			Janine Roach	The TGI community is one of the most marginalized communities. The rate of hate crimes is increasing, and hate crimes are becoming more violent and more frequent. Sexual assault against TGI people is far too common. The very least we can do is provide interim housing for vulnerable individuals who have higher rates of homelessness and unemployment due to discrimination.
		Oppose	paul burt	Misses Horvath and Mitchell in particular - while Ms. Hahn is in hot pursuit - continue to motion the squandering of taxpayer funds as though those funds were so much Monopoly money, to be bantered about in the center of the gameboard, and it needs to stop! ***** ***** Outside of California, nowhere else in the Nation are radically unfair and unsustainable demands being made of taxpayers to fund the housing, healthcare, and - most flagrant - for 1,000 "qualified individuals" "Guaranteed Basic Income, and more, for people not related to them. Further, with each one of these meetings it becomes increasingly apparent that this Board maintains more and more compassion and empathy for such people, while the taxpayers are abused, dismissed, and ripped off! Recently, this Board - without any experience nor even an atom's worth of expertise in the field - using taxpayers funds decided it was somehow a "good idea", and blithely wandered into the field of Medical Debt Consolidation, this, as though the County could somehow manage such endeavor(s) better than the private sector, which has, as we ALL know, been proven time and again, to be responsibly and fiscally impossible! ***** ***** Not a single one of this Board's members has even one day's experience in setting up and operating - successfully or otherwise - a business enterprise of any kind. But for this Board, that maintains no accountability and whose members will handsomely retire on the backs of generations of taxpayers, employing the standard business operating procedure "OPM" (Other People's Money) in order to make themselves feel as though they are "the saviors of the less fortunate" borders on the obscene. "Fraud, Waste, and Abuse" - In the view of the commonsense, stand-on-your-own-two-feet taxpayer, the mantra of the LA County Board of Supervisors.
