

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

WEBVTT

1 "" (0)

00:00:00.000 --> 00:00:00.921

Okay.

2 "BOS Commission Services" (297267200)

00:00:00.921 --> 00:00:20.000

Good morning, everyone. Today, today is Thursday of 5 March 2026. It is 09:17 A.M. apologies for the light delaying and getting started this morning. Thank you for bearing with us. This is the regular meeting.

3 "BOS Commission Services" (297267200)

00:00:20.000 --> 00:00:40.000

We have the Los Angeles County civil brand commission for institutional inspections, our monthly March meeting. We are going to call this meeting to order in just a minute. As we start this meeting, I want to acknowledge that in February there was one death within the LA county jail.

4 "BOS Commission Services" (297267200)

00:00:40.000 --> 00:01:00.750

That was at LAGMC, the ICU intensive care unit, and this was a 65 year old meal who was sentenced. We continue to be very, very concerned by the high numbers of deaths in the LA county jail and appreciate the sheriff's department.

5 "BOS Commission Services" (297267200)

00:01:00.750 --> 00:01:20.700

Working with us, with the county to decrease these deaths and take swift action to prevent more beneable deaths across these facilities. This meeting is officially called to order with a.

6 "BOS Commission Services" (297267200)

00:01:20.700 --> 00:01:39.210

Roll call, please. Right, good morning. Commissioner Rome? Present. Vice chairperson Dax. Present. Commissioner. Present. Okay.

7 "BOS Commission Services" (297267200)

00:01:39.210 --> 00:01:59.210

Your person Heavy Rotter. Commissioner Johanna Hones. Absent. Immediate past your person Raymond Regulavo? Yeah. Thank you and commissioner Catherine Henigan on that we do have a forms. Thank you.

8 "BOS Commission Services" (297267200)

00:01:59.210 --> 00:02:02.790

So much.

9 "BOS Commission Services" (297267200)

00:02:02.790 --> 00:02:22.790

Sounds like there might be an issue with some people accessing our link, and then I see if Mission Services can help troubleshoot that. All right,

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

I'm gonna begin with the Los Angeles County land acknowledgement. The County of Los Angeles recognizes that we occupy.

10 "BOS Commission Services" (297267200)  
00:02:22.790 --> 00:02:38.190

Land originally and still inhabited and cared for by the Tompa Tatabium, Sarano Keish, and Chumash peoples. So we honor and pay respect to their elders and descendants, tasks, present and emerging as they continue their stewardship of these lands and waters.

11 "BOS Commission Services" (297267200)  
00:02:38.190 --> 00:02:58.190

We acknowledge that settler colonization resulted in land seizure, disease, subjection, slavery, relocation, broken promises, genocide, and multi generational trauma. This acknowledgement demonstrates our responsibility and commitment to truth healing and reconciliation, and to elevating the story's culture and community of the enri.

12 "BOS Commission Services" (297267200)  
00:02:58.190 --> 00:03:16.950

Like original inhabitants of Los Angeles County. We are grateful to have the opportunity to live and work on these ancestral lands. We are dedicated to growing sustaining relationships with native peoples and local tribal governments, including in NO particular order the Fernanda Denial Tatabian band of Mission Indians.

13 "BOS Commission Services" (297267200)  
00:03:16.950 --> 00:03:36.950

The Gabrielino Tongva, Indians the California tribal Council, the Gabrielino, Tongva, San Gabriel Band of Mission Indians, the Gabrielleno Band of Mission Indians Keish nation. And the San Fernando Band of Mission Indians. The Coast of.

14 "BOS Commission Services" (297267200)  
00:03:36.950 --> 00:03:59.640

The Gabriel Eno Tomba Nation, the Gabriel Eno Tomba tribe. To learn more about the 1st peoples of Los Angeles County, please visit the Los Angeles city/county native American Indian Commission website@LAC.LA county.gov. Okay, for some opening remarks, we have.

15 "BOS Commission Services" (297267200)  
00:03:59.640 --> 00:04:19.380

A busy agenda today as always, and we are going to begin by going through the inspection reports for the last month. I want to just acknowledge that we are still down a few commissioners and and working to fill the open spots on the commission hoping that.

16 "BOS Commission Services" (297267200)  
00:04:19.380 --> 00:04:39.380

We will have commissioner Thompson approved to be part of the official commission membership for SD one next month, so welcome Commissioner Thompson. Thank you so much for being here with us. We're excited to get

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

to know and work with you and there are still openings in SD three and SD five that we're hoping we can.

17 "BOS Commission Services" (297267200)

00:04:39.380 --> 00:04:59.899

Fill very quickly to continue to amplify our work and ability to inspect in the jails. Just want to acknowledge with that, we are able to do two inspections a month of the jails and hope that we can all get out there and do those inspections as much as possible to fulfill the purpose of this commission which.

18 "BOS Commission Services" (297267200)

00:04:59.899 --> 00:05:23.819

Is to inspect the conditions within the shells. We are going to begin with section one discussions with LASD, committer Montoya and at Gonzalez, thank you for being here. We have a couple questions for you. I also want to note that in our past inspections over.

19 "BOS Commission Services" (297267200)

00:05:23.819 --> 00:05:43.819

I think January and February on some of the emails that we're sending were including requests for you to follow up on those and we're hoping that we can follow up on those items in these meetings if appropriate. Does that make sense? Yes, That's ok perfect. So let's begin with those follow up items from inspection reports. Is there anything.

20 "BOS Commission Services" (297267200)

00:05:43.819 --> 00:06:03.819

From you both that you'd like to follow up on? Yes, so in regards to one of the topics that you had mentioned that you would like some follow up? Yes. There was mentioned regarding property that's allowed and the inconsistencies regarding that. In general, our incarcerated individuals are allowed to have.

21 "BOS Commission Services" (297267200)

00:06:03.819 --> 00:06:23.929

Whatever type of property they would like, but it has to fit inside one bag that we provide them so if they might purchase commercery and they're moved to a different facility, anything that fits in that one bag, they're allowed to take with them. Now, we understand that when they purchase commercery, they can purchase multiple items that might not take that will.

22 "BOS Commission Services" (297267200)

00:06:23.929 --> 00:06:43.929

Exceed what can fit in that bag, so they have to, they're allowed to either discard the property, they can mail the property at their own expense or they could release it to a designated person prior to their transfer to another facility. But at the end of the day, it's when they leave to another facility, it's what fits in that, that property bag.

23 "BOS Commission Services" (297267200)

00:06:43.929 --> 00:07:14.689

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

With the exception of, of course, county issued property, so they're clothing the line in that's not included. It's just whatever commentary they have has to be able to fit in that. There's sometimes individuals will have large almost a trash bag pool of property that is excessive and it's not allowable when they're being transferred to another facility. Can I just ask, so but the county will take their money so they can buy it. They can purchase it. So they'll take their money. They can purchase it. Oh.

24 "BOS Commission Services" (297267200)

00:07:14.689 --> 00:07:34.689

Okay, ok. I'll let you go and then I have one question. I have a I have a quick note on this just to give a little context. The reason this came up is because when Commissioner Barrell and I were inspecting at NCCF, we were speaking with a couple people there who said that when they were transferred from MCJ, they were not allowed to bring specific items including specific books that they said.

25 "BOS Commission Services" (297267200)

00:07:34.689 --> 00:07:54.689

They were allowed at NCJ and were not allowed at NCCF and specific commentary items that they purchased that were not limited to a size. It was the items were not allowed. When we asked the wash communitor, he said yes there are discrepancies between what is allowed at NCJ and what was allowed at NCS NCCF that was not size dependent.

26 "BOS Commission Services" (297267200)

00:07:54.689 --> 00:08:23.239

But I think that it the bigger issue that I think why this came up with the is that Roy? Yeah. Can you raise your hand, Roy? Is that you know when we're at CJ we hear the kind of difficulties about transferring people and that there's useful force and there's signs everywhere about people not wanting to go to waste.

27 "BOS Commission Services" (297267200)

00:08:23.239 --> 00:08:43.239

Right, and it just seems that there's steps that the department could take to A educate people and, you know, communicate like you know I know you're spending \$300 or your mom is or your grandma that we will take your money, but if you move, you will lose it and that's not being communicated. And furthermore.

28 "BOS Commission Services" (297267200)

00:08:43.239 --> 00:09:09.779

It was also the issue that they're flying let walk, they literally walk out of men Central Vale with two bags. They're not doing any, they're letting them leave with it. But then at the same facility, you know, the same sheriff's department is telling them they're compasscating it which leads to more in stuff. So it just seems like the department could do a better job of communicating of in you know.

29 "BOS Commission Services" (297267200)

00:09:09.779 --> 00:09:25.049

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

Having the same rules apply across the board cause it's not. And so people are getting, you know, time in the hole, they're losing good time. The the deputies are having to have altercations.

30 "BOS Commission Services" (297267200)

00:09:25.049 --> 00:09:45.049

I mean, it just seems like a thing that the And and like Hayley said that the told us it's not the same across the board. And so it seems like that seems like something that we were hoping could be addressed. Right, and a lot of it is and you're right, with what she's saying it's inconsistent and it's because of.

31 "BOS Commission Services" (297267200)

00:09:45.049 --> 00:10:12.649

What you mentioned, they want to prevent getting into any altercations with our incarcerated individuals, so sometimes to prevent them from an altercation from occurring prior to them getting on a bus and going over to waysight, they'll allow them to take the property so that they actually get on the bus and go to wasteside. Now, once they hit that facility, it's that gamble with that watch commander on duty if they're going to try to negotiate.

32 "BOS Commission Services" (297267200)

00:10:12.649 --> 00:10:39.079

With the incarcerated individual to say, ok, maybe I'll allow you a little bit extra as long as you just cooperate and you go along with our program. But again, you're right, it puts us in a difficult situation because now there's that inconsistency and it's not the same across the board. And it's a real problem that the department will literally take the hard earned dollars of people who work in the community who are trying.

33 "BOS Commission Services" (297267200)

00:10:39.079 --> 00:11:07.969

To help their, you know, children have food because its food is not enough for them to eat and then it's taken from them. It's like stolen. It's very concerning. But at the same time we want them to consume it as well not to not to store it but to consume. They get store of TJ on monday. These people leave on Wednesday. I mean, and which we often, we allow them to put to place it inside their bag. It's when they're walking.

34 "BOS Commission Services" (297267200)

00:11:07.969 --> 00:11:27.749

Out with trash bags full of property, which sometimes it's not purchased by them. It's what they're bartering inside the jail system, and that's what we're trying to control is that bartering system, but we know at the same time, I can't stop someone from giving another person their soup or their, whatever it is that they want to.

35 "BOS Commission Services" (297267200)

00:11:27.749 --> 00:11:45.149

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

To barter four. But it's, they are entitled to have their property, whatever fits in that property bag, that's what our policy allows. So my intention deal is not following policy. When they're transferred out, it should be what fits in the one, one bag. Okay.

36 "BOS Commission Services" (297267200)

00:11:45.149 --> 00:12:06.919

Please. Hi, commander, how you doing? Why, why is it inconsistency throughout the facility? Why does that even exist if this is like, like commissioner Barrell was saying it's one department, they should all be the same. And I know that each facility has a different captain and they may run it a little bit different.

37 "BOS Commission Services" (297267200)

00:12:06.919 --> 00:12:22.169

But the policy is the policy. Right, and it's again to prevent the ultra patients with our incarcerated individuals. No, NO, I, I don't I understand that what I'm what I'm maybe I'm not communicating properly, but what I'm saying is like when they are in at MCJ.

38 "BOS Commission Services" (297267200)

00:12:22.169 --> 00:12:37.949

They pretty much can have whatever they want. When they go to NCCF, that's when the issue happens because some of the, even some of the pictures that they may have at MCJ, they get tossed when they get to MCJ MCCF. So.

39 "BOS Commission Services" (297267200)

00:12:37.949 --> 00:12:57.949

That's the inconsistency that I'm talking about, and that's just with pictures, also books and others, there's other items, but why is that inconsistent? Why does it even exist so that somebody who is housed at MCJ and has to get transferred elsewhere, why would they have to lose whatever they have in their possession? Cause at that time their packaging.

40 "BOS Commission Services" (297267200)

00:12:57.949 --> 00:13:31.399

Everything up and they're moving it with them. Now if they're staying within their housing area, we're not asking that everything has to be in their bag at all times. They have stuff thrown around their, their living area, it could be on just however they have it organized in their area. So we're not concerned at that point about how much property they have on them because they're not, they're not leaving the area. That's their housing area. But the moment that they leave that housing area, now they're being transferred to another facility, they have to take that with them. And with that, our personnel are searching their property. They're going to another.

41 "BOS Commission Services" (297267200)

00:13:31.399 --> 00:13:51.419

The facility, they're being searched again. So it's when they moved their facilities that this becomes an issue. Well le let me ask it this way

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

instead then. Let's say somebody is at MCJ and they have pictures of like maximum magazine, e.g., with baking switch or whatever.

42 "BOS Commission Services" (297267200)

00:13:51.419 --> 00:14:11.419

It all fits in their bag, there's nothing extra and then they get to NCCF and then those items get taken away. That's the inconsistency that I'm talking about where it's allowed here but not here and allowed at CJ but not at NCCF. Everything was within the bag, but now now they're having to deal with.

43 "BOS Commission Services" (297267200)

00:14:11.419 --> 00:14:38.639

And I'm, and that's just sometimes it involves pictures of their family, which is more important to them than these magazine clip clip out. But my point is why the inconsistency number one if everything is in their bag like you're saying and everything is appropriate in the bag, but when they get to another facility, now all of a sudden it's inappropriate. Right, and I can't answer that because for any photos, as long as there's nothing involved in the photos that to pick.

44 "BOS Commission Services" (297267200)

00:14:38.639 --> 00:14:58.639

Gang affiliation, annuity, something that we wouldn't allow. It doesn't matter if they have one photo, ten photos, 20 photos, there's not a limit on those. So as long as they put in the bag it should There's not an issue. So it could have been the context of what was in that photo that might have been an issue. I I don't know. Unfortunately, it's a.

45 "BOS Commission Services" (297267200)

00:14:58.639 --> 00:15:19.709

Case by case, yeah. Well, well, I can tell you from personal experience when I go to CJ, I don't want to sound offensive, but there are a lot of pictures offs, let's say, right? It's clothes, they're all closed, but still nevertheless, those are allowed at CJ, but they're not allowed at NCCX. So.

46 "BOS Commission Services" (297267200)

00:15:19.709 --> 00:15:36.059

Like it's the same policy, alright? Cj's operating under the same policy as NCCF, but so now they're having to lose these, not that they they should have them or whatever, but my point is, if they're allowed to have them in one place, they should allow to.

47 "BOS Commission Services" (297267200)

00:15:36.059 --> 00:15:55.289

They should allowed to travel with them wherever they go. If the department has already said Yes, you're allowed to have it. Oh, sorry. And I think to your point is like or what we're saying is, it seems like that's something that I feel like it's a little bit like.

48 "BOS Commission Services" (297267200)

00:15:55.289 --> 00:16:10.469

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

Like, we always hear when we go to CJ how dip and you all share like people don't want to go to wayside. Well, is there like there seems to be like there seems to be pain that a department could do.

49 "BOS Commission Services" (297267200)

00:16:10.469 --> 00:16:29.759

To facilitate that to be a smoother transition and it's not how. Commissioner? So as I'm listening to the questions is that I'm listening to the explanations.

50 "BOS Commission Services" (297267200)

00:16:29.759 --> 00:16:45.989

I think the use of an example is, is being the model or or at least the example that is being shared. But what the bottom line is if you correct me Eric, is that.

51 "BOS Commission Services" (297267200)

00:16:45.989 --> 00:17:02.939

It's an issue of equitable treatment between one facility and another. And if they're going to a facility outside, in this case, we're talking about say MCJ or or or whatever and going up to North County.

52 "BOS Commission Services" (297267200)

00:17:02.939 --> 00:17:21.449

There should be some equity in that whole area and that there's not picking having someone having to pick and choose what they take with them, given the room in a bag. It's what they have and have been allowed to have in one location should be allowed at another.

53 "BOS Commission Services" (297267200)

00:17:21.449 --> 00:17:40.349

And there is where it, it it amounts to almost it appears the whim of the the watch commander at the time because maybe another watch commander would be have a little bit more openness as to what they can take. So I'm I'm wondering if.

54 "BOS Commission Services" (297267200)

00:17:40.349 --> 00:18:00.349

If there's gonna be, you know, certain restrictions or certain allowances that it's across the board so that there is NO one having to make a decision as to what they need to take and what they should take and what they're not gonna be allowed to keep getting into another location. And I think there is where the.

55 "BOS Commission Services" (297267200)

00:18:00.349 --> 00:18:23.369

Concern is, is the the equitable use of rules in our jail system. And perhaps maybe we could start looking at how that might work across the board. Right, and assume as well as when they move to different facilities, they're also accumulating new.

56 "BOS Commission Services" (297267200)

00:18:23.369 --> 00:18:43.369

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

Items, so the photos I, I can't say that the photos that are taken, and this happens at NCCF when they go to MCJ or to another facility, at the same time they have it's the same issue where they need to collect their belongings, place everything in one bag, and then when they get to that other facility, it's being searched so things items.

57 "BOS Commission Services" (297267200)

00:18:43.369 --> 00:19:07.609

Maybe removed at that time. So again, it's just a process that we have unfortunately, where when they're at their in their living area, they're accumulating items, whether it's male, whether it's comicary, if it's in their living area, unless we're doing a search of the area and we remove it at that time, we're not.

58 "BOS Commission Services" (297267200)

00:19:07.609 --> 00:19:16.079

We're not removing anything from them, but it's when they collect everything and they're being transferred, that's when we're going through their property.

59 "BOS Commission Services" (297267200)

00:19:16.079 --> 00:19:36.079

So commander Montredo, what can we do about this to make this system a bit more equitable? That is a great question only because it's consistent, there's constant movement. So it's, there is NO one right answer and I can't fault out.

60 "BOS Commission Services" (297267200)

00:19:36.079 --> 00:19:54.989

Our staff for trying to do what we can to gain cooperation from our cardensated individuals because our population management is a true challenge and we have to constantly move people from the basin area to our wasteside facilities so that we can have more.

61 "BOS Commission Services" (297267200)

00:19:54.989 --> 00:20:14.989

More space to handle our different types of populations so it's very essential that we have individuals moved from N central jail to our wayside facilities and to make that happen, we have full on operations where we dedicate staff just to ensure that.

62 "BOS Commission Services" (297267200)

00:20:14.989 --> 00:20:44.279

Those individuals selected to go to our wayside facilities, make it on the buses and go to those facility. It's just that's imperative, we need the space. So at some times if one of the negotiation tactics is to allow someone to keep a certain item so that we can gain their cooperation to go. Sometimes that's it's all that that watch commander in the captain. But then they don't get to keep it because they they think they get to keep it when they leave CJ.

63 "BOS Commission Services" (297267200)

00:20:44.279 --> 00:21:02.999

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

And they're not. And and then so then that spreads and then so then people continue that like kind of offsets the negotiation because people talk and the people are not gonna want to go to wasteside because they learn about these. So it just seems like there's.

64 "BOS Commission Services" (297267200)

00:21:02.999 --> 00:21:22.999

If if the population flow because I know part of it is like getting people out of IRC and that they sit at CJ for a couple weeks and then they fan out because the box stops, that there's things that the department could do to help that and it doesn't seem like that's happening, right? And that's where we allowed them to release the.

65 "BOS Commission Services" (297267200)

00:21:22.999 --> 00:21:47.309

Security to someone that they choose, and I mean there's options that we have for them. Now, whether they utilize those options, that's I can't force an individual to make make a choice I mean it's, if they want to release it to someone, if they want to mail it, if they want to discard it, that's their, that's what they have available to them and cost more money. They can release it to a person. The person has to pay to drive downtown, park and pick it up. So cost more money.

66 "BOS Commission Services" (297267200)

00:21:47.309 --> 00:22:07.309

Those are the options that they have available to them. When you say release it, do you mean to another person in custody or somebody outside? Just someone outside. Another question that Commissioner Varal and I had from our inspection of NCCF I believe we sent the email to you for for.

67 "BOS Commission Services" (297267200)

00:22:07.309 --> 00:22:30.019

Follow up also was pro per status and how that was only available if you were in MCJ, is that correct? You cannot be pro per in any wayside? I'm not aware of that. We were, we were told by an individual and wanted to check with you that because they became proper, they got moved to.

68 "BOS Commission Services" (297267200)

00:22:30.019 --> 00:22:50.019

MCJ, they did not want to be moved to MCJ, they wanted to stay away side. Yeah, I'm not aware of that being. Is there a way to do a library at MCCS? Yes, there is. Okay, so maybe this person was just wrong on that one for a different reason.

69 "BOS Commission Services" (297267200)

00:22:50.019 --> 00:23:10.109

Prower area. Okay, so that is not impacting people. Proposers all throughout each facility have a specific model. Would it be that the pros in our area was full when they would? No cause they're throughout the facility. You can be anywhere. They can't put all the classifications together because they're proposed. So they're spread out throughout the facilities.

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

70 "BOS Commission Services" (297267200)

00:23:10.109 --> 00:23:30.109

Are there any other questions for about the wayside transfer property piece? Should we just continue to document the problem? Yes, and then we can look into specific individual, then we can always do a follow up.

71 "BOS Commission Services" (297267200)

00:23:30.109 --> 00:23:56.869

Well, I think the point is is that it's not a specific individual, so we should just continue to document that you know that it's not the discrepancies. Yeah. Okay. We will do that. Another question we had for you was about waste chain accommodations due to injury and if somebody has an injury where they cannot have their hands behind their back, what they need to do to have the chain placed in front.

72 "BOS Commission Services" (297267200)

00:23:56.869 --> 00:24:31.129

So that needs to be related to our medical staff and our correctional house services will conduct their evaluation. They'll also take into account records from state prison as well to make that determination. And typically if there's anything else that the individual's assigned such as a walker or a wheelchair, we take other measures to ensure that they are safe when they're when they're traversing through the facilities. Now if it's just someone who has back pain unless it's a request from.

73 "BOS Commission Services" (297267200)

00:24:31.129 --> 00:24:55.279

People to have them placed in waste chains. We, we will put them in handcuffs for short term movement within our facilities. Now typically when they're going to court or if they're being transported, we're waste chain them, but they'll be wasting to the sides. It's usually for the short term movements or if it's a single person, they will be.

74 "BOS Commission Services" (297267200)

00:24:55.279 --> 00:25:18.049

Behind the back. That's just based on our training best practices for safety and security reasons. Now, the individuals that you had mentioned, they were because of their classifications, they have to be waste chained at all times. Typically we waste chain to the sides, not so much to the front, but to the sides.

75 "BOS Commission Services" (297267200)

00:25:18.049 --> 00:25:46.339

Sometimes they maybe hang up to the back again if that's short term movement, so if i'm removing them to take them to the showers, most likely that would be a hang up because we're they're going to short distance. But other than that, it's typically way straight to the site. But if it's something medically related, we would receive indication of medicals and we'll handle accordingly based on medical recommendations. But I believe both of the individuals we brought to you had medical records saying that they could not. Not from our from the state presence.

76 "BOS Commission Services" (297267200)

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

00:25:46.339 --> 00:26:14.339

Yes, but not from our correctional health services. Correctional health services even though they have records from the state prison saying that they haven't they need to get in the correctional health system to get that approval, which will take time so they then fall out of I don't have Our personnel do not have access to state prison's hospital records. That's something that our medical services will review when they do their assessments and they'll take that into account. And based on what their evaluation.

77 "BOS Commission Services" (297267200)

00:26:14.339 --> 00:26:34.339

To conclude, they will determine what type of if they need additional assistance such as a cane wheelchair from there will classify accordingly. And so I I've actually seen this a lot when I had like a few times when folks are not having their accommodations met, like somebody really can't.

78 "BOS Commission Services" (297267200)

00:26:34.339 --> 00:26:49.919

And he's just down cause he's about to get released or something like that. And in those instances, you know, people are there for like two or three months and as we have noted and y'all know, it takes about that long for it to be seen by CHS, and so maybe we can continue.

79 "BOS Commission Services" (297267200)

00:26:49.919 --> 00:27:05.819

I'm curious, like, the only way that it is seen is if CHS reviews it, but if I've seen the physical paper that they have that they come down with from state with, and so.

80 "BOS Commission Services" (297267200)

00:27:05.819 --> 00:27:24.959

There's not like a quicker process if they've already been reviewed it, it's still in the same system. Okay, unfortunately. So then this is something that we would talk to dr. Henderson about just trying to just to flag that's a spot check issue for us like we can't flag that for everybody. We can flag it randomly when we see it, but.

81 "BOS Commission Services" (297267200)

00:27:24.959 --> 00:27:44.959

Well, I was more so meaning to tell CHS like is there a quicker process where if this is included within I wouldn't, I mean, I probably wouldn't put it in the medical form thing because we know that those can be there forever, but if there was like a quicker process for something since it would take them less time in terms of their prioritization system that they're betting on site.

82 "BOS Commission Services" (297267200)

00:27:44.959 --> 00:28:14.099

Maybe part of we can talk to CH about this, but maybe part of their intake is asking, do you have any documentation from state person that you need to share? Yeah, if that's not already part of the process. That

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

makes sense. Were there that's, that's what I have. Were there other things commissioners had in inspection reports? Do you have other follow up from our inspection reports? No, those were the two main ones.

83 "BOS Commission Services" (297267200)

00:28:14.099 --> 00:28:31.589

Did anyone else have inspection report follow up for old ones? Not from my current ones. Okay. Were there other items on follow up from the last meeting? No, NO. Okay. Follow up on facilities, ISD.

84 "BOS Commission Services" (297267200)

00:28:31.589 --> 00:28:51.589

Contracts and our involvement in those contracts. So I can't speak to that. That would have to come from the internal services department. They're separate entity and their process in the whole contract negotiations and bidding. Those are.

85 "BOS Commission Services" (297267200)

00:28:51.589 --> 00:29:11.589

Governed by different regulations which I'm not privy to, so we can try to get you a contact over at ISD, but again that's apart from the sheriff's department. That's a whole separate entity. Can you tell us what contracts are up right now within there's numerous contracts are always.

86 "BOS Commission Services" (297267200)

00:29:11.589 --> 00:29:38.639

Are you bringing like the custodian services to bring on more cleaning staff? Is that being expanded? At this time we received approval for that contract, so we have starting services beginning at the inmate reception center 20 Towers correctional facility and century regional attention facility. We also have a, another contract with men Central jail.

87 "BOS Commission Services" (297267200)

00:29:38.639 --> 00:29:54.329

Those will exp We look to create a brand new custodial contract which will hopefully be completed and presented probably the.

88 "BOS Commission Services" (297267200)

00:29:54.329 --> 00:30:14.329

End of 2026 early 2027, which will incorporate all of the jail facilities including the station jails. We would love to have visibility on that contract process. Alright, follow up on the iPad.

89 "BOS Commission Services" (297267200)

00:30:14.329 --> 00:30:37.249

Slash tablets contract and vendor status. That is still in the finalization process for the contract, and then it still needs board approval. So once everything's finalized, then we'll have a better understanding of when we can get on calendar to present to the board. Do you have an estimated timeline? Yeah, because it's between.

90 "BOS Commission Services" (297267200)

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

00:30:37.249 --> 00:31:03.139

In the vendors, so I don't know at this time. So NO longer quarter two. I think that's what we were told. And it looks like we're finalizing, but I can't be for certain I can't tell you, I'm not sure. Okay, so non quarter two. We have NO idea. Okay, so NO. All right, thank you. Just on that note, we continue to share our concerns about.

91 "BOS Commission Services" (297267200)

00:31:03.139 --> 00:31:25.309

Prevence forms being tracked and opened and read and the need for these tablets and a way to have an electronic tracking system for grievances is just very high. And so does that sound like that will be part of the tablet, whatever the tablet is approved, the person will be able to submit an electronic grievance.

92 "BOS Commission Services" (297267200)

00:31:25.309 --> 00:31:47.999

Yes. Okay, that's the goal once we are able to get the tablets and start the process. Okay. Has there been any follow up on the, the lost grievance forms that we brought up in the last week? No those were referred to the facilities, so I don't have any other information there.

93 "BOS Commission Services" (297267200)

00:31:47.999 --> 00:32:07.999

Is there an update on the pre portion new rollout and meal equipment? For that we are still looking to procure the automated equipment for the automated trade line. I believe the bidding for that closes this week, so.

94 "BOS Commission Services" (297267200)

00:32:07.999 --> 00:32:27.239

Hopefully we'll be able to purchase that I think they're hopeful that we will have everything finalized and the robotic arm installed by fall so that.

95 "BOS Commission Services" (297267200)

00:32:27.239 --> 00:32:47.239

We can move forward with the precautioned meals at Twin towers. And what about the the CRDF? CRDF will, once we get the automated equipment at Twin Towers, then CRDF will be able to move forward with their precaution meals.

96 "BOS Commission Services" (297267200)

00:32:47.239 --> 00:33:10.739

Something will expand until probably fall. Correct. So it's taken a year and a half or so to get this going. Just quite quick like county standards. Yeah. Yes, it is. I don't think that's the bar. It's not the bar we're seeking at home.

97 "BOS Commission Services" (297267200)

00:33:10.739 --> 00:33:30.539

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

Please. Is, do all individuals continue to receive the meals at MCJ, the hot meals, the hot meals? Yes. Yeah. So yes, they are. And then we're also hopeful that we can start.

98 "BOS Commission Services" (297267200)

00:33:30.539 --> 00:33:50.539

Transitioning to providing a hot breakfast at Medson for jail as well. We're trying to work that out right now to see how that would look, but that's something that our food services is, looking for. That's their goal. They want to also be able to include at least one hot meal for them. And we are aware.

99 "BOS Commission Services" (297267200)

00:33:50.539 --> 00:34:08.039

Their food services unit are aware of the new dietary regulations. So they're working with the Department of Public health regarding the menu and the timeline for the implementation of the new dietary guidelines. So that's something that we are looking towards.

100 "BOS Commission Services" (297267200)

00:34:08.039 --> 00:34:24.029

I believe the Department of Public Health will be conducting their inspections either April or May so we're working with them to ensure that we have the proper menus and the proper nutritional measurements in our meals.

101 "BOS Commission Services" (297267200)

00:34:24.029 --> 00:34:44.029

Sorry, just to clarify, you all will transition to hot breakfast, currently what's the meal that's being provided that is formed? It's typically serial dinner right now or eggs. Oh, for breakfast or sorry NO with is I was just asking it's the dinner meal that's the and for the dinner meals.

102 "BOS Commission Services" (297267200)

00:34:44.029 --> 00:34:59.969

Have you heard any feedback from individuals at MCJ about how it's going, how the rollout is going, or staff that are kind of overseeing rollout? So in terms of overall.

103 "BOS Commission Services" (297267200)

00:34:59.969 --> 00:35:19.969

We've heard positive feedback, more geared towards the fact that it's delivered pre portion it's sealed, so our incarcerating individuals feel much safer consuming it, knowing that it's sealed, so there's NO, it takes away the fear that maybe their food was tampered with. So there that's what we.

104 "BOS Commission Services" (297267200)

00:35:19.969 --> 00:35:26.009

We feel that we've gotten the most positive feedback in.

105 "BOS Commission Services" (297267200)

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

00:35:26.009 --> 00:35:46.009

I know the commissioners have brought up that there were some complaints that the meal portions weren't large enough. But other than that, we haven't received negative feedback. When we do our, when we conduct our town hall meetings, meals and food has not been one of the top five concerns.

106 "BOS Commission Services" (297267200)

00:35:46.009 --> 00:36:03.359

What are the top five concerns right now? I will have to get that to you. It's on the LASD transparency page. Most of it has to do with facility conditions, but I Meals are not on there. We will check on that. Thank you. And then.

107 "BOS Commission Services" (297267200)

00:36:03.359 --> 00:36:23.359

Continuing kind of from the feedback we provided in previous meetings about what we're hearing about the new food rollout, we're continuing to hear that a lot of people if they have means to purchase food from comicary are choosing to eat that only instead of county provided food. And so do you have that data on food weight.

108 "BOS Commission Services" (297267200)

00:36:23.359 --> 00:36:51.169

No, we don't. So we did speak with food services bureau, and that is something that they did not track. It was just when the cambros returned to the kitchens at the end of meal service when they're preparing to clean those cambros, it's the food that they were throwing away that, that was noticeable. So now that we NO longer utilize the cambros to serve the dinners since it's pre portion meals, there.

109 "BOS Commission Services" (297267200)

00:36:51.169 --> 00:37:12.599

There's not the food waste at the end of the day as it was prior. But there is still trash of whole meals just being put in the trash. That is not being returned to the kitchen, so that's something that we're not tracked. It's what an individual decides not to eat that they will either trash or throw away trash.

110 "BOS Commission Services" (297267200)

00:37:12.599 --> 00:37:32.599

Commissioner Viral and I at the previous inspection and commissioner Toronos and I also saw just like huge bags all of these meals in the trash files. Not not great. Do you have any updates on the brought up last meeting, there was an issue with kosher labeling, I believe I saw that on.

111 "BOS Commission Services" (297267200)

00:37:32.599 --> 00:37:51.659

And something recently if there was an update gonna be changed to like posture product labeling. Does that sound familiar? Sorry, with all the special diets? Yeah. So they've they've created, so they've created those meals. In a matter of fact, I just approved all the.

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

112 "BOS Commission Services" (297267200)

00:37:51.659 --> 00:38:11.659

To be set up for the stuff that's got coming for all the different Ramadan and all of that, so they are creating those labels, they are creating those meals. There was an issue we brought up at the last meeting that some of the items that were given in a kosher meal didn't have a hexture label on them.

113 "BOS Commission Services" (297267200)

00:38:11.659 --> 00:38:37.700

Thinking that they were indeed kosher? So that's all falls under we do have the the actual chaplans, everybody comes in and they put these meals together. So I'll have to look again into that, but they're separating everything and doing everything they need especially for our community to make sure that they're not contaminated between the small trays. And then now that it is how our meals.

114 "BOS Commission Services" (297267200)

00:38:37.700 --> 00:38:57.840

Services changed to accommodate? So they they actually have the three packaged meals. But are they given out at the proper times? They should be yes. Proper times for romanum, not like proper meal time. Okay ok we can check on that commissioners this month during them.

115 "BOS Commission Services" (297267200)

00:38:57.840 --> 00:39:14.670

Any other questions from commissioners, please? Yeah, I just I just have one like a follow up just to make sure that I understood correctly. So the only facility right now that is receiving the hot meals for dinner is CJ? CJ and there are.

116 "BOS Commission Services" (297267200)

00:39:14.670 --> 00:39:31.650

NCCF to certain floors. I think there's maybe two forms that might have them at NCCF. But all of CJ and a few don't get NCCF. Okay, thank you. I had a question about that actually too. Do you have.

117 "BOS Commission Services" (297267200)

00:39:31.650 --> 00:39:51.650

Knowledge on why CJ was selected to be the place that it was tested. I believe because they had the most complaints regarding the food and with the escalators and, the length of time that it took to get the cameras to the different floors, the food was coming cold, so that was the.

118 "BOS Commission Services" (297267200)

00:39:51.650 --> 00:40:12.800

The focus to get, to ensure that they had their hot meals. Thank you. I like to kind of stick on the subject of meals in the many courts inspections court holding facilities inspections that had made.

119 "BOS Commission Services" (297267200)

00:40:12.800 --> 00:40:33.410

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

One of the, one of the complaints that I've heard with most or at least observed is that if someone's going to court on that particular day, they don't necessarily go with their special diet dietary meals and they have to rely on what's available at the courthouse.

120 "BOS Commission Services" (297267200)

00:40:33.410 --> 00:40:53.930

And in most cases the courthouses have peanut butter and jelly sandwich bags that they, they take and and give to the people who are staying there during the lunch hour and stuff. And it brings to mind that there are many individuals who are incarcerated that do have these special.

121 "BOS Commission Services" (297267200)

00:40:53.930 --> 00:41:10.110

Dietary needs such as people with diabetes and and other things. And it's it's it's not necessarily consistent that they are sent. Now, when I ask staff about that.

122 "BOS Commission Services" (297267200)

00:41:10.110 --> 00:41:30.110

Sometimes the answer is, this is what we have to give them. And I think it's really difficult, you know, for me to understand why they can't be sent with them to court so that they can have the meal that they need to have because of any kind of dietary or.

123 "BOS Commission Services" (297267200)

00:41:30.110 --> 00:41:52.620

Or, you know, doctor's orders that might be in place. So I'm I'm seeing that a lot but it but it seems like it's an oh well this is what we have, this is what they get situation from the staff at the course.

124 "BOS Commission Services" (297267200)

00:41:52.620 --> 00:42:09.630

And I'm wondering if there is an opportunity to maybe start taking a look at that so that we can have make sure that these individuals going to court and then have the possibility to staying there a long time that they do get their dietary needs as described by.

125 "BOS Commission Services" (297267200)

00:42:09.630 --> 00:42:29.630

Crucial health services because it doesn't appear to be happening. Right. And that's something we would have to check with the facilities because the food, the lunches are prepared prior to them leaving for courts, so they should have their special diets sent with them. So before they leave their housing area, they should be provided their.

126 "BOS Commission Services" (297267200)

00:42:29.630 --> 00:42:49.630

Breakfast and if they have a special diet, their special diet as well knowing that they'll probably be gone for the day. So that's provided to them. Now whether they eat their special diet meal with their breakfast, we can't control that. And unfortunately once they get to the

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

courthouses, the courthouses don't have the ability to provide, to keep on hand.

127 "BOS Commission Services" (297267200)  
00:42:49.630 --> 00:43:16.550

The different type of meals, so it's only like you mentioned, the peanut butter and jelly or it's something that it would just be a regular meal for everyone. We don't they don't have the capability of having a wide selection of lunches at the porthouses and unfortunately, we don't have access to a kitchen where we would be able to provide that to them. So it's just ensuring that.

128 "BOS Commission Services" (297267200)  
00:43:16.550 --> 00:43:37.910

We do have that we are delivering their their special diet meal before leaving, which should be the case they should have they should have it with them. The kitchens do prepare it. Now, we would just have to need to follow up to make sure that if there's some someone who didn't receive it, that we are getting it to them prior to them leaving. But they are pre.

129 "BOS Commission Services" (297267200)  
00:43:37.910 --> 00:44:06.170

They should be leaving with them, and it's just unfortunate when they do get to court, we don't have the capability of having a larger selection on hand for those different types of special diets. Sorry, in terms of it being prepared before they leave, also they're doing this at like the kitchen's open at two in the morning to do this? Wow. Okay. So, I'm wondering, I'm hearing this enough to be concerned in the various court locations. Yes.

130 "BOS Commission Services" (297267200)  
00:44:06.170 --> 00:44:26.040

So I'm wondering if perhaps maybe we can, maybe next time we we meet next month, we might be able to have some type of data that indicates, you know, X amount of individuals going to court and the the.

131 "BOS Commission Services" (297267200)  
00:44:26.040 --> 00:44:46.040

The special needs diets are following them and if there is a situation where they're eating them before, then perhaps maybe we can put remedies in to make sure that they do have it because I think that you know we have enough concern with some of the, with the health of our incarcerated that we need to be able to make sure that they have.

132 "BOS Commission Services" (297267200)  
00:44:46.040 --> 00:45:09.800

What they need when they're stuck at court all day long or for whatever time that they have so that we make sure that, you know, they're not gonna run the risk of, of, you know, exacerbating their, their health issues. Because again, I'm hearing it enough to be concerned. It's not a one off it's very much more of a consistent thing.

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

133 "BOS Commission Services" (297267200)

00:45:09.800 --> 00:45:30.390

And I don't feel that there's enough emphasis by courts or the court holding staff that it's an issue for them. You you're hungry? There's a sandbox. They mentioned it to us at this this month in our courthouse too, and even the deputies were saying that it makes it harder in terms of what you were talking about.

134 "BOS Commission Services" (297267200)

00:45:30.390 --> 00:45:50.390

With Yeah making sure that folks, you know, getting folks to do things that they're hungry, obviously that makes things a lot harder for the deputies who are working. And unfortunately, the court deputies and our, even our housing deputies aren't aware of who has special diets, it comes separated that special diets comes separate.

135 "BOS Commission Services" (297267200)

00:45:50.390 --> 00:46:15.600

Did they come labeled so they know that these meals need to be delivered to the certain individuals, so there's not a system where it's flagged for us that says this person has a special diet, this person doesn't, it's something that's already generated from the kitchen for us. So that changes constantly depending on question health services and the dieticians. It's not connected to their number? So.

136 "BOS Commission Services" (297267200)

00:46:15.600 --> 00:46:35.600

Not for our line staff, so I can't pull up their information on my computer. It doesn't flag it that they have a special for my line staff or for myself if I were to look Correctional health services, it would be in their notes, but I don't have access to their medical records so it's something that I wouldn't have access to or my staff did not have access to. It appears that it's a.

137 "BOS Commission Services" (297267200)

00:46:35.600 --> 00:46:56.600

It's a solution when it's not hard to limed by being able to somehow identify a special need, whether it be on their wristband, whether it be on follow follow up on the records that that they take with them and the ability for the transportation staff to make sure that it's.

138 "BOS Commission Services" (297267200)

00:46:56.600 --> 00:47:17.810

Over to the court staff so that they have it available for them. Given the fact that they maybe in court for an extended period of time, whatever it might be, it doesn't seem like it's a it's a hard issue to fix. So what I can do is. I hear enough of it to be concerned. I can ask to see, just so that you have a snapshot of how many special.

139 "BOS Commission Services" (297267200)

00:47:17.810 --> 00:47:52.640

Diets we have NO bring that back next meeting. Okay, that would be great. Can we do some sort of memo, can you do some sort of memo out to the

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

kitchens as a reminder? They need to be providing the special diets because we're hearing they're just not be provided. Let me look into that. We can send a reminder to them, but yeah reminder would be a great start. I have a question commander. When, when people are going to court and they have a special diet or even if they don't, they, the individual does not get.

140 "BOS Commission Services" (297267200)  
00:47:52.640 --> 00:48:15.560

The their lunch with them, right? It goes as a group under the bus or something or or how, how are they taking their meals to court? They're changing it with them. So it doesn't go with them on the bus. And so if they have a special diet and because I've heard that sometimes they, when they get to court, it gets taken away from the deputies there. That should not be happening.

141 "BOS Commission Services" (297267200)  
00:48:15.560 --> 00:48:33.930

It shouldn't be, and even their meals shouldn't be taken away from that. Okay thank you. Unless maybe it was open, I think that's the only time that I have seen it where they're walking and they're, and they're it's opened. Maybe that might be like they're, maybe they have the milk in the stereo.

142 "BOS Commission Services" (297267200)  
00:48:33.930 --> 00:48:51.540

And they're walking with an open container. That might be the only time or maybe it's something they were I, I wouldn't help. Yeah. Okay alright and and if I could raise one other concern again that I'm hearing quite often in the court holding facilities.

143 "BOS Commission Services" (297267200)  
00:48:51.540 --> 00:49:11.540

The issue of their medication, their medication following them if it's scheduled to be taken while they're off site. It it's it's another thing that I'm hearing enough to be able to, to, to raise concern that they may not be getting their medication as needed when they're outside their their.

144 "BOS Commission Services" (297267200)  
00:49:11.540 --> 00:49:43.620

Their housing facility. And we heard as much from deputies this month at the Hollywood port house that those are agitated because they're not coming with their afternoon medicine because you can't be sure that they're gonna be closed out by the afternoon and so I don't know if that needs, there needs to be a medical staff person or something to administer emergency for people who could have seizures or something more serious that then obviously creates a bigger problem for staff than that person. But I agree with commissioner Ray that it is highly concerning the deputies which seems concerned as well. Yeah.

145 "BOS Commission Services" (297267200)  
00:49:43.620 --> 00:50:03.620

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

Alright, any other follow up on Yeah would be nice if you could speak up. Apologies. Hope everybody can hear us now. Any other follow up on item two? No, that's all I have. Alright, thank you. Let's open it for public comments.

146 "BOS Commission Services" (297267200)

00:50:03.620 --> 00:50:32.970

1st of all begin with virtual public comment. Can provide public comments, if you're using a smart device computer, please raise your hand feature we don't have any virtual public comments and now we will move on to the in person public comment. Alright, I do have 2 min, go ahead.

147 "BOS Commission Services" (297267200)

00:50:32.970 --> 00:50:52.970

I wanted to go back to the special diet. So would it be possible to get like a separate, like colored wristband for special diets to be able to identify them that way? Also, unfortunately you can ask and close the question, but discussion cannot take place.

148 "BOS Commission Services" (297267200)

00:50:52.970 --> 00:51:18.620

Truly appreciate it. All right, we will make sure that we follow up on that. Are there any other in person public comments? If so, please raise your hand or come on up to the desk here. None. And then we did not receive any written public comment that this.

149 "BOS Commission Services" (297267200)

00:51:18.620 --> 00:51:33.750

Thanks so much. We'll move on to item number three as we go on to item number three, I just wanna mention miss Stockman thanks so much for your comment and your question and we will make sure that question is.

150 "BOS Commission Services" (297267200)

00:51:33.750 --> 00:51:53.750

Brought up once we can return to it through the pieces here and are looking forward to having you as a member of the Item three, discussion and appropriate action on the 3 February 2026 addressing water quality and safety and other hazardous environmental issues in a lot.

151 "BOS Commission Services" (297267200)

00:51:53.750 --> 00:52:19.700

Sangeles County jails board motion, which involved LASD DPH OIG COC. So just a quick note on this, we have held some meetings between DPH, COC OIG, and LASD to talk about next steps on this motion. And just a couple notes.

152 "BOS Commission Services" (297267200)

00:52:19.700 --> 00:52:42.530

That I want to bring up the commission's job, as everyone knows, is to inspect the jails for conditions of confinement. And this motion was brought forward because of conditions of confinement that were not up to standards that we observed, including issues observed with the water at CRD.

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

153 "BOS Commission Services" (297267200)

00:52:42.530 --> 00:53:04.730

We are tasked by the board to do three things. One is to continue to conduction. Continue to conduct regular monthly inspections of the LA county jails and report on the water conditions. But we've also been asked to specifically focus in a report.

154 "BOS Commission Services" (297267200)

00:53:04.730 --> 00:53:25.140

On other environmental conditions we observe. After a hundred and 20 days from the 3 February motion, we will provide a report to the board on observed environmental conditions. From that we see water, air quality temperature, sanitation, test infestation, all of that fun stuff.

155 "BOS Commission Services" (297267200)

00:53:25.140 --> 00:53:45.140

And we'll also be checking per the motion, the motion asked that the sheriff's department would provide bottled water when the water was seened. So that's something we checked. We will write a report to the board of supervisors on that and we are also coordinating with LASD DPH, and CHS to address the poor water issues and.

156 "BOS Commission Services" (297267200)

00:53:45.140 --> 00:54:18.110

Provide those entities information from our inspections on what we believe needs to change. So Commissioner Ringalado, vice chairags and I met with those entities and talked through what next steps need to happen and provided our thoughts on on what we are seeing. LESD, would you like to share commander Montoya what steps you are taking as part of this water motion? Yes, thank you.

157 "BOS Commission Services" (297267200)

00:54:18.110 --> 00:54:39.500

Thank you commissioner. So our staff are looking to hire or procure a 3rd party who will conduct regular testing of the water to ensure that it is proudable and within acceptable standards. So does that that is something that's underway right now will have.

158 "BOS Commission Services" (297267200)

00:54:39.500 --> 00:54:54.690

More information as we move forward, but that is the 1st thing that we're looking at. We're also ensuring the water filtration systems are working properly at all our facilities and we're, we also.

159 "BOS Commission Services" (297267200)

00:54:54.690 --> 00:55:12.630

Or we have water bottles on hand, so should the need to provide water bottles due to issues with the water they are available for infarcerated individuals. And something to just note that I wasn't aware of was that in the meetings.

160 "BOS Commission Services" (297267200)

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

00:55:12.630 --> 00:55:32.630

Department of Public Health let us know that they don't test the water, the water quality, they look at the water and they see the water temperature and they see if the water is cloudy and they only do that in a once annual report or annual inspection at all of the facility.

161 "BOS Commission Services" (297267200)

00:55:32.630 --> 00:55:53.540

And so what LESD is saying is that they're gonna get to test the water, but everything that the Department of Public Health is doing isn't testing pH or testing for chemicals, it is a visual inspection. Visual clarity, is it hot or not? Are there and they go through the entire facility. They're not checking.

162 "BOS Commission Services" (297267200)

00:55:53.540 --> 00:56:23.000

Page, they're not checking for chemicals, etc. So what LASD is doing is looking for a vendor to test those things such as chemicals and pH levels. When we asked about the chlorine smell that we had smelled at certain times, Department of Public Health shared that that could be, I forget what the terminology was, but from the city or where it's coming, so that's why testing at the facility.

163 "BOS Commission Services" (297267200)

00:56:23.000 --> 00:56:40.380

And that it could happen to any LA resident's home for that kind of slurring smell to happen. That was the information that was shared that I was not clear about that I want to make sure everybody else was clear. Linwood is responsible for the point of connection.

164 "BOS Commission Services" (297267200)

00:56:40.380 --> 00:57:00.380

And so I think that we need to also encourage the conversations to include the city entities and again I want to just make sure that we are clear as a commission on our job and our responsibility of inspecting and reporting on what we're seeing. We will continue.

165 "BOS Commission Services" (297267200)

00:57:00.380 --> 00:57:20.460

To do that based on the motion and based on our mandate. Commissioner Fatia. So the 3rd party that you're hiring to conduct testing of the water, is there, is there a way we can get more information about specifically.

166 "BOS Commission Services" (297267200)

00:57:20.460 --> 00:57:36.780

You know, is this, is this a bit you all are putting out to, to get a contract and then what are the requirements for testing since obviously DPH testing wasn't sufficient enough and the things I'm thinking about.

167 "BOS Commission Services" (297267200)

00:57:36.780 --> 00:57:53.670

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

Are not just the testing of the water that's coming out of the pipes, but the pipes themselves, knowing that a lot of these infrastructure itself is pretty old and then to Chairperson Rodeter's point, how much of that testing will be coordinated?

168 "BOS Commission Services" (297267200)

00:57:53.670 --> 00:58:13.670

With city entities, you know, that might own or run the points of infrastructure that the facility is connected to. I don't have that information yet as we move forward with the discussions and I don't know if this is going to bid, go out for bid. So once.

169 "BOS Commission Services" (297267200)

00:58:13.670 --> 00:58:35.100

We have more information, I'll bring that back to the commission and share that, but at this point I don't have the specifics for the 3rd party overall. So does the maybe the I mean, does the like visual testing situation that they're doing?

170 "BOS Commission Services" (297267200)

00:58:35.100 --> 00:58:55.100

Is that, are they treating the jail the same way they treat any other entity in the county or is that like just do they just do that for the jail? What it sounded like to me and obviously you could ask to come to speak on their own behalf, but what it sounded like to me was that I think the term with the exact quote was that the department of Public health water inspections.

171 "BOS Commission Services" (297267200)

00:58:55.100 --> 00:59:23.460

Include these things, they didn't specify that it was just for the jail facilities. So we can ask in follow up email what the I think that that's a good question. Is that the what is their standard for every what is the scope of inspections that I'll say city like a hospitals I think County hospitals. Okay, great. We can follow up with them.

172 "BOS Commission Services" (297267200)

00:59:23.460 --> 00:59:43.460

Sorry, just one other thing I guess in addition to that, does LASD then anticipate if there's a bidding process that you will will be able to respond to the board's motion within the hundred and 80 days knowing that, you know, and I and I know you don't have that information at this point.

173 "BOS Commission Services" (297267200)

00:59:43.460 --> 01:00:04.260

And I'm sure this will be a reoccurring agenda item, but I guess just knowing how long it might take to provide a response you know to the board with a plan of action. Right, and that's part of our plan, so that would be our responses that we are looking towards the 3rd parties.

174 "BOS Commission Services" (297267200)

01:00:04.260 --> 01:00:20.100

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

And then sorry as well in conjunction with the continual inspections from the Department of health. Right, and then in the meantime, I think water bottles where anyone requests them because of water that's.

175 "BOS Commission Services" (297267200)

01:00:20.100 --> 01:00:40.100

Not trickable or usable. Right. When there's issues with the water that we have the water bottles on on hand. Okay, I'm gonna ask that this item be added to the next month's agenda as well so we can continue to follow up and I will ask commissioners, is there anything from inspections over February that.

176 "BOS Commission Services" (297267200)

01:00:40.100 --> 01:00:51.870

You want to draw attention to as it relates to water or environmental hazards that you observed just so we could collect it right here.

177 "BOS Commission Services" (297267200)

01:00:51.870 --> 01:01:09.150

Environmental conditions and CCF Commissioner will talk about her NCCF inspection report, but yes, environmental conditions looks there. Do you have any? Anything to note right now? We come back to it if not.

178 "BOS Commission Services" (297267200)

01:01:09.150 --> 01:01:26.400

Anything else on this item? There's NO replacement program, so this has to get fixed, right? There's that's not it doesn't it's not going anywhere, so it has to get fixed.

179 "BOS Commission Services" (297267200)

01:01:26.400 --> 01:01:46.400

Was there conversations about like potential and reviping because there's the moths that are and two are moths. Yes, yeah. They said that that is soaks come and they give mr., what is it? What is mr. Digestive mr. digestive.

180 "BOS Commission Services" (297267200)

01:01:46.400 --> 01:02:06.800

And that was the information that we were told about the pipes and that the food and all of that does degrade the pipes. My hope would be that when they do the testing of the when they do the other vendor that actually tests the water quality and chemical.

181 "BOS Commission Services" (297267200)

01:02:06.800 --> 01:02:26.940

And all that stuff if they saw that we might get more information, conclusive information on levels of rust and those things that would then support the pipe replacement. But from what they're hearing right now, there was NO talk of it because the water was visually assessed to be.

182 "BOS Commission Services" (297267200)

01:02:26.940 --> 01:02:43.920

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

So it sounds like band days have which is gonna cost the county more and mr. like that right and also noting that.

183 "BOS Commission Services" (297267200)  
01:02:43.920 --> 01:02:58.920

The sheriff's department is not planning to give out bottled water preemptively, right? It's just if, hey, can you tell us like the standard for if somebody says hey the water is brown, how does, how does somebody's.

184 "BOS Commission Services" (297267200)  
01:02:58.920 --> 01:03:14.100

Then get access to the bottle of water. So the module staff will notify the watch commander, the watch commander will contact the kitchen and authorize the, the delivery of water bottles to the areas that are affected.

185 "BOS Commission Services" (297267200)  
01:03:14.100 --> 01:03:32.250

Cause not all of the water issues may may expand to the whole facility so it will be delivered to the area that is affected. Would there be any like confirmation process that they go through or we ask for bottle of water we're given bottle of water? It would be from the module staff and the supervisors working that area.

186 "BOS Commission Services" (297267200)  
01:03:32.250 --> 01:03:47.400

Is there any way we could get like feedback, I don't know, like next whenever, like how often that actually happens? Like that someone asks the deputy told the wash commander and water because I.

187 "BOS Commission Services" (297267200)  
01:03:47.400 --> 01:04:07.400

I just I've seen, you know, one deputy supervising 90 women or something. I just I find that hard to believe that that will happen very often because they've got a lot going on. Well, and then not every day does the water come out. Right, but just with what we've seen that happen, we've seen.

188 "BOS Commission Services" (297267200)  
01:04:07.400 --> 01:04:31.500

So I would think that if somebody knows to ask, I I just was wondering if there's a way to tell if that actually happens. Is it documented when water bottles are given out? It maybe documented in the in the EU dolls or the watch commander logs, but in order to search that, like, I would really need to know incidents of.

189 "BOS Commission Services" (297267200)  
01:04:31.500 --> 01:04:49.680

When this occurred I could reach out to the facility CRDF to see if they have any, anything on hand, but I don't know that I would have something to report back and ask them. Yeah, could you reach out and we'll we'll see what comes from that? Thank you. All right. Anything else on this?

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

190 "BOS Commission Services" (297267200)

01:04:49.680 --> 01:05:11.330

Please open for public comments. Right, now we will provide virtual public comments, please press star three. Using a smart device computer, please raise that feature. All right, so we don't have any virtual public.

191 "BOS Commission Services" (297267200)

01:05:11.330 --> 01:05:31.330

Comments not receiving written public comments, now we will move on to in person public comment. Are any members of the public course provides in person public comment, please raise your hand and come on up to the to the frontier. All right, seeing none. Cheer. Thank you so much. We will go on.

192 "BOS Commission Services" (297267200)

01:05:31.330 --> 01:06:02.120

Two item number four. Can we combine items number four and five to dr. Henderson and Joe Both are on together? Is that possible? Yeah, why not? Let's do it. Great. Okay, so dr. Henderson and Joan, do you want to mute yourself and join our discussion here? Thank you so much for both being here. We are very glad to have you present and appreciate you.

193 "BOS Commission Services" (297267200)

01:06:02.120 --> 01:06:21.570

Been on the call for the last while. We have invited you here miss Hubble to discuss the mental health follow up when sexual assault cases are reported to LASD or to CHS. We had a conversation at our last meeting in.

194 "BOS Commission Services" (297267200)

01:06:21.570 --> 01:06:41.570

February with the da's office and also with dr. Henderson about the steps that occur after somebody reports a sexual assault in the jails. And we wanted to follow up with you because we asked dr. Henderson what the steps were when somebody.

195 "BOS Commission Services" (297267200)

01:06:41.570 --> 01:06:53.182

The reports from a mental health perspective of providing additional follow up support. Can you tell us a little bit about what happens and what those steps are?

196 "Joan Hubbell" (818285312)

01:06:53.182 --> 01:07:05.460

Sure, so if I understand your question correctly, you're, you're asking if LASD receives your report, how, what is the mental health follow up? Is that am I understanding right?

197 "BOS Commission Services" (297267200)

01:07:05.460 --> 01:07:16.227

So if there is somebody who comes and says that they have been assaulted while incarcerated, what is the mental health follow up provided? Yes.

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

198 "Joan Hubbell" (818285312)

01:07:16.227 --> 01:07:32.430

Okay yes. So, every time that a, a report is made, then the sheriff's deputies respond and they offer mental health, but it is not mandatory, so if.

199 "Joan Hubbell" (818285312)

01:07:32.430 --> 01:07:52.430

You know, and, and I talked to mr. Barkley about this. It's, like, that's a that's a nationwide nationwide expectation that they don't, you know, the, the right to not have it shared with mental health if you don't want it to be or have someone from mental health they need that sense of privacy that you're not going to share it.

200 "Joan Hubbell" (818285312)

01:07:52.430 --> 01:08:21.386

With everyone I'm only telling you. So it's based on their desire to have a follow up with mental health, but then obviously anyone who does say yes, then we, you know, as quickly as possible, follow up and then that would be the, the resulting follow UPS would be based on individual need. You know, do they need to be moved to a different care or are they having instability? Do they want further support? That's all based on the individual.

201 "BOS Commission Services" (297267200)

01:08:21.386 --> 01:08:27.997

What are the options for such support that the mental health team can provide?

202 "Joan Hubbell" (818285312)

01:08:27.997 --> 01:08:50.982

I mean it would be weekly follow UPS. It could be moved if they needed to move to a higher level of care because it's causing them instability, you know, if they need groups and an HOH, that would be an option, but those that I think that pretty much covers what the options would be.

203 "BOS Commission Services" (297267200)

01:08:50.982 --> 01:09:04.165

When you say weekly follow up that like weekly therapy one on one plus possibility for group therapy, like what what type of intervention is used? I mean obviously when I say weekly.

204 "Joan Hubbell" (818285312)

01:09:04.165 --> 01:09:08.583

Any follow UPS I'm talking about individual, you know, with a clinician. Yes.

205 "BOS Commission Services" (297267200)

01:09:08.583 --> 01:09:28.105

With the and then if there's somebody who comes into correctional health services for routine appointment and says that they've been assaulted, is

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

that immediately referred to mental health or is that also separate into, they may or may not if they want to?

206 "Joan Hubbell" (818285312)  
01:09:28.105 --> 01:09:39.107

So I thought I think when you 1st were saying that I thought you meant if they report to us, what do we do? But you're saying if they come in upon intake, is it any different? Is that what your question is? No.

207 "BOS Commission Services" (297267200)  
01:09:39.107 --> 01:09:51.008

No, so if they are in a correctional health services appointment with a dr. and they share that they have been assaulted, what does that follow up? Is it the same?

208 "Joan Hubbell" (818285312)  
01:09:51.008 --> 01:09:52.818  
I believe it's the same.

209 "BOS Commission Services" (297267200)  
01:09:52.818 --> 01:09:57.865

Pipeline that comes from LESD and if it comes from CHS.

210 "Joan Hubbell" (818285312)  
01:09:57.865 --> 01:10:04.865

Yes yes, it's based on the individual's desire for a follow up. Okay.

211 "BOS Commission Services" (297267200)  
01:10:04.865 --> 01:10:43.939

Question. I guess I'm I have two questions. Hi, thanks for being here. One is, so that just so I'm clear, when that this is you know assault or harassment or whatever it falls under Priya, that the communication point between someone getting mental health treatment or support is through a sheriff's department person. Like that's the touch point for the person that is how mental health would learn that someone wants help is through a police, a law enforcement person.

212 "Joan Hubbell" (818285312)  
01:10:43.939 --> 01:10:57.605

Right. Yeah, unless it's reported 1st or unless they make a request outside of custody, you know, they, they always have the option to do that, but the protocol for Priya, it would come from custody.

213 "BOS Commission Services" (297267200)  
01:10:57.605 --> 01:11:23.990

Okay, and so just I'm just thinking as a social worker, I I don't know your background in mental health, but just kind of the rapport building that might be required there. I'm just a little concerned that is not always the place to ask for that, but that's helpful to understand that's the process. And then do you have any information for how many times mental health has supported someone who's reported a priya complaint in the last year?

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

214 "BOS Commission Services" (297267200)

01:11:23.990 --> 01:11:34.346

Like how many times this has actually happened where someone reported something happening and it was communicated to you all and then you provided the the follow up support.

215 "Joan Hubbell" (818285312)

01:11:34.346 --> 01:11:45.926

Actually I don't. I asked mr. Markley if he had any kind of data and he did not and and I don't, we don't track it either.

216 "BOS Commission Services" (297267200)

01:11:45.926 --> 01:12:00.766

Thank you. Sure. Can you talk to us a little bit about your department's capacity to provide mental health support? Are you able to respond pretty swiftly to all the cases that need it? Do you understaffed.

217 "Joan Hubbell" (818285312)

01:12:00.766 --> 01:12:05.910

Where, where are you with being able to respond to need?

218 "Joan Hubbell" (818285312)

01:12:05.910 --> 01:12:22.950

I mean, you know, would we always like there to be more and better? Sure. I'm not gonna say that we have, you know, just a plentiful staff that could respond to every need, but we are not behind, you know, we track all crisis calls and.

219 "Joan Hubbell" (818285312)

01:12:22.950 --> 01:12:38.685

Well, we are not behind at all. We're able to get it to those calls in 24 h, and a priya response would be treated exactly the same, if not more. I mean, I think that's one of the things we would take the most seriously.

220 "BOS Commission Services" (297267200)

01:12:38.685 --> 01:12:56.580

Questions from other commissioners? I'm curious, we've heard mention that a an individual one has.

221 "BOS Commission Services" (297267200)

01:12:56.580 --> 01:13:19.742

Personal health services to follow up on something or if they have an appointment or request an appointment it could take months. I think that's what I heard. What, what is it if how much wait time does it take for someone to request that type of follow up mental health in the system? How long will it take for them to be seen?

222 "Joan Hubbell" (818285312)

01:13:19.742 --> 01:13:54.560

Well, we have, two different if it's a crisis call, then they're seen within 24 h. If it's a if it's a sort of a routine request like hey, you know, I think the most common request we get is I don't like this medication, I want to change. Those requests are tracked for the DOJ and,

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

and me the our deadline is within seven days and we are usually within the seven days. Like we, you know, we're doing well on that provision. So, if someone requests help, NO, it does not take months. It it's it's we track it and it and we and they're seen within seven days.

223 "Joan Hubbell" (818285312)  
01:13:54.560 --> 01:13:56.737  
Guys.

224 "BOS Commission Services" (297267200)  
01:13:56.737 --> 01:14:13.659  
Thank you. Yeah. And and so the timeline on that, and I should know this I'm sorry, of the seven days starts when you receive the inquiry? Yes. So if you don't receive it or it's in a box, you don't know it.

225 "Joan Hubbell" (818285312)  
01:14:13.659 --> 01:14:31.790  
Well, that part is tracked by the DOJ as well, that like when it's stamped, when it you know the the nurse, you know, 1st gets it, puts it in the computer, so that all is honestly I'm pretty sure I shouldn't I don't I don't know if Henderson if you know this, but I actually think it includes the timestamp.

226 "Joan Hubbell" (818285312)  
01:14:31.790 --> 01:14:36.640  
And like that that is part of the provision that it all has to be done within seven days.

227 "BOS Commission Services" (297267200)  
01:14:36.640 --> 01:14:51.750  
That that makes sense, but I guess I'm raising it because we routinely have found boxes of forms when we do our walkthroughs that are old and are just sitting there and they're usually.

228 "BOS Commission Services" (297267200)  
01:14:51.750 --> 01:15:08.117  
In my experience, I don't have data. Mental health or medical, that's usually what they're the person's asking. They're usually written on the wrong form. I don't know, whatever, but that's their outlet to get help, and that's what we see.

229 "Joan Hubbell" (818285312)  
01:15:08.117 --> 01:15:09.443  
And so it's like.

230 "BOS Commission Services" (297267200)  
01:15:09.443 --> 01:15:14.000  
But that does not count at the time.

231 "BOS Commission Services" (297267200)  
01:15:14.000 --> 01:15:14.506  
I don't know.

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

232 "Joan Hubbell" (818285312)

01:15:14.506 --> 01:15:29.498

I mean I would love to see some of those, you know, when you come across that that would be important to know. Yeah, I think we will definitely share that with you. Thank you.

233 "BOS Commission Services" (297267200)

01:15:29.498 --> 01:15:47.210

I had the opportunity to attend the new mental health intake facility at IRC that just opened up and it brought to mind that now there is a specific location for people who are deemed.

234 "BOS Commission Services" (297267200)

01:15:47.210 --> 01:16:02.300

To have a mental health situation or we suspected that you know now they're being separated and having an intake done on their own, you know, taking them out of the general.

235 "BOS Commission Services" (297267200)

01:16:02.300 --> 01:16:18.920

Intake, waiting area so if they have been deemed to be to be included in this new intake process, is there something that occurs?

236 "BOS Commission Services" (297267200)

01:16:18.920 --> 01:16:37.284

Because they are being seen or doing the intake by that facility, by that unit that they will be seen and and assessed by a mental health professional in the intake process? Is there anything that.

237 "Joan Hubbell" (818285312)

01:16:37.284 --> 01:16:42.078

What what's the process when they are, when they get into the system.

238 "BOS Commission Services" (297267200)

01:16:42.078 --> 01:16:45.027

System through that area.

239 "Joan Hubbell" (818285312)

01:16:45.027 --> 01:17:10.930

Yeah, so each person, and this hasn't changed, it's just that we have a new we like the process hasn't changed, but the facility has changed. So the process is that when everybody comes in, they're seen by a nurse and then the nurse will decide like based on whether they're symptoms they're presenting or whether, their history in the chart or or, you know, for any reason they, but they always look at the chart to see if there's a history of mental health.

240 "Joan Hubbell" (818285312)

01:17:10.930 --> 01:17:27.785

If there is a referral, then they refer them to to to mental health. If they are, you know, if they're suicidal, then we have a, like a 4 h window to see them and if they are not, then we see them within 24 h.

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

241 "BOS Commission Services" (297267200)

01:17:27.785 --> 01:17:41.503

Okay, thank you. Can I ask you about the groups you mentioned? Do you have groups specific for survivors of sexual violence or what types of groups do you have and what are their availability?

242 "Joan Hubbell" (818285312)

01:17:41.503 --> 01:18:06.010

I don't think we do. I mean the the regular, the groups that we, have every day, all day, every day are in high observation, and there's a variety of topics, but I don't know that one is specific to that I, within like P two, it's like a lot of the groups are.

243 "Joan Hubbell" (818285312)

01:18:06.010 --> 01:18:18.502

Provided by LASD, they might have an outside provider that comes and provides such a specific service, but I don't know of it. Okay.

244 "BOS Commission Services" (297267200)

01:18:18.502 --> 01:18:40.319

Thank you. Any other questions from commissioners? We went to the Hollywood Mental health courthouse and where they do assessments for folks competency. Is that also part of your purview? Are you the doctors underneath you all in CHS or is that there's external contractors?

245 "Joan Hubbell" (818285312)

01:18:40.319 --> 01:19:07.100

That is external although we we have a team of psychologists that do conservatorship evaluations for the mental health court, so there's the public guardian that has their own psychologists and there, there might be outside psychologists as well. We have an internal team that assesses for grade disability and also does conservatorship applications for for those patients if they're in the jail.

246 "BOS Commission Services" (297267200)

01:19:07.100 --> 01:19:21.118

Thank you. Just one more click that reminded me because it was related to one of my inspections this month but do you all have a sense of the data or the numbers?

247 "Joan Hubbell" (818285312)

01:19:21.118 --> 01:19:24.738

Those people who are either at mental healthcare.

248 "BOS Commission Services" (297267200)

01:19:24.738 --> 01:19:59.364

At you know, assigned to Hollywood's for competency or who have returned from, the state hospital as restored, who are considered, I don't know, is it whoever's in the MOH who are who are in those big central jail dorms on five and 9000, I think they're I don't know, do you have a sense of how many of those people were in conferencing completing who are now housed in those?

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

249 "Joan Hubbell" (818285312)

01:19:59.364 --> 01:20:29.306

In P2I don't have that at my fingertips. I mean if we apply for a conservative ship for someone, then they, we typically move them out of P two but if someone, but someone could be referred and then maybe if we don't find them to need a conservative ship, they might stay in P two, those numbers I don't have. But if we actually think they could they are conserved, it would be very unusual to find them in, in in aP2 setting.

250 "BOS Commission Services" (297267200)

01:20:29.306 --> 01:20:42.659

So I guess the people that are, are there people who are in going to Hollywood Mental who are in men Central jail, those 90 person dorms?

251 "Joan Hubbell" (818285312)

01:20:42.659 --> 01:20:44.870

There could be, there could be yes.

252 "BOS Commission Services" (297267200)

01:20:44.870 --> 01:20:50.660

Is there a way that we could get the information of how many of those people there are? I believe so.

253 "Joan Hubbell" (818285312)

01:20:50.660 --> 01:20:55.301

But yeah, we should be able to, yeah.

254 "BOS Commission Services" (297267200)

01:20:55.301 --> 01:21:19.789

I think that would be helpful to understand. Yes, so just to make your follow up on the number of people who are going to Hollywood Mental Health courthouse but aren't housed inside of a mental health on one of the mental health classification course NO they are, they're in the low level, they're MOH. And I guess anyone that's going there from non Central jail, just specifically.

255 "BOS Commission Services" (297267200)

01:21:19.789 --> 01:21:35.509

Yes. Okay. Thank you so much, miss Hubble. We have one question for you, dr. Anderson, and then we could take public comment if that is ok. Yep.

256 "BOS Commission Services" (297267200)

01:21:35.509 --> 01:21:55.509

Hi, dr. Henderson, good to see you. When we were doing follow up with LASD, we had an incident where, what was the incident? Yeah, so there were two individuals we spoke to who had papers from when they were in state prison that said that they had certain.

257 "BOS Commission Services" (297267200)

01:21:55.509 --> 01:22:15.509

Back injuries of back surgeries that prevented them to be able to have their hands waste chain behind their back when they needed breath chaining instead. And they did not have that on their correctional health

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

services notation and so that wasn't being accommodated by the sheriff's department because it was only notated by.

258 "BOS Commission Services" (297267200)

01:22:15.509 --> 01:22:40.039

State prison and not by correctional health services. So the question for you, is how can or how does currently correctional health take the notation received from state prison documentation of health that they bring we've seen it. It's like piece paper from state prison saying the accommodation or whatever it is into play upon intake.

259 "Sean Henderson, MD" (2880581120)

01:22:41.861 --> 01:22:46.045

I apologize for.

260 "BOS Commission Services" (297267200)

01:22:46.045 --> 01:22:50.503

We can't hear you. I know.

261 "Sean Henderson, MD" (2880581120)

01:22:50.503 --> 01:22:58.246

I know, I have to get, can you put me it?

262 "BOS Commission Services" (297267200)

01:22:58.246 --> 01:23:19.479

Can you say just a minute? We hope so. I think Dr. Henderson, just let us know when you're ready, ok? Do you want to log back in? Does your team have anything to do with any like information.

263 "BOS Commission Services" (297267200)

01:23:19.479 --> 01:23:38.623

They received from the state coming about mental health. Is that diverted to you directly or is there a process for that? I think they, I believe they might be in the same building and experiencing internet because I saw her video came off as well from the same time.

264 "Joan Hubbell" (818285312)

01:23:38.623 --> 01:23:46.199

I'm sorry yeah there is a, seems to be a little bit of it because you, I lost you as well, but was that a question for me?

265 "BOS Commission Services" (297267200)

01:23:46.199 --> 01:24:00.579

It was, I was just seeing if there was anything for your department if somebody comes from state Buisam with any documentation around mental health needs, does that get diverted straight to you at intake or does that need to be referred separately?

266 "Joan Hubbell" (818285312)

01:24:00.579 --> 01:24:04.576

It does, they come with paperwork from the state hospital.

267 "BOS Commission Services" (297267200)

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

01:24:04.576 --> 01:24:20.179

And that gets like flagged right away when somebody comes in? Yes yes yes. Great. Okay, that's wonderful. So we'll ask dr. Henderson the same question because it sounds like maybe that paperwork is not getting through to correctional health services for some of.

268 "BOS Commission Services" (297267200)

01:24:20.179 --> 01:24:35.659

The cases, the more the physical accessibilities. Yeah, like canes, walkers, waste chain accommodations due to back surgery, things like that. I'm glad to hear that it's going through well for mental health. And if there's a possibility to replicate whatever systems supporting them.

269 "BOS Commission Services" (297267200)

01:24:35.659 --> 01:24:53.779

What was that? Yeah, I was I was saying it does if they come to county jail from state prison with some of their medical records, are those medical records taken into account and do they carry any weight with the county or do.

270 "BOS Commission Services" (297267200)

01:24:53.779 --> 01:25:13.824

Or are they set aside and reevaluated by county physicians or the CHS? And just to clarify, are you saying that that that they take into consideration for mental health from state prison as well or is it just from the state hospital? The documents? Good question.

271 "Joan Hubbell" (818285312)

01:25:13.824 --> 01:25:36.118

I, that's an excellent question. I don't think state prisons send like information the way that a state hospital does. I mean we might hear of what that they received mental health care, but we typically just do an assessment, do our own assessment for someone coming from state.

272 "BOS Commission Services" (297267200)

01:25:36.118 --> 01:25:51.679

Is it so maybe that's a that's linked with dr. Henderson because I mean we see people who are triple CMS EOP. I mean they're very clearly classified and they'll come down for state prison for resentencing or a number of reasons.

273 "BOS Commission Services" (297267200)

01:25:51.679 --> 01:26:10.609

And then it's like start restart. Yeah, design, that's not a continue that's like the continuation of care's problem. Sheriff's department, do you have any notes on this? Any thoughts on this? No, only that any paperwork that we received from state, again, it.

274 "BOS Commission Services" (297267200)

01:26:10.609 --> 01:26:25.729

It will be provided to correction health services, but from there they do their own assessment and any findings that they have will be related to

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

us and we just coordinate or house based on information provided by correction health services.

275 "BOS Commission Services" (297267200)

01:26:25.729 --> 01:26:45.137

I recommend I think I recommend that we since dr. henders that we close it out and just bring it for next and we can email the questions so that he has in advance. We'll ask dr. Henderson, can I ask one quick follow up? Where are you? Oh hi, it's Crystal clear. All right.

276 "Sean Henderson, MD" (454910208)

01:26:45.137 --> 01:26:52.999

Better. Look, that's not exactly how it goes. So you come back from state prison, you'll have an accommodation that's been determined.

277 "Sean Henderson, MD" (454910208)

01:26:52.999 --> 01:27:09.019

By the state prison. Usually we, those are given to custody and custody will accommodate. We don't need to confirm a confirm you know previously.

278 "Sean Henderson, MD" (454910208)

01:27:09.019 --> 01:27:26.239

Unless there's a special accommodation, like a bottom bunk or, but if you come and you've already been designated as blind, for instance or hearing impaired, you will be accommodated by custody without CHS having to get involved. That's not where this gets tricky is if you weren't.

279 "Sean Henderson, MD" (454910208)

01:27:26.239 --> 01:27:46.942

I know, I know, I know, but ADA is run largely by the sheriff's department. We provide input, but, I don't think we would, we would not contradict somebody coming in who's in a wheelchair, we won't reexamine them and confirm that they need a wheelchair. We just put them in W.

280 "BOS Commission Services" (297267200)

01:27:46.942 --> 01:27:50.343

So and the waste chain of the guy with the chains around the waste.

281 "Sean Henderson, MD" (454910208)

01:27:50.343 --> 01:28:11.964

I don't know what that accommodation is, so I don't understand they must have some sort of arm issue that would have been told the provider at intake and would have been associated would have been, you know, addressed at that time so maybe we didn't find it or maybe we didn't agree with it but that that's a medical.

282 "BOS Commission Services" (297267200)

01:28:11.964 --> 01:28:19.846

He gate the letter from that he showed us that says that. Right, I get that, but there's also people that.

283 "Sean Henderson, MD" (454910208)

01:28:19.846 --> 01:28:34.685

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

Walk in under their own power and give us a letter from state prison that says that they're unable to walk. So I mean, because they had a wheelchair in the past, but now that they're ambulatory, so each time they come in, there's another assessment.

284 "BOS Commission Services" (297267200)

01:28:34.685 --> 01:28:38.087

Just because state prison said it, maybe the whatever the.

285 "Sean Henderson, MD" (454910208)

01:28:38.087 --> 01:28:44.903

Was that kept you from being able to have your arms tethered behind your back as now resolved. Understood.

286 "BOS Commission Services" (297267200)

01:28:44.903 --> 01:29:09.774

So one instance that I, so what I'm hearing you say is when we, when folks are presenting us with those papers that we see and say, e.g., the waste training or I had an instance where somebody needed a cane and they didn't have access to a cane, you're recommending be vigilant about seeing the timeliness of when that paper was issued to that person both and still flag it to you. Is that correct?

287 "Sean Henderson, MD" (454910208)

01:29:09.774 --> 01:29:24.266

Yeah, I mean, we're seeing the paper. I'm sorry. I'm trying to multitask here. We're seeing the paper, we're evaluating the patient. We don't believe he needs a cane anymore. If he still needs a cane, send him to me. I'll do it. I'll take a look at him.

288 "BOS Commission Services" (297267200)

01:29:24.266 --> 01:29:48.538

Okay, so the process is though during intake, when they have that paper, they've shown that paper at intake, y'all won't make more work for yourselves, you'll usually honor it, and you'll still assess for yourself, and if you assess differently than the prison, you'll go with your assessment and that person feels differently or that they're acc that they do still need that accommodation, they can basically rebuttle via being a part.

289 "Sean Henderson, MD" (454910208)

01:29:48.538 --> 01:29:50.664

Back in.

290 "BOS Commission Services" (297267200)

01:29:50.664 --> 01:29:54.019

And we have a provider who does this full time.

291 "Sean Henderson, MD" (454910208)

01:29:54.019 --> 01:29:57.345

Provider who follows up on these people full time.

292 "BOS Commission Services" (297267200)

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

01:29:57.345 --> 01:29:59.645

Follows up on the state prison people specific.

293 "Sean Henderson, MD" (454910208)

01:29:59.645 --> 01:30:16.545

No, specifically follows up on I need a K and the dr. wouldn't give it to me. I need a walk or the dr. wouldn't give it to me. I don't walk anymore, now I want crutches. The all the ADA appliances to make sure that people get what they need and are inappropriate.

294 "BOS Commission Services" (297267200)

01:30:16.545 --> 01:30:22.623

There's a full time staff member who works with when folks disagree with the medical assessment.

295 "Sean Henderson, MD" (454910208)

01:30:22.623 --> 01:30:33.705

That's right, that's a nurse practitioner. Then we have several staff that work with custody's ADA to make sure that we tri capture everybody in the class.

296 "BOS Commission Services" (297267200)

01:30:33.705 --> 01:30:49.929

Thank you. I was just more just a comment. It's kind of impressive to me that there's so much communication between the prison system and the jail on people's criminal histories, their backgrounds, you know, that sort of stuff.

297 "BOS Commission Services" (297267200)

01:30:49.929 --> 01:31:09.529

Thing, but when it comes to stuff that maybe would facilitate the care of the person, it's like bring a piece of paper and show it to me. It just, it feels like there could be a more seamless communication process between these entities that's not happening. I'm also very concerned about.

298 "BOS Commission Services" (297267200)

01:31:09.529 --> 01:31:29.529

What you said, dr. Henderson, that there's certain things that you believe the sheriff's department should just be accommodating or it's their responsibility to accommodate? I'd like to ask the sheriff's department, is that what's happening because that's not what we're seeing or do you believe that there should be a different system in place or for the very.

299 "BOS Commission Services" (297267200)

01:31:29.529 --> 01:31:48.649

There's a different system in place. Well, NO, we work collaboratively with our correction health services, so we depend on each other, and if there's something that's in question, we'll refer them back to question health services especially when it regards the medical care of someone and then based on chss's.

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

300 "BOS Commission Services" (297267200)

01:31:48.649 --> 01:32:07.759

Assessment we'll move forward with that. So if they deem a wheelchair is appropriate, then we'll provide the wheelchair. The point is though that still this the the middle person that point of contact is an incarcerated person and the service or the wheelchair or the king.

301 "BOS Commission Services" (297267200)

01:32:07.759 --> 01:32:27.759

For whatever reason, it's still a deputy. And I think that's the issue that we have is that whoever's like if they feel like doing it, then they'll do it. If they don't, then I'm just being blank then they don't, then then the incarcerated person is gonna continue to try to advocate for them try to get to medical whichever.

302 "BOS Commission Services" (297267200)

01:32:27.759 --> 01:32:58.119

Takes a minute. Try to get some mental health loop. Again, that takes a minute, so I think that's the point of there's still the deputy or deputies who are the ones that are in charge or the ones that are gonna actually facilitate the change. The deputies won't facilitate the change. They can't. I can't as a deputy sheriff provide a cane to somebody just because they asked for it. And the deputies have been directed that any type of complaint like that is put on the medical request form and then it is turned into the head.

303 "BOS Commission Services" (297267200)

01:32:58.119 --> 01:33:20.319

Nurses at the end of the ship. So if they come from state prison or they already have an AGA accommodation through, correction health services, because we've gone on inspections and they haven't received certain things. And the people that we have talked to have continued said, I have to ask pretty much every day to see if someone can do it, which would be an upgraded wheelchair.

304 "BOS Commission Services" (297267200)

01:33:20.319 --> 01:33:42.139

Or some sort of usually they'll say we don't have any on this floor, we gotta ask another floor to bring that one down and then it just kind of gets lost in the day. These are like specific issues, right? With specific people. However, it, the point is again is that the the deputy is the one or deputies are the ones that are in the.

305 "BOS Commission Services" (297267200)

01:33:42.139 --> 01:33:58.039

The same as when you're trying to get mental health while during a investigation. There's still a point of person in the middle and it's the sheriff's department. So thank you commissioner Travis.

306 "BOS Commission Services" (297267200)

01:33:58.039 --> 01:34:15.619

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

I have a question for the department or CHS, whoever, who who so after say a person gets a cane for 30 days and after the 30 days are up, who is tasked to to retrieve the cane? Is it the department or CHS?

307 "BOS Commission Services" (297267200)

01:34:15.619 --> 01:34:37.819

I believe we wait till the assessment because I don't dr. Henderson would have to speak to I don't know if there's a reassessment phase and if the classification is removed, it's deemed that this person NO longer requires the cane. Then after that it's removed, and I don't know if.

308 "BOS Commission Services" (297267200)

01:34:37.819 --> 01:34:57.819

Our staff removes it from them and provides it to CHS, I would have to follow up with dr. Henderson and my staff on that. I'm not sure. We have heard cases where somebody had a a knee brace and the 90 day period he could have this knee brace was up and so when he went to go to the showers, the deputy told him he had.

309 "BOS Commission Services" (297267200)

01:34:57.819 --> 01:35:15.859

To take off the knee brace and was not allowed to wear it anymore, but he thought he still needed the knee brace and needed correctional health services but couldn't get an appointment for another month or so and then didn't want to go shower because he couldn't wear his knee braces and he was in pain walking to the shower.

310 "BOS Commission Services" (297267200)

01:35:15.859 --> 01:35:35.299

Yeah, there, there appears to be some confusion as to who is responsible after there is NO need for a device anymore, who's collected? Yes. Or follow up. Can we ask for the next meeting, Correctional Health Services and sheriff's department, can we get some clarity on who follows up for those?

311 "BOS Commission Services" (297267200)

01:35:35.299 --> 01:35:54.079

Follow up assessments? Yes, thank you. All right, I will open it for public comment, please. Okay, so now we will move on to a virtual public comment. If there any members of the public who would provide a virtual public comment, please press star three or use the raise hand feature.

312 "BOS Commission Services" (297267200)

01:35:54.079 --> 01:36:17.859

Okay, so we don't have any virtual public comments we do not receive any written public comments. Are there any in person members of the public who wish to provide public comment or So we do have 2 min. Thank you for the rest of you.

313 "BOS Commission Services" (297267200)

01:36:17.859 --> 01:36:48.399

I appreciate the conversation around mobility devices being brought up in this space and specifically the relationship or lack of relationship I

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

think at times between folks coming down from state prison and being to be reassessed by CHS even though they have the proper documentation stating that they needed the device and I think there's a concern whether they, you know, get to keep that device if CHS determined they need to be reassessed if that's being taken from them and in the meantime that's not.

314 "BOS Commission Services" (297267200)

01:36:48.399 --> 01:37:21.819

Provided for them and so I'm encouraged that this conversation will continue and that we can, you know, kind of move towards finding ways that that communication between LASD CHS and state documentation can be improved. Thank you. All right. Thank you so much. Are there any other in person public comments? All right, seeing none, share. Thank you so much. We will move on now to item six. I know that we just have about six more minutes with the sheriff's department here, so I will.

315 "BOS Commission Services" (297267200)

01:37:21.819 --> 01:37:51.399

Ask in need 6 min, I'm not gonna go in order. Do any of the commissioners have anything they want to make sure we highlight for the sheriff's department from these four reports? I was just gonna say on my non central jill and I, that inspection was conducted with the justice deputy and because she's not on the commission we were escorted by the captains and I just wanted to encourage my other commission leaders.

316 "BOS Commission Services" (297267200)

01:37:51.399 --> 01:38:10.519

Just to explore doing that. I think it was a very different experience, but it was helpful and, learned a lot and the captain was really receptive. The watch commander was great. It was it was just a different experience, so I would encourage people to do that. And we saw things.

317 "BOS Commission Services" (297267200)

01:38:10.519 --> 01:38:30.469

And things were handled differently and I think it's just it was also enlightening to see the way that the jail operates when supervisors are on the floor, and so I hope that that's something that's being encouraged for staff to really be outthere because it's a different different. So that was.

318 "BOS Commission Services" (297267200)

01:38:30.469 --> 01:38:49.669

An interesting experience. Thank you for that. I'll just say when Vinter and I also went with our justice equity, we have a similar experience. It was helpful for them and we're gonna continue to take them to different facilities also, so like the issues that we're spotlighting.

319 "BOS Commission Services" (297267200)

01:38:49.669 --> 01:39:07.669

They kind of get a sense of we've gone to MCG and we've talked about going back into CR or going into CRDF with the justice deputy. Did you

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

have things from NCCF? Yeah, the one thing we'll say from NCCF Mary, would you like to talk about the property, the property room?

320 "BOS Commission Services" (297267200)  
01:39:07.669 --> 01:39:27.669

We sort of talked about at the beginning I mean it was just really you know we went to the discipline module and there are things that people cannot have in the discipline module and some of it. It was that's the whole thing, but the property room was just really sad and it just was reflective of a lack of, in my opinion.

321 "BOS Commission Services" (297267200)  
01:39:27.669 --> 01:39:47.669

And value and respect for people's things and people's children's pictures were strong across the floor, like a mother with her baby was just being stepped, like who is that being stepped on? And it was just thrown all over the place very to chevelled, so I have NO doubt that people are routinely losing.

322 "BOS Commission Services" (297267200)  
01:39:47.669 --> 01:40:17.199

Really important and valuable personal items because it just doesn't seem that it's being treated with new respect. Just to note on that, when we walked into the property room for those who are in discipline with the deputy, we were seeing just all of these items all over the floor and I said, who does that belong to? He's like, maybe that cubby, maybe that cubby. Maybe that one. I'm not sure, probably that one and I'm like.

323 "BOS Commission Services" (297267200)  
01:40:17.199 --> 01:40:21.499

Like oh so we picked up one item on the floor.

324 "BOS Commission Services" (297267200)  
01:40:21.499 --> 01:40:41.499

It was from somebody years ago who did not relate to I've not been in discipline, we looked up his housing industry, hadn't been in discipline at all. And so the the just the property disorganization there was really concerning to us and also follows the people's children just like on the floor and they're like, we don't know who it belongs to.

325 "BOS Commission Services" (297267200)  
01:40:41.499 --> 01:41:06.229

Not really gonna try to figure that out. We said, well, how are you gonna get it to somebody when they come out and they're looking for their property, and they're like, we'll ask them. Like, are you gonna hold up each one of these pictures on the floor and say, is this your chit child? Is this your cousin? Absolutely not. We don't see that happening. And so concerning concerning. Other inspection issues.

326 "BOS Commission Services" (297267200)  
01:41:06.229 --> 01:41:26.229

And just raised it as a staff reviewing the special reports we couldn't help but notice that we're seeing the trends again in terms of the

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

products and and the inconsistencies. I know that there was a board motion and we all came to a resolution on how that would take be moving forward. And so we just wanted to make sure.

327 "BOS Commission Services" (297267200)

01:41:26.229 --> 01:41:46.229

Highlight that and then maybe on a regular basis we revisit some of these forward motions to happen, what the outcomes are and how we're continuing to ensure that these things don't result back to the way that things used to be. We understand that the populations are moving and that stuff around and so there's some sort of orientation process.

328 "BOS Commission Services" (297267200)

01:41:46.229 --> 01:42:13.989

That you know, we move in the right direction. Thank you. On that note also sorry just real quick for NCCF we were told by the watch commander that certain areas do not have grievance forms available unless they go out and ask the watch commander because they were plastering areas with grievance forms. And so they said that their determination at NCCF was not to have grievance forms available. They have to ask for them instead.

329 "BOS Commission Services" (297267200)

01:42:13.989 --> 01:42:36.759

But because they're misusing them. Yeah, that was like affirmatively how it was turned. My my question about the mental product, so I only inspected two male facilities this month and did not go to the I don't really know how to answer the question on the form because it's just not something I'm assessing when I'm in there. We still have to fix the form. Well, so it's the fixed.

330 "BOS Commission Services" (297267200)

01:42:36.759 --> 01:43:01.729

Yeah ok another quick note about NCCF 800. We we noticed in the other areas, I believe 600 right Mary? It's so prouded so so so proud of me. I think it's still completely empty. We were told by the watch commander that if 800 is opened, it's been closed for a year plus, it would be an additional almost 900 500?

331 "BOS Commission Services" (297267200)

01:43:01.729 --> 01:43:21.729

500? No, it was like he. 800 beds opened, that would decrease a lot of overcrowding in other areas. And he said that the issue in order to do that is because the ramp still needs to be painted and we need to bring in somebody to paint the ramp in a specialized manner. And he also.

332 "BOS Commission Services" (297267200)

01:43:21.729 --> 01:43:43.959

Who said that they can't staff it. So that was just kind of concerning when some of the department's leadership is asking for a new jail, but they have space now they just can't staff it. It's just kind of a miss it was just kind of concerning for us to hear that it's not staffable but then they want to build more jails.

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

333 "BOS Commission Services" (297267200)

01:43:43.959 --> 01:44:05.559

Commissioner, did you have something? No, it's regarding our inspections. Yeah, thank you so much for being for that today. We appreciate that. Oh sir, because it's regarding our inspection, the one thing I did want to note, sorry, was the Hollywood courthouse that.

334 "BOS Commission Services" (297267200)

01:44:05.559 --> 01:44:24.049

Commissioner Dox and I visited while mental products were available to your point tampons were not available in that facility. So just and they were on the floor, and I don't want to put anything on the floor. So that's great. They were in a bag or a box, but yes, they were on the floor.

335 "BOS Commission Services" (297267200)

01:44:24.049 --> 01:44:41.569

Yes. Thank you. Commissioner, anything from station you'd like to bring up? So.

336 "BOS Commission Services" (297267200)

01:44:41.569 --> 01:45:01.569

And they're they're I don't know their pipe, their pipe cracked and so the I think where the deaf movies. So they already put over the only. Thank you. They also in the report, it indicated that.

337 "BOS Commission Services" (297267200)

01:45:01.569 --> 01:45:28.809

There was some equipment needed for their turnout gears when needed I think what we was? The turnout gear, you know, when they have need to get out of the fire stuff. Yeah, they needed some equipment other than that, that was the main one for particular share. Great, great, great. I appreciate that. I just want to make a quick note. I.

338 "BOS Commission Services" (297267200)

01:45:28.809 --> 01:45:48.229

Would love to see double the number of inspections for March. Thank you. And inspection assignments have been sent. The inspection assignments are sent out. Thank you. That's really helpful the assignments?

339 "BOS Commission Services" (297267200)

01:45:48.229 --> 01:46:08.229

Wait I am sorry, I have something to say. Yeah. Just to similarly with the turnout stuff, they just had it in a I don't know what the cost like how they need to be stored. I assume that there's some policy but they were just like kind of in a pile and if there's an emergency, it's not like a very quick.

340 "BOS Commission Services" (297267200)

01:46:08.229 --> 01:46:29.979

Way to be able to like find a left and a right shoe or anything like that and so I do think that there was some I did have concern about how it was stored though they did have it and then just putting my record again that

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

there was concern from the deputies not the folks that we talked to around the impact that the medic not having medication for folks who stay into the afternoon was posing on the.

341 "BOS Commission Services" (297267200)

01:46:29.979 --> 01:46:57.829

Especially at a place that is a designated courthouse for like folks who are doing advocacy for their measure of mental health. Yeah. Otherwise things were offered. Yeah, one thing we did, one other thing is we did find out that those people are getting into the courthouse around 07:00 A.M. which probably means they're leaving their facility, you know, at like four or 05:00 A.M..

342 "BOS Commission Services" (297267200)

01:46:57.829 --> 01:47:17.829

And then they aim to get back on the bus by 09:00 A.M. they try to do a quick turnaround, but we witnessed, you know, proceeding that was happening in the afternoon, we're there at 01:30 and so those people weren't leaving probably till three or 03:30 and probably not back at their facility until like four or 04:30, so it's a full 12 h.

343 "BOS Commission Services" (297267200)

01:47:17.829 --> 01:47:35.509

Or they're not on the medication. They're not on they don't have a double or they don't have their next round of their medication and they've only had one bill. Yeah. Yeah. Okay, that's not sufficient. If you all follow up regarding in those circumstances for the medical.

344 "BOS Commission Services" (297267200)

01:47:35.509 --> 01:47:51.109

For those individuals who need medical regarding virtual work options and where that is. They said that they had the virtual court stuff, all of them are mental health and that's the like I think we have 90 % are all mental health and so.

345 "BOS Commission Services" (297267200)

01:47:51.109 --> 01:48:11.109

And they have to come in person to meet with the dr. those right but the but the question is about those that medication is required, you know, those I think more should be. Yeah, we could also share virtual sessions and how that can be.

346 "BOS Commission Services" (297267200)

01:48:11.109 --> 01:48:30.709

Emphasize so that they have a priority. I mean it's it's yeah we're just having medication than wanting to go in person. It puts them on a disadvantage to be a face on the screen opposed to be in person. And so really what does need to happen is for them to have the medication come with them. Yep.

347 "BOS Commission Services" (297267200)

01:48:30.709 --> 01:48:50.709

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

Okay, so actually real quick I just wanna draw our attention to something. Commissioner Barrell, you just brought up how we are really concerned specifically talking here about NCCF about how 800 is empty and they're saying they can't stop.

348 "BOS Commission Services" (297267200)  
01:48:50.709 --> 01:48:55.519  
Fit versus a new facility being built and they.

349 "BOS Commission Services" (297267200)  
01:48:55.519 --> 01:49:12.589  
How would they stop that then kind of help, how would that work? What what would this procedure be? I'm wondering if we can have a a commission conversation real quick about that. Yeah, and I don't know how it works. I mean is that something that we would.

350 "BOS Commission Services" (297267200)  
01:49:12.589 --> 01:49:30.829  
Like, make take a position as a commission like opposing. I mean, I know it comes up a new jail, is that something that we would talk about or do? I would like to make a motion.

351 "BOS Commission Services" (297267200)  
01:49:30.829 --> 01:49:46.159  
Can I make a motion? If it's related to this agenda. It is related to this agenda item because it's related to the NCCF report related to staffing concerns. I would like to make a motion that the civil brand commission.

352 "BOS Commission Services" (297267200)  
01:49:46.159 --> 01:50:03.469  
Take on the official stance that we believe their option that the option is not building a new locked facility. I don't know what that's the right agenda item.

353 "BOS Commission Services" (297267200)  
01:50:03.469 --> 01:50:23.469  
This is based on inspection reports? That's probably based on the scope of the motion is probably something that should be agendaized at the next meeting. Okay. Let's agendaize it. I would like to add to the next meeting agenda that the civil branding commission would like a motion.

354 "BOS Commission Services" (297267200)  
01:50:23.469 --> 01:50:44.599  
Related to our stance, official stance on new facility expansion and this closure of that central deal. Hi. I'm seeing a pattern.

355 "BOS Commission Services" (297267200)  
01:50:44.599 --> 01:51:00.259  
In our meeting that is becoming more and more disturbing to me when we bring up an issue that appears to be easily remedied but we allow.

356 "BOS Commission Services" (297267200)

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

01:51:00.259 --> 01:51:16.489

And, and that's what the way I'm gonna frame it, we allow our sheriff's department to use the same excuses and let them walk away thinking that it's it the issue was remedies. Yes. The issue of property.

357 "BOS Commission Services" (297267200)

01:51:16.489 --> 01:51:36.489

Really just set me. It's Off someone is housed long term and anyone can determine what long term is. In my opinion, if I was in one of those facilities, 24 h was long term for me. But if I acquire certain certain items during during.

358 "BOS Commission Services" (297267200)

01:51:36.489 --> 01:52:10.329

I stay and then I am transferred to another facility for whatever the reason, I should be able to go with whatever I accumulate If they allow me to keep it here, why the heck can't I keep it up there? And they'll take their money. Don't take their money. Right, but it's it's something about the fact that this is how, how I explain to others what we do here. We're here to ensure the humanity of our jail system and sometimes taking away those.

359 "BOS Commission Services" (297267200)

01:52:10.329 --> 01:52:26.119

More personal items like might be pictures and things like that, that they they may have to be caused especially if they're thrown away and it's the picture of a child that, you know, it's it's something that just should not happen.

360 "BOS Commission Services" (297267200)

01:52:26.119 --> 01:52:41.839

But I've heard too many times that, well, that's the way the system works. And it's the same thing with with allowing them to be able to have the meals that that will keep them healthy and the medication that will keep them healthy.

361 "BOS Commission Services" (297267200)

01:52:41.839 --> 01:53:01.839

And it's just, well, we give it to him in the morning. Okay, that's fine. But and I heard it and I heard it mention today, if they're going from from I'll call I'll say north North County, you know, the whole Bacilian north county. If they're leaving there to come to.

362 "BOS Commission Services" (297267200)

01:53:01.839 --> 01:53:21.839

To downtown criminal courthouse and they leave at 02:00 in the morning. I don't care how many meals you give them. They're not gonna be able to have their meal in given to them in a timely manner and or their medication. And if the bag is open then you're throwing it all away. It appears that those are easy things to remedy. Yep. It's not a hard thing for them.

363 "BOS Commission Services" (297267200)

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

01:53:21.839 --> 01:53:46.370

Trying to seal it or whatever so that it isn't an open bag, that means that they gotta close it. Yep. But I'm not sure that I really feel that that there's a compelling reason why to throw it away if in fact it's it's something as simple as, as, you know, tying a bag out or the fact that it might be two bags as opposed to one.

364 "BOS Commission Services" (297267200)

01:53:46.370 --> 01:54:02.810

I, I I wanna know that I want to I want it on the record that I don't agree with those reasons to continue to occur when you're the easiest things to resolve. The most easiest things to resolve. Yes.

365 "BOS Commission Services" (297267200)

01:54:02.810 --> 01:54:19.100

Completely agree. So that's my \$0.02 on that. Yeah, I mean, I completely agree, I guess the question, you know, they're recurring things that we bring up month after month. The meal rollouts, we didn't mention body word cameras today.

366 "BOS Commission Services" (297267200)

01:54:19.100 --> 01:54:39.100

You know, CH policies, like there are things we do I guess this is more, this is more of a discussion for the commission is like, what are the specific follow up like does this require that specific follow UPS for the sheriff's department to say, ok, we would like rather than just asking the question to.

367 "BOS Commission Services" (297267200)

01:54:39.100 --> 01:54:59.100

Does it need to be posed as a follow up of we would like to know X by next meeting because it does feel like it's open conversation. I'm just wondering what's the what's then the next step? What's the idea to have an idea on this. I in in my section on chair of business or whatever, I.

368 "BOS Commission Services" (297267200)

01:54:59.100 --> 01:55:31.390

I'm gonna talk through different assignments I'm gonna ask from members of the commission to kind of help distribute some of the workload a little bit. And one of those I'm gonna bring up is a tracking system for the items that we bring up to LASD in our meetings. Because what I keep finding is we spend a lot of this meeting saying can you follow up on this? Minder Mantroy, can you follow up on this? And I try and keep track of lists, but I would like us to have a spreadsheet where we are tracking every month. We've asked about this three times. We're following this and we have patterns.

369 "BOS Commission Services" (297267200)

01:55:31.390 --> 01:55:55.030

So we have this and I want it to be posted on their transparency website. Yeah, and if you don't mind me saying so you can take those and put it on letterhead yes right after the meeting when Friday goes out to and if

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

those are, if we're sending them out, is that public? Yeah, I'm on theirs.

370 "BOS Commission Services" (297267200)  
01:55:55.030 --> 01:56:20.800

Yeah, the other thing too is when we learn our inspections, those will be like our own specific items. Yep, and then that will get added to whatever the So I will bring that up in the way to track it is add the request for follow UPS on the inspection report so we have a timestamp because you've obviously delivered the message to the and then that officially that we own here has to kind of.

371 "BOS Commission Services" (297267200)  
01:56:20.800 --> 01:56:41.380

And then that then the meeting and then goes up on the letterhead. Yeah, cause there's certain requests for follow UPS that we're bringing up for inspection and there's certain ones from the meeting. So they both need to be tracked. Yeah. If it's ok I'm gonna I'm gonna move us along and bring that to the chair business section when we talk through it but yes, I hundred percent agree.

372 "BOS Commission Services" (297267200)  
01:56:41.380 --> 01:57:11.950

Yes, we need to follow up on this. Yes, I think that they are just walking away saying yes yes yes, this is a problem. I saw the legitimate shaking his head so that he didn't agree with something that CHS was saying, but ok what are we gonna do about it? Like what's the, what's the change? Are they going to then coordinate and communicate and have a plan forward? No, unless we hold them accountable, which is the purpose of this body. So, yeah. I have to ok public comment, please. And oh will we just acknowledge that commissioner.

373 "BOS Commission Services" (297267200)  
01:57:11.950 --> 01:57:37.570

Has arrived a long time ago. Thank you for being here. Yes, officially at 09:32. Yes, thank you. And commissioner for all thank you. And I will not be at the next meeting. Yes. Okay, thank you. Let's call for public comment, please. All right, so now we will move on to virtual public's comment. If there are any members of the public who wish to provide a virtual public comment, please press four three.

374 "BOS Commission Services" (297267200)  
01:57:41.060 --> 01:58:01.060

Alright, so we do not have any virtual public comments written public comments. Are there any in person members of the public provide in person public comment? If so, just saved your name for the record you do have 2 min. Thank you for these inspection reports this.

375 "BOS Commission Services" (297267200)  
01:58:01.060 --> 01:58:32.710

Month and the discussion that has come from it just a few things related to our cases that I noticed which was some inconsistency on outdoor recreation time and your request to see the windows for that I think that

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

would be I I love this discussion too about like specific follow UPS and kind of tracking the patterns and having some more accountability to the sheriff's department to respond and I think that would be a space that that would be really great in.

376 "BOS Commission Services" (297267200)

01:58:32.710 --> 01:59:02.830

And I I also look forward to the agenda item next month around discussing and position on that. Thank you. All right. Are there any other in person public comments? Gonna move to number seven, I believe we have Nuney on the line from COC. Right, miss Nuney if you think.

377 "BOS Commission Services" (297267200)

01:59:02.830 --> 01:59:22.576

Come on. All right, go ahead. You'll see, you all said? Thank you.

378 "Nune" (3710119168)

01:59:22.576 --> 01:59:41.140

Yes, thank you. Good morning. As you know, my name is Nuna and I will provide a very brief update in Miss Jordan's absence. Our next regular meeting is scheduled for March 19 20 26 from 09:00 A.M. to.

379 "Nune" (3710119168)

01:59:41.140 --> 02:00:04.780

01:00 P.M. at our regular location, San Ain's conference and event center located at 155 north accidental Bulbard in Los Angeles. We are currently working on our agenda, but as usual, we will hear updates from Los Angeles County sheriff's departments. We will hear updates from our ad hoc various ad hoc committees and we are.

380 "Nune" (3710119168)

02:00:04.780 --> 02:00:24.780

Looking forward to hear updates from SBC as well. And we are looking we are currently planning a virtual forum in partnership with SBC OIG and other stakeholders in custody deaths. So this concludes my report.

381 "Nune" (3710119168)

02:00:24.780 --> 02:00:29.063

Thank you very much. I will turn it over to you chair.

382 "BOS Commission Services" (297267200)

02:00:29.063 --> 02:00:48.064

Thank you so much, appreciate it. And thank you for including us in your in custody death forum. We were really glad to be in that meeting last week to discuss with COC and OIG about about what that forum can look like. And can you make sure that SPC commission staff are included on that moving forward as well?

383 "Nune" (3710119168)

02:00:48.064 --> 02:00:50.506

In the forum.

384 "BOS Commission Services" (297267200)

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

02:00:50.506 --> 02:00:53.700

Yes, just in the correspondence about the forum.

385 "Nune" (3710119168)

02:00:53.700 --> 02:00:56.824

Yes, sure. We'll do that. Thank you.

386 "BOS Commission Services" (297267200)

02:00:56.824 --> 02:01:08.630

All right. Call for public comment, please. All right, now we'll move on to virtual public comment. If there are any members of the public by public comment on item number seven, please press star three. You're using the smart device computer as a raise hand feature.

387 "BOS Commission Services" (297267200)

02:01:08.630 --> 02:01:28.630

Yeah alright, so we don't have any virtual public comment we did not see any public comment. Are there any person members of the public sending for in person public comment on item number seven? All right, seeing none. Chair. All right, thank you so much. I am moving to number eight chairperson's report on correspondence received.

388 "BOS Commission Services" (297267200)

02:01:28.630 --> 02:01:48.630

Reminder that I sent out your inspection assignments through SPC staff so they you should have received your assignments. If you could try to like end of day today, have a plan in mind for when you're gonna do your inspections, you don't need to tell me when they are. I don't mind when you do them at all.

389 "BOS Commission Services" (297267200)

02:01:48.630 --> 02:02:17.350

Call just as long as they get done. But if you've maybe put it on the calendar end of day today, it'll help us get them done by end of month and get them on our agenda for next month if we can also be informed that you took they went out on the inspection will help remind you about their inspection reports and obviously we need them so we can take care of some personal matters. So just keep staff in the loop as well. Thank you. Thank you for that. Our next meeting will be on April second 2026I know we will not have commissioner Bro.

390 "BOS Commission Services" (297267200)

02:02:17.350 --> 02:02:40.220

You're all present. Is there anyone else right now who will not be able to be present at that meeting? If we have one other person missing, we will not have quorum. April second. You're good. Okay. If that changes, will you please let me and commission services staff know as soon as possible?

391 "BOS Commission Services" (297267200)

02:02:40.220 --> 02:02:56.810

Thank you so much alright, so quorum looks like it should be ok. Hopefully we'll have this Thompson approved as commissioner then that

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

will help our quorum numbers as well. We are, I've been done outreach to all of the SDs about.

392 "BOS Commission Services" (297267200)  
02:02:56.810 --> 02:03:16.810

Trying to get the open spots filled and we are making some progress there and hoping that that will happen. We met last week about the in person or sorry, the in custody death forum with COC and appreciate that collaboration.

393 "BOS Commission Services" (297267200)  
02:03:16.810 --> 02:03:41.680

We had our regular POC OIG SBC monthly meeting. We met with the sheriff's department about the water quality motion. You may have seen this past week there were two motions from a supervisor Han's office about deaths and jails and about jacent name conventions.

394 "BOS Commission Services" (297267200)  
02:03:41.680 --> 02:04:11.240

That's something to to bring up here. I know that there will be additional things coming up and I want to make sure our commission is tied into what the board is doing about these motions. Another big push for inspection reports to focus on these environmental pieces so we can prepare our report back to the board. Another note we've been working hard on the annual report and we have it complete right now for internal.

395 "BOS Commission Services" (297267200)  
02:04:11.240 --> 02:04:31.240

Review and it now needs to go to get finalized. Can commission services send it out to everybody on the commission to do a review? Yeah, they can submit it will have it on the agenda for finalization anyway.

396 "BOS Commission Services" (297267200)  
02:04:31.240 --> 02:04:52.360

So since I made edits as of nobody's received it yet. Oh, NO one's ok, so it has to be sent to conditions. Okay. Yeah, so edits are done from the internal team who was writing the report. If you don't mind me saying so, can we talk about that under the Yep yep yep you're right, That's right.

397 "BOS Commission Services" (297267200)  
02:04:52.360 --> 02:05:19.100

So chairpersons report on correspondence received. Can, can I do assignments of things here? Yeah. Okay. So I have a list of things that I could use some workload distribution help with. I'm just gonna start going through them and if you want to raise your hand and say yes, I want to take that on really, I would really appreciate it. We have.

398 "BOS Commission Services" (297267200)  
02:05:19.100 --> 02:05:39.100

I'm gonna go through them, but I'm just saying the number for one person. We have four, so that means basically everybody needs to take one. But yeah there's yeah everybody please take one at least and say all of them

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

I'm gonna say them all and then you can say yes, I want to do that. And change your mind and say next month that was not for me I.

399 "BOS Commission Services" (297267200)

02:05:39.100 --> 02:05:59.930

Did it for a month, I need to redistribute it, but currently I'm doing all of these things and I need to Thank you. Okay, 1st is who can attend the COC meeting this month on 19 March and give a report out on SVC work. Thank you. You can. Thank you so much Kate.

400 "BOS Commission Services" (297267200)

02:05:59.930 --> 02:06:16.160

It's from 09:00 A.M. to 01:00 p.m.. You can attend virtually and you can coordinate with COC staff around what time your item will be up so you get there on time because sometimes I have.

401 "BOS Commission Services" (297267200)

02:06:16.160 --> 02:06:36.160

Had to jump into work meetings right when I get called and then the report I give will that be We can talk about it beforehand. Okay, perfect. Yeah. Perfect. You can either do eight point or you can do a verbal report out. Okay on just this meeting on what we are.

402 "BOS Commission Services" (297267200)

02:06:36.160 --> 02:07:03.500

Working on our our status or things like that. Yeah, thank you so much. Next we have the minutes review of our meeting. I want somebody who can do that monthly dedicated to that as a yes, I'm the person who's taking this on or reporting to commissioner services on the status. I want to sign Mary up for it, but I also Mary's not here to do that. So right now it can be a mary/winter. Yeah.

403 "BOS Commission Services" (297267200)

02:07:03.500 --> 02:07:21.980

I could use some support on agenda follow up. There are certain things that were like, yes, we need to agendize that for the next meeting and I would love somebody to work with commission services to make sure those things get on the next agenda. Joe, thank you so much.

404 "BOS Commission Services" (297267200)

02:07:21.980 --> 02:07:41.980

Now the big exciting one, the LASD item follow up tracker. I think that this is twofold. It's gonna be a spreadsheet, it's gonna be a beautiful spreadsheet. I'm happy to chat with the person do a shared drive and like all that would be Alicia.

405 "BOS Commission Services" (297267200)

02:07:41.980 --> 02:08:09.980

Yes, that's why I was suggesting if we update the special report to incorporate that and staff can pull that and send it out to you regularly, and this way you can take a look at it. So we have a form that can get snapshotted and put on the website and that person who's assigned

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

to this can report out on it every month. So what we can do is we can create that form and then that way each of you can go in and submit.

406 "BOS Commission Services" (297267200)

02:08:09.980 --> 02:08:29.980

That on a global basis. Here's, here's what I'm looking for. Two things to avoid the dog. So two things. One is somebody who's at this meeting to say, ok, I'm taking note of commander Martoya said we'd follow up on xyz. At the end of the meeting compile that and put it in.

407 "BOS Commission Services" (297267200)

02:08:29.980 --> 02:08:54.380

On a document or send it to Violetta to put on a document that we put together together. And that's me. Yes and NO. I think it's separate. Agenda follow up is like, let's talk about the annual report of the next meeting just for the meeting stuff. Yeah, yeah, yeah. This one is LASD item follow up, like specifically what is like she's gonna follow up on the waste chains on the meal service on the waste on the blah blah blah.

408 "BOS Commission Services" (297267200)

02:08:54.380 --> 02:09:14.380

So these are specific for their items tracking that, following up on it during the meeting. Who can we have in the meeting making that list to follow up? Is there a second part to that? Yes, there is 2nd part. There's another option of assignment.

409 "BOS Commission Services" (297267200)

02:09:14.380 --> 02:09:36.140

The other option is, we want this, this tracking mechanism set up for, that would go on the transparency website of these are the patterns of issues that we're seeing and here's the status of the sheriff's follow up or lack of follow up, like the medical, like the sandwiches peanut butter and delicate court.

410 "BOS Commission Services" (297267200)

02:09:36.140 --> 02:09:56.140

Etc. I like to do that great follow up. Who can follow up on LESD items during the meeting? I think that's you. I think that weighs new. Thank you so much. Just to clarify with the tracker, these are things specifically that are coming up.

411 "BOS Commission Services" (297267200)

02:09:56.140 --> 02:10:25.480

In the meetings that LAST said they would follow up on. I'm not necessarily things that are written into our inspection reports that we then send follow UPS to watch commanders on follow up on. Yeah, so those items should be brought up by the person who wrote about them in their inspection report. Yeah. So e.g., in my email to commander Montoya following my NCCF inspection, I wrote Can you follow up on the pro per library? Then when we got to commander montoya's section I said, Can you follow up on that pro.

412 "BOS Commission Services" (297267200)

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

02:10:25.480 --> 02:10:55.660

In her library. She already had the note from me via email that that was something we wanted to talk about today and it was there. If she says, oh, I'm not sure I don't have that data, then you would put that on your log as she's gonna follow up on that data for next meeting. Okay. And what we want to do is write down that list so that we can send it to them, make sure we follow up on it and have some more accountability because I noticed a lot of times two are are just lack of having that organization right now will say oh I'll follow up.

413 "BOS Commission Services" (297267200)

02:10:55.660 --> 02:11:15.660

On that next meeting and then I don't ask because it wasn't tracked. I didn't track it well enough to, to be able to follow up. And then how is that tracker then translated into separate trackers? Yeah. So, so your tracker is LASD item follow up. Your tracker is patterns and issues of things that we continue to bring up without follow up. I.

414 "BOS Commission Services" (297267200)

02:11:15.660 --> 02:11:35.660

Think this one is more like system wide patterns. Yours is more specific issues relating to not individuals but like this is a one not one off, but does this make sense like patterns of food as this big long term. Longterm patterns? Short term, give us this answer. No, NO.

415 "BOS Commission Services" (297267200)

02:11:35.660 --> 02:11:52.160

Can you tell us the status of the body worn cameras? What percentage across the facilities are done? What is the status of implementing this change on sexual assault policy across the chance? Can we get stickers if somebody's supposed to have this special diet? And so and this is gonna start with this meeting.

416 "BOS Commission Services" (297267200)

02:11:52.160 --> 02:12:08.810

Yes tracker is gonna start with this meeting. Not necessarily going back. Which I don't necessarily see yours as a tracker. I see it as like a list. Okay. Like just like write down 12345. Commander Rotoya said we would follow on 12345, send it after. I'm kind of thinking it's.

417 "BOS Commission Services" (297267200)

02:12:08.810 --> 02:12:26.990

But you can be creative. Yeah, I was gonna say I'm kind of thinking it's like subject matter because then we can track it across months. I love it because I think with the list then like I love it. You are all open to any creativity I'm happy to brainstorm with it too, but I really, really, really appreciate.

418 "BOS Commission Services" (297267200)

02:12:26.990 --> 02:12:48.550

A little help there. So tell me how you see the long term tracking. Is that on a list or is that on an actual document to track? I'm gonna

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

you're saying and you don't have to answer right now, maybe we can have a conversation on the side. Let's have a side conversation about it.

419 "BOS Commission Services" (297267200)  
02:12:48.550 --> 02:13:04.970

So that you can you know because I think you have to meet about what that will look like? I think one of us will figure it out. Okay, that's fine. Just so that I can give you what your I have NO expectations for this whatsoever for us to do it. That's a good idea.

420 "BOS Commission Services" (297267200)  
02:13:04.970 --> 02:13:22.430

Okay, cool. Thank you all for for volunteering on this and again if you make your assignment, we can change it next time ok public comment. Before we go to public comment? I have something that again is kind of.

421 "BOS Commission Services" (297267200)  
02:13:22.430 --> 02:13:39.200

Rising up to the surface that I'm wondering how we might be able to address it or maybe think about it. Maybe it's an agenda item. And it goes along with the tracking of things that we hear over and over again.

422 "BOS Commission Services" (297267200)  
02:13:39.200 --> 02:13:56.870

We have partners in this effort here with us today with this COC and the OIG, and I'm wondering how we might be able to develop that partnership so that we can make sure that there is, you know, we may identify something, but do we have the.

423 "BOS Commission Services" (297267200)  
02:13:56.870 --> 02:14:16.870

The push to get them to resolve long term. How many times have we talked about water? How many times have we talked about the women's hygiene products? How many times have we you know they might get solved for a month or two, but they go right back to the same thing and I kind of get tired of.

424 "BOS Commission Services" (297267200)  
02:14:16.870 --> 02:14:45.010

So I'm wondering, is there a way that we can partner to make sure that these things are resolved long term, not short terms? Yes, and I think that there's a couple things going on already and then things that we can expand moving forward on. One I'll say a great example of this is what they brought up with the decks forum. COC wants to do that. They came to us, they came to OIG and said, Let's all collaborate on how we can come around this together.

425 "BOS Commission Services" (297267200)  
02:14:45.010 --> 02:15:01.520

I think that's a fantastic way forward to talk about something that we talk about every meeting in custody deaths. With the water, e.g., too, also, I love that we're collaborating with all of the different people to

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

come together on it. I think that this tracker can start setting up where the pattern really.

426 "BOS Commission Services" (297267200)  
02:15:01.520 --> 02:15:21.520

We have the monthly POC OIGSBC meeting so if there are overarching concerns that we want to bring up from this pattern tracker, I can then bring those to those meetings and share out as well. And I think having somebody dedicated to going to the COC meeting monthly and being able to share out at that on what we're doing, what areas need coordination.

427 "BOS Commission Services" (297267200)  
02:15:21.520 --> 02:15:49.780

It will be great. I also want to make sure that all commissioners, when you finish your inspections, if there's an issue that needs to be amplified to COC or OIG, you are sending it or sending it to me so that I can I can follow up appropriately. If there's an issue that we're aware of that is OIG related, I pick up the phone and call Catherine. And if there's an issue that's ACLU related I pick up the phone and call Berkeley. If there's something for COC, I do the same thing with COC. So I hope that we can all do that.

428 "BOS Commission Services" (297267200)  
02:15:49.780 --> 02:16:18.080

That same thing and make sure that we're coordinating and if you need my help with that, let's let's all do that as a commission. Okay, because we weren't trying to build a tool for you all any of those contacts that we've been tracking or been keeping that when you send things out as new situation arises to share with staff so we can compile a district distribution list for you and attach it to you to the inspection report.

429 "BOS Commission Services" (297267200)  
02:16:18.080 --> 02:16:38.080

When you have it in front of you when you're working on inspection report like the other tools and links that we have there. Can I ask for one additional volunteer? I think that this is gonna be Joe and Joe just walked out for a second, right? So I'll maybe wait or we're just gonna ask Joe unless somebody would.

430 "BOS Commission Services" (297267200)  
02:16:38.080 --> 02:16:56.570

Else wants to do it? Right. Joe is really Joe is so good at this. So I would like told Joe into this position Joe you make really beautiful reports and templates?

431 "BOS Commission Services" (297267200)  
02:16:56.570 --> 02:17:14.810

I'm wondering if you could make us a standardized template to send out the email that goes out after inspections and any other templates of stuff that we wanna send out like what Biolotta is talking about that we can all use as a standard tool.

432 "BOS Commission Services" (297267200)

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

02:17:14.810 --> 02:17:32.660

For emails. The emails after inspections, the email that you submitted your report, what else? Oh, yeah, NO, I mean the templates in general I think maybe once everybody kind of gets their thoughts on how they're gonna, what they're gonna be tracking that they can send it over.

433 "BOS Commission Services" (297267200)

02:17:32.660 --> 02:17:52.660

And the other spreadsheet, but in terms of your inspection reports, when you send them in, e.g., and you've completed it, what's been in, ok, and you want to send them remarks, I, I think what we're missing is that information goes out to this party, but it's not reflective on the inspection reports so I'll tell you this.

434 "BOS Commission Services" (297267200)

02:17:52.660 --> 02:18:09.710

When the commissioner leaves, ok, that came from the commissioner. How are we tracking it internally? So it doesn't do justice when we're not using the tool that's already been created. And so at that point, I've submitted my special report. Can you please make sure that this also pull it for me so I can send it out?

435 "BOS Commission Services" (297267200)

02:18:09.710 --> 02:18:26.720

You know, cause it just doesn't do us any justice. Then in the future when the commissioner's gone and someone else is taking on the task to write a annual report, you know, only those that work in communication would have are privy to that information sheriff's department's not gonna come back and say, oh yeah, I had all these.

436 "BOS Commission Services" (297267200)

02:18:26.720 --> 02:18:42.770

You know, communications with someone and here's the information. We need to use the tools that we're using to capture that. And I think for transparency purposes both public, anybody joining the commission or has up to commission. Yeah.

437 "BOS Commission Services" (297267200)

02:18:42.770 --> 02:19:02.770

You know, because it's it just defeats the purpose. Yeah. Can I just suggest any templates that are created if we can start putting them in like Google Docs or something that can we cannot because that would be a violation of the things. But what we can do is if Joe has.

438 "BOS Commission Services" (297267200)

02:19:02.770 --> 02:19:25.640

Like this beautiful email template, she can send it to commission services who can share it out or just something that can be shared as a doc, so let's say it's a Word doc that Joe creates that we can then save as a template to our computer. You see what I'm saying? So I'm saying that we can attach it to your inspection report for me.

439 "BOS Commission Services" (297267200)

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

02:19:25.640 --> 02:19:41.840

Have you seen the links that are there? Yeah. Oh, ok. And then you can pull it from that link or whatever. That's right. As long as they're somewhere. Right, and then as you're working on your inspection report, let's say something comes up, you can just scroll on back up. Yep.

440 "BOS Commission Services" (297267200)

02:19:41.840 --> 02:20:01.840

And then put that information there and you're tracking while you're doing the inspection report. So that's when your thought is there, right? You're taking action at that point. Yeah, thank you. That I guess just raises another and maybe this isn't item, but the fact that we have email addresses and how they should be used.

441 "BOS Commission Services" (297267200)

02:20:01.840 --> 02:20:23.110

Moving forward. I don't have mine yes. It was interesting. Okay, let me send it right back. You got yours? Okay, so once we all have working email addresses I think we can talk about other things. I don't have mine yet. So let's put that on April. There we go.

442 "BOS Commission Services" (297267200)

02:20:23.110 --> 02:20:44.800

We have NO and we followed up because I verified anyone active and they were activating on that day. So email you about it. No maybe skipped it or they sent it to that same email. Yeah it's not my fam. Are we good to close this item? We have like 5 min.

443 "BOS Commission Services" (297267200)

02:20:44.800 --> 02:21:13.430

That's before we have to go to get on closing the respondents images FYI when I do the email that I do it's the same way I do my narration report and it's just easier for me to just go through the checkboxes at the end of narration gives pretty much everything that we've seen. That's the same way that I send it, same format with the recommendations to the to share some other. Yep. Thank you.

444 "BOS Commission Services" (297267200)

02:21:13.430 --> 02:21:30.170

Public comment. Now we'll move on to virtual public comment if there are any members of the public who wish to provide virtual public comment, please press star three for using the smart device or computer, please use raise hand feature. Please we have public comment from COC executive director Charmaine Mosley.

445 "BOS Commission Services" (297267200)

02:21:30.170 --> 02:21:51.747

Chermaine, you are a member of this body at next Officio so I will put you up on the discussion and you don't have a time limit. So go ahead, Hermaine, just Mosley, go ahead. Yep. Oh, I was just muted again.

446 "Sharmaine Moseley, Executive Director" (3563064064)

02:21:51.747 --> 02:22:08.120

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

Sorry. Good morning Commissioner Charmaine mostly executive director for the Sheriff's of anovaslight commission. I did hear a question before regarding ways to collaborate, and I just wanted to add that I am working with commander.

447 "Sharmaine Moseley, Executive Director" (3563064064)

02:22:08.120 --> 02:22:28.120

Montoya and trying to schedule a joint one on one meeting with the sheriff, and this will be like more like the stand in meeting on a hopefully a monthly basis, and that way COC as well as SBC commission leadership will.

448 "Sharmaine Moseley, Executive Director" (3563064064)

02:22:28.120 --> 02:22:51.226

Have a chance to meet with the sheriff and his team on at least a monthly basis to share issues, concerns and ways to address so that we are all on the same page. So I just wanted to mention that it's still in the works and you know stay tuned. Thank you for all the work that you are all doing.

449 "BOS Commission Services" (297267200)

02:22:51.226 --> 02:23:04.970

Thank you appreciate it. Any in person public comment? Right, so now we'll move on to so are there any other virtual public comments?

450 "BOS Commission Services" (297267200)

02:23:04.970 --> 02:23:21.830

That was not the virtual equipment. All right, seeing none will move on to, and we did not receive. We'll move on now to in person public comment. Are there any in person members of the public who wish provide in person public comment? All right, seeing none chair.

451 "BOS Commission Services" (297267200)

02:23:21.830 --> 02:23:41.830

Great, we will move on to items we will skip, so we're gonna move on to item two, but we're gonna skip nine and ten for next meeting because we're gonna have commissioner Varal hopefully in her new role of meeting reviewer and go to number r11 quick, which is discussed.

452 "BOS Commission Services" (297267200)

02:23:41.830 --> 02:24:01.830

Question and possible action on SPC minute structure. The one thing that I want to bring up there is Commissioner Viral and I were speaking about access and transparency of our meetings and making sure that the public can do our meetings immediately after. The COC, e.g., and board of supervisors meetings are all broadcast on.

453 "BOS Commission Services" (297267200)

02:24:01.830 --> 02:24:21.560

YouTube and we would love to also be on YouTube instead of just Webex and then afterwards through Webex posted on the website. So we post that question to commission services to see that if we could switch over to a

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

YouTube format and wanted to see commission services and it's there an update on that.

454 "BOS Commission Services" (297267200)  
02:24:21.560 --> 02:24:41.560

So it's being explored being explored, what does that mean? Well, none of the other commissions with the commission services under the executive office are on the channel just being looked into that. Great, so we're just following, you know, suit as a whole and the impacts that we have, but this time it's just.

455 "BOS Commission Services" (297267200)  
02:24:41.560 --> 02:24:43.880  
Being scored. It has been raised.

456 "BOS Commission Services" (297267200)  
02:24:43.880 --> 02:25:03.880  
Great. That's all I want to say on number eleven for now. Public comment, please? So now we'll move on towards the public comment. If there are any members of the public work for public comments, please press directly using the hand.

457 "BOS Commission Services" (297267200)  
02:25:03.880 --> 02:25:05.240  
Features.

458 "BOS Commission Services" (297267200)  
02:25:05.240 --> 02:25:25.240  
Okay, so there's NO virtual public comment, we can have any written public comment. Are there any in person? Chair. We are on to item number twelve, discussion review and possible action on the SVC annual report and goals. Thank you to the commissioners who worked hard on this in.

459 "BOS Commission Services" (297267200)  
02:25:25.240 --> 02:25:26.600  
It'll report.

460 "BOS Commission Services" (297267200)  
02:25:26.600 --> 02:25:46.600  
Commissioner Torones, commissioner Batia, Commissioner Dags, former Commissioner Miller, Commissioner Regulato contributed with some paragraphs of nutrition and courts. Thank you, and we have a draft that we will send out to the full commission to bring at our April meeting for adoption.

461 "BOS Commission Services" (297267200)  
02:25:46.600 --> 02:25:53.810  
So if there are questions or concerns that come up once you receive the annual report draft.

462 "BOS Commission Services" (297267200)  
02:25:53.810 --> 02:26:13.810

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

Let's try to resolve those before end of month so that we can bring a full ready to go April version to our April agenda and get it approved and sent and published. So the goal is gonna be for commission staff to send that out to everybody BCC by Monday.

463 "BOS Commission Services" (297267200)

02:26:13.810 --> 02:26:17.210

I would say and if everybody could commit to reviewing that.

464 "BOS Commission Services" (297267200)

02:26:17.210 --> 02:26:37.210

By the way the 13th? Yeah. 13 March. By March, I think 6th 16th. The next meeting is on 2nd. Yes, but we need to have time for them to format and review. Sure. 16th. If everybody can commit to reviewing that by the 16th commission staff if on the 12th.

465 "BOS Commission Services" (297267200)

02:26:37.210 --> 02:26:57.210

You can also send out a reminder to review it by the 16th and send any edits by the 6th, sorry, send out a reminder on the 12th to send any edits in by the 16th. This way it gives us time so that edits can be implemented and sent to commission services by 26 March. And if you did time and please make sure you use.

466 "BOS Commission Services" (297267200)

02:26:57.210 --> 02:27:01.880

Track changes so it could be visible where your changes were made, who made them.

467 "BOS Commission Services" (297267200)

02:27:01.880 --> 02:27:20.600

On whether or not they were accepted and perhaps someone whoever that person is gonna be in charge of accepting or provide some information as to why or why not it may have been accepted. And then we will have it for the April meeting. Can everybody commit to that?

468 "BOS Commission Services" (297267200)

02:27:20.600 --> 02:27:36.080

Thank you. All right. Public comment. Now we'll move on to a virtual public comment on item number 13. If there are any members of the public who would provide virtual public comment, please press star three. Using the smart device for computer, please use the raise hand feature.

469 "BOS Commission Services" (297267200)

02:27:36.080 --> 02:27:56.080

Seeing NO work of public comments written public comments. Are there any in person public comments? Alright see none, sure. Alright, we are on to number three miscellaneous, and that is public comment. Thanks now we will move on to general public comment already.

470 "BOS Commission Services" (297267200)

02:27:56.080 --> 02:28:14.000

**TRANSCRIPT FOR THE REGULAR MEETING OF THE  
SYBIL BRAND COMMISSION FOR INSTITUTIONAL INSPECTIONS  
MARCH 5, 2025**

For any in person members of the public excuse me, move on to virtual public community. If there any general excuse me, any general virtual public comments, please press star three if you're using the smart device for computer pages raise hand feature.

471 "BOS Commission Services" (297267200)

02:28:14.000 --> 02:28:34.000

All right. We did not receive any general public comments. Are there any general in person public comments? Sure. All right, so that closes out item number 13. In advance of adjournment of this meeting I just want to say thank you all.

472 "BOS Commission Services" (297267200)

02:28:34.000 --> 02:28:42.530

All for being here, thanks to the members of the public who are here. Thanks to our other bodies who are here COC for being here.

473 "BOS Commission Services" (297267200)

02:28:42.530 --> 02:29:02.530

We are going to have a very productive month. Can't believe it's March I can't believe it's 5 March. We have lots of inspections to do. We have lots of fun things to do, and we are off to continue our job of making sure we are inspecting the jails and reporting on what we see. Appreciate your commitment to this.

474 "BOS Commission Services" (297267200)

02:29:02.530 --> 02:29:13.040

I just want to say thank you for everybody for signing up for roles and I think this month alone in February Chairperson loader went to maybe like 16 h of meetings in regard to.

475 "BOS Commission Services" (297267200)

02:29:13.040 --> 02:29:33.040

Her volunteer position as chairperson and outside of coming to this meeting as well as the inspections which she's consistently done two of each month and so I just say thank you chairperson wrote her for the amount of work that you put into this commission in Los Angeles County as a whole from a care perspective.

476 "BOS Commission Services" (297267200)

02:29:33.040 --> 02:29:51.680

Just to comment that we can attend those meetings, some of those shared responsibilities can also be great start of that. Very, very appreciate that. Thank you. That is true and the county and other commissions I think rely on us on them.

477 "BOS Commission Services" (297267200)

02:29:51.680 --> 02:30:11.680

Much quicker basis because a lot of those are staffed and so I think that is true and it's a lot harder as a volunteer phase for us to step in, even when you too. I appreciate that very much and appreciate all the hard work that you all do and I will adjourn this meeting of 5 March and honor of women's history.
