INTRODUCTION

Annual litigation expenses for FY 23-24 for the County of Los Angeles ("County") totaled \$220.4 million, a 35 percent decrease from the \$340.2 million spent in FY 22-23. This decrease was primarily due to a 51% reduction, or \$132.4 million, in judgments and settlements.

The \$220.4 million paid in FY 23-24 consists of \$125 million in judgments and settlements, and \$95.4 million in attorneys' fees and costs.*

Some litigation expenses incurred by County departments are reimbursed by the Contract Cities Liability Trust Fund or special districts. These reimbursements reduce the net County cost for the department receiving reimbursement.

While this report references such reimbursements, its focus is on total litigation expenses incurred in FY 23-24, and how they compare to prior years. FY 23-24 spans the period from July 1, 2023, through June 30, 2024.

Involuntary dismissals, which are subject to appeal by the plaintiff, are not reported until the appeal period has expired, which can range from 30 days for federal lawsuits to as long as 180 days for some state court lawsuits. Involuntary dismissals that have been appealed are not reported in this section. Instead, they are reported in the Appellate Decisions section of this report, after the appellate decision is final.

Finally, lawsuits that were settled in exchange for a waiver of costs by the County are not reported in the Dismissals section of this Report.

County Counsel's Affirmative Litigation and Consumer Protection Division ("ALCP") works to bring high-impact lawsuits to protect the County's interests, stop unfair business practices, end code violations, and protect County residents from threats to the public health and environmental harms. In fiscal year 23-24, ALCP cases and settlements brought in over \$100 million dollars to the County.

CONTRACT CITIES AND SPECIAL DISTRICTS

Of the \$220.4 million reported in annual litigation expenses in FY 23-24, the Contract Cities Liability Trust Fund ("Fund") and Special Districts reimbursed the County \$14.6 million.

CONTRACT CITIES

The Fund is a trust account capitalized by contract cities that contract for County employees to perform services in their cities. Litigation expenses that arise from these operations are initially paid by the County. The County is then reimbursed by the Fund for those expenses.

The Fund is self-insured for liabilities up to two or three million dollars, depending on the period of coverage, and the Fund maintains excess insurance policies to cover losses of up to \$50 million.

In FY 23-24, the Fund reimbursed \$12.8 million of the \$14.6 million. Of the \$12.8 million paid by the Fund, \$12.7 million was for judgments, settlements, fees, and costs arising from alleged misconduct of Sheriff's deputies contractually assigned to various cities throughout the County. The remaining \$147,740 was for judgments, settlements, fees, and costs associated with DPW.

SPECIAL DISTRICTS

In FY 23-24, the County was reimbursed \$1.7 million for litigation expenses incurred on behalf of its special districts, each supported by its own funding source, as follows: Flood Control District, \$1,264,697; Sewer and Drain District, \$239,025; Waterworks District, \$195,648; and Road District, \$29,742
