

Proclaiming September 2024 as “Service Club Month” in Los Angeles County

Service Clubs in Los Angeles County are an integral part of the community and offer many opportunities to their members. Clubs, such as Kiwanis, Lions, Optimist, Soroptimist, and Rotary, strongly support our communities through volunteering, networking opportunities, and encouraging leadership development.

During the year, Service Clubs take on projects to help the less fortunate in our society and work as a team to accomplish numerous service projects. These projects include delivering food and household supplies to homebound seniors, holding back-to-school giveaway events for students, visiting seniors at senior living facilities during the holidays, and fundraising for scholarships.

Overall, Club members contribute countless hours to the development of our communities, and they are dedicated to helping others in need.

I, THEREFORE, MOVE that the Board of Supervisors Proclaim September 2024 as Service Club Month throughout Los Angeles County and recognize the important work that Service Clubs do to support the community and improve the lives of residents in Los Angeles County.
