75.		<b>Favor</b>	Dorothy Wong	Please implement CA regulations on Daylighting intersections. There are many ways to implement this including quick builds that can improve pedestrian safety with improved visibility. Our lack of intentional systematic nextworks for pedestrian safety especially safe routes to schools, parks where children and families go. Lack of adequate transit routes leaves vulernable road users susceptible to severe injury and death. Parking regulations in a sytematic way that can significantly improve community safety.
