Agenda #	Relate To	Position	Name	Comments
19.		Favor	Karen Eyres	
			Maggie Gardner	LA Waterkeeper and OurWaterLA Coalition have been involved in the SCWP since the Measure W campaign. We are excited for this motion because as successful as the program has been, there are some areas that we think haven't had as much progress as we had originally hoped such as increased green space creation and strong community engagement. We see this motion as a mechanism to help usher in the next iteration of the SCWP. We want to reiterate our support for shifting the program to become proactive through the development of a vision for the program that includes specific goals and targets; updated metrics and definitions, especially around disadvantaged communities, community investment benefits, community engagement, and nature-based solutions; streamlined processes that provide enough time for the various committees to review and consider projects before them; steps towards rolling out the community engagement, education, and workforce development programs as soon as possible; and strategies to further engage schools and increase school greening projects funded. We ask that you vote in favor of this motion.
		Oppose	B Citizen	Fees will be passed onto citizens DWP is already excessively high
