Develop, launch, and update a publicly accessible Homelessness Prevention Resource Page on the County website, and linked on all relevant service partner websites - including HSH - that:

Identifies available homelessness prevention services across County Departments, funded partners, regional agencies, continuums of care, and councils of governments including but not limited to, rental assistance, mortgage relief, legal aid, utility assistance, and housing navigation;

Designate a person for the County as single-point-of-contact for other agencies in the region to support intergovernmental coordination;

Clearly describes eligibility criteria, the appropriate point-of-contact agency, and how to apply or be referred;

Is written in plain language and accessible in the primary languages spoken across the County; and incorporates cultural competency;

Is reviewed and updated regularly to reflect changes in program availability, eligibility, and funding status; and

Provides all of the above in a written report back within 45 days.

Report back to the Board in writing within 45 days with a framework for a coordinated prevention referral system for housing stability resources that:

Establishes a triage tool that assesses resident needs and develops clear protocols for how County staff, community-based organizations, healthcare providers, and other frontline service providers can connect at-risk residents to the appropriate prevention services; and
