COUNTY OF LOS ANGELES

EXECUTIVE OFFICER

**ORDINANCE AMENDING TITLE 12 OF THE LOS ANGELES COUNTY CODE UNIFIED
PROGRAM ANNUAL FEES FOR HAZARDOUS WASTE GENERATOR/TIERED PERMITTING,
HAZARDOUS MATERIALS HANDLER, CALIFORNIA ACCIDENTAL RELEASE PREVENTION
PROGRAM, AND ABOVEGROUND PETROLEUM STORAGE TANK PERMITS FOR FISCAL
YEAR 2024-25
(ALL DISTRICTS) (3 VOTES)**

SUBJECT

The Consolidated Fire Protection District of Los Angeles County (District) is requesting the Board of Supervisors' approval to adjust the annual fees for Hazardous Waste Generator/Tiered Permitting, Hazardous Materials Handler, California Accidental Release Prevention (CalARP), and Aboveground Petroleum Storage Tank (APST) Programs, cost recovery of hourly rates for Emergency Operations and Site Mitigation for Fiscal Year 2024-25; to reduce the fees for facilities that exclusively use carbon dioxide for beverage dispensing and do not have any other reportable hazardous materials; and to make other non-substantive changes.

IT IS RECOMMENDED THAT THE BOARD AFTER THE PUBLIC HEARING,

1. Approve and adopt an ordinance that:

- Adjusts the annual fees for Reinspection Fees, Late Submittal Fees, Hazardous Waste Generator/Tiered Permitting, Hazardous Materials Handler, CalARP, APST Programs, as shown on the attached fee schedule developed in accordance with the annual adjustment provisions of the Los Angeles County Code (County Code), as delineated in Sections 12.50.131, 12.52.070, 12.64.040, 12.64.045, 12.64.050, and 12.70.050, and approved by the Auditor-Controller; and
- Adjusts cost recovery hourly rates for Emergency Operations and Site Mitigation costs for

Fiscal Year 2024-25, as shown on the attached fee schedule developed in accordance with the annual adjustment provisions of the County Code, as delineated in Sections 12.56.070, 12.60.080, and approved by the Auditor-Controller; and

- c) Allows an exemption for reduced oversight fees, as delineated in Section 12.64.040.
2. Find that the adjustment of the annual fees adopted for the purpose of meeting operational expenses and the levying of administrative penalties are exempt from the California Environmental Quality Act (CEQA) pursuant to Section 21080 (b)(8) of the Public Resources Code and Section 15273 of Title 14 of the California Code of Regulations (State CEQA Guidelines).

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The District implements the Hazardous Waste Generator/Tiered Permitting, Hazardous Materials Handler, CalARP, and APST Programs under the auspices of the Los Angeles County Certified Unified Program Agency (CUPA).

State law and County Code allow for the recovery of the necessary and reasonable costs to administer these programs. The County Code requires these fees to be adjusted annually. Your Honorable Board established annual fees and adjustment provisions for each of these programs to recover the costs of implementation. Cost recovery hourly rates were also established for emergency responses and site mitigation oversight.

On January 31, 2023, the Board of Supervisors approved a change to County Code Section 12.64.040 to be consistent with State law, which allowed permitting, regulating, and invoicing facilities that handle carbon dioxide (CO₂) at or greater than 1,000 cubic feet. Prior to this, the reporting threshold was 3,500 cubic feet. This change required the permitting of numerous facilities that only have CO₂ onsite for beverage dispensing that were not previously regulated. The regulatory oversight time of these facilities is in line with the other Fee Group I – Small Quantity Handlers. The exemption being added to County Code Section 12.64.040 will allow the District to invoice these specific facilities at a lower rate.

Fee Adjustment

The annual fee adjustments established in accordance with provisions in the County Code will allow the District to incorporate all anticipated increases in salaries, benefits, and overhead expenses for Fiscal Year 2024-25. These increases will allow the District to close the gap between its cost of operation and revenue, as well as facilitate the single fee billing process mandated by the CUPA by establishing fair and equitable fees to be billed in Fiscal Year 2024-25.

The annual adjustment provisions established in the County Code utilize a fee methodology that was originally established by your Board in 1996. The proposed adjustments incorporate changes in program costs that result from changes in salaries, employee benefits and overhead rates, and the number of regulated facilities falling within each fee category. Similarly, annual adjustments to cost recovery rates reflect changes in District costs to administer those services.

Ordinance Changes

The Ordinance amendments (Enclosure A) will involve changes in the fee amounts for all programs implemented by the District and allows for an exemption for facilities that exclusively use CO₂ for beverage dispensing and do not have any other reportable hazardous materials onsite. The proposed exemption would allow facilities meeting the criteria to be invoiced at the lowest tier for hazardous materials handlers.

Implementation of Strategic Plan Goals

Approval of the recommended actions is consistent with the County's Strategic Plan North Star 2.E. Data-Driven Decision Making to continually assess and strengthen our efficiency and effectiveness, maximize and leverage resources, ensure fiscal responsibility, and hold ourselves accountable.

FISCAL IMPACT/FINANCING

Fees are apportioned in accordance with program costs to ensure recovery of projected District operating costs. Current program costs are offset by a combination of fees and direct cost recovery billing for specific services. The proposed revisions in annual fees (Enclosure B) for the Hazardous Waste Generator/Tiered Permitting, Hazardous Materials Handler, CalARP, and APST Programs will allow recovery of the necessary and reasonable costs to implement the programs.

There is no impact on net County cost.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The fee revisions will be effective in all areas under the jurisdiction of the CUPA for Fiscal Year 2024-25. The cities of Los Angeles and Santa Monica will generate fee invoices in July 2024 for Fiscal Year 2024-25 for the Hazardous Waste Generator/Tiered Permitting Program, and Orange County will generate annual fee invoices in July 2024 for Fiscal Year 2024-25 for the Hazardous Materials Handler and CalARP Program facilities in the City of La Habra. These agencies are awaiting any changes in our fee schedule prior to generating invoices.

California Health and Safety Code Sections 25404.5(a)(2) and (3), grant authorization to the governing body of the local Certified Unified Program Agencies to establish fees to recover the necessary and reasonable program costs. The County Auditor-Controller has reviewed and approved the cost basis and fee adjustments.

This request for approval of the revised fees is made after compliance with all public notification and hearing requirements as specified in Sections 6062 and 66018 of the California Government Code. Proposed ordinance language changes have been approved as to form by County Counsel.

ENVIRONMENTAL DOCUMENTATION

The annual adjustments are exempt from the CEQA pursuant to Public Resources Code Section 21080(b)(8) and Section 15273 of the CEQA Guidelines because they involve fees to recover operating costs.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

The approval of the annual fee adjustments for the Hazardous Waste Generator/Tiered Permitting, Hazardous Materials Handler, CalARP, APST Programs and for the cost recovery rates will serve to establish the reasonable and necessary fees for Fiscal Year 2024-25, facilitate the fiscal year billing process mandated by the CUPA, and assure full recovery of program implementation costs. The

annual adjustments fairly allocate changes in program costs to regulated facilities while maintaining the integrity of the original fee methodologies.
