Agenda #	Relate To	Position	Name	Comments
13.		Favor	Lynne Plambeck	This is a wonderful idea! Oaks are a baseline ecosystem species that are necessary for the survival of many other local native birds, animals and plants. They also provide a cooling tree canopy throughout Los Angeles County. We are grateful to the Board of Supervisors for recognizing the many attributes of our native oaks, and proposing a month in their honor to bring attention to this important native tree.
