92. Narrative Report

Most Pressing Issues:

- Upon entering the 2700 module, no deputies were stationed at either of the two desks, leaving the module completely unattended.
- LASD personnel accompanied Commissioners into the module and stood in the hallway. While it's understood that personnel might be concerned about Commissioners' safety, Commissioners' badges are specifically for non-escorts and this is to ensure candidness and transparency from incarcerated persons during commissioners' inspection.
- No grievance forms are available in the box located outside 2700A, including grievance or medical forms. One form was provided by a deputy and when the Commissioner asked about additional forms for IPs, the WC stated that additional forms were coming from the warehouse. Those forms were not placed in the box at the time the Commissioners left the module.
- None of the TVs situated in the module were working. While WC Cardenas said they go on at 10 am every day, multiple incarcerated persons said that the tvs have not working for several days or weeks.

93. Narrative Continued

Medical:

Several persistent and severe medical issues came up in just speaking to one row in the module. An IP needs medical and dental attention for a mouth infection where its believed antibiotics are required. Another IP needs a glasses appointment and had their cane taken away (needs new U designation and check). Two other IPs mandated glasses and one required medication for their back, which hasn't been filled. Another IP has tooth pain and needs dental; twisted ankle needs a brace while another needs medical attention for a foot issue. Another IP needs medical for water sickness.

One IP's medical issues were called to Commissioners' attention by his mother, who wrote into Sybil Brand and provided several pieces of documentation of being retaliated against after speaking out after the use of pepper spray in his dorm to break up a fight. The IP was placed in the hole and then High Power where he was stabbed and received inadequate medical care, including an alcohol swab and no other wound care. He was then transferred to a four-person cell as the fifth person and told to sleep on the floor. Food is arriving to him cold and opened during dinner when other IPs are reporting they are receiving a warm meal. He has not had a chance to step outside or have any rec time since February 2nd. However, most concerning is that necessary medication is not being administered daily, which is harming his mental health. Commissioners escalated this issue to CHS for immediate attention.

94. Narrative Continued

Needs Identified:

- #20, had no mattress at all, which was addressed to the WC and which was seemingly being addressed as Commissioners were in the module
- Requests for FISH kits across module
- Module shared that they are not regularly receiving toilet paper (supposed to be receiving Mondays and Fridays, but reports this is not happening: one individual said he has been using a torn-up piece of shirt to wipe)
- Nail Cutting: incarcerated people shared that they have not been allowed by deputies to trim their nails, and have asked medical who referred it back to the module.
- Report the module is very cold and blankets are not being given out when requested
- TVs not working well -- reports of no/low signal with chip bags and plastic cords rigged to the wall

95. Narrative Continued

Nutrition

- Multiple reports of food coming moldy (bread, donut) and lack of regular lunch delivery (receiving juice, milk, and only breakfast all at one time in between breakfast and lunch time only)
- Reports that dinner is coming burned, dry, and stuck to the trays

96. Narrative Continued

Water/Sanitary Conditions

The water "tastes like mop water" and should be tested. Brown water reported in #11 and no hot water reported in multiple cells, including 23, 12, and 11. Cell 6 has no water working and cell 20 had a broken toilet. Flies were visible and reported from IPs of roaches and rats in cells. Lots of tenting was observed in this module. Report that the day room toilet and sink do not work and the toilet has flies with feces (Commissioners did not see this area firsthand). Additional report from 2700 C 23 that the water has been making the IP sick.
