41.		Oppose	Monisha Parker	<p>1. Conduct research: Start by researching different traffic management system software options available on the market. Look for software solutions specifically designed for parking citations and law enforcement agencies.</p> <p>2. Assess department needs: Consider the specific requirements of the Sheriff's Department when it comes to parking citation management. This may include features such as automated ticket issuance, online citation payment options, data analytics, and integration with existing systems.</p> <p>3. Read reviews and testimonials: Look for reviews and testimonials from other law enforcement agencies or municipalities that have used the software. This can provide valuable insights into the effectiveness and usability of the system.</p> <p>4. Request demos: Reach out to software providers to request demos of their systems. This will allow you to see the system in action and determine if it meets the department's needs and is user-friendly for staff.</p> <p>5. Consider integration capabilities: Ensure that the software can integrate seamlessly with other department systems, such as records management and reporting software. This will streamline processes and improve efficiency.</p> <p>6. Evaluate cost: Consider the cost of the software and any additional fees for implementation, training, and ongoing support. Compare pricing options from different providers to find the best value for the Sheriff's Department.</p> <p>7. Seek recommendations: Reach out to other law enforcement agencies or industry experts for recommendations on the best traffic management system software for parking citations. They may have insight into which systems are most effective and user-friendly.</p> <p>8. Consult with IT professionals: If the Sheriff's Department has an IT department or consultant, involve them in the decision-making process to ensure the software meets technical requirements and can be successfully implemented and maintained.</p> <p>capterra.com/sem/parking-management-software/</p>
			paul burt	Taxpayers are on the hook to this no-bid company for an estimated annual revenue of \$18.9M. Modaxo's estimated revenue per employee is \$160,000. A better deal for LA Countytaxpayers is certainly available. Do the research!
