Reducing the fee to \$10 would make it more affordable for these participants to attend the Institute's programs.</p> <p>In addition, reducing the number of vehicles allowed at the Institute would help to reduce traffic congestion and pollution in the area. The Institute is located in a residential neighborhood, and the increased traffic from participants' vehicles has been a source of concern for residents. Reducing the number of vehicles would help to mitigate these concerns.</p> <p>I understand that the Institute needs to generate revenue to cover its operating costs. However, I believe that the current parking fee waiver is too high and that reducing the number of vehicles would help to reduce traffic congestion and pollution. I urge you to consider my request.</p> <p>Thank you for your time and consideration.</p> <p>Sincerely, Monisha Parker</p>
