22.		Favor	Ambar Rivera	Hi, my name is Ambar Rivera, I'm a researcher at Communities for a Better Environment, an environmental and social justice organization in Huntington Park, CA. I'm here to support item number 22, Long Beach East Los Angeles Corridor Mobility Investment Plan that focuses on Community Programs. As it stands, the LB-ELA desperately needs resources and expertise to prioritize and implement community programs. Programs such as Air Quality Monitoring, Greenhouse Gas Emission reductions, or housing stabilization policies are critical to the livelihoods of communities living near the 710 freeway. Additionally, I recommend that LA County work with universities that already have invested time and resources in measuring the impacts of policies such as those listed in the Community Programs. Overall, I support this motion because interagency coordination and community collaboration will ensure the prioritization and success of the community programs and address the legacy of environmental injustices.
				Thank you
