			Belen Bernal	We are extremely grateful for the immense support to protect our beloved San Gabriel Mountains for our region and generations to come! The vision to protect the San Gabriel Mountains as a national monument originates with Supervisor Hilda Solis while in Congress years ago, with the goal to review the importance of our County's largest open space for Angelenos to enjoy! From the unique biodiversity and habitats, rich cultural history and geological features, to the tremendous need for equitable access to ensure active physical health, mental health and wellness; the full San Gabriel Mountains deserve full protection. We commend the leadership of Supervisor Solis and Supervisor Barger in this unwavering support to help conserve public lands that will help increase knowledge and access to millions of Angelenos and visitors in our region, who will become the next generation's environmental stewards and leaders. On behalf of Nature for All and our coalition, we express our gratitude to each and every Supervisor for your commitment to serve Los Angeles County residents and for specifically securing our open spaces for generations to come!
