24. Developing a Roadmap and Establishing a Countywide Strategy for a Senior Safe Home Pilot Program

Recommendation as submitted by Supervisor Hahn: Instruct the Director of Aging and Disabilities to work with the Directors of Public Health, Health Services, Mental Health, and Public Social Services, the Executive Director of the Homeless Initiative, Chief Executive Office, and other relevant County Department Heads, initiatives, agencies, and community stakeholders, and report back to the Board in writing in 180 days on developing a roadmap and establishing a Countywide strategy for a Senior Safe Home Pilot Program for victims of elder abuse who are 55 and older, to ensure that the needs are met for such a vulnerable population throughout the County, including, but not limited to, the following:

Continue to build on the work of the Long Beach Senior Safe Home's Coalition report and include Adult Protective Services (APS) data, and other data sources from the last five years, that demonstrates the prevalence of elder and dependent abuse for adults aged 55 and older who are at risk of homelessness; and include reasons why this data might be underreported and other data limitations, what themes and patterns exist from the data for older adults who needed respite, how many referrals were made to a shelter-based program on a substantiated allegation of abuse, length of hospital stays, any other referrals to housing programs that exist within the continuum of care, including Project Roomkey and/or Homekey, etc., and any outcomes that may validate the justification for a Senior Safe Home Pilot;

Develop site specific criteria (e.g., square footage, number of rooms, amenities, nearby facilities, etc.), determine specific locations where sites are needed, and identify the operating costs of the sites; and coordinate with the Chief Executive Officer, through its Real Estate Division, to find available properties that meet the defined criteria, which could be used to establish the County Senior Safe Home Pilot;

With the goal of piloting a Senior Safe Home within the County, the Director of Aging and Disabilities will develop a funding model/template (Roadmap) to replicate the Pilot throughout the County and local municipalities, with the Roadmap to focus on the following:

Equity, inclusion, and best prevention practices for older adults who are at risk of abuse, and should also incorporate input from older adults with lived experience;

Engagement and partnership with local municipalities that want to replicate this work to ensure that logistical best practices and guidance are shared and there are shared resources between cities and the County; and

Projected financial costs and any potential external funding sources including but not limited to, APS' sheltering programs, Home Safe funding, public-private partnerships, or any additional funding streams that provide wraparound/case management services for survivors of elder abuse;

Collaborate with the Directors of Health Services, Mental Health, Public Health, and Public Social Services, and local jurisdictions, on the feasibility of developing a memorandum of understanding to identify funding sources that provide supportive services/case management/ long-term case management (wraparound services), and for this population to ensure a Senior Safe Home in each Service Planning Area is available to County residents including, but not limited to, Area Agency on Aging funding, Home Safe funding, and other funding streams that may exist to serve this vulnerable population in an equitable way, and outreach and awareness of wraparound services including, but not limited to, In-Home Supportive Services and possible housing subsidies; and

Identify potential funding opportunities and appropriate staffing levels for Fiscal Year 2024-25 to establish an Older Adult Homeless section within the Department of Aging and Disabilities, where this section will be the champion for change with older and dependent adults who are at risk of homelessness and are homeless within APS, and position(s) dedicated to this work should be considered as part of the emergency homeless declaration so that the Department of Aging and Disabilities can obtain and expedite onboarding staff to address this homeless population immediately.
