Presentation Goals

- The Local Emergency for Homelessness was declared to expedite the delivery of housing and services to the tens of thousands of people experiencing homelessness
- A key component of these resources is beds, especially for people experiencing homelessness and suffering from severe mental illness and substance use disorders
- County mental health and substance use beds serve the general population and others, such as:
 - People experiencing homelessness;
 - Probation population;
 - Jail population;
 - LPS conservatees;
 - Persons mentally incompetent to stand trial.
- These beds are both operated by the County and by community providers that contract with the County
- The Departments will focus this presentation on the defining the types of beds within their inventory
