**15. Protecting Generational Wealth and Equitable Rights to Success**

Revised recommendation as submitted by Supervisors Solis and Mitchell: Instruct County Counsel to monitor any legal action aimed at challenging the proposed rule change at the Small Business Administration (SBA) that would keep lawful permanent residents from accessing SBA backed loans, and authorize County Counsel to file, initiate, join, or support litigation, as deemed appropriate by County Counsel. Monitor any legal action aimed at challenging the proposed rule change at the United States Department of Education (U.S. ED) that would “de-professionalize” a broad array of professions and authorize County Counsel to file, initiate, join, or support litigation, as deemed appropriate by County Counsel. Monitor any legal action aimed at challenging the proposed rule change at the U.S. ED that would amend the definition to “qualifying employer” within the Public Service Loan Forgiveness Program to exclude employers that are deemed to participate in illegal activities or have a substantial illegal purpose, and authorize County Counsel to file, initiate, join, or support litigation, as deemed appropriate by County Counsel. Take the following actions:

Recommendation as submitted by Supervisors Mitchell and Solis: Instruct the Director of Economic Opportunity, in partnership with the Acting Chief Executive Officer, to evaluate and recommend a structure to consolidate or align existing funding sources within the Economic Development Trust Fund (EDTF) including, but not limited to:

The Manufacturing Revolving Loan Fund;

Los Angeles County Business Recovery Loan Program funding administered by the Department of Economic Opportunity on behalf of Metro;

Catalytic Development Fund, both one-time and ongoing allocations;

RENOVATE Facade Improvement Program dollars; and

\$1,000,000 of Bioscience Revolving Loan Fund planned for aligned uses, such as tenant improvements.

Moreover, funds allocated to the County Anti-Displacement Commercial Acquisition Fund pursuant to Item No. 20 of April 1, 2025, titled, "Supporting Commercial Corridors as Community Anchors by Expanding the Commercial Acquisition Fund Program," should not be incorporated into the consolidated EDTF. Additionally, any funding required to complete RENOVATE Facade Improvement Program projects or any other projects that are currently being planned and/or underway should not be transferred into the consolidated EDTF.

Direct the Acting Chief Executive Officer to allocate \$2,400,000 in one-time Net County Cost to the EDTF, funded through repayment of the La Alameda loan from the Los Angeles County Development Authority to the County during the Fiscal Year (FY) 2026-27 budget process, subject to the Fiscal Resilience Process.

Instruct the Director of Economic Opportunity, in partnership with the Acting Chief Executive Officer, to design the consolidated EDTF to support the full range of economic and real estate development activities and report back to the Board in writing with an implementation plan including, but not limited to:

The EDTF structure, loan and grant guidelines, and plan to administer the funds;

Eligible uses including, but not limited to: capacity building and technical assistance for community-based organizations, developers, and small businesses; tenant improvements and commercial build-outs; equipment for small businesses; site and property acquisition; pre-development activities, such as feasibility analyses, engineering, design, environmental review and entitlement support; construction and permanent financing; small business support for industry clusters that provide family-sustaining wages; strategies that address commercial vacancy and prevent displacement;

Timeline for implementation;

A strategy to leverage Federal Community Development Block Grant (CDBG) funding for the RENOVATE Facade Improvement Program in the EDTF; and

Equity-based criteria for project proposal evaluation and prioritization. The proposed criteria should not result in any reduction of funds currently allocated to each Supervisorial District for use within unincorporated communities in the County.

Instruct the Director of Economic Opportunity to establish an EDTF webpage on the Department of Economic Opportunity website to serve as a single point-of-entry for community-based organizations, developers, small businesses, or other stakeholders to access information and apply for funding for all County economic and capital development loan and grant programs. The webpage should include information on available funding, eligibility criteria, application process, and technical assistance resources and should be launched within 120 days.

Instruct the Director of Economic Opportunity, in partnership with the Acting Chief Executive Officer, to identify potential County funding sources to capitalize and sustain the EDTF on an ongoing basis, including existing County funds, loan repayments, Redevelopment Agency Dissolution funds, including funding returned to the County pursuant to its Recognized Obligation Payment Schedules, and Redevelopment Asset Sales, subject to the Fiscal Resilience Process.

Instruct the Director of Economic Opportunity to develop equity-focused performance metrics for EDTF, including measures related to geographic distribution, business type, displacement prevention, and job quality, and publish those metrics through a publicly accessible dashboard.

Instruct the Director of Economic Opportunity, in partnership with the Acting Chief Executive Officer, to report back to the Board in writing in 90 days on all

forementioned directives, including the EDTF structure, recommended eligible uses and program guidelines, identified funding sources, a proposed approach to consolidate existing funds, equity metrics, and a timeline for implementation and launch of the EDTF webpage. In developing these recommendations, DEO should engage, seek input from, and incorporate feedback provided by key stakeholders and potential end-users of the EDTF, such as community-based organizations, community-based developers, Community Development Finance Institutions, chambers of commerce, organizations that serve small businesses, the County's Small Business Commissioners, and small business owners.

Authorize the Director of Economic Opportunity to negotiate, execute, and amend agreement(s) necessary to implement and advance the directives in this motion. The Board shall waive the requirements of Board Policy No. 5.100 for these agreements. The Department will fund the agreement(s) using funds currently in their Board-approved FY 2025-26 operating budget.

Instruct the Director of Economic Opportunity, in partnership with the Acting Chief Executive Officer, and the Executive Director of Los Angeles County Development Authority, and any other relevant County Department Heads, to identify funding to conduct neighborhood studies, as aligned with the County's 2025-30 Comprehensive Economic Development Strategy adopted by the United States Economic Development Administration, to proactively identify priority commercial corridors and geographic areas for economic and capital development projects to inform where EDTF funding deployment could be prioritized in the future.

**24. Strengthening Accountability to Significantly Decrease Jail Deaths in the Los Angeles County Jails**

Recommendation submitted by Supervisor Hahn: Request the Sheriff and instruct the Directors of Correctional Health Services, Department of Health Services, Public Health, through its Substance Abuse Prevention and Control Bureau, the Interim Inspector General, the Auditor-Controller and the Medical Examiner, to implement the directives listed below within 120 days, and report back to the Board in writing in 30 days after completion, unless noted otherwise. The report back should also include potential need for funds and staffing to implement. Request the Sheriff to report back to the Board on:

The recent efforts and how the current security equipment, such as scanners, can be utilized to consistently and thoroughly scan sworn and civilian staff for narcotics and other prohibited items, including clear bags, lunch bags, and other property.

In consultation with County Counsel, report back on recent vulnerability assessments of each facility, recommendations made, and strategies to limit the number of illicit substances and narcotics coming into the facilities, including the installation of adequate number of cameras for footage to be reviewed and ensuring scanners are available at all facilities.

Abide by Title 15 Safety Checks by ensuring staff are taking the appropriate time to thoroughly assess for “signs of life” before moving to the next cell. This should include consistent supervisor’s walks and accurate and timely documentation of checks.

The details of Title 15 safety check policies related to quality and timeliness, the accountability processes and system upgrades that allow for it, including the BREAVA, a computerized logging system, and percentage of compliance, consistent application of security checks conducted at random intervals and/or staggered, and the work the Department is doing in partnership with the United States Department of Justice monitor to ensure quality safety checks are performed. This should also include any recent updates to the Title 15 safety check policies and accountability processes that were created or updated that will specifically reduce the number of in-custody deaths.

How other classifications are used to support safety checks and escorts to medical appointments, including Custody Assistants, and other options explored previously or being explored and mandatory overtime, including an evaluation on whether the current ratio needs to be updated to support the

Department's efforts to reduce the number of in-custody deaths.

Consistently monitor cameras and increase supervisor walks of the facilities to increase the number of informal and formal safety and security checks and that continual monitoring occurs.

The current use of Closed Circuit Television (CCTV) and body worn cameras and how it's used currently to reduce in-custody deaths, in addition to the feasibility of doing consistent camera monitoring, including cost estimates and budget implications.

CCTV installed in the jail facilities should be checked frequently and monitored to ensure they are in working order, functional, and operable. CCTV cameras should be operable at all times. Policies should include, especially in in-custody death cases and investigations, should there be cameras that were inoperable and/or footage deleted, a thorough investigation conducted.

In the interest of transparency and accountability, add the name of the jail facility of where an individual was housed prior to their death on the Sheriff's Department In-Custody Death dashboard.

Ensure Naloxone is more accessible to individuals, regardless of their housing situation, especially those housed in specialized units or units without open program space.

Ensure grievance forms, including Health Request forms are available and accessible to people who are incarcerated at all times.

Develop a periodic self-monitoring process as required by County Fiscal Manual Section 1.0.2 and as mentioned in the Chief Executive Officer's Risk Management report. Section 1.0.2 indicates that department management has primary responsibility for designing, implementing, and maintaining a system of preventative and detective internal controls on an ongoing basis to ensure any weaknesses or non-compliance are promptly identified and corrected. In collaboration with the Director of Correctional Health Services, Department of Health Services, establish key performance indicators, monitor and escalate death review statuses, and develop a process to periodically review completed corrective action plans. 90 days upon implementation, the Auditor-Controller to conduct an independent review and identify further recommendations.

Instruct the Director of Correctional Health Services, Department of Health Services to report back to the Board on:

An analysis on the existing Medicated Assisted Treatment (MAT) delivery process, cost analysis of staffing involved in oral medications compared to the long-acting injectables (LAI), along with the identification of other alternatives and options. Additionally, an evaluation on current processes and identify areas of improvement in the identification of patients who need MAT and delivery of MAT services.

In collaboration with the Director of Public Health's Substance Abuse Prevention and Control, identify best practices and recommendations on how to reduce substance use-related deaths inside the jails.

The Automated External Defibrillator (AED) inventory control and inspection mechanisms and make changes as needed to ensure emergency response equipment is available, inspected, in working order, and replaced if necessary.

Provide the Office of Inspector General (OIG) monthly reports of compassionate release efforts for the OIG to include in their quarterly reports to the Board. Additionally, identify ways with relevant stakeholders how to expedite compassionate releases, including legislation similar to Assembly Bill 960, Penal Code 1172.2.

In collaboration with the Sheriff and the Interim Inspector General, report back on the recent changes to the death review process, including the addition of the mortality review process, and improvements to the Corrective Action Plan tracker.

Explain and review the current process for submission of non-emergency health request forms and what would be needed to include daily walkthroughs as part of Correctional Health Services staff duties, addressing delays in care, and setting medical appointments.

In collaboration with the Acting Chief Executive Officer, request funding for the electronic health service request form along with the development of an evaluation process to ensure the investment is resulting in an increase in accessibility and efficiency for medical staff and addresses delays in the delivery of medical treatment; an electronic movement/appointment system that can assist in properly tracking upcoming appointments for patients and flagging conflicts in scheduling; and unmet needs for MAT in the jails.

To address suicides in the County jails, provide a timeline of when the Joint Quality Improvement Committee will be evaluating the current court notification process to review any gaps in the delivery of services, timeliness of services, and dispatch of the Jail Mental Evaluation Team.

In collaboration with the Sheriff, Medical Examiner, the Interim Inspector General, Executive Director of the Sheriff Civilian Oversight Commission,

---

the Sybil Brand Commission, Auditor-Controller, and Acting Chief Executive Officer, through its Risk Management Branch, to report back on a potential scope of work for Correctional Health Services to seek funding to obtain an outside consultant to evaluate recent deaths, identify trends, and provide recommendations and best practices to reduce in-custody deaths.

Direct the Medical Examiner, in consultation with County Counsel, to identify opportunities to strengthen existing policy on the use of “security holds” on autopsies of individuals, including the need for delegated authority to enforce the policy, especially in situations of dispute; and criteria that need to be met for security holds to be lifted or waived.

Instruct the Auditor-Controller to conduct an initial review of the Sheriff’s Department and the Department of Health Services’ Correctional Health Services’ corrective action processes and efficacy tools 60 days upon development; and annual reviews of the Sheriff’s Department and Correctional Health Services’ corrective action plans, processes, and efficacy of their tools.

Instruct the Interim Inspector General to include in their quarterly report backs to the Board information about the MAT program on the following, but not limited to: the number of people on the MAT waitlist, the number of unique individuals who are participating in MAT per facility, and the type of MAT assistance that individuals are receiving, and implementation status and brief summaries on death in custody corrective action plans. In collaboration with the Executive Director of the Sheriff Civilian Oversight Commission and the Sybil Brand Commission monitor the accessibility and availability of Naloxone in the jail facilities. **36. January 2025 Windstorm and Critical Fire Events Bi-Weekly Emergency Contracts Report**

Recommendation: Review the emergency actions ordered and taken by the Director of Internal Services, under delegated authority by the Board, acting as both the County and the Governing Body of various Districts, under Board Order No. 13-C of January 28, 2025, to respond to and recover from the January 2025 Windstorm and Critical Fire Events, including the Palisades Fire, Eaton Fire, Hurst Fire, Kenneth Fire, and multiple other fires (LA County Fires) (1, 3 and 5) and actions enumerated in the aforementioned authorities (Actions), without giving notice for bids to let contracts, and determine that there is a need to continue the emergency Actions. Find that there is substantial evidence that the January 2025 Windstorm and Critical Fire Events continue to constitute an emergency pursuant to Public Contract Code Section 22050, which requires that immediate action be taken to cleanup and reconstruct public property, buildings, facilities, and infrastructure because the emergency does not permit the delay resulting from a formal competitive solicitation of bids and/or proposals to procure construction, materials, equipment and services for projects and initiatives necessary to respond to and recover from the LA County Fires. Find that authority should, therefore, continue to be delegated to the Director of Internal Services to amend or extend and supplement existing as-needed or on-call contracts without giving notice for bids to let contracts related to facilities and related support services, and to award new contracts for response to and recovery from the LA County Fires, and such contracts should be issued because they are necessary to respond to the emergency. **(Internal Services Department) APPROVE 4-VOTES (25-1148)**

**45. January 2025 Windstorm and Critical Fire Events Bi-Weekly Emergency Contracts Report**

Recommendation: Review the emergency actions ordered and taken by the Director of Public Works, under delegated authority by the Board, acting as both the County and the Governing Body of various Districts, under Board Order No. 13-C of January 28, 2025, to respond and recover from the January 2025 Windstorm and Critical Fire Events, including the Palisades Fire, Eaton Fire, Hurst Fire, Kenneth Fire, and multiple other fires (LA County Fires) (3 and 5), and actions to repair or replace public facilities, actions directly related and immediately required by the emergency, and actions to procure the necessary equipment, services and supplies for such purposes (Actions), without giving notice for bids to let contracts, and determine that there is a need to continue the emergency Actions. Take the following actions: **(Department of Public Works)**  
**4-VOTES**

Find that there is substantial evidence that the January 2025 Windstorm and Critical Fire Events continue to constitute an emergency pursuant to Public Contract Code Section 22050, which requires that immediate action be taken to cleanup and reconstruct public property, buildings, facilities, and infrastructure because the emergency does not permit the delay resulting from a formal competitive solicitation of bids to procure construction services for projects necessary to respond to and recover from the LA County Fires.

Find that authority should, therefore, continue to be delegated to the Director of Public Works to amend or extend and supplement existing as-needed or on-call contracts without giving notice for bids to let contracts, and to award new contracts for response to and recovery from the LA County Fires, and such contracts should be issued because they are necessary to respond to the emergency. **83. County Code, Charter Amendment**

Ordinance for introduction calling for a special election to be held on November 3, 2026, for the purpose of voting upon an amendment to the Los Angeles County (County) Charter (Charter) that would:

Establish a binding arbitration process for resolving labor disputes between the County with "Certified Public Safety Employee Organizations," that represent County employees, including: firefighters, deputy sheriffs, sworn law enforcement supervisors and managers, lifeguards, and civilian employees working for the Fire Department, Sheriff's Department, and the Department of the Medical Examiner, among other represented County employees;

Require the County and the Certified Public Safety Employee Organizations (collectively, the Parties) to negotiate in good faith on matters related to wages, hours, and other working conditions;

Appoint a three-members Board of Arbitrators panel to make a decision on relevant memoranda of understanding if, following good faith negotiations, the parties are unable to resolve disputes or controversies related to wages, hours, and other terms and conditions of employment;

Require that the Parties each appoint one arbitrator. A third arbitrator is agreed to by the Parties and serves as the Chairperson of the Board of Arbitrators. If the Parties cannot agree upon the selection of the third neutral arbitrator, either party may then request the State Mediation and Conciliation Service to provide a list of seven persons who are qualified arbitrators. If the Parties cannot agree on one of the seven persons, the Parties shall alternately strike names from the list until one name remains. Alternatively, the Parties may waive the appointment of party-appointed arbitrators and proceed with a single arbitrator agreed to by the Parties;

Require that any interest arbitration proceeding convened pursuant to this section be conducted in conformance with, subject to, and governed by Title 9 of Part 3 of the California Code of Civil Procedure;

Require that the Board of Arbitrators, in the exercise of its discretion, may meet privately with the parties and shall mediate issues in dispute prior to arbitration;

Require that if no agreement is reached prior to the conclusion of the arbitration hearings, each Party will be directed to submit a final offer of settlement on each remaining issue in dispute;

Require that the Board of Arbitrators, by majority vote, selects which final offer to impose for each issue based on specified criteria;

Require that the Board of Arbitrators provides its decision to the Parties. The decision is not disclosed publicly, and the Parties have 30 days to meet privately to resolve their differences. Any agreements reached by the Parties during that period are incorporated into the Board of Arbitrators' final decision. After 30 days, unless extended by mutual agreement, the decision becomes public and final and is binding on the Parties. No further action by the County Board of Supervisors or by the electorate to confirm or approve the decision is permitted or required; and

Require that the Parties will equally share the cost of arbitration.

The ordinance further directs the consolidation of the Special Election with the Statewide General Election, to be held on the same day, November 3, 2026.
