# Mental Health Beds Available, Net Growth & In-Development

1 - Estimates are subject to change and do not represent beds that are not yet funded, that are in the contracting stage or in the longer-term pipeline related to state infrastructure grants.

2 - Includes estimated 450 beds to be funded with Community Care Expansion (CCE) dollars that have not yet come online.

3 - Includes units from developments that are newly opened and still leasing up.

# BHCIP DMH Bed Pipeline

1 – Counts are estimates based on original information provided during RFA letter of support process. DHCS has not published final awarded bed counts. NOTE: providers must also complete the licensing and DMH contracting process before beds can be confirmed to the County network.

2 - Beds/chairs were undifferentiated in Bond BHCIP applications and so it is not possible to know a precise number of indicated bed types. Number of bed requests submitted via Prop 1 Bond applications far exceeded the State allocation for Round 1.

# Prop 1 Bond Rd 1 County Project and CBO Breakout

1 – Counts are estimates based on original information provided during RFA letter of support process. Beds/chairs were undifferentiated in Bond BHCIP applications and so it is not possible to know a precise number of indicated bed types. NOTE: providers must also complete the licensing and DMH contracting process before beds can be confirmed to the County network. Funding requests submitted via Prop 1 Bond applications far exceeded the State allocation for Round 1.

# ▶▶ Countywide Letter of Support Response

The County evaluated projects that were submitted to request support letters for Bond BHCIP Round 1: Launch Ready and reviewed each project based on the following criteria to ensure the greatest benefit to the system:

- ✓ Project value to the system by meeting community and County needs.
- ✓ Provider capability including contract standing (as applicable).
- ✓ Support of County priorities such as integrated care and serving safety net populations.

**LA County Letter of Support Tiers**  
(total LOS issued = 115)

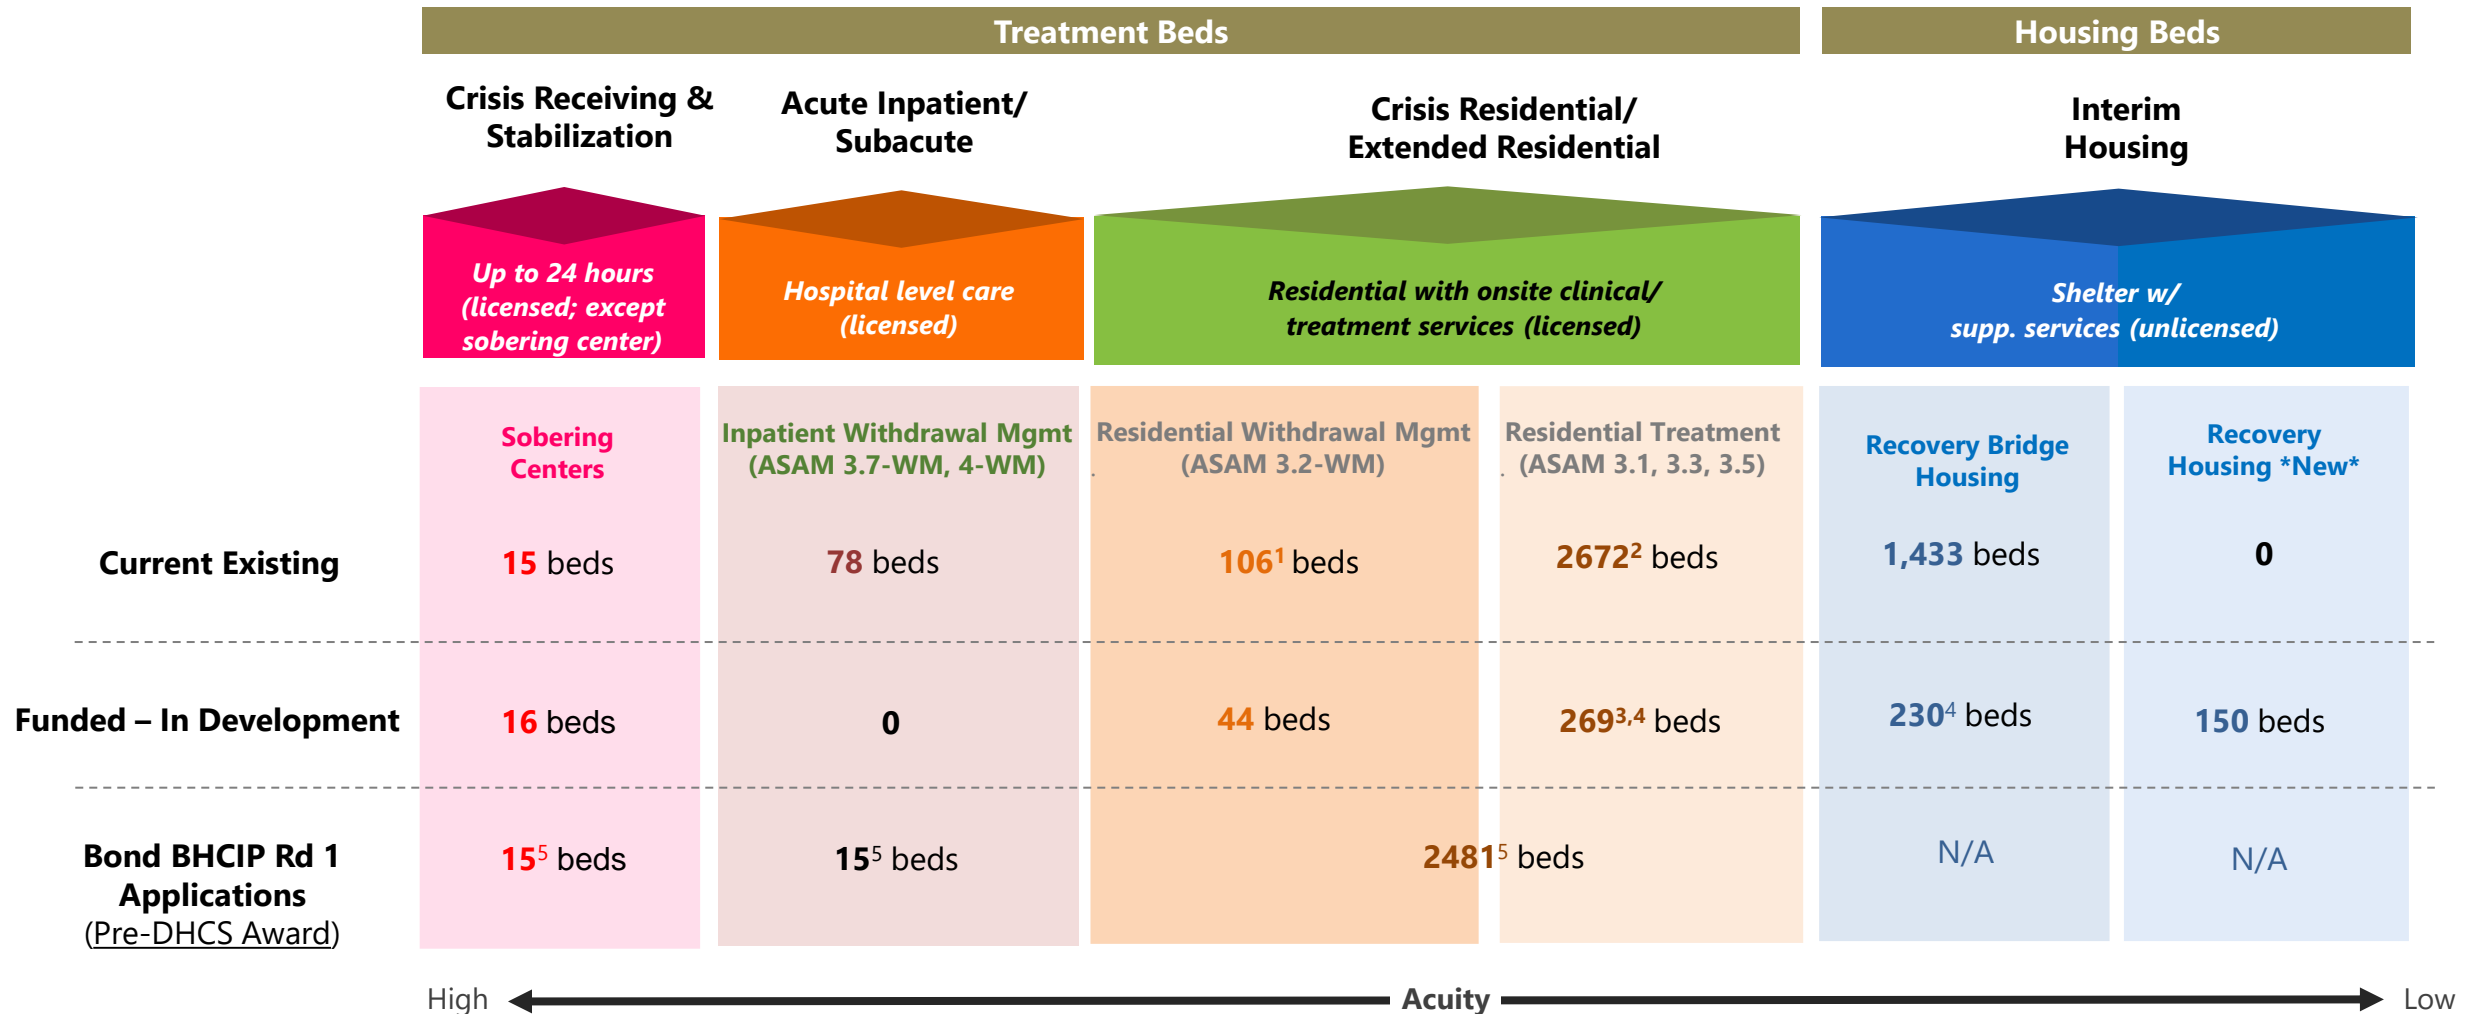

■ Full LOS (50)      ■ Conditional LOS (62)  
■ Withdrew Application (2)      ■ No Letter Issued (1)

# Department of Public Health - SAPC

# DPH-SAPC Beds Available, Net Growth & In-Development

1 - Beds are estimated as the State does not distinguish between licensure for Residential WM (ASAM 3.2-WM) and Residential (ASAM 3.1, 3.3, 3.5) beds and SAPC's providers utilize these beds flexibly based on need. Historically utilization has been at 4% of residential beds that may be used for WM.  
 2 - Bed counts are updated to reflect all fully executed contract actions, and the numbers change as beds are added, beds are removed (in addition to facility openings and closures).  
 3 - Beds include BHCIP recipients currently contracted with SAPC, although additional BHCIP related beds may be funded upon completion of BHCIP projects, DHCS DMC licensure or certification, and meeting SAPC contracting requirements  
 4.- Amounts have been adjusted to account for variance from Q4, Fiscal Year 2023-24 and Q1, Fiscal Year 2024-25.  
 5 - Beds were undifferentiated in Bond BHCIP applications and so it is not possible to know a precise number of indicated bed types.

# How many people served by DPH-SAPC Level of Care (Sept – Dec 2024)

# Average (Median) Length of Stay by DPH-SAPC Level of Care

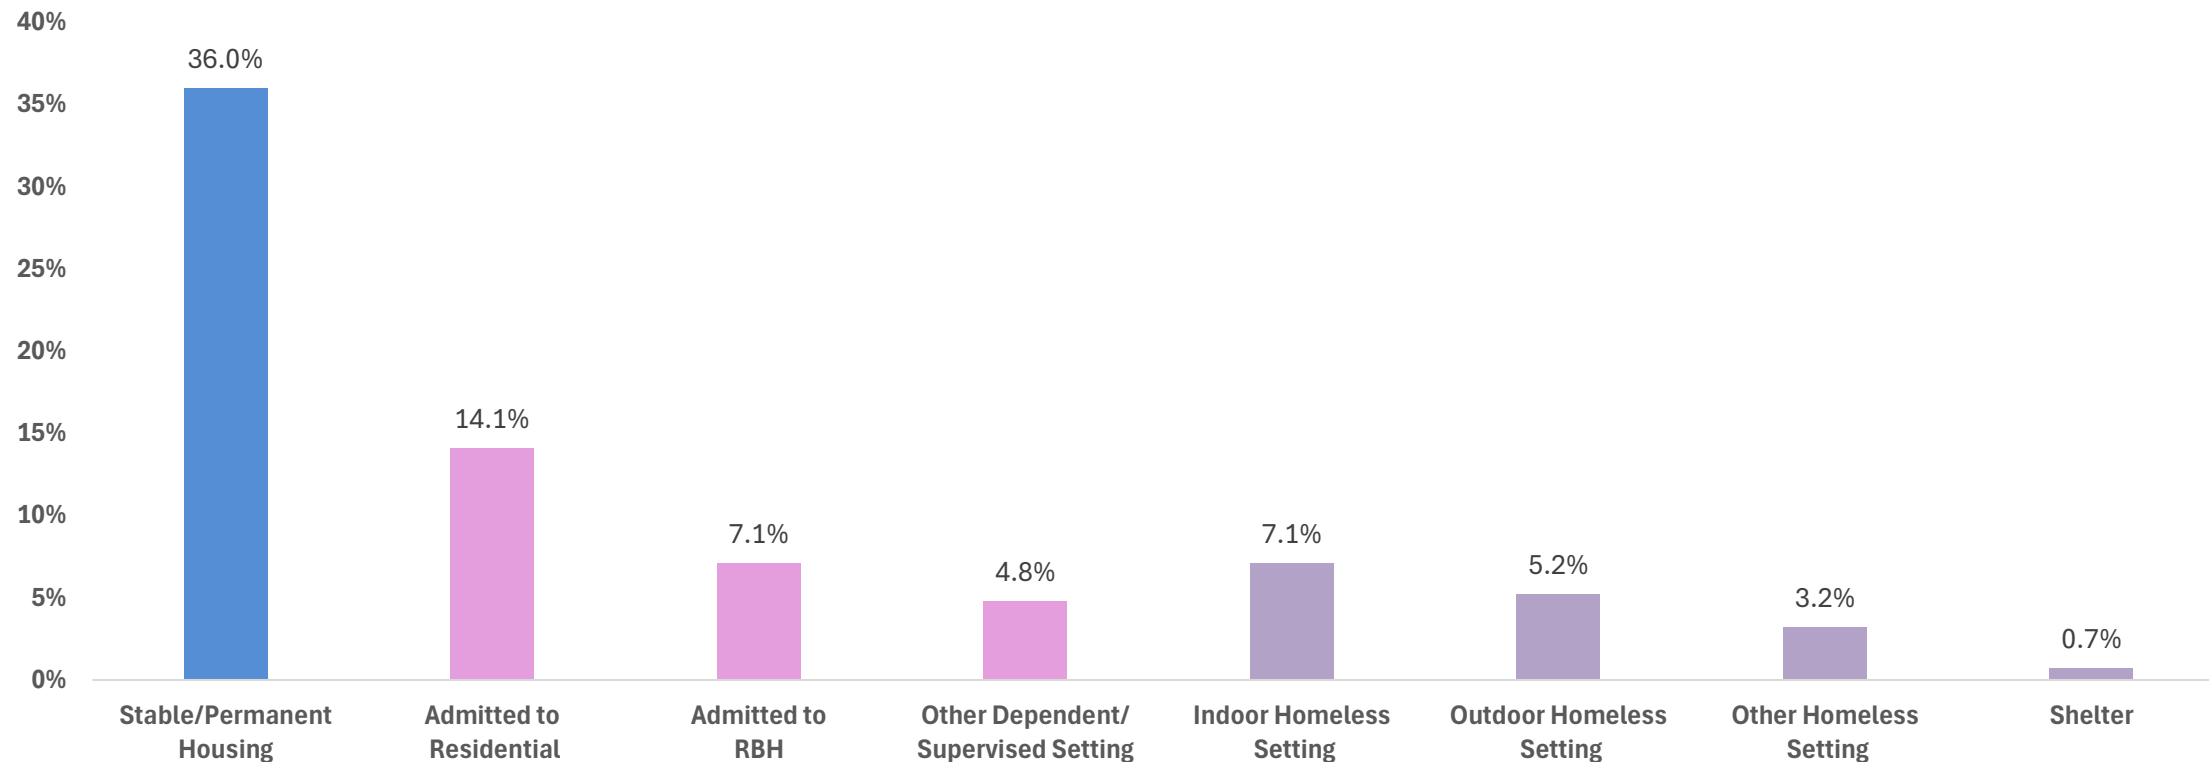

(Sept – Dec 2024)

\*Given that DPH-SAPC operates a continuum with various levels of care, considering the length of stay of any individual level of care is incomplete given that many people access multiple levels of care within a given treatment episode --> **The average length of a treatment episode for clients in DPH-SAPC's system in a fiscal year is 156 days when considering that individuals with SUD access a continuum of services.**

# DPH-SAPC: Where Patients Homeless at Admission Went Upon Discharge by Bed Type

(Residential, Residential Withdrawal Management, and Recovery Bridge Housing)

**Note:**

All percentages are based on the number of PEH admitted to Residential Beds and RBH, who were discharged during the quarter 1, FY2425 (4,441).

Stable/Permanent Housing: based on the self-reported information.

Indoor Homeless Setting: 'Doubling up or living with others temporarily', 'Hotel/motel voucher', 'Motels due to lack of alternative' 'Temporary indoor situation (like abandoned building), etc.

Outdoor Homeless Setting: includes individuals who reported 'Sleeping in car/van' or 'Living outside (sleeping outdoors)'

Other Homeless Setting: indicates individuals reported as homeless upon discharge, with homeless living status not specified.

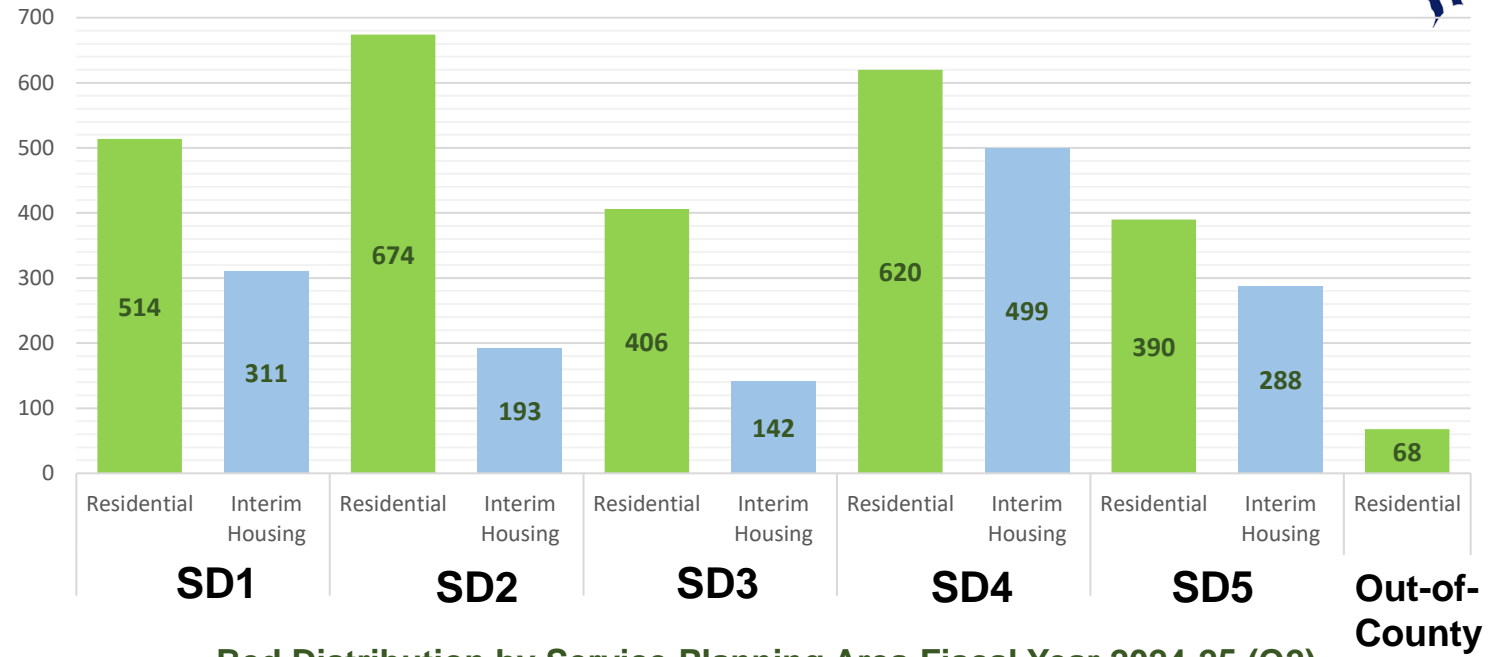

Other Dependent/Supervised Setting: indicates individuals reported their current living status as dependent/supervised setting, with dependent setting not specified.

22% of the discharges left their treatment program before completing their treatment services with administrative discharges, which does not capture homeless living status.
