

**Los Angeles County Development Authority and Department of Public Works
Collaboration for the Los Angeles County Care Community Project**

The County of Los Angeles (County) continues to grapple with both mental health and homelessness crises and on June 4, 2024, this the Los Angeles County Board of Supervisors (Board) declared an urgent need for additional facilities and housing solutions to support individuals facing mental health challenges. To address this, the County has entered into an exclusive negotiation agreement with the State of California (State) to identify a group of six abandoned buildings at the Metropolitan State Hospital campus (Campus) in the City of Norwalk that can be renovated and transformed into a continuum of housing and treatment options for people with mental health challenges – the proposed "Los Angeles County Care Community" (Proposed Project). The County's vision for the Proposed Project is to renovate the six unused buildings to create two permanent supportive housing facilities for adults, two interim housing facilities – one for young adults and one for adults, and two subacute psychiatric facilities for young adults (ages 18-25).

This Board is asking the Los Angeles County Development Authority (LACDA) to act on behalf of the County to issue a Request for Proposals for a potential development of two of the buildings on the Campus for a permanent supportive housing project,
