**Proclaiming March 2024 as National Social Work Month**

The National Association of Social Workers has designated March as “National Social Work Month” in recognition of the positive and significant impact social workers have in the lives of children, adults, seniors, and families countywide. This year’s theme is “Empowering Social Workers.”

Each day social workers help transform lives and create resilient communities for people to live more fulfilling, enriched lives. They assist Los Angeles County (County) residents in accessing healthful foods, affordable housing, quality healthcare, public transportation, and other supportive services. Social workers help children, parents, caregivers, older adults, and those who are disabled to thrive in their homes and communities. They also advocate at a systems level to ensure laws and policies are adopted and implemented so everyone can access vital services. Today, we acknowledge the heroic contributions of social workers throughout County, appreciating their efforts in protecting, advocating, and standing up for all County residents. Social
