SD-1.		Oppose	Monisha Parker	<p>Dear Board of Supervisors,</p> <p>I am writing to express my concern about the Wastewater Revenue Program Fiscal Year 2024-25 service charge for the Newhall Ranch Sanitation District of Los Angeles Bouny. While I understand the need for revenue to maintain and improve our wastewater infrastructure, I believe the current proposed service charge poses a significant financial burden on residents and businesses in our community.</p> <p>I urge you to consider the following strategies to make the service charge more affordable:</p> <p>Explore alternative revenue sources: Investigate the feasibility of funding wastewater infrastructure through sources like grants, regional partnerships, or public-private partnerships.</p> <p>Implement a tiered rate structure: This would differentiate service charges based on water usage, potentially providing lower rates for residents who use less water.</p> <p>Offer payment plan options: Enabling residents to spread out their payments over a longer period would ease the financial impact.</p> <p>Provide financial assistance: Explore options like subsidies or discounts for low-income residents and businesses.</p> <p>Increase transparency and communication: Clearly communicate the necessity of the service charge and provide detailed information about how the funds will be used.</p> <p>By implementing these strategies, we can ensure that the wastewater infrastructure receives the necessary funding while also protecting the affordability of this essential service for our community.</p> <p>Thank you for your time and consideration.</p> <p>Sincerely,</p> <p>Monisha Parker</p>
