There had been one use of force during the shift on 3500 that day. Someone had been sprayed. W/C reported they're conducting regular tenting operations. The jail reports behind the town halls for the month (though it's only the 18th - there appeared to be a list of town halls for the month).

INSPECTION DETAILS - ANCHORED TO SUMMARIZE #3 THROUGH #106

52. Inspection Detail for #:

We went to the 8000 floor where we inspected several individual cells; the incarcerated people there referred to that area as the horseshoe. They are people who have diabetes, some insulin-dependent diabetes, and kidney disease. They are in cells that do not have phones, TVs, or showers, so they reported they go to a day room scheduled three times per week, which does not always happen in the day room, a very small room we inspected. There are two telephones and one TV. There were 20 individual men in the dayroom when we were there, and it was very cramped.

53. Inspection Detail for #:

We went to 8030, another housing area, but they have TVs and phones in there, and is considered a step up from the horseshoe (which is for short-term people. We spoke to 2 people both of whom had been in that area for over 3 years each). Those are also people with diabetes. They showed us the chicken that had been served to them that night for dinner, and Mary smelled it and inspected it and it was rotten. 2 of 4 showers don't work and 2 of 4 phones aren't functional. There is an ant infestation in the shower in 8030. These were reported to the watch commander, and he put in work orders as we left.

54. Inspection Detail for #:

We observed a deputy scanning the doors in 8000 and an 8200 very quickly; they were not looking inside very quick security checks. Multiple people in 8030 reported that it is very cold and they only have sheets. Multiple people reported a new procedure whereby they are required to bend over and cough and drop their underwear in front of others every time they return to court. They thought this was very demeaning. They hoped the body scanners would be implemented soon because doing that in front of others is very upsetting. SBC would note that no kind of inspection occurs with staff or their property.

We noted that the hallway with a major flood in the ceiling of 8230 from a former inspection appears to be fixed -- good news.

74. Narrative Report

Reports of no hot water across 8000 in the "horseshoe area" and it being very cold inside. Requests for daily phone use in horseshoe. Many complaints of hunger and issues with rotten food.
8030: Request for cleaning supplies. Ant infestation in the bathroom.

75. Narrative Continued

We spoke with a man who is legally blind and needs accommodations such as a radio and dialer-support function for the phone. We waited for deputies to come and assist him in dialing his call in the day room.
We spoke with a man who is not receiving his court-ordered medical care in the 8200 block -- and reported this to the Watch Commander.
