14.		Favor	Heidi Sanborn	The National Stewardship Action Council (NSAC) is a 501(c)(4) non-profit organization comprised of governments, non-government organizations, businesses, and consumers with the vision for the United States to attain a responsible, circular economy, an economic system aimed at designing out waste and pollution, keeping materials in use, and regenerating natural systems. NSAC strongly supports the proposed motion. HHW costs too much to manage, and the County should consider making the producers of products who profit from them, pay for their lifecycle costs as is done now for mercury thermostats and paint products. Please pass this motion and allow staff the ability to share the options on how to proceed. Thank you.
