The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, California 90012

Dear Supervisors:

**PUBLIC HEARING ON PROPOSED BILLING RATES FOR THE
DEPARTMENT OF PUBLIC HEALTH LABORATORY SERVICES
(ALL SUPERVISORIAL DISTRICTS) (3 VOTES)**

SUBJECT

Request approval to adopt the Public Health Laboratory fee schedule and provisional rates for laboratory services based on the Department of Health Services rates.

IT IS RECOMMENDED THAT THE BOARD AFTER THE PUBLIC HEARING,

1. Approve the Department of Public Health (Public Health) to adopt the Board-approved Department of Health Services (DHS) itemized rates for laboratory services, as set forth in Attachment I (Generally Applicable Itemized Rates), as the fee schedule for the Public Health Laboratory (PHL) for laboratory services with service dates on or after May 14, 2024, to the extent permitted by the payer.
2. Approve Public Health to use a provisional rate at or above the Medicare rate established by the Centers for Medicare & Medicaid Services (CMS) for any laboratory service provided by PHL that is not included on the DHS Board-approved "Generally Applicable Itemized Rates" schedule at the time of service, effective for laboratory services with service dates on or after May 14, 2024.
3. Delegate Authority to the Director of Public Health, or designee, to adopt future changes to the Public Health Laboratory Fee Schedule to realign rates with the DHS Board-approved "Generally Applicable Itemized Rates," subject to review and approval by County Counsel.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

PHL is a federally licensed laboratory responsible for supporting disease control and environmental health activities in compliance with Title 17 of the California Code of Regulations. Its testing services support Public Health's efforts to prevent and control infectious disease and environmental exposures through epidemiological investigations, community disease surveillance, clinical diagnosis, environmental testing, and emergency preparedness and response efforts. Per section 2.77.095 to Title 2 – Administration, of the County Code, Public Health is authorized to charge fees for its PHL services in amounts approved by your Board.

The proposed updates to the fee schedule are necessary and reasonable and promote consistency and equity within the County. They also support the County's strategic goal of maximizing revenue to help fund County initiatives by enabling the County to recoup a larger proportion of the costs of critical laboratory services. Future updates will allow PHL to charge rates that address changing costs and conditions.

Approval of Recommendation 1 will allow Public Health to use the Board-approved DHS "Generally Applicable Itemized Rates" schedule (Attachment I) in lieu of the adopted 2012 PHL rate schedule, for laboratory services provided by the PHL, which will support increased cost recovery. This will also improve revenue operations and efficiency since DHS and Public Health will use a single Charge Description Master (CDM) to bill payers in the Online Real-Time Centralized Health Information Database (ORCHID), which is shared by DHS and Public Health. Examples of itemized rates for higher volume laboratory services, as set forth in Attachment I, are included in pages: 99, 108, 148, 159, 198, 199, 330, and 331.

Approval of Recommendation 2 will allow Public Health to replace outdated 2017 provisional rates with updated CMS rates that are aligned with current reimbursement standards, which will enable the County to recoup a higher proportion of costs and ensure sustainability of services. Provisional rates will be applied to all laboratory services that are not included in the Board-approved DHS "Generally Applicable Itemized Rates" at the time of service and remain in effect until the specified services are added to the DHS fee schedule. Since Medicare rates are established using a median of national payment data, they may not adequately cover Public Health's total costs. Thus, provisional rates will be set at or above the CMS rates that are in effect at the time of service, which approximate rates for other services that use equivalent Public Health resources. The most up-to-date CMS Clinical Laboratory Fee Schedule is available at <https://www.cms.gov/medicare/payment/fee-schedules/clinical-laboratory-fee-schedule-clfs/files>.

Approval of Recommendation 3 will allow Public Health to streamline future updates to the Public Health Laboratory Fee Schedule and replace the current schedule with the latest DHS fee schedule approved by your Board. This will facilitate the ongoing adoption of new and updated Board-approved laboratory services fees, which will support cost recovery, consistent rates across the County, efficiency, and streamlined billing processes.

Implementation of Strategic Plan Goals

The recommended actions support Strategy III.3, Pursue Operational Effectiveness, Fiscal Responsibility, and Accountability.

FISCAL IMPACT/FINANCING

Approval of the recommended actions will support Public Health's current and future efforts to recover costs associated with providing critical laboratory services to public and private clinics, healthcare facilities, and other non-County agencies.

There is no net County cost associated with this action.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

Under Section 2.77.095 of the Los Angeles County Code, the Director of Public Health or designee is "authorized to charge and collect fees for various products and services, laboratory testing, and clinical and non-clinical services as established and in amounts approved by the Board of Supervisors from time to time." In addition, the "Director or designee may charge a provisional rate for the cost of newly developed tests performed by the public health laboratory until such time that the Board approves an applicable rate."

On November 27, 2012, your Board approved the addition of section 2.77.095 to Title 2 – Administration, of the County Code, effective January 3, 2013, which authorized the Director of Public Health to charge and collect a variety of public health service fees to allow the recovery of costs for services, including PHL services, that are provided to the public and private entities.

On October 14, 2014, your Board approved the adoption of DHS, "Generally Applicable Itemized Rates."

On June 27, 2017, your Board approved an ordinance that amended section 2.77.095 of the County Code and authorized Public Health to charge the 2017 Medicare rate schedule as a provisional rate for newly developed lab tests not included in the rate schedule initially approved on November 27, 2012.

Attachment I is a copy of the DHS "Generally Applicable Itemized Rates."

Government Code Section 66018 requires a public hearing to be held prior to adopting proposed fees or increasing any existing fees, which will be held before your Board approves these recommendations. Special notice of that public hearing, in compliance with Government Code Section 6062a, has been published by the Executive Office.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

The proposed change would impact payments from health care payers, health care facilities, clinics, outside jurisdictions, and other non-County agencies using and being billed for PHL services. While the proposed changes will update the fee schedule for laboratory services, the actual reimbursement rate may vary depending on the terms established in negotiated provider agreements, if any. On November 21, 2023, your Board authorized Public Health to enter into such agreements to increase the sustainability of our services.

Public Health does not bill patients for testing services and the proposed change is not expected to impact residents' access to laboratory services available through the PHL. Furthermore, Public Health will safeguard access as the Public Health Director or designee has the authority under Section 2.77.095 of the County Code to "waive collection of, or reduce, all or part of the fees in the

The Honorable Board of Supervisors

5/14/2024

Page 4

event that the Director or designee determines that the payment of a fee presents a significant financial hardship for the individual or such waiver or reduction is in the interest of protecting the public health.”

Respectfully submitted,

A handwritten signature in black ink that reads "Barbara Ferrer". The signature is written in a cursive, flowing style.
