I am writing to address a matter regarding our vehicle allocation for the upcoming 2024 "Cal Tri LA" event. I believe it would be prudent to consider reducing the number of vehicles from 500 to 300.</p> <p>The cost associated with maintaining 500 vehicles is projected to be around \$5,000. By reducing the number of vehicles, we can significantly cut costs while still maintaining effective transportation solutions for our participants and staff.</p> <p>Reducing the fleet would not only help alleviate financial pressures but also streamline logistics and reduce potential congestion during the event. I am confident that with a smaller, more manageable number of vehicles, we can still efficiently meet our needs without compromising the quality of the event.</p> <p>Thank you for considering this recommendation. Best regards, Monisha Parker</p>
