

**REVISED MOTION BY SUPERVISORS HOLLY J. MITCHELL
AND HILDA L. SOLIS**

April 19, 2022

**Ensuring Proper Oversight of the Los Angeles County Sheriff’s Department’s
Participation Within the Joint Regional Intelligence Center**

The Joint Regional Intelligence Center (JRIC) was established in 2006 as a cooperative effort between law enforcement and public safety agencies – including the Los Angeles County Sheriff’s Department (LASD) – to centralize the intake, analysis, synthesis, and dissemination of terrorism-related intelligence for the greater Los Angeles region. In 2010, JRIC merged with several organizations to create an all-crimes intelligence fusion entity. JRIC also serves as the Regional Threat Assessment Center (RTAC) for the Central District of California as part of the California State Threat Assessment System.

Watchdog groups have had difficulty obtaining information about JRIC, especially as it pertains to practices that potentially infringe on privacy rights, including methods and information being gathered. JRIC collects criminal records, public- and private-sector data, and information from “suspicious activity reports” generated by Los Angeles Police Department officers. Such practices have led civil liberties advocates to [warn](#) the public about the potential for abusive police practices, ambiguous lines of authority, lack of proper safeguards, excessive secrecy, and collection of information about peaceful activities.

Adding to these concerns are the Sheriff’s repeated refusals to allow Los Angeles County’s oversight entities to perform their basic functions and provide access to data,
