

**PUBLIC REQUEST TO ADDRESS
THE BOARD OF SUPERVISORS
COUNTY OF LOS ANGELES, CALIFORNIA**

MEMBERS OF THE BOARD

HILDA L. SOLIS
HOLLY J. MITCHELL
LINDSEY P. HORVATH
JANICE HAHN
KATHRYN BARGER

Correspondence Received

			The following individuals submitted comments on agenda item:	
Agenda #	Relate To	Position	Name	Comments
2.		Favor	Hector Ramirez	This bill has a significant potential to increase quality of life and outcomes for people with disabilities in Los Angeles County.
			Isabel Archer	AB 1588 will have a direct impact on Saban Community Clinic's patients and their access to care. With the end of the Affordable Connectivity Program (ACP), Saban's patients are left without integral internet subsidies. The ACP is eligible to 97% of Saban's patients, many of whom are completely reliant on these subsidies to access the Internet. Additionally, a 2024 survey found that 43% of Saban patients have concerns about the cost of internet. Without access to internet services, our patients lose the ability to access essential health information on our patient portal, as well as the ability to use our telehealth services. Exacerbating this digital inequity is digital redlining, which significantly affects the areas we serve. For these reasons, Saban Community Clinic supports AB 1588.
			Jackie Provost	AB 1588 will have a direct impact on Saban Community Clinic's patients and their access to care. With the end of the Affordable Connectivity Program (ACP), Saban's patients are left without integral internet subsidies. The ACP is eligible to 97% of Saban's patients, many of whom are completely reliant on these subsidies to access the Internet. Additionally, a 2024 survey found that 43% of Saban patients have concerns about the cost of internet. Without access to internet services, our patients lose the ability to access essential health information on our patient portal, as well as the ability to use our telehealth services. Exacerbating this digital inequity is digital redlining, which significantly affects the areas we serve. For these reasons, Saban Community Clinic supports AB 1588.
			Jerry Gaines	Helps older adults.
			Jonathan Pacheco Bell	
			Muriel Nouwezem	We support Assembly Bill 1588 (Wilson) the Affordable Internet and Net Equality Act of 2024. AB 1588 will have a direct impact on Saban Community Clinic's patients and their access to care. With the end of the Affordable Connectivity Program (ACP), Saban's patients are left without integral internet subsidies. The ACP is eligible to 97% of Saban's patients, many of whom are completely reliant on these subsidies to access the Internet. Additionally, a 2024 survey found that 43% of Saban patients have concerns about the cost of internet. Without access to internet services, our patients lose the ability to access essential health information on our patient portal, as well as the ability to use our telehealth services. Exacerbating this digital inequity is digital redlining, which significantly affects the areas we serve. For these reasons, Saban Community Clinic supports AB 1588

2.		Favor	Ted Smith	I strongly support this Bill. AB 1588 is of upmost concern for seniors and Disable Veterans. The Net Equality Act of 2024 must not be allowed to expire. I will present this Bill to members of my commission. Thank you to all the Supervisors and Supervisor Janice Hahn for the proposal.
			Van Anh Dastur	AB 1588 will have a direct impact on Saban Community Clinic's patients and their access to care. With the end of the Affordable Connectivity Program (ACP), Saban's patients are left without integral internet subsidies. 97% of Saban's patients were eligible for ACP, many of whom are completely reliant on these subsidies to access the Internet. Additionally, a 2024 survey found that 43% of Saban patients have concerns about the cost of internet. Without access to internet services, our patients lose the ability to access essential health information on our patient portal, as well as the ability to use our telehealth services. Exacerbating this digital inequity is digital redlining, which significantly affects the areas we serve. For these reasons, Saban Community Clinic supports AB 1588.

Dear Sir/Maddam,

The fact that LA has any deaths due to the traffic system is a tragedy. These deaths are entirely preventable and therefore it is our duty to prevent them. This is why I think the County Vision Zero action plan is so important; it protects members of our community from the issue of traffic violence. This is why I was appalled when I looked at the budget and saw zero dollars appropriated to Vision Zero.

I urge the Board to support the Vision Zero with ongoing investments in executing the plan. The seven and a half million dollars is the bare minimum for what is required to address the traffic violence crisis. We need to invest into Vision Zero and programs like it so our kids, families and communities can enjoy all our city has to offer with comfort and safety.

Sincerely,

Dr. Nathan Schilling
