9-D.		Oppose	paul burt	<p>This Board personifies the quote: "In its pursuit of justice for a segment of society, in disregard of the consequences for society as a whole, what is called "social justice" might more accurately be called anti-social justice, since what consistently gets ignored or dismissed are precisely the costs to society." ~ Thomas Sowell ~.....</p> <p>To anyone who's been paying attention, "officials" and others "contributing" to the City of Inglewood have done nothing more than plunder what was once a great city "spearheaded" by economically illiterate, inept, and corrupt politicians such as former Mayor Dorn. Likewise, corrupt school district officials and others, with their "great ideas" all of which have led to disaster after disaster. It took demolishing Hollywood Park - a facility older than Santa Anita - to come up with SoFi and only private sector funding secured that erection. Mostly, these "great ideas" - again - have ended up in disaster, such as is set to occur with the closing of near-historic elementary schools and the lone public junior high school in Inglewood. This Sankofa "idea" represents yet another in a long line of waste at the expense of taxpayers. And by the way, is there ANY topic upon which Supervisor Mitchell is not an expert? This is another plunder of the city of Inglewood, my hometown. Stop wasting taxpayer money on these "good ideas" wherein the Board members are held to no accountability when their - nearly without exception - "good ideas" fail!</p>
