

Los Angeles County Response to the Sexually Transmitted Infection Crisis

Tuesday, October 17, 2023
Board of Supervisors Brief Update

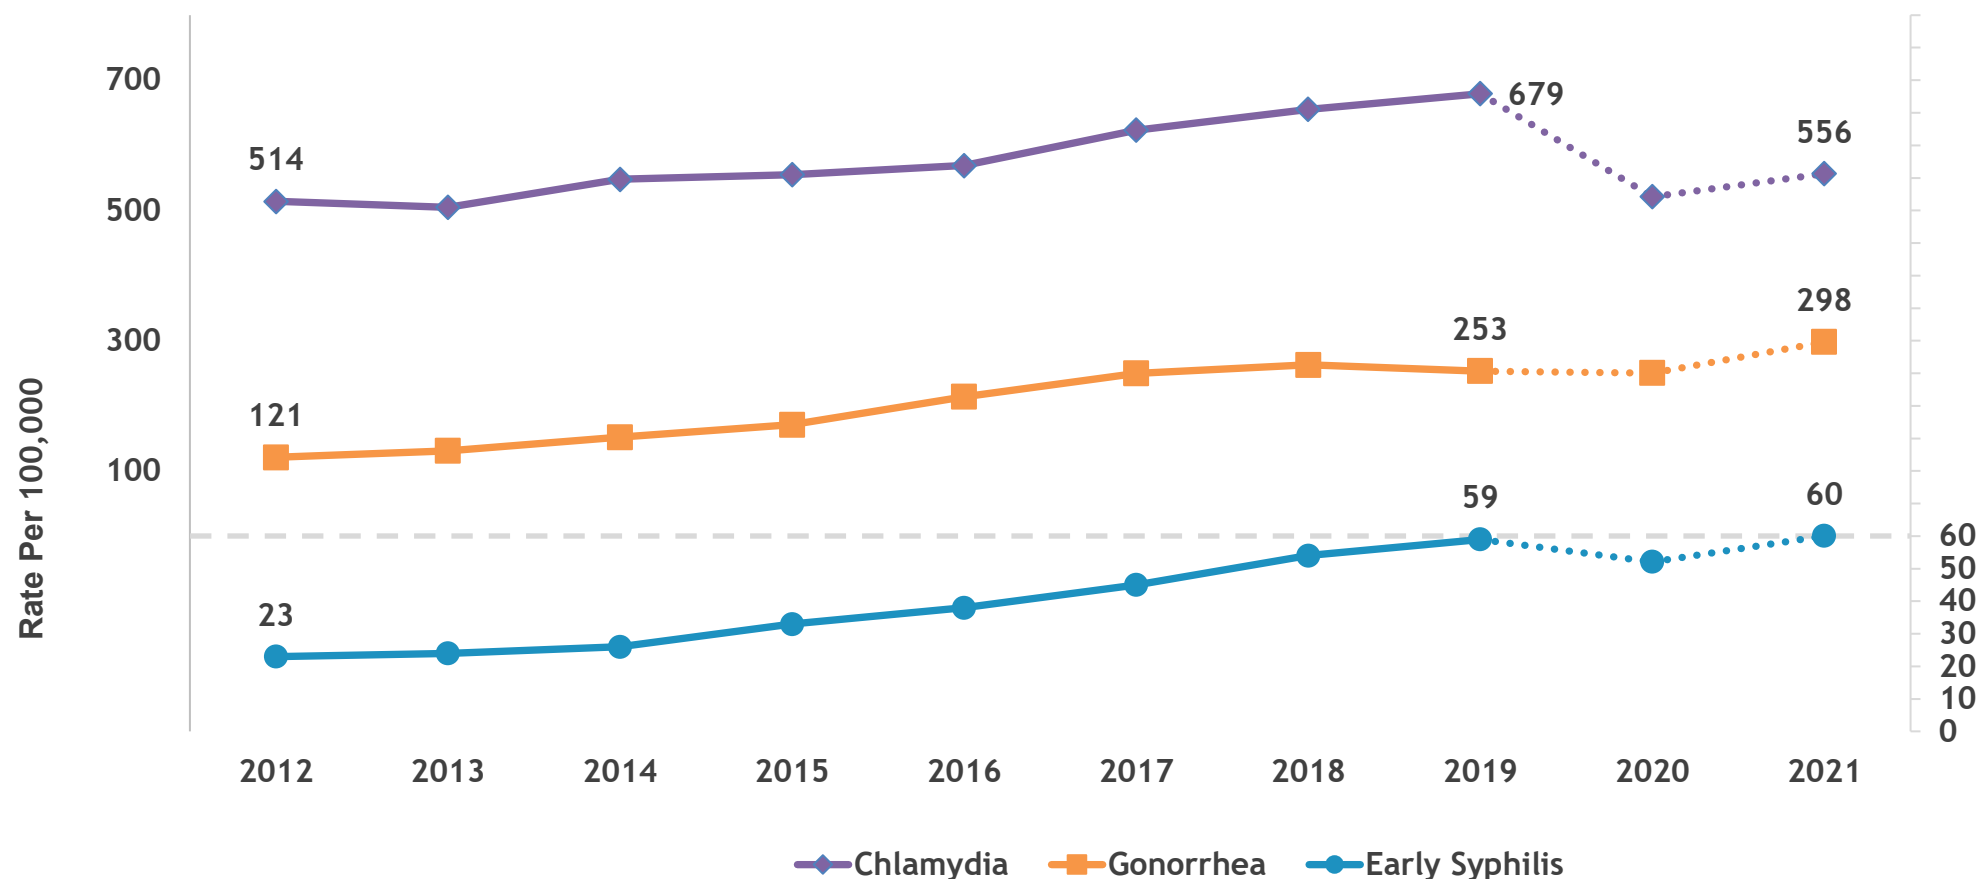

Barbara Ferrer, PhD, MPH, MEd, Director
Los Angeles County Department of Public Health

Overview

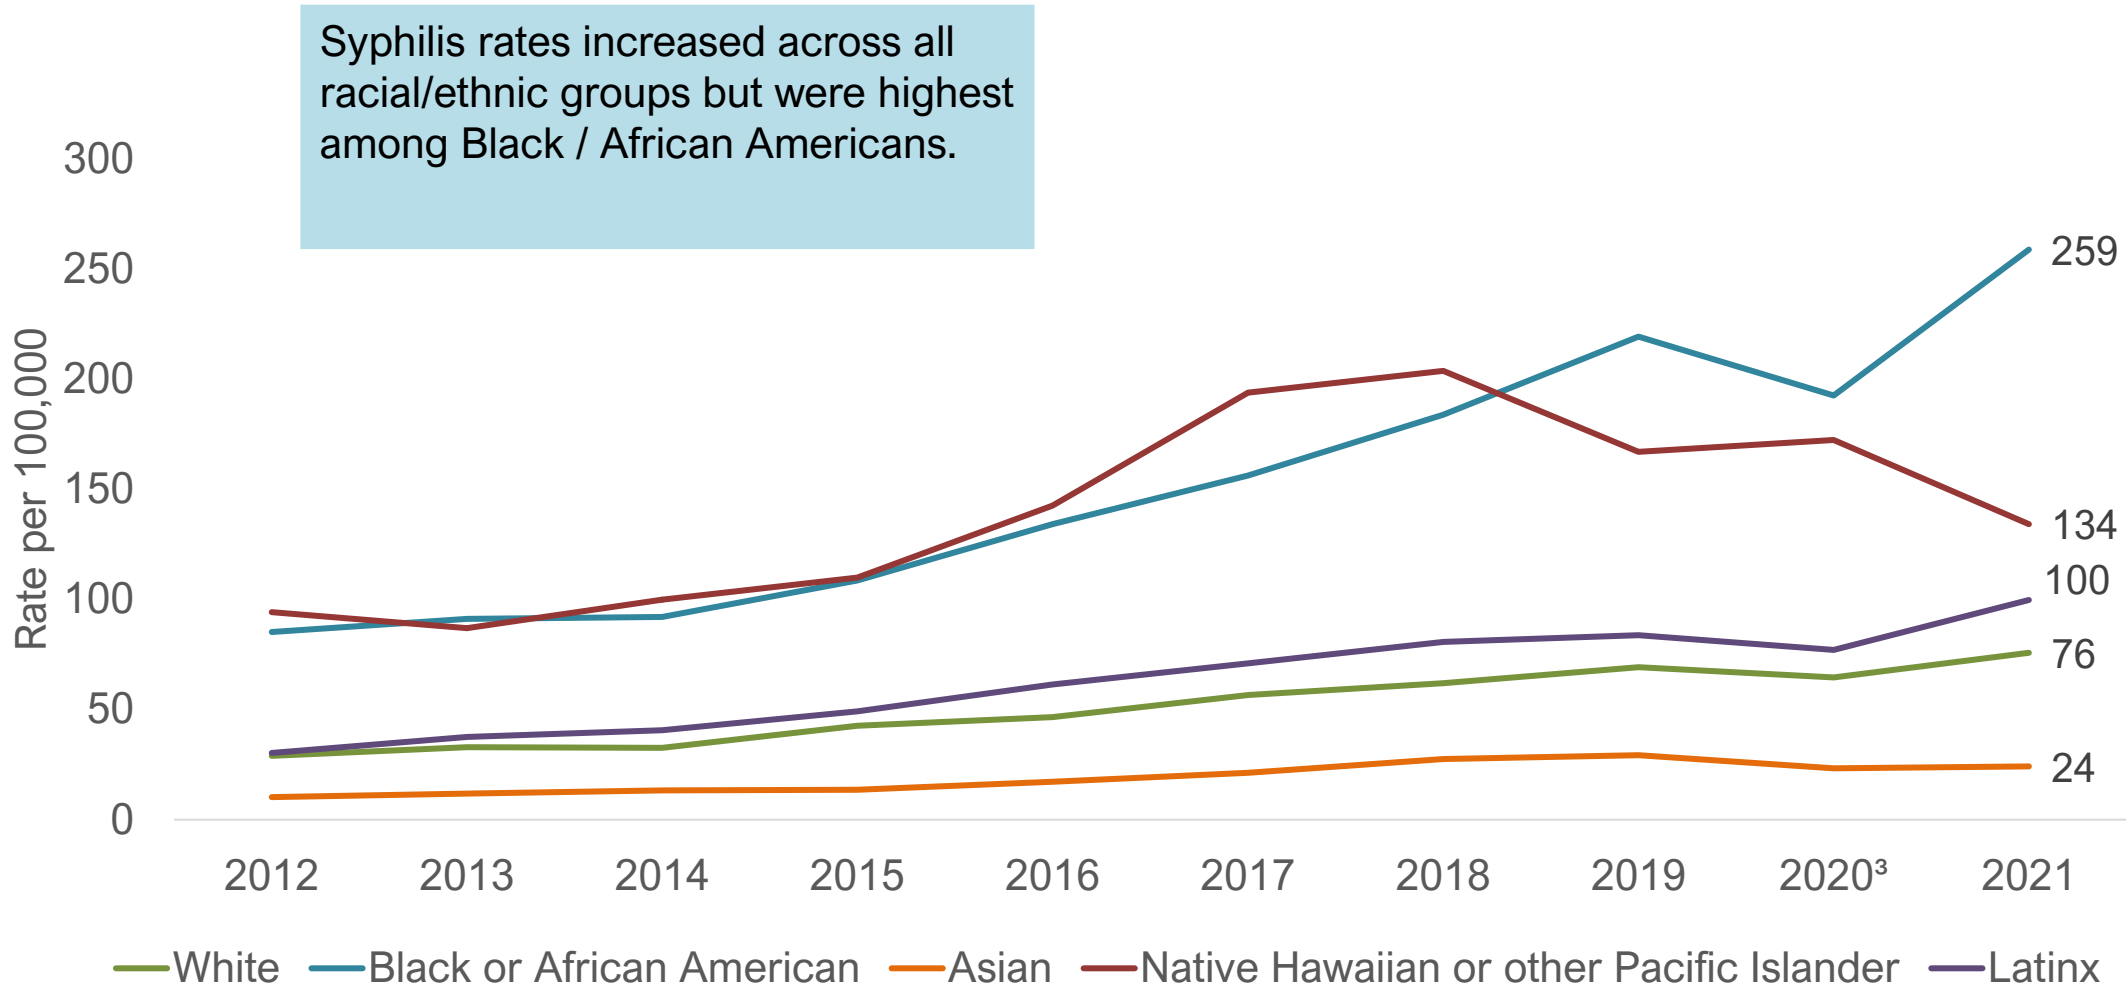

- I. Overview of LA County STD Morbidity Trends
- II. Elements of Current STD Prevention and Control Response
- III. STD Control in the Context of Social Determinants of Health and Growing Public Health Crises
- IV. Current STD Funding Revenue and Program Investments
- V. Summary of Key Points and Next Steps

Trends in Sexually Transmitted Diseases, Los Angeles County, 2012-2021

¹ Data as of 06/05/2022. Early syphilis includes all cases staged as primary, secondary, or early non-primary non-secondary (previously early latent); cases from Long Beach and Pasadena are excluded. 2020 and 2021 data are provisional due to reporting delay. 2021 rates are calculated using 2020 population estimates as a proxy for 2021

Syphilis (All Stages) Rates by Race/Ethnicity¹ Los Angeles County, 2012-2021²

1. Note that AIAN rates were not included in this figure due to small numbers.
2. LAC data as of March 23, 2023. Data from the Cities of Long Beach and Pasadena are not included.
3. Note that the number of reported STDs in 2020 decreased as a result of decreased STD screening and increased use of telemedicine during the COVID-19 Stay at Home Health Officer Order.

Current LA County STD Prevention and Control Strategies

Diagnose

- Range of STD Screening, Diagnosis Services
- School Wellbeing Center-based Services
- Syphilis Screening as part of Prenatal Care and During Delivery
- Testing via Emergency Departments
- Testing via DMH Clinics

Treat

- STD Treatment Services as part of Sx & Dx
- Antibiotic Treatment Verification
- Bicillin Delivery Program for CS Control
- Intensive Case Management for Pregnant Persons with Syphilis
- Street Medicine efforts
- Expedited Partner Therapy

Prevent

- Provider Outreach and Education
- Clinical Provider Education and Training
- Condom Distribution
- School-Based Sexual Health Education
- Expedited Partner Therapy (EPT)
- Biomedical Prevention (Doxy-PEP)

Respond

- Partner Elicitation and Partner Notification through Public Health Investigators
- Community Embedded DIS
- Data to Action Efforts
- Health Plan Engagement
- FQHC Engagement

Cross
Cutting
Strategies

- Policy and Leadership
- Promoting Gay/Bi/MSM Holistic Health
- Community Engagement Programs (South LA)
- Implicit Bias & Medical Mistrust Training
- Media Campaigns
- HIV, Syphilis, Meth Use Disorder Syndemic Programming

Relevant Local, State and Federal Level Policy and Structural Updates

- Increased Emphasis on Syndemics
 - Substance Use and Ongoing Impact on the Public's Health
 - Expanded Focus on STD Crisis (STI Coalition, Health Plans, CA DHHS)
 - Ending the HIV Epidemic Initiative as a Planning and Implementation Model
 - Alarming Congenital Syphilis Rates and Projections
 - New and ongoing response to Mpox outbreak
 - Increased rates among persons experiencing homelessness and mental illness
- Political and Policy Landscape
 - Cuts and Threats at Federal Level (e.g., rescission of CDC DIS Infrastructure Funds)
 - Challenges at State Level (e.g., AB 1645 vetoed; Medicaid reimbursement rates remain low)
 - Increased Attention and Expanded Support at Local Level

Current STD Revenue

Funding Source	Grant	Pays For	Years of Funding	Annual Amount
Centers for Disease Control and Prevention (CDC)	Strengthening STD Prevention and Control for Health Departments (STD PCHD)	DPH core program costs; only 10% allowed for sub-contractors	Annual	\$3,356,049
