The following individuals submitted comments on agenda item:				
25.		Favor	Daria Brooks	We applaud Supervisor Hahn for halting the ill-advised transfer of our Parking Enforcement Department. Our officers are being used as scapegoats, their tasks having been compromised by the Supervisors' refusal to mandate that RVs park in commercial RV parking resorts, rather than destroying our residential neighborhood streets. Sweepers and officers cannot be held responsible for doing what our elected officials refuse to do: Bring sanity back to our streets!
			GENEVIEVE M Clavreul	
		Oppose	Antonio Mora	I am against the move of the services from the Sheriffs Department to Public Works. This move will not help our community it will hurt the residents who live in the unincorporated areas. This move will cost the resident instead of helping the current issues the streets of the unincorporated areas have.
			Arthur and Ginger Brown	We as homeowners disapprove of what Holly Mitchell is trying to endorse with our parking enforcement
			David Matthews	We are asking the board not to transfer parking enforcement from the sheriff's department to public works. In a majority of our areas, this would create a safety issue for those working the streets. The RVs & stolen vehicles require quick access to law enforcement.
			HENRY BAKER	All Departments are not perfect and EVERYONE SHARES THE BLAME WITH the parking issues. The BOS AND LASD not value the work we do. They need to prioritize our growth, pay, equipment, and training. BETTER communications between the departments is critically needed, especially with the community that we ALL serve! Moving us to public works is not the solution...its just a 38 million dollar a year extra cost to the public just to say you did something. No one has sat down with the Parking Enforcement Officer and their supervisors to hear how do make things better and more cost effective than just moving us to public works. Shame on everyone that is putting their arrogance and personal agenda before our service to the People of Los Angeles County.

25.		Oppose	Keily P Deluis	We can not have public works do the job of the Sheriff's, as they do not have the ability to pull up the information of the vehicles that are parked in the neighborhood. Our neighborhood has had many vehicles stolen and dumped in our streets, and the sheriff has come out and taken them. The only thing a public works employee will do is ticket the vehicle, and that will only create a bigger problem. Public works are unreliable, and it takes weeks to get other problems solved. We have had 6 or 7 RV's parked in Athens Park, and many neighbors reported it, including myself, and nothing has been done. It's been over a month! We do not know who these people living in these RVs are. It's dangerous because many kids at the park are exposed, and we don't know if they are pedophiles. The issue with parking enforcement is not one that we can wait on, especially with stolen or abandoned vehicles. So no! Public works should not take over parking enforcement. This will be a nightmare for our communities.
			Ollie McNeal	The issue is that enforcement of the laws already in place are not being properly implemented. What is needed is the funding for Public Works to maintain and clean the streets on a regular schedule as was done in years past. Since Holly Mitchell has represented my district, the trash and street cleaning has steadily gone downhill. In speaking with Public Works they claim they do not have enough manpower to keep up. That's a problem for the community. We are not receiving the services we pay for in our taxes.
			Tiffany Williams	I am a taxpayer homeowner in the West Rancho Dominguez area. We were told that District 2 Holly Mitchell office will be transferring parking services to Public Works. As a neighbor. I don't think that will resolve our issues in this community and will cost more. Speak with our community and find better more efficient ways to improve parking and living situations. The current outcomes of the unhoused and the RV crisis in our community will not be changed with Public Works, only issuing more tickets (financial barriers for the community). I vote against switching from the county sheriff to public works. Leave our current parking department with the Sheriff and find alternative solutions with less cost. We need better solutions, not public works.

25.		Oppose	Toni R Ziff	<p>Parking Enforcement should remain with the Sheriff. The amount of funds to rebrand and move jurisdiction to Public Works is a waste of money. Parking needs to have quick access to armed response. There are many situations on the street currently that involve mentally challenged and criminal enterprises.</p> <p>Our parking team needs to be protected. With the amount of monies slated for the rebrand we could easily improve upon the current organization of the parking team.</p> <p>As a business owner in the area I would be more than willing to assist in reviewing and establishing new or improved protocols for this department.</p>
