251, 172, FORENSIC INPATIENT PSYCHIATRIC UNIT (FIP)

FIP

- People incarcerated in the FIP do not have access to phones to call loved ones, even when clinicians do not have reasons to restrict phone access. To have phone access, People incarcerated must be cleared for outdoor recreation time to have access to phones. (Other HOH areas of TTCF have rolling phone units that are able to be moved to cells even when people are not being allowed out of their cells).
- Female person in the Forensic Inpatient Psychiatric Unit told me she had not received a shower in 12 days and has received no out-of-cell time.
 - She requested a comb for grooming her hair; when I relayed the request to one of the clinicians, he told me there was no reason why she was not permitted to have a comb but the supply of combs come from custody and the stocks had not been replenished.
- Male person incarcerated was in a cell that was filthy with what appeared to be feces and he told me it had not been cleaned in two days; I indicated this to one of the clinicians and he told me it had not been that long but that the room would be cleaned as soon as people could be moved around.

251

- Most of the People incarcerated are naked or in suicide gowns even though many of the individuals I talked to told me they are not suicidal. They complain of being cold due to frigid air being blown into their cells. Numerous People incarcerated told me they had not seen a psychiatrist in many days to reevaluate them and clear them for housing. (This is the SAT or Secondary Assessment Team unit.) Those who were cleared told me they were waiting many days for a housing assignment. I reported these issues to the OIG.
- Person incarcerated in 251-10 in TTCF filed a PREA complaint and yet, according to him, he continues to be housed in a cell overseen by his accused assailant. He handed me a copy of his grievance because he said he does not know how to get his grievance out without exposing him to retaliation. Deputies told me he had been declassified from suicide watch 10/18 but has not been moved for reasons unknown to them. I reported this issue to the OIG.
- The complaint mentioned the name of a deputy. When I was in the deputy area of 251, the white board was being used for what looked like a score card titled "251 World Series." One of the "fantasy teams" teams was named "Bros of Destruction" under which appeared the phrase "[Name of Deputy in Complaint] Up At Bat." Another team was called "Dah Lozrs." The explanation I was given was this was "fantasy baseball" to pass the time. I reported this issue to the OIG.

172

- Person incarcerated had no mattress, no phone, and no running water. Deputies there told me they had shut down the pipes to his cell because he was not

behaving, ie was flooding his cell. I have heard many complaints about water in the jails but I have never heard of a deputy using access to water to discipline an person incarcerated with mental illness. I was told he has flooded his cell two weeks ago, several days after he was put in SAT isolation. He said he did not understand why he was out in the SAT and I don't understand why he was in the SAT for two weeks while being punished by withholding water so he could not drink or flush his toilet without the permission of a guard.
