			Byron L Cuellar	We want to save the deer on Catalina Island. The deer have been there for a hundred years and have never disturbed plant life. Scientist have already debunked that theory. This is all being done for money and greed, and the building of a winery and the owner not wanting to put up a fence to keep the deer out because he thinks the fence is an eye soar. Follow the money as they say. And the deer have to pay. This whole thing is appalling.	No

Public Comment		Other	Monisha Parker	<p>Dear Board of Supervisors,</p> <p>I am writing to express my deep concern and frustration about the ongoing issue of homelessness in Los Angeles County. As a resident of this community, I have witnessed firsthand the devastating effects of this crisis on our city and its people.</p> <p>I am aware that the Board of Supervisors has been working tirelessly to address this issue, but it seems that despite all the efforts, the problem continues to persist. It is disheartening to see the number of homeless individuals and families grow every day, while the resources and solutions seem to fall short.</p> <p>What is even more concerning is the emergence of what is now known as the 'Homeless Industrial Complex.' This term refers to the network of organizations, contractors, and developers that profit from the homelessness crisis, often at the expense of the homeless population. It is a system that has become more interested in making money than actually solving the problem.</p> <p>I urge the Board of Supervisors to take a hard look at this complex and address the issue of homelessness with a sense of urgency. It is time to prioritize the well-being of our community over the interests of those who profit from the crisis.</p> <p>I understand that there are no easy solutions to this complex issue, but that should not discourage us from taking action. I believe that it is time to come up with innovative and effective strategies that will truly make a difference in the lives of those who are experiencing homelessness.</p> <p>It is also crucial that the Board of Supervisors involve the community in this process. I know that there are many others who feel the same way.</p> <p>I urge the Board of Supervisors to take a bold and decisive stand against the Homeless Industrial Complex.</p> <p>Thank you for taking the time to read my letter. I hope that you will consider my concerns and take necessary actions to end the Homeless Industrial Complex in Los Angeles County.</p> <p>Sincerely,</p> <p>Monisha Parker</p>	No
