Set Matter 2		<b>Favor</b>	Aaron Aagurene	I actually don't support anything the fake dr Barbara Ferrer does, I only want to get to the top of the complaint list so that people know to go to FIREFERRER.COM for information, history & videos on how the LA Dept of Public Health has kept the kids of Los Angeles in masks only to provide air cover to UTLA teacher's union so they could get things during covid negotiations like a 6 hour work day, more money, elimination of competing charter schools, removal of campus police, etc.
			Eloy Armendariz	
			Fred Brown	
			Gor Prokhorko	
			Le Williams	Barbara Ferrer does not align with the CDC, she aligns with the teacher's unions
			P Lo	In favor of ending this nonsense! The pandemic is over - Joe Biden Sept 2022
		<b>Oppose</b>	Aaliyah Mcfarland	If Los Angeles is supposed to mask when the covid risk is HIGH, and when the covid risk is LOW, when is Los Angeles allowed to take off their masks?
			Abbas Lee	Barbara Ferrer is not a medical doctor and is not qualified to issue health officer orders in Los Angeles and needs to be removed asap.
			Abbas Richardson	Barbara Ferrer is not a medical doctor and is not qualified to issue health officer orders in Los Angeles and needs to be removed asap.
			Abdel Arnold	Barbara Ferrer needs to align with the state of California and CDC and eliminate the 10 day close contact mask mandate in Los Angeles schools
			Abdo Paul	I oppose the 10-day 'close contact' masking mandate for LAUSD kids. Covid is here to stay and this mandate will keep our kids in masks forever.
			Abdoulaye Jordan	Barbara Ferrer is violation of the First Amendment and Los Angeles County's right to Freedom of Speech by blocking all comments on the social media accounts used by the Los Angeles Department of Public Health. Turn comments back on now.

			All Seniors	<p>September 7, 2022 and again, September 27, 2022 My previous post not submitted? Not counted?</p> <p>To: Los Angeles County Supervisors Re: Opposition to masking - guidelines should align with California</p> <p>Hello, Supervisors.</p> <p>Please put an end to the masking of children. ENOUGH. I suppose I could be called a "Snowflake Weepie" since I live in that District. I am objecting to your political science, not actual science.</p> <p>Dr. Marty Makary M.D., M.P.H., professor at the Johns Hopkins School of Medicine and Bloomberg School of Public Health, chief medical adviser to Sesame Care, and author of the award winning The Price We Pay: What Broke American Health Care and How To Fix It, offers The Case Against Masks for Children. Dr. Markary's segment starts at 3:30: <a href="https://rumble.com/vlpksu-john-hopkins-dr.-marty-makary-on-all-things-covid-19.html?mref=22lp&amp;mrefc=5">rumble.com/vlpksu-john-hopkins-dr.-marty-makary-on-all-things-covid-19.html?mref=22lp&amp;mrefc=5</a></p> <p>Barbara Ferrer is NOT a medical professional. Los Angeles County (LAC USC) Doctors - actual Medical Professionals disagree with her. WHY would anyone enforce edicts coming from a social worker with a degree, over medical professionals with years of training, internship, and the actual treating of patients? Certainly, Los Angeles residents now know the lack of transparency with the Study that Ferrer commissioned. This was used, in collusion with the CDC to punish children.</p> <p>Again, ENOUGH is enough. Childhood is precious and fleeting. L.A.'s children deserve every opportunity and advantage we can give them. Thank you - again, NO on masking children.</p>

			Cathy Hobart	LA Public Health must have their control over our lives removed!!! It has been 2 1/2 years and Ferrer isn't going to give up her power without a fight. You must stop her from continuing to hurt the people that you represent. She is still using her power to make the teacher unions happy by requiring masking for 10-days after "exposure" to COVID. Schools are the only place where this rule is being followed. Haven't you guys been paying attention to the historic learning loss due to LA Public Health??? Masks interfere with learning. All barriers to learning must be removed. You must stand up for the kids. History will not remember you well for allowing this to happen. Shame on you!!! The most vulnerable kids may never recover.

			Concerned Citizen	The Supervisors have permitted so much leeway to the Department of Health and so little oversight that there is currently no metric by which to know when mask mandates will align with California state guidance. Ferrer has unfettered discretion based on her feelings. You have abdicated your duties to the children you represent. There is no evidence to justify the mandatory close contact masking rule. Relying on the exemption as a loophole is ridiculous on its face and places an undue burden on families that do not have easy access to a healthcare professional that can provide an exemption. 			Hilda Poole	Los Angeles County Public Health Director Barbara Ferrer has reinstituted a countywide 10 day close contact student mask mandate with zero scientific justification. Ferrer uses loaded political language like "health racism" and "health equity" to describe the pandemic. It's obvious that her objective in prolonging lockdowns is achieving political objectives, not protecting us from disease. Therefore, her tenure as public health director must end, effective immediately. The elected Board of Supervisors must fire her.
			Hoa Carson	Why are kids at LA Parks still mandated to mask when playing sports. STOP THIS NOW.

The most recent CDC guidelines say that vaccinated & unvaccinated individuals should be treated the same- no quarantine or time off work if exposed to Covid, no masking or distancing necessary, & testing should not be done on asymptomatic people. The CA Dept of Public Health dropped all of their vaccine, mask, & testing mandates for employees in high risk congregate settings. The President said the pandemic is over & no one is wearing masks anymore. Set Matter 2		<b>Oppose</b>	John Estudillo	I am writing once again to plead that LA public health align with the state in all matters of public health! This board simply dodges this issue all the time with the only one who really has spoken up is Supervisor Bargner. I ask that you align with the state in the 10-day required masking policy at schools and worksites. The state and 57 other counties do not have this policy, why are we the outlier? Is Dr. Ferrer's science between than everyone else.... this makes no sense whatsoever!!! I'm upset that this board continues to allow Ferrer this amount of power when in all reality you can override her but lets be honest... you will not!!! Also, LA county public health continues to move the goal posts or when Ferrer feels like it's ok... and that will never happen. This is now gone from science to feelings... and it's really quite upsetting! please I simply ask that you remove these non-science backed mandates and remove Ferrer from her position... it's time for her to go!!!
			John Martell	Remove Barbara Ferrer from office immediately. Eliminate all covid mandates. It's time for a full return to normal, like the rest of the country (and most of Europe) has already done.

			Karim Yoder	Are we supposed to continue pretending Barbara Ferrer isn't lying to us and manipulating data to keep her draconian power over LA County?
			Karin Montgomery	Even though Barbara Ferrer is scaring parents with monkeypox fear campaigns, monkeypox is a disease that is transmitted through +15min of skin to skin contact. If a child gets Monkeypox at school it is because they have had +15min of skin to skin contact with someone.
			Karina Oneal	The solution is to Fire Ferrer. This is an employee that is out of control. Why won't the LACountyBOS DO something?
			Karl Floyd	I submitted my question to the LADPH and have not received a reply. Barbara Ferrer promised every qestion would receive a reply. It is obvious that she just wants to stick her fingers in her ears and ignore the citizens of Los Angeles and their honest, truthful critiques of her poor job performance and woke social justice agend

Set Matter 2		<b>Oppose</b>	Katherine Stewart	Covid cases went DOWN without a mask mandate. This is how endemic viruses work. We did not need a MASK MANDATE nor will we ever need a MASK MANDATE. If Barbara Ferrer was a real doctor she would know this, but she's not, so she continues to be WRONG on everything. GET HER OUT NOW.

			Kaylee Martin	End the 10 day mask mandate now. Align with the state and stop forcing harsher restrictions on our children vs the rest of LA County. Enough is enough. BOS DO SOMETHING!
			Keith Lynn	Remove the 10 mask exposure and testing requirements for kids and childcare setting. We are in low tier. Kids have suffered enough, and this is a big inconvenience for schools and families. Masking is now doing more harm than good for preschool kids.
			Kelly Brinn	Why has the Board of Supervisors not fired Barbara Ferrer yet? That is very strange. She is not a medical doctor, and seems to simply enjoy the power of forcing the public to needlessly suffocate themselves at her command. You cannot stop something microscopic with a cloth, no matter how badly Barbara Ferrer likes to dehumanize the people of Los Angeles. We are done masking forever, and she needs to be replaced with a common sense medical doctor with no ties to big pharma or unions at once.
			Kelly Hinton	Time and time again parents are speaking up and Barbara Ferrer chooses to ignore anything but her opinion on Covid. Our children have been through enough, it was three weeks of my daughter being perpetually masked bc of "close contacts". This needs to stop, at this point in the pandemic, we can assess our own families' risk
			Ken Cooper	I oppose the 10-day 'close contact' masking mandate for LAUSD kids. Covid is here to stay and this mandate will keep our kids in masks forever.

			Krishna Jennings	FIRE BARBARA FERRER NOW
			Kristi Phillips	The continued micromanagement by LA County of masking in K-12 schools with the 10 day close contact masking requirement is completely insane and has led to the full return of masking in many schools especially middle and high schools. Everywhere else it is up to each individual person's decision making whether to mask and there is no attempt to enforce close contact masking anywhere except schools. But in LA County schools, Barbara Ferrer gets to impose HER personal preference on the 500,000+ kids. It is way past time for the Board of Supervisors to take action and terminate Barbara Ferrer. She is incompetent and authoritarian and seems to be stuck in 2020 while the rest of the state and the country and world has shifted to personal decision making as we approach 2023. The time has come - FIRE FERRER.
			Kristina Weber	Parents hate the Fake Doctor Barbara Ferrer and what she has done to our kids. FIRE HER NOW!

I urge you to direct LACPH to align with state/federal guidance (esp. with regard to close contacts in schools) and remove Dir. Ferrer for her refusal to do so. Set Matter 2		<b>Oppose</b>	Liz Cohen	Why does Los Angeles not align with the state regarding Covid restrictions? It is completely out of synch with the rest of the world and the BOS is allowing these restrictions to remain in place. They need to be removed and the people who continue these unscientific restrictions taken away from decision making positions. My 3rd grade child is in a class with another student who tested positive for Covid. The positive 8 year old never had a single symptom and my child was required to wear a mask for 10 days. My child has partial hearing loss and relies on seeing speaker's mouths. Every time his classmates wear a mask it sets him back months in his development. He has struggled with feeling connected to the school and community and after 2 ½ years we need him to have a normal, mask free, year at school.
			Liz Cohen	Why are there still Covid mandates in the county of Los Angeles? Hasn't the BOS heard, from our President, that Covid is OVER. You are failing your duties and allowing the power hungry, unscientific LAPHD to continue with these draconian rules. There should be no 10 day mask mandate for close contact. Why isn't the city aligning with the State. Why haven't you addressed the pending lawsuit against Dr. Ferrer. Why do you continue to support this woman who has clearly demonstrated her inept ability. She has destroyed so much in our community. In the end, it will be your re-election that will suffer the most. You have upset far too many people (parent especially) to think you can continue with this negligence. If you don't make change, the people of LA will.
			Long Eaton	Now that Los Angeles County is in the CDC low category, it is time to end the 10 day close contact mask mandate.

			Maeve McCormick	Why are kids at LA Parks still mandated to mask when playing sports. STOP THIS NOW.

			Magdalena Robertson	Barbara Ferrer is sick in the head
			Maha Davis	Barbara Ferrer is a fraud
			Maha Love	Los Angeles County Public Health Director Barbara Ferrer has reinstituted a countywide 10 day close contact student mask mandate with zero scientific justification. Ferrer uses loaded political language like "health racism" and "health equity" to describe the pandemic. It's obvious that her objective in prolonging lockdowns is achieving political objectives, not protecting us from disease. Therefore, her tenure as public health director must end, effective immediately. The elected Board of Supervisors must fire her.
			Mahboubah Boudai	Los Angeles should align with the CDC guidelines on masking. Children should not be subjected to superfluous masking requirements when their risk of mortality is essentially zero. The pandemic is over.
			Mahendra Krueger	Are we supposed to continue pretending Barbara Ferrer isn't lying to us and manipulating data to keep her draconian power over LA County?
			Mahendra Meadows	Why is Barbara Ferrer, Cecily Myart-Cruz and Debbie Duardo in bed together conspiring to damage the kids of Los Angeles

Our children have been through enough, it was three weeks of my daughter being perpetually masked bc of "close contacts". This needs to stop, at this point in the pandemic, we can assess our own families' risk
			Mahmoud Li	FIRE BARBARA FERRER NOW
			Mai Santana	Meanwhile other states and counties are back to normal. Covid is not a concern ANYWHERE. Yet in LA we have a power hungry witch who refuses to let go. Do your damn jobs LACountyBOS

			Nga Simon	Barbara Ferrer says that +500 complaints are not enough for her to end the close contact student mask mandate in Los Angeles, yet she receives NO SUPPORTING submissions. This woman is certifiable and needs to be relieved from office NOW.
			Ngoc Cook	Barbara Ferrer classifies schools at the same covid risk as convalescent homes, yet we ALL KNOW that they are not even close when it comes to risk of death or even moderate illness from covid. She twists the data to keep kids in masks so that the LA Teacher's Union can use the students as negotiation pawns to get more money. SHE IS EVIL!
			Ngoc Marin	If Los Angeles is supposed to mask when the covid risk is HIGH, and when the covid risk is LOW, when is Los Angeles allowed to take off their masks?
			Nguyen Cervantes	Barbara Ferrer does not align with the CDC, she aligns with the teacher's unions

			Rebecca Vaughan	I am writing to ask that you oppose and challenge Barbara Ferrer's ridiculous mask mandate that continues to be in effect only on our children. The mask mandate has been lifted on every population except our children in schools, who are the least affected group in terms of covid morbidity and hospitalizations but have continued to carry the majority of the burden. Masking children because they have shared air space with someone who tests positive even though they have no symptoms is not only cruel but is also just plain stupid and doesn't follow the science. This same child who masks at school can then go off to an extracurricular activity, store, or restaurant and not have to be masked. How does this make any logical sense? It's time to set our children and our schools free of this unnecessary burden. Enough is enough. If Dr. Ferrer can't follow the science, then I ask that our Board of Supervisors please follow the actual experts who continue to contradict what she says.

Set Matter 2		<b>Oppose</b>	Tamar Karadolian	I want the board of supervisors to know that my family and I vehemently oppose Barbara Ferrer's mask mandate on children. Although this isn't explicitly a mandate, the schools are taking advantage of it to force our children to be masked. My daughters have been forced since August 22nd! August 22!!!! How could Barbara Ferrer and those supporting her live with themselves while they are abusing our children??? The forced masking is exacerbating my daughters' migraines, anxiety, and depression. With the president even saying that the pandemic is over why continue with the forced masking???? It is time to align with the CDC, with the state, and with the rest of the sane people of the world. Do away with Ferrer's exposure policy and give people a choice!!!
			Tamara Taylor	Enough is enough. Ferrer is ruining our children's lives. Complete overreach and we are done.

			Tatiana David	Covid cases went DOWN without a mask mandate. This is how endemic viruses work. We did not need a MASK MANDATE nor will we ever need a MASK MANDATE. If Barbara Ferrer was a real doctor she would know this, but she's not, so she continues to be WRONG on everything. GET HER OUT NOW.

Set Matter 2		<b>Oppose</b>	Zhiqiang Chase	Barbara Ferrer is violation of the First Amendment and Los Angeles Country's right to Freedom of Speech by blocking all comments on the social media accounts used by the Los Angeles Department of Public Health. Turn comments back on now.
			Zhiqiang Pearson	Barbara Ferrer is so hellbent on scaring the people of Los Angeles that on 8/30/22 and 9/1/22 she was quoting covid death data from 2020 that is no longer relevant to today. Fire this woman NOW.
			Zhiwei Bates	Barbara Ferrer is violation of the First Amendment and Los Angeles Country's right to Freedom of Speech by blocking all comments on the social media accounts used by the Los Angeles Department of Public Health. Turn comments back on now.
			Zhiwei Peters	I oppose the 10-day 'close contact' masking mandate for LAUSD kids. Covid is here to stay and this mandate will keep our kids in masks forever.
			Zhiyong Huffman	Barbara Ferrer is violation of the First Amendment and Los Angeles Country's right to Freedom of Speech by blocking all comments on the social media accounts used by the Los Angeles Department of Public Health. Turn comments back on now.
			Zhiyong Perry	26 of 80 LA Co. Superintendents are asking Barbara Ferrer to align her COVID19 10 day close contact mask policy w/ the state. She is doing whatever she wants regardless of having any scientific foundatoin and must be FIRED NOW
			Zin Novak	Barbara Ferrer classifies schools at the same covid risk as convalescent homes, yet we ALL KNOW that they are not even close when it comes to risk of death or even moderate illness from covid. She twists the data to keep kids in masks so that the LA Teacher's Union can use the students as negotiation paws to get more money. SHE IS EVIL!
			Zoe Logan	How much taxpayer money is Barbara Ferrer spending on testing animals for covid?
			Zoey McIntyre	Covid cases went DOWN without a mask mandate. This is how endemic virsues work. We did not need a MASK MANDATE nor will we ever need a MASK MANDATE. If Barbara Ferrer was a real doctor she would know this, but she's not, so she continues to be WRONG on everything. GET HER OUT NOW.
		<b>Other</b>	Genevieve M Clavreul	We need to stop hiding behind Gov. Newsom's executive order, and let's not forget that President Biden has declared that the Covid pandemic is over.
			Goat Puppet	Drop the fucking mask requirements at meetings ALREADY! You 5 Emperresses have locked 11 million taxpayers out of their Government for 2 years, 9 months, 21 days. You need to GIVE UP this fake COVID shit COMPLETELY! OPEN UP THE GOVERNMENT FOR REAL
			Holly Washburn	When will the county drop the testing mandate for county employees?
