100. Beds - Type of bed and is it off the floor?

101. Adequate lighting:

102. Temperature:

103. Narrative Report

Clinic Waiting Area:

Crowded and where people spend hours – tv was on and people sleeping on floor and in chairs. Appears to be a bottleneck of the booking and processing system. Due to 24 hour period max to be held at IRC, watch clocks installed everywhere. People can be in holding cells and tethered for an allotted amount of hours. Although a bottleneck, Commissioners were told things move faster since the TRO. Nursing manager mentioned there is a nursing shortage and would like more nurses

The toilet near the rear of the waiting room had flies near it and an individual had no PIN to make a call and a few phones did not work in back waiting area (both issues reported to Lt.).

104. Narrative Continued

Person in holding cell stated cell was hot and all individuals were taking off thermals
