Agenda #	Relate To	Position	Name	Comments
Public Comment		Favor	Aditi Jani	I support a UAPD colleagues for a fair contract in supporting our patients
			Antonio Moya	
			Arash Nafisi	
			Cameron D Johnson	As a constituent and county tax payer, I am dismayed and embarrassed by the way that LA County and its board of supervisors has handled negotiations with these hardworking doctors and healthcare workers. LA is a union town, and as a member of the Writers' Guild of America, I cannot in good conscience support the bad faith bargaining I have read about from our board of Supervisors. It is counter to the pro-labor platforms that many of the board's members campaigned on. I support the UAPD bargaining priorities and urge the board of supervisors tos top stalling and negotiate a fair contract.
			Carla Nonini	The Chiquita Canyon landfill must be shutdown!! We are being poisoned on the daily!!! Constantly feeling ill. We will not be ignored.
			Christina Holtz	I support physician competitive compensation and improved healthcare plan
			Elizabeth Canales	We are fighting for our patients who are sick and tired of long wait lines, not being able to see a specialist, and dangerous appointment delays.  Your constituents deserve more, and they are counting on you, as their County Supervisors, to do the right thing.  We need a contract that prioritizes patient care by providing the benefits and pay that will make the County competitive with other employers in the region.  We urge you to do the right thing and put your medical professionals – and the patients who rely on you – first.
			Evan Nelson	I support the physicians of UAPD in getting a FAIR contract that prioritizes patient care by providing the benefits and pay that will make the County competitive with other employers in the region.  We urge you to do the right thing and put your medical professionals – and the patients who rely on you – first.

Agenda #	Relate To	Position	Name	Comments
Public Comment		Favor	Susan E Glasser	I am a retired Ob- gyn physician and L.A Voter. As a previous chief of OB at a large HMO Hospital, I know from my experience that you can not do your duty to patients without pay competitive salaries to maintain an adequate staff of physicians to care for those whom you are responsible for.
			Tauheedah shakur	Tauheedah Shakur Director of organizing with youth justice coalition. I would like to start off with a quote from Dr. King in honor of Black History Month. Injustice anywhere is a threat to justice everywhere. 298 youth that are currently incarcerated have 36 NEW charges since being locked up. It sickens me that this is the type of world my nieces and nephews will grow up in. This is a true injustice. This is proof that the system that you all choose to invest in is trying to keep kids locked up and caged like animals. The BSCC have already deemed the halls unsuitable. DO NOT re-open older, dangerous probation facilities or keep LP and Barry J. Open after the 60 days suitability compliance window has closed. Instead what you can do and should do is invest in youth justice reimagined.
			V Citizen	Seniors 62+ should be the first to receive S8 or housing vouchers. Why reward younger, able-bodied people who can work, but choose not to. Housing should come with employment or the ability to help the cities and county clean in order to pay a portion of their rent/housing expenses.
		Oppose	jacob jackson	My name is jacob jackson with the youth justice coalition and heart of youth justice reimagine workgroup. Thank you for holding this agenda item. As you know your facility has been found out of compliance and our sworn officers have failed to keep our youth safe and keep the community informed. We have to stop investing into this system that breeds mindless soldiers disproportionately targeting black and brown community, and youth rooted in white supremacy. We urge you to free all eligible youth today and We urge you to imagine a day where accountability and change does not falsely rely on the punishment and imprisonment of young people. Probation has only enforced the system in hand that you guys have control over. We have fought to get youth off of Involuntary probation, we have increased more direct service, self help education and advocating for youth to have a future. To be put in place on probation makes it a hindrance to actually live your life or waste resources that can be redirected towards the community. I'm sick and tired of having to hold my system accountable. I'm currently on probation. I receive no support around creating an individual plan geared to my success. The only thing that I received from Probation is more anxiety. A sick feeling anytime I see law enforcement that I'll be arrested and detained at Central, LP, Sylmar or MCJ. please We urge you to free all eligible youth today

Public Comment		<b>Oppose</b>	Rafael Lemus-Rangel	
			Stephanie Bunker	I oppose the Gondola because LA Dodger stadium was built on stolen land that took homes away from Latino Communities by using eminent domain. LA CITY ATTORNEY Hyder Soto is about to evict tenants from Barrington Plaza. Please use eminent domain to house the homeless. This is a safety concern for our society and for LA Metro. We cannot continue to turn a blind eye to homeless issues and it could be solved using eminent domain to house people. Placing homeless people in institutions does not and will not allow people to grow as individuals. We need a housing first policy.
		<b>Other</b>	Amber Enzen	Shut down Chiquita canyon

Public Comment		<b>Other</b>	Annie Chang	<p>Our neighbors , a caucasian couple, tenants of 1148 S Crofter Dr., Diamond Bar, CA 91789, moved in to our townhomes community on 11/15/2020. A week after, we discovered that they are not only heavy smokers, they manufacture illegal drugs inside their own townhouse. Since we share a common wall, chemicals would leak into our home as well, creating a very dangerous, unhealthy, and uncomfortable living environment. We would feel constant wooziness inside our own home. This couple are related to a well known gang. Maybe due to that they are Caucasian and we are Asian, unusual muted of our voices, even if we reported the situation many times to the Walnut/ Diamond Bar Sheriffs Department, we were rejected of our report request the first time by Deputy Lopez, and other times deputies would only come inside our home, then brushed off as there's no problem in our home. Still, the wooziness exists, to a point that our own home became uninhabitable. We're in hotels, motels, rented a studio apartment, and rented a room in a 5-bedroom house. We're even living on the streets on and off for a year. Nothing worked out. We were being gang stalked. We kept on reporting the situation to the local police and would be referred back to Walnut/ Diamond Bar Sheriff's Department. Eventually, I received an email in June 2023 stating that our community is the safest around our area, they did not find anything inside the neighbors home. However, I've never witnessed that they went to their home for investigation; we installed motion and sound sensor cameras inside and outside of our home. We should have been alerted when the cameras pick up unusual sounds as the common wall is never properly acoustically insulated from the manufacturer. But nothing triggered recordings indicating that investigations were conducted. As of to this date, February 24, 2024, I am still feeling wooziness from off gassing of this neighbor's manufacturing of drugs. These could be meth or fentanyl, I'm not able to tell as I've never taken these drugs. All I know is the chemicals are usually almost always odorless. Inhaling such would give me woozy affect, heart palpitation, headache, stinging or burning sensation on the skin. Most importantly, our community is located very close and in between two very nice schools, Walnut Elementary and South Point Middle School. My children are grown adults before this neighbors moved in, but I'm fearful of what I'll affects would present to the children with this drug house's existence in our neighborhood and community. Please help!</p>

Public Comment		Other	Dena Bogrow	My name is Dena Bogrow. I live in Saugus/Santa Clarita, I wanting to talk about the Chiquita Landfill. I have been experiencing severe asthma attacks over the last year if not longer. I will say as of 2019, I started experiencing symptoms of asthma that I needed to use inhaler's etc to manage. In the last year I've been in and out of Urgent Care and Emergency room for severe asthma that only steroid shot and Prednisone RX would be able to help. When I started to hear about the Chiquita Landfill issues I thought to myself is there a connection. It makes sense. I am asking along with others that the landfill be closed. The peoples health and wellness is most important for me included and for what ever the cost may be its the right thing to do. No one knows if these symptoms that the community is experiencing is short-term or long-term because there is no data for it. These gases, chemical toxins floating in the air can't be good and with the amount of complaints something has to be done.
			diana phan	The leadership of DHS seems to have a callous disregard for it's patients and employees. It had allowed it's facilities to decay, major hospitals leak everytime it rains, HVAC does not work, the elevators don't work frequently and the list goes on. This extends to it's own employees who dedicate their professional lives to taking care of our most vulnerable co-citizens. I would guess not a single physician or nursing executive leader exposed themselves to a single covid positive patient during the height of the pandemic, meanwhile their hardworking and dedicated employees risked their literal lives on a daily basis. When it comes to fairly compensating it's employees DHs would rather pay contractors (even from out of state let alone outside the county) 135% to 200% of the rate it pays it's own employees. Beyond being poor management, this is fiscally irresponsible use of county money. The raises and benefits that we are asking for will still result in less total compensation than contractors are currently receiving.
			Eliza DeBow	(UAPD BU 324/325 need fair contract now! I am a physician and needed to work overtime to accrue time for maternity leave and was worried the whole pregnancy not to have something go wrong because we do not have short term disability! > 60% of med school classes are made up Of women and if we want to keep female physicians and hire excellent new ones to care for the people of LA county then we need megaflec benefits, short term disability and protected maternity leave that isn't pieced together from overtime, vacation and sick time.

Public Comment		Other	Emily Zamora	Hello, my name is Emily Zamora, I am a youth organizer with Youth Justice Coalition, I want to urge the Board of Supervisors today to declare a state of emergency and free all eligible youth in the Los Angeles facilities. During the last BSCC meeting Los Padrinos and BJN were deemed unsuitable due to the basic rights and needs of our youth inside these facilities being unmet. Within the time that we were in Sacramento giving public comment at 4pm on Thursday, two kids overdosed on fentanyl in BJN, further proving why these facilities need to be shut down and why the BOS needs to issue a state of emergency. When youth are dying at the hands of probation why was Probation given an additional \$6.6 million to increase their salaries? BOS, instead of giving Probation the funds to spend \$833,600 per year to incarcerate one young person, we should be investing in Youth Justice Reimagined, we should be investing in spaces like YJC. Despite being new to the space, I can tell you that our community is in need of places like this who provide our youth with the necessary resources that are essential to their survival. Just last week I was able to help one of our students navigate the legal system to avoid being deported and have a path towards citizenship. This is the work our community needs, not reopening inhumane facilities that are a death trap for our young. I urge the Board to declare a state of emergency, free all eligible youth in LA facilities, and fund what works, Youth Justice Reimagined. Thank you.
			Emmanuel Velo	I've been a veterinarian for Los Angeles County for 19 years and never seen such veterinarian short staffing. We need a fair contract with better benefits and higher pay to be able to recruit and retain doctors. The situation is dire and we will not be able to continue our mission of saving animal lives , protect the public and provide outreach services to our constituents such as free spay/neuter and vaccine programs which is an invaluable resource to them given the high cost of veterinary services which will lead to animal overpopulation and increase in contagious diseases .
			Eric Fein	I am a pediatrician at Harbor UCLA and a resident in 90505 Torrance. I am writing to express my desire for Dept of Health Services senior leaders to meet the requests of the physician union currently in bargaining. At Harbor UCLA in Pediatrics we have many unfilled positions and many patients waiting for weeks for appointments for their kids. The improved pay and benefits would help us to fill positions quickly and meet the demand for appointments for kids, many of whom have special needs and require more intensive medical attention that we currently cannot provide.
			Hector De La Cruz	Please see attached statement.

Agenda #	Relate To	Position	Name	Comments
Public Comment		Other	Jay Roby	As a physician in UAPD, I am appalled at how negotiations have gone up until this point. We are 1.5 years into a three year contract that doesn't exist with no COLA. For six months, the county negotiators couldn't even be bothered to show up to negotiations. There is a simple solution that makes physicians feel better valued, increase recruitment success, and decrease disparity between physician benefit. It's called megaflex for all physicians. Yes, it is a monetary cost. But the benefit is worth the cost. In an environment with increasing physician shortages across specialties, dragging this out and continuing to deny COLA increases risks losing good physicians, increasing shortages and attracting inferior physicians going forward. Let's make megaflex and the cola happen and move forward.
			Jonathan Allen	Provide appropriate contracts for doctors in the county, including leave and compensation. It's surprising that the county remains oblivious to fact that they cannot recruit or maintain a physician workforce throughout the county. To restate well known facts DHS has 25% open physician spots, DMH with an incredible 50%, and the jail system with an insane 70%! Any private organization with these levels of unfilled positions would have long since collapsed. The oft repeated "part of the draw of working at county is serving the underserved" will not continue to work when physicians feel that they cannot effectively do their jobs, be compensated appropriately or have adequate time for vacation or even maternity/paternity leave.
			Kathy Cady	<p>Victims Unite LA is a coalition of agencies and individuals dedicated to empowering crime victims and their families who have been impacted by crimes committed in Los Angeles County. We promote putting the needs of crime victims first.</p> <p>Victims Unite LA is writing to inform you and highlight that the parole grant rate for Los Angeles County is 7-8 % higher than other counties, victims' rights are being violated, and that crime victims who want to assert their right to attend these hearings must do so by themselves.</p> <p>Victims Unite LA asks that you demand that the District Attorney's Office (1) cease the "pilot" program and once again send documents to the Parole Board; (2) assist with notifying victims; (3) provide relevant information to victims to assist them in preparing for parole hearings; and (4) attend parole hearings to ensure that public safety is not jeopardized.</p> <p>Each month there are between 150-200 lifer parole hearings for inmates with commitment crimes from Los Angeles County. Defendants who are convicted of murder, attempted murder or aggravated sexual assault crimes can be sentenced to a "life" sentence. Before these lifer inmates can be released, they go through a hearing in front of the Parole Board who determines whether the inmate poses a current unreasonable risk to public safety or if he or she is "suitable" for release.</p>

## Correspondence Received

Victims/Survivors of rape, child molestation and families of murder victims have a right to attend and speak at these parole hearings. Since December 8, 2020 Los Angeles County prosecutors are no longer allowed to attend parole hearings. Victims who attend parole hearings of the person who raped them or murdered their child must do so alone.

In preparation for a parole hearing, the Board of Parole Hearings (BPH) provides the inmate's prison file to the district attorney's office that prosecuted that inmate. Prosecutors throughout the state then provide information to victims and surviving family members of murder victims to help prepare emotionally and mentally for a possible parole grant, or conversely gives them information on why the inmate continues to pose an unreasonable risk to public safety. Since July 2021, Los Angeles County prosecutors have been precluded from providing any information to victims to help them prepare for their offender's parole hearing.

Prosecutors in other counties routinely send records to the state prison to the parole board to assist them in this important task. As of July 2022, Los Angeles County, however, started a "pilot" program and no longer sends any records to the parole board. This "pilot" program, however, is "pilot" in name only as it has no parameters, measures of success or time frame for review. The result is that the parole board does not have police reports, probation reports, transcripts of the defendant's statements to police, the trial prosecutor's Statement of View, or any other information about the underlying crime with which to evaluate the inmate's credibility and recounting of the crime itself to decide whether the inmate is minimizing, denying, changing, or otherwise misrepresenting the facts of his crime or his role in the crime.

Victims, including rape victims or murder victims' family members, can register with California Department of Correction and Rehabilitation (CDCR) to get notice of parole hearings through BPH. However, only 25% of victims of crimes in Los Angeles have registered to receive notice of parole hearings. Many victims haven't registered, however, because they never thought the defendant would come up for parole. But the laws have changed.

- Prisoners who are over 50 years old and have served 20 years in custody are now entitled to an Elder Parole hearing regardless of their sentence. (Penal Code 3055).
- Anyone who was 25 years or younger at the time they committed a crime can be eligible for a youthful parole hearing after 15, 20 or 25 years. (Penal Code 3051).
- Anyone who was under 18 years old when they committed a crime and sentenced to life without the possibility of parole is eligible for parole hearing after 25 years (Penal Code 3051).

Some examples of the new parole laws include:

- In a case where a 30-year-old murderer was sentenced to 60 years to life, when the inmate turns 50 years old, he is eligible for an elder parole hearing.

**PUBLIC REQUEST TO ADDRESS  
THE BOARD OF SUPERVISORS  
COUNTY OF LOS ANGELES, CALIFORNIA**

MEMBERS OF THE BOARD

HILDA L. SOLIS  
HOLLY J. MITCHELL  
LINDSEY P. HORVATH  
JANICE HAHN  
KATHRYN BARGER

**Correspondence Received**

- In a case where a 25-year-old was convicted of multiple kidnap-for-rape and rape counts and sentenced to 300 years to life, the rapist is eligible for a parole hearing after serving 25 years.
- A 17-year-old who committed multiple gang murders and was sentenced to life without the possibility of parole is eligible for a parole hearing after 25 years in custody.

Most victims, however, do not know that the parole laws have changed and that the person who raped them or killed their family member is getting a parole hearing. The District Attorney's Office was helping to notify the 75% of victims that never registered with CDCR. Although the written policy of the District Attorney's Office was that "this Office will continue to meet its obligation to notify and advise victims under California law," that changed in October 2022. The District Attorney's Office is no longer notifying victims of upcoming parole hearings. Victims who thought the person who raped them or murdered their loved one would never get a parole hearing will not be notified that a parole hearing has now been set. They have a right to attend and speak but because they don't know about the hearing, their voice will remain silent.

Not surprisingly, not having a prosecutor at parole hearings has resulted in a substantially higher grant rate. In 2021, the grant rate was 31% when a prosecutor attended a parole hearing and 38% when a prosecutor was absent. In 2022, the grant rate was 25% when a prosecutor participated in the parole hearing but jumped to 33% without a prosecutor. What that means is hundreds of inmates serving a life sentence have been released into Los Angeles neighborhoods because a prosecutor wasn't there to represent the People, advocate for public safety or ask clarifying questions.

The absence of a prosecutor puts the public at risk. Not providing records to the parole board endangers public safety. Victims of crime committed in Los Angeles County are treated differently from victims in every other county. Not providing victims with information on how an inmate has behaved in prison causes them unnecessary trauma and additional anxiety before the hearing.

Victims Unite LA hopes to raise awareness of victims' concerns and provide relevant input and anecdotal evidence on topics related to crime victims and criminal justice. We are available to respond to questions or requests for information on these important issues as we have several subject matter experts with decades of experience working with victims and survivors. We can be reached at [VictimsUniteLA@gmail.com](mailto:VictimsUniteLA@gmail.com)

We look forward to working with you as we seek justice for crime victims.

#Victims Unite LA

Sarah Olaguez	
Sharon Lagman-Mino	I support the physicians of UAPD in getting a FAIR contract that prioritizes patient care by providing the benefits and pay that will make the County competitive with other employers in the region.  We urge you to do the right thing and put your medical professionals – and the patients who rely on you – first.
Sheila Thomas	Please help Castaic from the Chiquita Canyon Landfill we are all be affected and getting sick. Something needs to be done right now.
Stacey Williams	I am a Castaic resident with a home 2/10ths of a mile away from Hasley Canyon Park, where the very high benzene measurements were taken. I visited my family doctor and ophthalmologist last summer, trying to find out why I would suddenly be getting migraines and suffering blurry vision at age 63, only to find out that many of my neighbors are suffering the same symptoms. I also had to make a visit to the vet to get an anti-emetic for my dog. I have since emptied my backyard spa, as it is obviously not possible to enjoy my backyard while this is happening, and am confined indoors with HEPA filters running in almost every room.  This is unacceptable and unsustainable. Please act now to revoke Chiquita Canyon's CUP and require an immediate cleanup of these hazardous conditions.  Thank you,  Stacey Williams 29554 Chelsea Street Castaic CA 91384
Stephanie Siordia	Council, First, id like to thank Supervisor Mitchell and her administrative Staff for partnering with Street Racing Kills and Cindi Enamorado (Sister of Victim to street takeover, Raymond Olivares) Takeback Our Streets Event on Saturday Fe. 24th, it was productive and successful. I would like to see a fully revised or new ordinance/policy/legislative be presented for LA County to regulate and enforce these illegal takeovers, by ensuring education/awareness on traffic safety for youth, and acknowledging Street Takeovers is a PUBLIC HEALTH crisis.
Steven Lai	see attached letter
Tabitha Cheng	We, as physicians for the county of Los Angeles DHS, are advocating for our patients who are frustrated with extended wait times, limited access to specialists, and risky appointment delays. Your constituents deserve better, and they are looking to you, as their County Supervisors, to take action. It is crucial to establish a contract that emphasizes patient care by offering competitive benefits and compensation to keep the County competitive in the

			job market. We encourage you to prioritize the well-being of both our medical professionals and the patients they serve by making the right decisions.

# San Gabriel Band of Mission Indians

## Gabrieleno-Tongva

February 16, 2023

Regarding: Opposition to HR 6859- San Gabriel Band of Mission Indians

Executive Office of BOS,

I am writing to you on behalf of the San Gabriel Band of Mission Indians to express our strong opposition to bill HR 6859. HR6859 is a bill proposed by Congresswoman Sydney Kamlager-Dove to provide Federal Recognition to the Gabrieleno/Tongva Nation.

The Gabrieleno/Tongva Nation being represented in this bill, is **NOT** our tribe. The Gabrieleno/Tongva Nation's primary objective appears to be the pursuit of profit through gambling. Our efforts are focused on education, cultural preservation, and community development.

As the Chairman of our tribe, it is my duty to advocate for the best interests of our community, and this bill presents a significant threat to our tribe's well-being and sovereignty.

First and foremost, it is essential to understand the historical context of our tribe. The San Gabriel Band of Mission Indians has been an integral part of the Los Angeles community since time immemorial. Our tribe has a long-standing presence in this region, and we have worked tirelessly to preserve our culture, support our community, and maintain our heritage. We have established meaningful relationships with local schools, government officials, and community organizations, actively contributing to the fabric of Los Angeles. However, we are now facing a challenge from a newly formed group known as the Gabrieleno/Tongva Nation. This organization, which lacks the historical lineage and cultural ties that define our tribe, is attempting to bypass the federal process to establish a casino in Los Angeles. It is evident that this group is backed by special interest money and is solely motivated by the prospect of financial gain through the establishment of a casino.

Our tribe strongly opposes bill HR 6859 because it would enable this newly formed group to circumvent the established federal process for tribal recognition and casino development. By allowing this bill to proceed, the state would be endorsing a process that undermines the sovereignty of recognized tribes like ours and disregards the principles of fairness and equity.

In conclusion, I urge you to stand with our tribe in preserving our sovereignty, heritage, and community ties and oppose HR6859. By supporting our tribe, you are upholding the values of fairness, equity, and respect for indigenous communities. We are committed to continuing our efforts to engage with the community, support local initiatives, and preserve our cultural heritage for future generations.

Thank you for considering our concerns, and I hope to have the opportunity to discuss this matter further with you.

Sincerely,

Chief Anthony Morales Chairman, San Gabriel Band of Mission Indians

February 24, 2024

Victims Unite LA is a coalition of agencies and individuals dedicated to empowering crime victims and their families who have been impacted by crimes committed in Los Angeles County. We promote putting the needs of crime victims *first*.

Victims Unite LA is writing to inform you and highlight that the parole grant rate for Los Angeles County is 7-8 % higher than other counties, victims' rights are being violated, and that crime victims who want to assert their right to attend these hearings must do so by themselves.

Victims Unite LA asks that you demand that the District Attorney's Office (1) cease the "pilot" program and once again send documents to the Parole Board; (2) assist with notifying victims; (3) provide relevant information to victims to assist them in preparing for parole hearings; and (4) attend parole hearings to ensure that public safety is not jeopardized.

Each month there are between 150-200 lifer parole hearings for inmates with commitment crimes from Los Angeles County. Defendants who are convicted of murder, attempted murder or aggravated sexual assault crimes can be sentenced to a "life" sentence. Before these lifer inmates can be released, they go through a hearing in front of the Parole Board who determines whether the inmate poses a current unreasonable risk to public safety or if he or she is "suitable" for release.

Victims/Survivors of rape, child molestation and families of murder victims have a right to attend and speak at these parole hearings. **Since December 8, 2020 Los Angeles County prosecutors are no longer allowed to attend parole hearings.** Victims who attend parole hearings of the person who raped them or murdered their child must do so alone.

In preparation for a parole hearing, the Board of Parole Hearings (BPH) provides the inmate's prison file to the district attorney's office that prosecuted that inmate. Prosecutors throughout the state then provide *information* to victims and surviving family members of murder victims to help prepare emotionally and mentally for a possible parole grant, or conversely gives them information on why the inmate continues to pose an unreasonable risk to public safety. **Since July 2021, Los Angeles County prosecutors have been precluded from providing any information to victims to help them prepare for their offender's parole hearing.**

Prosecutors in other counties routinely send records to the state prison to the parole board to assist them in this important task. **As of July 2022, Los Angeles County, however, started a "pilot" program and no longer sends any records to the parole board.** This "pilot" program, however, is "pilot" in name only as it has no parameters, measures of success or time frame for review. The result is that the parole board does not have police reports, probation reports, transcripts of the defendant's statements to police, the trial prosecutor's Statement of View, or any other information about the underlying crime with which to evaluate the inmate's credibility

and recounting of the crime itself to decide whether the inmate is minimizing, denying, changing, or otherwise misrepresenting the facts of his crime or his role in the crime.

Victims, including rape victims or murder victims' family members, can register with California Department of Correction and Rehabilitation (CDCR) to get notice of parole hearings through BPH. However, only 25% of victims of crimes in Los Angeles have registered to receive notice of parole hearings. Many victims haven't registered, however, because they never thought the defendant would come up for parole. But the laws have changed.

- Prisoners who are over 50 years old and have served 20 years in custody are now entitled to an Elder Parole hearing regardless of their sentence. (Penal Code 3055).
- Anyone who was 25 years or younger at the time they committed a crime can be eligible for a youthful parole hearing after 15, 20 or 25 years. (Penal Code 3051).
- Anyone who was under 18 years old when they committed a crime and sentenced to life without the possibility of parole is eligible for parole hearing after 25 years (Penal Code 3051).

Some examples of the new parole laws include:

- In a case where a 30-year-old murderer was sentenced to 60 years to life, when the inmate turns 50 years old, he is eligible for an elder parole hearing.
- In a case where a 25-year-old was convicted of multiple kidnap-for-rape and rape counts and sentenced to 300 years to life, the rapist is eligible for a parole hearing after serving 25 years.
- A 17-year-old who committed multiple gang murders and was sentenced to life without the possibility of parole is eligible for a parole hearing after 25 years in custody.

Most victims, however, do not know that the parole laws have changed and that the person who raped them or killed their family member is getting a parole hearing. The District Attorney's Office was helping to notify the 75% of victims that never registered with CDCR. Although the written policy of the District Attorney's Office was that "this Office will continue to meet its obligation to notify and advise victims under California law," that changed **in October 2022. The District Attorney's Office is no longer notifying victims of upcoming parole hearings.** Victims who thought the person who raped them or murdered their loved one would never get a parole hearing will not be notified that a parole hearing has now been set. They have a right to attend and speak but because they don't know about the hearing, their voice will remain silent.

**Not surprisingly, not having a prosecutor at parole hearings has resulted in a substantially higher grant rate.** In 2021, the grant rate was 31% when a prosecutor attended a parole hearing and 38% when a prosecutor was absent. In 2022, the grant rate was 25% when a prosecutor participated in the parole hearing but jumped to 33% without a prosecutor. What that means is hundreds of inmates serving a life sentence have been released into Los Angeles neighborhoods *because* a prosecutor wasn't there to represent the People, advocate for public safety or ask clarifying questions.

The absence of a prosecutor puts the public at risk. Not providing records to the parole board endangers public safety. Victims of crime committed in Los Angeles County are treated differently from victims in every other county. Not providing victims with information on how an inmate has behaved in prison causes them unnecessary trauma and additional anxiety before the hearing.

Victims Unite LA hopes to raise awareness of victims' concerns and provide relevant input and anecdotal evidence on topics related to crime victims and criminal justice. We are available to respond to questions or requests for information on these important issues as we have several subject matter experts with decades of experience working with victims and survivors.

We can be reached at [VictimsUniteLA@gmail.com](mailto:VictimsUniteLA@gmail.com)

We look forward to working with you as we seek justice for crime victims.

#Victims Unite LA

## Comments by Zulfiqar Ali

### Los Angeles County Association of Environmental Health Specialists Chairperson

On Tuesday, Feb. 27, members of the Los Angeles County Association of Environmental Health Specialists plan to hold a vigil outside the Kenneth Hahn Hall of Administration, where the Los Angeles County Board of Supervisors will be meeting that morning.

The vigil will be an opportunity to grieve and honor the life and memory of our colleague Heather Hughes, an environmental health specialist II. Heather died Feb. 8 after jumping from the roof of the Koreatown building at 3530 Wilshire Boulevard, where she worked for the Los Angeles County Department of Public Health's Environmental Health Division.

As the chairperson of the Los Angeles County Association of Environmental Health Specialists, I speak for all of us in expressing our deepest condolences to her family and friends as they mourn this heartbreaking loss.

While we cannot know for certain the reasons for Heather's decision to end her life, we do know that there is deep dissatisfaction among her colleagues at the Environmental Health Division. That has been the case for nearly five years, and Heather's death has moved us to speak up to avoid another tragedy at the Environmental Health Division.

We urge the Los Angeles County Board of Supervisors to conduct its own investigation of Heather's death and the workplace conditions that have created so much stress for all of us who are working on the frontlines of our County's environmental health system.

We have shared our concerns about workplace management with the Environmental Health Division in the past. Our members previously issued a vote of ["no confidence"](#) in the division's management, and we have renewed this vote in the wake of Heather's death.

In 2023, an [employee morale survey](#) of employees in the Environmental Health Division found more than 3 out of every 4 employees had considered leaving their job because of the stress. Two out of three said they wouldn't recommend working at the Environmental Health Division.

Today, as management has acknowledged, the department is short-staffed. Its workforce is down by at least 38%, according to Dr. Barbara Ferrer. And many of us regularly work overtime. We have also seen that some of the County's restaurants have gone without an environmental health inspection for up to a year, placing the public's health at risk. Protecting the health of the County's workforce at the Environmental Health Division and the public's health requires an investigation of Heather's death and the Division's workplace conditions. We call on the Board of Supervisors to please act now and launch an investigation.

To the LA County Board of Supervisors,

I am writing today, as a community member of Val Verde. As a community we are greatly affected by the decisions, members of this board made, in renewing the conditional use permit and continuing to allow Chiquita Canyon landfill to operate. The odors and toxic leachate coming from this landfill is affecting our air, water, use of our land and homes, our physical and mental health. How can you sit on this board knowing you can change the lives of residents suffering, physically, mentally & financially. The only relief residents have seen in over 10 months, was the \$2,000 max for a few electrical bills. We are paying taxes, mortgages, high electrical bills and so much more to continue to live in our homes that are making us sick. I call on this board to take bigger action to support and bring relief to the communities affected by this landfill. Yes the landfill needs to step up and support and give relief as well, but members of this board gave, and continue to allow the landfill to operate. Clearly all this board seems to care about is the money this landfill is making them. Well I for one think it is time to pay your dues to residents affected by this landfill and fast. As residents we were the ones who suggested and pushed for the little relief we have gotten. At this point, it is not our jobs to figure how to support this community, that is an administrative burden we do not need to carry. The county needs to step up and do the work and quickly to support the emotional, physical and financial burden that has been placed on this community, due to the landfill.

-Sarah Olaguez (Val Verde Resident)

## To the Los Angeles County Board of Supervisors: It's Time to Stand with Our County Doctors

Honorable Supervisors,

As a concerned resident of Los Angeles County, I am deeply troubled by the ongoing mistreatment of our dedicated county physicians. I've learned that these frontline heroes, who tirelessly serve our most vulnerable communities, are being undermined by those in positions of power. This is an injustice that we cannot afford to ignore.

It's a matter of basic human decency that doctors who devote themselves to public health be treated with respect and receive fair compensation. Yet, reports of understaffing, overwhelming workloads, and inadequate pay paint a picture of a system that disregards the very people it relies on. If this continues, I fear our county healthcare system designed to protect the most vulnerable will crumble.

Think of the consequences:

- \* Longer waits, poorer care: Fewer doctors forced to manage more patients means delayed diagnoses, less personal attention, and a decline in the quality of care for those who need it most.

- \* Exodus of talent: Why would a skilled physician put up with these conditions when they could earn more and work in a less stressful environment elsewhere? This risks creating a dangerous shortage of good doctors right here in our county.

- \* A failing safety net: Our county doctors are the backbone of the healthcare system for those without insurance or with limited resources. If they leave, who will fill that void?

Supervisors, the people of Los Angeles County are depending on you. You have the power to turn this situation around. I urge you to support a fair contract for our county physicians – a contract that provides:

- \* Competitive pay: These doctors shouldn't be penalized for choosing to serve our communities. Their salaries need to be in line with their skills and experience.

- \* Manageable workloads: No one benefits when doctors are rushed and overstretched. Ensure they have the time to give each patient proper attention.

- \* A voice in decision-making: County doctors understand the challenges firsthand. Include them in discussions about resource allocation and policy changes.

I stand firmly with our county physicians. They deserve our unwavering support, and it's critical that you champion their cause. Please, stand in solidarity with the doctors who safeguard the health of our most vulnerable, and fight for a system that truly values their essential work.

Sincerely,

Rafael Lemus-Rangel

Concerned Resident of Los Angeles County

Tauheedah Shakur Director of organizing with youth justice coalition. I would like to start off with a quote from Dr. King in honor of Black History Month. Injustice anywhere is a threat to justice everywhere. 298 youth that are currently incarcerated have 36 NEW charges since being locked up. It sickens me that this is the type of world my nieces and nephews will grow up in This is a true injustice . This is proof that the system that you all choose to invest in is trying to keep kids locked up and caged like animals .

The BSCC have already deemed the halls unsuitable. DO NOT re-open older, dangerous probation facilities or keep LP and Barry J. Open after the 60 days suitability compliance window has closed. Instead what you can do and should do is invest in youth justice reimagined.

- f. Lakewood
- g. Paramount
- h. Harbor City
- i. Long Beach

And sister counties Riverside, San Bernardino, Los Angeles,

This "Public Awareness Campaign Event is intended to bring awareness to the community via;

- 1. Radio
- 2 . Television
  
- 3 . Newspaper
- 4 . Social media
  - a. Tic Tok
  - b. Facebook
  - c. X (Formally Twitter)
  - d. Instagram
  - e. Billboards
  - f. Public rallies

This campaign event is planned to reach 1 million to 100 million viewers annually over a five-year period from 2023-2028"

A RESOLUTION OF THE City Council authorizing the City Manager enter a long- term **Integrated public awareness management** contract agreement with RCTC to provide this "Emergency Citywide Public Awareness Program" for fiscal year 2023-2024 budget.

**SUMMARY**

**Cindy Emamorado, founder of the 'Raymond Committee Takeover Committee" event**, requests the CITY COUNCIL to adopt a Resolution authorizing the City Manager to enter a long-term

**RCTC Proposed  
MOU Agreement  
PAGE3**

contract agreement with RCTC. For the purpose of providing services to the city of Compton with an "Emergency Citywide Media

**Abatement Program"** to mitigate the street takeover epidemic that is occurring in and on city owned or public properties for the amount not to exceed One Million Dollars (\$1,000,000.00).

Using local nonprofits and local business to work in the city to catch up with the years of deferred maintenance and provide services that will allow the city work force to maintain the work after its completion.

### **BACKGROUND**

For the past three to five years the City of Compton and Unincorporated areas of Compton have been terrorized by the epidemic of unruly vehicular conduct that has become a threat to the health and safety of the citizens. This epidemic has risen to the level of a public nuisance and should be declared a state of emergency. The city has been contracting services from vendors and contractors from outside the city limits, to do work for the city, who have no idea or vested interest in the city and/or don't know the needs of the city.

The citizens of the City of Compton have requested City Council develop a program clean up the out-of-control street takeover problem or **Integrated pest management** throughout the city.

District 3 council member Jonathan Bowers and District 2 councilmember Andre Spicer have both requested the City Manager to come up with a plan to mitigate this problem and declaring it an emergency.

#### **Scope of Work**

1. Educate the youth through driver training education in the high schools.
2. Psa's announcement on a by-weekly, monthly and simi-annual media campaign
3. Meet with local city councils to join in a joint Street Takeover Legislation that will ban such activity throughout the county and eventually the State of California.
4. School driver education classes
5. Meeting with school board.
6. Meeting with county board of supervisors.
7. Meeting with CHP.
8. Meeting with California Assembly

**9. RCTC Proposed  
MOU Agreement  
PAGE4**

10. Spray weeds inside Compton Creek
11. Spray weeds along top outer edge of Compton Creek

**Stephanie Siordia, RCTC, Stakeholder and Community Organizer** has started a grassroots campaign that has been providing public awareness to issues in the city of Compton regarding, graffiti, speeding, gang violence, pot holes, corruption and most recently street takeovers. This issue became center in February 19, 2023 when Raymond Steven Olivares who became the latest victim in the senseless exhibitions that are cheered on by spectators and have terrorized and at times held captive and threatened the health and safety of the citizens of the city of Compton California and surrounding cities.

This grassroots campaign has rapidly gathered the support of dozens of for profit and nonprofit entities and community members that are will to come up with solutions to combat this epidemic that has taken the lives of innocent people has developed a management plan to provide counseling and consulting services to the residents in the City of Compton since 1983 and most recently, since July 2022. The City Manager has requested and City Council has approved a resolution in the amount of **\$500,000.00** to hire a consultant from the community to provide services for the City of Compton, who can identify the problems and provide solutions for the city.

The City Council and the Mayor has made a commitment to attract local business or to allow existing business an opportunity to improve their operations and who are dedicated to providing the General Public, with a CLEAN, SAFE AND FRIENDLY place to live.

Hopefully this process can and should extend to nonprofit organizations within the city that can provide services to the citizens of the city of Compton.

**INTENT OF MEMORANDUM OF UNDERSTANDING**

The adoption of this Resolution will allow the City Manager to write this, " Emergency Service Abatement Program" into the 2023-2024 budget in June 2023.

This proposed resolution will help to mitigate some of the issues out lined in the October 13, 2022 letter from the state auditor's report for services that will help to mitigate the health and safety risks to the City of Compton.

For services rendered, that will be a benefit to the citizens and residents of the City of Compton for the period beginning May 1, 2023 to July 1, 2023 and will bere-negotiated July 1, 2023 through July 1, 2024 in the amount not to exceed \$500,000.00 for the first phase of the abatement.

**Associates"**

- a. Street racing kills (SRK) Non-Profit
- b. Streets Are For Everyone (SAFE)
- c. Willowbrook CAP
- d. Inner city child development and youth foundation Inc.
- e. NAEJA

<b>r. Candance</b>	<b>\$10,000-\$100,000</b>
<b>s. Stephine Siordia, R CT</b>	<b>\$10,000-\$100,000</b>
<b>t. Raul Seyury</b>	<b>\$10,000-\$100,000</b>

### **FISCAL IMPACT**

None - The fiscal impact is minimal council passed a resolution in 2022 for consultant. The city Manager has been allocated in the 2022 budget \$500,000.00 to be used for consulting services. Also, this movement will open the doors to additional funding from grants for or from the DOD, DOE, HLS and DOT.

### **RECOMMENDATION**

**The City Manager is requesting;** the City Attorney recommend to the CITY COUNCIL to approve, adopt and implement this proposed "Emergency Citywide Public Awareness Abatement Program" long term Agreement request with RCTC Initiative in an amount not to exceed \$1,000,000.00 for services to be rendered and that are listed herein and/or will be supplement if needed approval FOR FOWARDING

**Thomas, City Manger**

#### **NOTE:**

*This is the first formal draft proposal to be considered by the committee, please make your comments, changes or suggestions keeping in mind the purpose and goal to pass legislation and create a movement to bring change to the city of Compton and the state of California.*

*The following documents have been drafted that will help to keep moving this movement forward:*

- a. *Street Takeover Legislation*
- b. *Citywide Media Campaign*
- c. *District # Master Plan*
- d. *State Auditor Compliance Timeline Plan*

**We need to plan a committee meeting to:**

- a. **brain storm other ideas**
- b. **come into agreement on the direction of the movement**

- c. put together presentation to be presented to target audiences
- d. schedule meetings with officials to discuss this movement with
- e. Draft a Resolution to be reviewed by the City Attorney to be introduced, voted, passed and implemented.

**The exact strategic plan of action needs to be developed by the committee.**

**This Legislation shall be called "RAYMONDS LAW" OR "Raymond Olivera Legislation" aka Compton California EMERGENCY Anti-Crime Legislation.**

**END OF DRAFT**

**INTENT OF MEMORANDUM OF UNDERSTANDING**

- K. The adoption of this Resolution will allow the City Manager to write this, " Emergency Weed Abatement Program" into the 2023-2024 budget in June 2023.
- L. This proposed resolution will help to mitigate some of the Issues out lined in the October 13, 2022 letter from the state auditor's report for services that will help to mitigate the health and safety risks to the City of Compton.
- M. For services rendered, that will be a benefit to the citizens and residents of the City of Compton for the period beginning May 1, 2023 to July 1, 2023 and will be re- negotiated July 1, 2023 through July 1, 2024 in the amount not to exceed \$500,000.00 for the first phase of the abatement.

**J. FISCAL IMPACT**

- K. None - The fiscal impact is minimal council passed a resolution in 2022 for consultant. The city Manager has been allocated in the 2022 budget \$500,000.00 to be used for consulting services.

“The revenues from citations would cover the costs of other traffic calming measures such as speed feedback signs. The goal is not to collect fines, but, rather, to change behavior.

## WILL SPEED CAMERAS INFRINGE ON MY PRIVACY?

The system would be heavily regulated under the city's Digital Privacy program. Cameras would capture images of the rear license plate of vehicles traveling 11 miles per hour or more over the posted speed limit. Speed camera images would only be collected by the City and not be shared with any outside parties. If a violation were issued, images would be kept for 60 days. Otherwise, the City would delete images after five days.

The City Council supports this legislation. DOT has over 200 safety projects planned for 2023, but this pilot can help address speeding on San Jose streets sooner than major infrastructure overhauls can take place. Follow our social media accounts on Facebook and Twitter to keep up with updates about AB 645.”

Council, First, id like to thank Supervisor Mitchell and her administrative Staff for partnering with Street Racing Kills and Cindi Enamorado (Sister of Victim to street takeover, Raymond Olivares) Takeback Our Streets Event on Saturday Fe. 24th, it was productive and successful. I would like to see a fully revised or new ordinance/policy/legislative be presented for LA County to regulate and enforce these illegal takeovers, by ensuring education/awareness on traffic safety for youth, and acknowledging Street Takeovers is a PUBLIC HEALTH crisis.

To The Los Angeles Board of Supervisors,

I am a registered nurse, I work long hours to provide life saving measures for members of my community. Yet I come home, and am subjected to the lack of protection from actions of this board. For months we have been experiencing suffocating landfill gases. And now it has come to light that the landfill has tried to illegally dispose of toxic leachate, which ironically Chiquita Canyon, a non-hazardous landfill is producing, into another landfill, which the Department of Toxic Substances Control has issued Chiquita Canyon Landfill a violation, due to the high concentration of benzene found in the leachate. The landfill and the county have acknowledged that during recent rain storms, this toxic leachate seeped into the Santa Clara River, which supplies water to millions of Californians, and feeds into the ocean. The EPA has stated that the landfill and I quote “poses an imminent danger” to the communities surrounding the landfill. This is a public health hazard. There needs to be immediate, support from both the landfill AND the county, to support residents both physically, mentally and financially, as this has placed extreme stress, illness and financial burdens on residents in the surrounding areas.

February 27, 2024

Honorable Supervisors,

My name is Hector Dela Cruz. I am a Chief Environmental Health Specialist in the Department of Public Health, Environmental Health and a SEIU Local 721 steward. It is my responsibility to oversee the enforcement of health regulations related food safety, housing, and public swimming pools, and to supervise the Environmental Health Specialist that execute the enforcement activities. Today, I am standing in solidarity with all Los Angeles County (LAC) Environmental Health Specialists in grieving the loss of our fellow colleague Heather Hughes. This unfortunate tragedy has amplified our concerns about the culture of the department and its impact on the workforce who provide critical services to protect the health of LAC Communities. The combination of a toxic work environment, short staffing, and the resulting burnout from heavy workloads has resulted in morale across the division to plummet to the lowest point I have ever seen and experienced in my 27 years with Environmental Health.

With an understanding the morale crisis did not occur overnight, we hope to be a part of the solution in fostering a healthy and safe work environment for ourselves and the employees we supervise. It is in this spirit that we stand in alignment with our labor siblings in asking for an investigation to be conducted by this board regarding the culture and work environment within the Department of Public Health, Environmental Health. A fresh perspective from outside of the department is the best solution in changing the culture from within. Thank you.
