			Karissa Zingula	The Breath program is an incredible opportunity for Angelenos to receive supplemental income to support their families and become financially stable. We know the facts; providing individuals with a basic income works. We know that poverty is not something that just "happens." Poverty is a public policy choice and we have the tools and the policies to eliminate poverty. This investment by the County to expand access to TAY participants is a vital resource that can change the trajectory of one's life here in LA. We support the motion to expand the Breath program.

			Citzena Q Concerned for Public	This program is a joke as the money went to friends of people who work in the offices. The funds should have been distributed to all in the community to see if even a small amount would impact life. TO NOT Report this income - especially for those who already get their rent and utilities paid is a farce. Participants on this program should have their names listed for all to see. This is a fraudulent program. DISCONTINUE This program
