, please reach out to me and I can coordinate with the COC as well. But you all are given the assignment for what places are going to be going that month at the start of the month. So hopefully you can schedule it out, put it on your calendar, make it happen. And also Ford deputies are a good, person to go with. Yep.

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

453 "BOS Commission Services" (1510505472)

02:10:23.270 --> 02:10:43.270

Alright, any public comment? All right, so now we move on to a virtual public comment. Are there any members of the public please provide virtual public comment, please press directory. Please use the raise hand feature. So we will not have the virtual public comment for this item. Are there any input.

454 "BOS Commission Services" (1510505472)

02:10:43.270 --> 02:11:06.110

Thank you so much. We are my page 1st. Okay, so moving on to item or section number two administrative matters. 1st, we have the minutes for number seven.

455 "BOS Commission Services" (1510505472)

02:11:06.110 --> 02:11:26.110

For the meeting of 5 February to file. What? Well, January second, I don't know why it's number eight. So can I, can I take all of these together actually items seven eight and nine, and can we do we have a motion to file and receive the minutes for.

456 "BOS Commission Services" (1510505472)

02:11:26.110 --> 02:11:47.450

The meetings of 5 February 8, January and 5 March 2020 6th. No. I just don't understand. Receive them? Receive and file. Yes, I passed the motion to receive and file them. Oh, second to the motion. I pass it off. Second Day.

457 "BOS Commission Services" (1510505472)

02:11:47.450 --> 02:12:07.450

Chairporter motioned to receive and file item seven eight and nine which are in January and February and March SEC meeting segmented by Commissioner vice Chairperson Dax. All right, now we will move on to virtual public comment. Any members of the public who wish to provide virtual public comments for item seven people.

458 "BOS Commission Services" (1510505472)

02:12:07.450 --> 02:12:30.440

Nine, please press star three or use raise hand feature. Okay, so we don't have a virtual public comment for item seven eight or nine. Now we'll move on to in person public comment. Are there any in person members of the public present for public comment on item seven eight and nine? No? Okay, and for the record there are NO written public comments.

459 "BOS Commission Services" (1510505472)

02:12:30.440 --> 02:12:46.910

For neither of these items, I will move on toggle. Chairperson Healing rotter? Yes. You need it past chairperson today? Yes. Vice chairperson lecture day? Yes. Commissioner Pamela Thompsonville. Yes. Thank you. Commissioner Pooja is Absnet.

460 "BOS Commission Services" (1510505472)

02:12:46.910 --> 02:13:02.120

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

Commissioner Catherine Hennigalison is absent. Commissioner Thes? Yes, thank you and commissioner Mayor Grell. Yes, thank you. Have they received their file. Thank you so much. I'm going to move us to item eleven. Item 1112.

461 "BOS Commission Services" (1510505472)

02:13:02.120 --> 02:13:22.120

13 are all about motions by the board of supervisor that impact our work and request us to look at, some things. I'm going to take all of these together as well. We'll begin with the 1st one, which is the addressing water quality and safety and other hazardous environmental issues.

462 "BOS Commission Services" (1510505472)

02:13:22.120 --> 02:13:56.950

Los Angeles County jail board motion. This one includes us doing a report back within 90 days. That 90 day period is coming up. When I mentioned we need some help if you're not able to do jail inspections, we need report writers. This is where we pull you in. We're gonna need support on that. We have been in all of our inspections writing about the environmental reports environmental pieces. We need somebody to go in there and pull out all of those notes and then write it up as a report for the board. I think we're going to ask Kate absolutely because she's heart.

463 "BOS Commission Services" (1510505472)

02:13:56.950 --> 02:14:16.190

So I don't want to volunteer told her while she's out, but we will, we will ask if commissioner hen Againsian is able to support with that. Is there anyone else we can be a backup support on that?

464 "BOS Commission Services" (1510505472)

02:14:16.190 --> 02:14:31.760

Okay. And do we have a due date for that? 90 days should be about right now, right? So that one? Yes, this is regarding number eleven. I have that.

465 "BOS Commission Services" (1510505472)

02:14:31.760 --> 02:14:49.910

That would be June. June. Okay, so we need to have this approved at our next meeting, but our next meeting is 4 June. Oh, so we need to request. Can we request an extension to the board for the following week? Cancel. Or is there a way to.

466 "BOS Commission Services" (1510505472)

02:14:49.910 --> 02:15:07.730

We'd have to schedule a special meeting yeah I can get back to you, which would be after our meeting, which would be anytime after 4 June and I believe the board meets on.

467 "BOS Commission Services" (1510505472)

02:15:07.730 --> 02:15:25.520

The board would meet on 2nd and the 9th so maybe by the 8th so we can get formatted and send it out. Would that work? I would have to talk about two. Thank you. Okay, sorry about who would have.

**Transcript for the May 7, 2026
Sybil Brand Commission for Institutional Inspections Meeting**

468 "BOS Commission Services" (1510505472)

02:15:25.520 --> 02:15:41.420

Four offices for the for that for that motion or that board motion? Like of who on our team, on our district for district. Oh.

469 "BOS Commission Services" (1510505472)

02:15:41.420 --> 02:15:57.140

Gender and SPC and two, so was that give you enough time if we requested that week? Yes. So that was super hard for Han.

470 "BOS Commission Services" (1510505472)

02:15:57.140 --> 02:16:14.660

It was Han? No. Go ahead? Sorry. He said there. No, I think it was. Oh, she's the one that makes. Yeah, I think that sounds right. Yep. Okay.

471 "BOS Commission Services" (1510505472)

02:16:14.660 --> 02:16:33.050

So we're gonna work with that. We're gonna have Commissioner Hennagan or Denician support it. Is there another commissioner who's able to support that development Using our reports that are posted online, taking the environmental aspects and adding it into a report. I don't mind. Thank you so much.

472 "BOS Commission Services" (1510505472)

02:16:33.050 --> 02:16:53.050

Okay, Commissioner and will work on that. I'm happy to support any like final editing, things like that before it goes over. Is there any commentary from the group right now about the water quality safety hazardous environmental issues piece that you want to make.

473 "BOS Commission Services" (1510505472)

02:16:53.050 --> 02:17:11.240

Sure is included in this report. I think the clarity that they provided about that what they actually checked which is kind of nothing besides. Yes. And highlighting that it like as with so many issues that we see, it like defaults to the deputies having the.

474 "BOS Commission Services" (1510505472)

02:17:11.240 --> 02:17:27.260

Where with all to like notice it and follow up on it as like that's the response to fix it. And I would also ask if we can include pictures I think is really, important, and that.

475 "BOS Commission Services" (1510505472)

02:17:27.260 --> 02:17:45.110

LASD staff, by and large does not drink the water affirmatively and we they bring their whole water in. All right, thank you. I'm gonna take us into item twelve.

476 "BOS Commission Services" (1510505472)

02:17:45.110 --> 02:18:03.200

This is about the 3 March 2026 board motion. Strengthening any accountability to significantly decrease jail deaths in the Los Angeles County jails. I do not believe there was a specific role for us in this

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

month besides like monitoring and continuing to report on that. Is that correct?

477 "BOS Commission Services" (1510505472)

02:18:03.200 --> 02:18:23.200

That, that sounds about right chair. I didn't see a deadline on this. There's NO report back from us. Let me pull this one other time before we but just to note this is something that the board has passed and that it is our job to make.

478 "BOS Commission Services" (1510505472)

02:18:23.200 --> 02:18:46.270

Sure that when we are doing our inspections of the jail, we are looking into what's been happening as a whole. This one is tricky for us, I think, and it puts us in a complicated position because we do not have access to the caps, we do not have access to any information about the jail debts that have occurred besides what is publicly available. And so for us to be able to inspect on jail debts, it's like not.

479 "BOS Commission Services" (1510505472)

02:18:46.270 --> 02:19:06.920

Possible whatsoever and completely outside our scope, so regarding the 3 March one was specifically asked to do was your inspection reports under the medical section, you know.

480 "BOS Commission Services" (1510505472)

02:19:06.920 --> 02:19:25.190

Make note of that take a look, document what you need to document retaining to that and any other observations related to that, you know, per usual, but obviously there's a focus on this. And I mean, I know that there's not a report back, but I would highly recommend that, you know, we just kind of send it over. Yep.

481 "BOS Commission Services" (1510505472)

02:19:25.190 --> 02:19:45.190

Any of our findings to board offices. And I'll note that I am sending over those findings for each of these oceans in our monthly progress reports that go to the board of supervisors. Hey, great, do you mind putting the SEC? Did anybody ever has any those be disseminated to the i'm happy to send it out.

482 "BOS Commission Services" (1510505472)

02:19:45.190 --> 02:20:06.190

Yeah, yeah. I think it's like the I sent it out this week so 1st week of the month. Yeah. And then number 13 is discussion on the 7 April 2026 board motion reducing harm for transgender gender diverse and intersex TGI people who are incarcerated in the Los Angeles county.

483 "BOS Commission Services" (1510505472)

02:20:06.190 --> 02:20:27.440

Jails, again, I'm really happy that we have this motion that passed and this came out right around the time that we had a really difficult inspection that we sent over to the board. So I'm glad that the board is

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

looking at the inspections we're doing and taking action on those. Is there specific action SDC needs to take from this one?

484 "BOS Commission Services" (1510505472)

02:20:27.440 --> 02:20:45.830

Again, similar to number twelve, there's NO deadline but the civil brand is asked to work within the office of the Infector General to engage with incarcerating the TGR people every quarter and.

485 "BOS Commission Services" (1510505472)

02:20:45.830 --> 02:21:03.020

About the access and application of policies and procedures, note that Okay, are there any questions about that one? I think for Eric. Eric. For that one on.

486 "BOS Commission Services" (1510505472)

02:21:03.020 --> 02:21:21.110

Do you want to maybe set up an ad hoc or something with the FPC or anything OIG wants from that one with us? Yeah, I have to I'm not, so we have different groups in our office, so I'm not assigned to this one, but I can definitely.

487 "BOS Commission Services" (1510505472)

02:21:21.110 --> 02:21:39.470

Reach out to that person and and have them reach out to the chairperson, right? Thank you so much. All right. Can we please take public comment for items 1112, and 13? Alright, so if any members of the public would wish to provide public comments, please press star three.

488 "BOS Commission Services" (1510505472)

02:21:39.470 --> 02:21:56.180

Using a smart device for computer features based and feature. Okay, so I don't see any virtual public comment. In person public comments any in person public comments?

489 "BOS Commission Services" (1510505472)

02:21:56.180 --> 02:22:16.180

On this item on items 1112 or 13. Alright, seeing the virtual public comment times 1112 with your team meeting in person or Britain chair. Thank you so much. Oh, it looks like commissioner brought. We're going back to ten. We're going to ten right now. We are moving back to item number ten right now.

490 "BOS Commission Services" (1510505472)

02:22:16.180 --> 02:22:36.180

Now which is discussion and possible action regarding the civil grand commission for institutional inspections position advocating for the closure of men central jail and CJ and its opposition for the development or expansion of any new jail facility. This was agendaized after our March meeting where I asked for a motion that we could put in place that a firm.

491 "BOS Commission Services" (1510505472)

02:22:36.180 --> 02:22:54.770

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

Use the sbc's support and positions and stance on closing then central jail with NO new locked replacement. Can I ask for that motion to be brought back up again? And is there any discussion that needs to take place 1st?

492 "BOS Commission Services" (1510505472)

02:22:54.770 --> 02:23:12.050

I would motion all of what you just said in a more articulate way. Do I need to say it all? Do you want, do you want me to say the motion again? Yeah, please. I make a motion for the civil brand commission to affirmatively take the stance.

493 "BOS Commission Services" (1510505472)

02:23:12.050 --> 02:23:27.650

For the closure of men central Jail with NO new locked replacement. I would second that. Okay, now we'll move on to public comment.

494 "BOS Commission Services" (1510505472)

02:23:27.650 --> 02:23:45.920

If there any members of the public who wish to provide virtual public comment, please press star three. If using a smart device or computer, please use the raise hand feature and this is for item number ten. Saw a hand go up and then go down. Are there any members of the public who would provide virtual public comment on item number ten?

495 "BOS Commission Services" (1510505472)

02:23:45.920 --> 02:24:05.920

Okay, your panel went up and went back down. I'm gonna unmute you and you have 2 min. Kila, you have 2 min? Hello? Okay. So not the it's ok, it's Helen Jones.

496 "BOS Commission Services" (1510505472)

02:24:05.920 --> 02:24:24.170

Allen, you have 2 min? Go ahead, Alan. Okay, she put her hand back down. So we will move on if you change your mind, there's also opportunity for general public comment, ok? So we didn't have any virtual public comment or are there any in person members of the public?

497 "BOS Commission Services" (1510505472)

02:24:24.170 --> 02:24:54.311

Here she is again. Okay, Helen, not sure what's going on. Keep your hand up or down. Okay, go ahead. Marcela Rosen you have 2 min? Hello? Go ahead. Doesn't look like you have your device unmuted or you have an audio device. Okay, there you go. Go ahead. You have 2 min. Marcela Rosen. Marcella, you're unmuted.

498 "Marcella Rosen" (52376064)

02:24:54.311 --> 02:25:19.380

Oh, amazing, ok. Hi, I'm calling again Marcela from Dingy and Power Now and Care 1st of California. I just want to say thank you to the civil brand commission for naming the importance of not just closing men's central jail, but doing so without a replacement facility. Obviously a lot of the abuses we've heard today and that you've witnessed over.

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

499 "Marcella Rosen" (52376064)

02:25:19.380 --> 02:25:39.529

Over a period of years are not just about the facility being horrible, but also about the treatment of the people inside by the deputies. So it is critical and I appreciate this board making an official stance on that and of our work moving forward and closing mencentral jail. Thank you.

500 "BOS Commission Services" (1510505472)

02:25:39.529 --> 02:25:50.871

Thank you. We will move on to virtual public comments from Anthony Probbles. Anthony Roblas, you are unmuted. Do you have 2 min?

501 "Anthony Robles" (4118575872)

02:25:50.871 --> 02:26:09.190

With DPN and Justice LA and Carefords California I'm a resident of district one. I just wanted to say once again that the min center jail needs to be closed. We have a, the board has assigned the team, the JCF closure implementation team.

502 "Anthony Robles" (4118575872)

02:26:09.190 --> 02:26:28.850

That, that has is ready to present a plan next Tuesday and a budget request that the county needs to immediately fund the jail closure plan phase one and begin to decarcerate, are the.

503 "Anthony Robles" (4118575872)

02:26:28.850 --> 02:26:48.850

There's been, what, six, six to seven years to that effect that the board has signed off on closing the jail and everything that we've have heard today and and and and even before today about the conditions and, the way people incarcerate.

504 "Anthony Robles" (4118575872)

02:26:48.850 --> 02:27:13.880

In alley county jails, the suffering that they have to go through. People are dying and custody deaths remain at a high rate and and it's all due to neglect and it's due to not just neglect from LASD but also from our from our from our board, from the people who make decisions about our county. This has gone on way too long and we finally have a plan and.

505 "Anthony Robles" (4118575872)

02:27:13.880 --> 02:27:33.880

Budget request to finally close this and and and start to begin to solve some of these problems and get the county on a path to decarceration, diversion, transformation of individuals in our communities. But yet money always seems to hard to be found to do these things, but when it comes to.

506 "Anthony Robles" (4118575872)

02:27:33.880 --> 02:27:54.730

Funding more deputies overtime pay which can immediately be cut, which should be cut and used to fund Joe closure imple implementation plan. It's always hard to find the money, but you know it's always easy to find

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

it for, for carteral systems, for punishment, for, which which routinely leads to death of our own.

507 "Anthony Robles" (4118575872)
02:27:54.730 --> 02:28:05.817

Community members and our neighbors and our families. We've heard experiences today I've had experience inside the. I'm just gonna take 2 s.

508 "BOS Commission Services" (1510505472)
02:28:05.817 --> 02:28:15.860

I'm gonna plug back in so that I'm gonna lose it for a moment.

509 "BOS Commission Services" (1510505472)
02:28:15.860 --> 02:28:31.520

One moment. Okay.

510 "BOS Commission Services" (1510505472)
02:28:31.520 --> 02:28:48.630

Yes, alright, so next we have virtual public comments from Janet A Janet, you have 2 min, you are unmuted.

511 "Janet A" (2816350464)
02:28:48.630 --> 02:29:07.390

Day from dignity and power now and the Justice LA coalition. We know how bad men central jail is. That could not be understated enough. Everyone here knows the atrocities that go on in this building and throughout the LA county jail system.

512 "Janet A" (2816350464)
02:29:07.390 --> 02:29:27.390

And as soon as you know what's going on, if you are not doing something to aid in men central jail closure, you are complicit. Anyone who is aware of what goes on there is complicit if they are not doing everything within their power to get that jail closed and to save lives. We have heard that there is a delay.

513 "Janet A" (2816350464)
02:29:27.390 --> 02:29:47.390

In the jail closure presentation from the jail closure implementation team, they were originally supposed to be presenting their plan in April. It got pushed to 5 May, it got pushed to 12 May, and now it's been pushed to 19 May. I hope that every member of the civil brand commission and every county employee sees this as a direct outreach as.

514 "Janet A" (2816350464)
02:29:47.390 --> 02:30:07.390

The direct correlation to future lives will be lost. We are currently in the budget cycle, so as long as this jail closure budget and timeline with benchmarks that we've been demanding for years and years on end is delayed and not included in this year's budget, we will be behind the five year projected timeline that the jail closure implementation.

515 "Janet A" (2816350464)

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

02:30:07.390 --> 02:30:27.390

Team has put forth. We have the written report. I hope that everyone here will continue to urge justice deputies, will continue to urge the board when the time comes to fund at least year one, we've been given \$8 million to deputies who are not a part of deputy gangs and are suing the department for.

516 "Janet A" (2816350464)

02:30:27.390 --> 02:30:47.390

Your mistreatment of not being a part of deputy gangs. We can fund 24 million for year one of the jail closure plan. So I think the civil brand commission for taking a stand and for being on the right side of history, but the policies are not what makes them act. It's people power and it's going to take your people power coming together with community.

517 "Janet A" (2816350464)

02:30:47.390 --> 02:30:55.150

To make sure that this is funded and that the jail actually gets closed in an expedited manner. Thank you. Thank you.

518 "BOS Commission Services" (1510505472)

02:30:55.150 --> 02:30:58.449

You will move on to Vanessa Perez. Vanessa Perez you're.

519 "Vanessa Perez" (3895552)

02:30:58.449 --> 02:31:14.830

Hi, my name is Vanessa Prez. I'm the mother of Joseph Press, who has been incarcerated at MCJ the majority of his adult life. I'm also a member of DPN and Justice LA who begin to say that men are dying at a high rate inside MCJ.

520 "Vanessa Perez" (3895552)

02:31:14.830 --> 02:31:37.172

Hey, we have men in life right now complaining about the water conditions, the rats inside there, and then neglecting the buse, and you guys are all aware. Men are telling you guys that this commission what is happening to them. It's time for you guys to stand up and do something. You are all complete. Stop this delay now. Thank you. Thank you.

521 "BOS Commission Services" (1510505472)

02:31:37.172 --> 02:31:45.470

Thank you so much. Okay, that includes virtual public comment. Are there any in person members of the public who would provide in person public comments?

522 "BOS Commission Services" (1510505472)

02:31:45.470 --> 02:32:05.470

Alright, come on up stay tuning for the record. You do have 2 min. I also want to thank the commission for putting this motion forward and for taking this stance. I think the county and the board in particular needs to hear it and see that you all are united behind it.

523 "BOS Commission Services" (1510505472)

02:32:05.470 --> 02:32:25.470

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

Specifically the piece about NO replacement jail lockdown facility is absolutely key. As others perform we have already stated, you know, Jason, the jail closure implementation team has put forward their five year plan, and it only that 1st year, as Janet stated, only costs 24 million to fund and we are in the budget cycle.

524 "BOS Commission Services" (1510505472)

02:32:25.470 --> 02:32:45.470

Currently, and it does keep getting pushed back and you know, to the extent that this commission is, is able to push the board push the justice deputies to really be taking these recommendations seriously and to actually put the funding behind them, really requesting whatever capacity there is for that to be able to do.

525 "BOS Commission Services" (1510505472)

02:32:45.470 --> 02:32:51.200

Do that because people are you all know this cause you stated at the top of your meeting every month.

526 "BOS Commission Services" (1510505472)

02:32:51.200 --> 02:33:06.710

How many folks are dying in the jails? And so just really appreciate appreciative of this commission to regularly and publicly make these conditions issues known, and to take this stance, and I'm excited to see where it leads.

527 "BOS Commission Services" (1510505472)

02:33:06.710 --> 02:33:23.120

Thank you so much. Okay, we will move on to the Chairperson Hilly Groter? Yes. Past Chairperson huddles? Yes. Yes, Commissioner Pamela Thompsondelle? Yes.

528 "BOS Commission Services" (1510505472)

02:33:23.120 --> 02:33:38.210

Commissioner Poojavatia is absent. Commissioner Catherine hen Againsian is absent Commissioner Joanna Fidones? Yes. And commissioner mayor Girl. Yes, thank you, this motion passes. Thank you everybody. All right.

529 "BOS Commission Services" (1510505472)

02:33:38.210 --> 02:33:58.210

I think it's just we can put our announcement. But yeah. Alright, we are going to move to item 14. Is this the discussion review impossible action on the FCC goals? I know that we've punted this quite a few times down, down the road, but.

530 "BOS Commission Services" (1510505472)

02:33:58.210 --> 02:34:03.290

This is tied to item 15, which is our SPC annual report.

531 "BOS Commission Services" (1510505472)

02:34:03.290 --> 02:34:18.980

I would like if possible, for us to go to the next meeting on those goals and for us to go right now to the SBC annual report focus there with our time. Is that ok?

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

532 "BOS Commission Services" (1510505472)

02:34:18.980 --> 02:34:38.150

If anyone feels really tied to talking through number 14 right now, we can, but I'd like to go to number 15 if possible. Yeah. Any objections to that? Yeah. All right, so item 15 is discussion and possible action on the 2025 SUC annual report.

533 "BOS Commission Services" (1510505472)

02:34:38.150 --> 02:34:58.150

You have the new version in front of you probably and thank you to SCC staff commission staff for formatting it for us and reviewing our grammar and fixing up some of some of that for us and thank you to the writers of this report.

534 "BOS Commission Services" (1510505472)

02:34:58.150 --> 02:35:06.260

Port commissioner Dax, Commissioner Federonez commissioner Batya, Commissioner Commissioner Miller.

535 "BOS Commission Services" (1510505472)

02:35:06.260 --> 02:35:25.220

And, I appreciate your work on it. Do we have any concerns that we want to bring up with the report as it stands for? I read it like. The one thing you flagged.

536 "BOS Commission Services" (1510505472)

02:35:25.220 --> 02:35:45.220

There is one typo which is that the people who are listed are the 2026 commissioners and it should be the 2025 commissioner, so you're the ones that could be so in current time. Do we want to outline who was a part of the body? Yeah, I think it's your annual report? Yeah yes.

537 "BOS Commission Services" (1510505472)

02:35:45.220 --> 02:35:56.300

So, so we can include the members of the time of the of the test whatever was a big offer tony.

538 "BOS Commission Services" (1510505472)

02:35:56.300 --> 02:36:12.020

And also to the report would be adding the 2025 members to clarified 2025 and 2026 members so that Pamela's have time to think that we've said that.

539 "BOS Commission Services" (1510505472)

02:36:12.020 --> 02:36:32.020

She wasn't that She's. I just wanted to be very clear who actually who actually witnessed what we reported on. Yep. Yes. And where what page I'm sorry. That's the very 1st page. It just says right front corner. Oh my name.

540 "BOS Commission Services" (1510505472)

02:36:32.020 --> 02:36:37.130

Okay, so then we'll just say below or where will it get addressed?

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

541 "BOS Commission Services" (1510505472)

02:36:37.130 --> 02:36:55.010

So we can put it right below the members of the body at the time of 2020 double, so like the current ones and the old ones will like like we would be listed twice or just the members at the during 2025. The letterhead will remain the same.

542 "BOS Commission Services" (1510505472)

02:36:55.010 --> 02:37:15.010

Because this is the current that were members during 2025 would be listed in the report this to start ok? Yeah. Right about subject line. Okay. Right under subject line. Yeah. Yep. Okay. Right under subject line. 2025 members. Perfect.

543 "BOS Commission Services" (1510505472)

02:37:15.010 --> 02:37:15.620

Great.

544 "BOS Commission Services" (1510505472)

02:37:15.620 --> 02:37:35.210

Great. Any other changes anybody wants to make? I don't know if everybody had a chance to read through it. I apologies for my big delaying it. Do we Do you feel like you need more time to approve it or we're due to approve it today?

545 "BOS Commission Services" (1510505472)

02:37:36.830 --> 02:37:56.830

No, I think it's June It's 2026, it's time to approve 2025. Yeah. Okay, do we need to make the motion? Yeah. I'd like to make a motion to approve 2025 annual report for rescue C to be sent, to be sent to the board of supervisors with it.

546 "BOS Commission Services" (1510505472)

02:37:56.830 --> 02:37:59.420

The addition of the.

547 "BOS Commission Services" (1510505472)

02:37:59.420 --> 02:38:19.420

Specify specifying who the 2025 commissioners word. 1 s. Thank you. Okay, so that's our motion of vice chairpersons, once you're seconded by immediate passion persons, anything like that. Well now we will move on to virtual public comments. Are any members of the public who would provide virtual public comments.

548 "BOS Commission Services" (1510505472)

02:38:19.420 --> 02:38:35.420

On item number 15, please press three or use the raise hand feature we don't have any virtual public comments for this item. Are there any in person members of the public president who wish to provide public comment on item 15?

549 "BOS Commission Services" (1510505472)

02:38:35.420 --> 02:38:51.050

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

Okay, seeing none for the record have been NO written public comment, now we'll move on to the Chairperson Hailey Rotter. Yes, immediate past chairperson. Yes. Vice chairperson with your daddy? Yes. Yes. Commissioner Poojavatia.

550 "BOS Commission Services" (1510505472)

02:38:51.050 --> 02:39:06.560

Is absent commissioner Captain Hennigant is absent Commissioner acted on this? Yes. And commissioner Mayor Grown. Yes. Thank you. This report has been approved and it will be forwarded to the cc'd on the.

551 "BOS Commission Services" (1510505472)

02:39:06.560 --> 02:39:23.750

Can I request that we coordinate for the sending PC? Yeah, and then also be posted obviously on your website. Will we get a notice as a commission when it's. Okay, thanks. Yeah.

552 "BOS Commission Services" (1510505472)

02:39:23.750 --> 02:39:43.750

Okay. Perfect. Okay, great. That's item 15, thank you. Thank you. Do we need to do public comment on item 15? We already did. I thought we just did that on those both. Oh, ok. Perfect. Item number three miscellaneous, which is public comment. So now we'll move on to.

553 "BOS Commission Services" (1510505472)

02:39:43.750 --> 02:39:56.120

Virtual general virtual excuse me, general virtual public comment. If there any general virtual public comments, please press star three if using a smart device or your computer, please use the raise hand feature.

554 "BOS Commission Services" (1510505472)

02:39:56.120 --> 02:40:16.120

Okay, so we don't have any general public comments. Are there any in person general public comments? All right, and would you record there were NO Written general public comment, chair? All right. I want to just say that was a packed meeting. Very excited that we have passed the motion for Ming sbc's support for the.

555 "BOS Commission Services" (1510505472)

02:40:16.120 --> 02:40:36.120

With NO locked replacement. Very excited our annual report is moving forward. Glad we were able to talk through so many important inspections today with the sheriff's department. We have many outstanding questions for the sheriff's department. I'm just gonna run through them real quick just so I don't miss anything.

556 "BOS Commission Services" (1510505472)

02:40:36.120 --> 02:40:47.540

I mean if that's ok, and Joe I know you've been tracking these. So what I have is LASD to send general sanitation policy to support understanding of the state in which cells.

557 "BOS Commission Services" (1510505472)

02:40:47.540 --> 02:41:03.950

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

Must be to be inhabited. I lost internet, so it's reconnecting. Two LASP to send a policy and use of proper pronouns and, is there anything else on that one? And to be clear, so there.

558 "BOS Commission Services" (1510505472)

02:41:03.950 --> 02:41:23.950

Sending it to us to and we will receive it before the meeting and correct in the agenda. Yes. Okay, so it won't. Okay yes, great. LASD to send requirements for being a trustee. LASD to send a list of when body warned cameras should be warned. LASD to share data on the number of grievances received weekly perfect.

559 "BOS Commission Services" (1510505472)

02:41:23.950 --> 02:41:28.070

Facility to the extent of their reporting capacity, the system they have.

560 "BOS Commission Services" (1510505472)

02:41:28.070 --> 02:41:46.910

And LAST to follow up on the Twin Towers correctional facility Priya case for CHS/mental health help. I know we skipped item four today because dr. Henderson wasn't on and then I thought he jumped on and now he's still off, right? Yeah. So we will follow up with him on that and hopefully have him at our next meeting.

561 "BOS Commission Services" (1510505472)

02:41:46.910 --> 02:42:03.320

And commission services will follow up today with the two commissioners who are not present to make sure that we can have them on our next meeting so that we have quorum. Am I missing anything? Just so I understand. So those are their, their, their, the things that they're supposed to give us.

562 "BOS Commission Services" (1510505472)

02:42:03.320 --> 02:42:20.090

If they do not give us this on our June seconds, whatever meeting, will it say not provided? They didn't get it like like so that we are documenting that we have asked for this. They said that they would do it at the meeting and they didn't do it.

563 "BOS Commission Services" (1510505472)

02:42:20.090 --> 02:42:40.090

That's her responsibility. So it will say on the agenda like this policy not received or ignore or what I don't know how we articulated require yeah I think it's Pooja will put that on the agenda. Yes, so I will say it'll probably be.

564 "BOS Commission Services" (1510505472)

02:42:40.090 --> 02:42:49.490

Based on the minutes because they might even bring in the data. That's that's what I'm saying. Okay. Yeah.

565 "BOS Commission Services" (1510505472)

02:42:49.490 --> 02:43:08.930

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

Yeah, so we're asking for all of this to be provided in advance and then Pooja commissioner Batia will track it and will share out if it's added or not. I'm also adding in there LAST to follow up on the 5900 search and removal of medical items.

566 "BOS Commission Services" (1510505472)

02:43:08.930 --> 02:43:25.310

And mobility aids. I didn't think anything. Are we still asking them for like contract And.

567 "BOS Commission Services" (1510505472)

02:43:25.310 --> 02:43:40.730

We have that from them. You should you should have it in your inbox. Yeah. Are we gonna Mary mentioned the Priya getting mental health support? Yep, I have that one. And there's that Okay, I I just.

568 "BOS Commission Services" (1510505472)

02:43:40.730 --> 02:43:59.300

I, I can envision a scenario where it's unclear or that that's a CHS thing. Well, that's that's what's gonna happen. So we can discuss that as a group right now of like, we have all these requests, what do we do when these requests are not returned? Such as we received an email, I wanna say early April saying that there was a big leak.

569 "BOS Commission Services" (1510505472)

02:43:59.300 --> 02:44:18.320

In MCJ. We sent that to the sheriff's department and said, what's the leak, what's going on? And the email instead of leak results. And then I responded and said, when was it resolved? When, and just NO reply, NO reply, nothing. And so that follow up is where we need to, I think focus because we're not getting those answers.

570 "BOS Commission Services" (1510505472)

02:44:18.320 --> 02:44:35.180

Of it was it was fixed. Okay, but how was it fixed? What was the actual? Also, we are receiving some EU dolls that we're requesting after our inspections and e.g. the EU doll of, of one of the ones that.

571 "BOS Commission Services" (1510505472)

02:44:35.180 --> 02:44:55.180

Mary and I thought the 5901 doesn't even show the search on it, doesn't show any of us the like nothing, nothing at all. And so concerned about that documentation piece of things for sure. What? Is it blackout? No. No, just not like a little table, right? It's just not on it.

572 "BOS Commission Services" (1510505472)

02:44:55.180 --> 02:45:12.860

So, we can follow up on all this. What we need to figure out as a commission is how we want to proceed at our next meeting when if and when these are not met to the extent that we need it. I think that we will likely get the requirements.

573 "BOS Commission Services" (1510505472)

02:45:12.860 --> 02:45:27.980

Transcript for the May 7, 2026 Sybil Brand Commission for Institutional Inspections Meeting

The policies, the details, but when we ask for follow UPS such as for the prior case, they'll say that's an individual issue and we can't report on it. Commissioner Mural.

574 "BOS Commission Services" (1510505472)

02:45:27.980 --> 02:45:45.800

I mean I just think that that's that I, I would maintain then that to me it comes down to like, I don't know if you've seen devil Bird's product where she says, No, NO, that wasn't a question, then they're not giving us an alternative explanation. We are saying you took their stuff.

575 "BOS Commission Services" (1510505472)

02:45:45.800 --> 02:46:03.140

You took their medical stuff, you did not provide mental health care unless we see otherwise what we see is the fact of what happens. So I don't, I think that's how we should operate as a commission, because we get that all the time.

576 "BOS Commission Services" (1510505472)

02:46:03.140 --> 02:46:23.140

Yeah. Thank you. Any other comments from other commissioners? When we please When we make requests and things like that, is, is it implied that we were expecting a report back with any particular amount of time?

577 "BOS Commission Services" (1510505472)

02:46:23.140 --> 02:46:43.130

Time or should we ask or, make it part of our communication that we would like to see a response by? There's gonna be a date on it. There usually is, but today's the 7th. I'm gonna ask that we have it by NO later than the 28th so that it could be on the agenda.

578 "BOS Commission Services" (1510505472)

02:46:43.130 --> 02:47:00.050

Right? So 28 May at the latest. Because then I think it makes it a whole lot easier to hold them accountable for things that might slip their mind. Yep. I agree with you very much.

579 "BOS Commission Services" (1510505472)

02:47:00.050 --> 02:47:17.030

Alright, anything else? Okay, it's coordinate inspections, please, and thank you thank you thank you for all the work you're doing. Thank you to our partners for being on this call. I know it's hard to listen to the horrible conditions that so many of you know so many, so much about already.

580 "BOS Commission Services" (1510505472)

02:47:17.030 --> 02:47:33.980

And appreciate you being here for this meeting, appreciate everybody in the room for joining us and thank you. Have a great rest of your thursday. This meeting is adjourned.
