Set Matter 1.		<b>Favor</b>	Daria Brooks	If the Board had acted upon creating the promised KOA- style parking lots for those in RVs who continue to refuse housing and services, they would not now be menacing our residential neighborhoods. Our property taxes are being squandered while we spend our savings on home security systems and hiding indoors. We should send those costs to the County for reimbursement!
			GENEVIEVE M Clavreul	This report should be given it's own meeting so critical issue can occur.
			Yoanna Acosta

Set Matter 1.		<b>Oppose</b>	Monisha Parker	<p>Dear Board of Supervisors,</p> <p>I am writing to inquire about the number of Black Americans experiencing homelessness in Los Angeles County. As a concerned citizen, I believe it is important to address the issue of homelessness in our community, particularly for the Black population.</p> <p>According to recent data from the Los Angeles Homeless Services Authority, there has been a significant increase in the overall homeless population in our county. However, I am specifically interested in understanding the number of Black Americans affected by this crisis.</p> <p>As you are well aware, systemic racism and discrimination have long plagued our society, leading to disproportionate levels of poverty and housing insecurity among Black individuals and families. I am deeply concerned about the impact of these inequalities on the homeless population in our county, and I believe it is imperative for us to have a comprehensive understanding of the issue in order to effectively address it.</p> <p>I understand that collecting data on race and ethnicity can be a sensitive subject, but I urge the Board of Supervisors to prioritize this information in order to better understand the needs of our Black homeless population. By identifying and acknowledging this specific demographic, we can develop targeted and culturally competent solutions to address their unique challenges.</p> <p>Furthermore, I would also like to request that the Board of Supervisors make this data publicly available. Transparency and accountability are crucial in addressing social issues, and I believe that sharing this information with the public will demonstrate our county's commitment to addressing the issue of homelessness.</p> <p>Thank you for your attention to this matter. I look forward to your prompt and thorough response.</p> <p>Sincerely, Monisha Parker</p>
		<b>Other</b>	Jeff Haller	Take care of this situation
