Public Comment		Favor	Alexandra Dreyfuss As a resident of the Western part of Altadena I urge you to launch a formal investigation into the protocols involved in evacuation orders. We were never told to evacuate. We left because we could see smoke getting closer and knew it would take us awhile to get our pets out. Our home is gone and if it weren't for us being vigilant, we would have been lost with it, because the city and county failed to keep us safe.
			Catherine Roberts I am in complete support of the Board of Supervisor's emergency motion, item 30 of the Recovery Ordinance, to request suspension of Builder's Remedy, and exemption of RHNA, and SB 35 requirements. The RHNA mandate is required of cities in order to accommodate housing that the state supposedly needs. It was not intended to apply to cities that have lost massive amounts of housing due to a natural disaster. In an emergency, such as this, cities need the tools to rebuild their lost communities and stabilize the lives of its residents. This is not the time to punish them for not meeting state housing goals and allowing Builder's Remedy to apply. The rebuilding of whole communities and preserving community character is crucial for the residents who have lost everything. State laws should not hinder the process. We thank the Supervisors for their support of these communities.

Public Comment		Favor	Doniece Watkins	<p>CURRENT FIRES IN SOUTHERN CALIF, CLMATE CHANGE, PRESIDENT'S VISIT</p> <p>To Board of Supervisors All Californians know high winds due to "Climate Change" may spark and set of fires in populated city locations and within or forests. It is no secret President Trump has a low regard for California and less for Governor Nesom. Nonetheless of how he sees this state and our governor I watch the news of his arrival in Southern California to tour the cities that had burned (still burning). It is disheartening to learn he only visited Pacific Palisades. Why not visit the other cities, those citizens were waiting to meet with him as well! Why I am writing elected officials in California regarding this visit is to let you know my disapproval on the demands placed on Governor Newsom and the other elected officials for the State of California prior to receiving federal aid.</p> <p>1. What does Voter ID Cards have to do with "Climate Change" and "Fires that spread due to extremely high winds? The State Election Officials have implemented "WHERE'S MY BALLOT" which I have used since its inception. If Californians are concerned that their ballots are not counted, they should make use of this process. I know when:</p> <ul style="list-style-type: none"> a. Election information is mailed b. Sample and Official Ballots are mailed c. When the Registrar's office received my Official Ballot returned via the use of 'drop boxes" AND d. When my ballot has been counted <p>2. Voting in person at official Polling Locations each voter MUST show ID. If a driver's license or other official ID is not appropriate why would this Voter ID Card suffice??</p> <p>The second stipulation is to release water from Northern California. The release of this water is not for use in Southern California. Again, what does providing water to the farmers in the middle of this state have to do with these extreme Santa Ana winds and the fires that have resulted due to it? Pres Trump tried to withhold federal funds from the extreme fires California experienced when he was in office before. Our Governor was able to obtain federal monies to fight those fires. Please stand up and together for the betterment of and to obtain much needed federal funding the citizens of this state deserve. Thank you, Doniece Watkins</p>

Public Comment		Favor	Jason Bautista	<p>Hello, my name is Jason Bautista.</p> <p>I am writing in support of the Immigrants Are Los Angeles Coalition. I represent the Thai Community Development Center (Thai CDC), and I work in District #1.</p> <p>Immigrants drive LA County's cultural richness, economic growth, and resilience. But systemic barriers—language access, information gaps, and housing instability—hinder access to vital services. With growing federal hostility, LA County has a responsibility to invest in immigrant communities.</p> <p>Many programs and investments IRLA pushed for under the federal stimulus funding were one-time investments. This is a critical time to increase capacity and resources to address the urgent and growing needs of immigrant communities. These investments must be renewed!</p> <p>We conducted listening sessions with scores of organizations and community members across all supervisorial districts, and they reiterated the need for continued investments in preventative housing supports, addressing the potential increase in exploitation of immigrant workers, and including immigrants in key county programs like the County's BREATHE program.</p> <p>There must be prompt follow up and investments under the Immigrants Are LA Budget Priorities for the fiscal year 2025/2026. These policy proposals are part of our continued efforts to strengthen support for immigrant communities and must result in collaborative efforts with the Board of Supervisors to ensure equitable, sustainable and impactful outcomes.</p> <p>Thank you for your time and attention to this matter.</p> <p>Sincerely,</p> <p>Jason Bautista</p>
			Laurie Kelson	I support Item 13C. Please keep single family neighborhoods as they are.

Public Comment		Oppose	Charles Burton-Callegari	<p>Dear Supervisor Barger,</p> <p>I ask that you delete sub-item 30 from Item 13-C.</p> <p>We should be helping residents rebuild and stay on their land. Sub-item 30 would do the opposite.</p> <p>Sub-item 30 has language that is too broad-- if the intent is for it to apply to areas in Altadena impacted by the Eaton fire, that should be specified.</p> <p>However, even in Altadena, the policies you're asking for would increase the cost of rebuilding and make it harder for residents to, for example, build an ADU while they recover financially to rebuild their primary home. In an emergency situation, we should be taking steps to help people stay on their land and recover, not co-opt a disaster to suspend needed land use laws.</p> <p>If you suspend state laws that facilitate new housing in places like commercial zones or parking lots, you make housing more expensive. If you suspend the Housing Crisis Act, you are denying renters their right to return. If you suspend the State Density Bonus Program, you are taking away one of our most important tools in delivering deed-restricted housing units. If you reinstate parking minimums, you are driving up the cost of housing. The needlessly broad language gives a very strong appearance of ulterior motives to use this disaster to undo existing land use law. Our only motive should be to help residents rebuild their residences, communities, and financial situations-- we should not be taking away tools they can use to recover.</p> <p>None of the policies sub-item 30 is asking for will help people stay on their land and rebuild their homes; all of them will make it harder and more expensive to rebuild.</p> <p>Please delete sub-item 30 from Item 13-C.</p> <p>Sincerely,</p> <p>Charles Burton-Callegari Los Angeles, 90028</p>
			Christopher T Campbell	<p>If you didn't make so many qualifications to get into your shit people be able to leave you information but you have to have so many qualifications to do anything to do anything within your service how you sedate that you will not take a PDF file then you it's the only file that you do take how you won't take an Excel file but it's the only file that you do take so when does your shit work correctly</p>

upzoning a 1 / 4 sq. mile area of North Del Aire to H18 which will add 3 times the mandated RHNA allocation in that one small section alone!
Rezoning at this magnitude will cause gentrification and push out residents whose families have lived here for decades. The Housing element lists Del Aire is a sensitive community at high risk of Displacement. Yet this was not considered as Del Aire is next to a transit center and is considered a transit Opportunity Area.
Upzoning Del Aire will put residents in harm as Sheriff capacity is already stretched and has the longest reporting time of any of the SBAP communities. Adding thousands of people to a ¼ mile area is unsafe and will put residents in harm. According to LASD, the South Sheriff's station is understaffed and has no plans for construction of new or expansion of existing facilities.
This magnitude of upzoning will hurt our children's education. Our local school- Del Aire Elementary School in the Wiseburn Unified School District, does not have the capacity to serve a huge influx of additional students. The study looked at the entire project area and assessed the capacity of schools by looking at the combined ability of all schools in all 8 unincorporated communities. Parents can't send their children from Del Aire to West Carson or El Camino Village for kindergarten so why was the study completed in this way!? That is not how communities and school districts work.
The proposed upzoning of all of North Del Aire from R-1 to H18 is extremely harmful to our current single-family housing community and it has not been appropriately studied in the EIR nor the plan. H18 allows for up to 4 units per parcel and the building across parcels to up to 18-unit apartments. So, a developer can buy 4-5 houses in a row and put an 18-plex in the middle of what is currently a 100% single -family home neighborhood. Also, density bonuses kick in once there are 15 units, so this number can increase to a 30 -unit apartment.

PLEASE look at what you are proposing in Del Aire and read our submitted concerns. The map for Del Aire triples the number of housing units in a 1/4 sq. mile radius. With zoning density bonuses, this could mean having 18 or 30 -unit apartments in the middle of a single-family home community. This is not necessary! PLEASE DO NOT UPZONE ALL OF NORTH DEL AIRE TO H18. PLEASE DO NOT APPROVE THE SOUTH BAY AREA PLAN.

**Please add the entirety of this email to the public record on this matter, and the County SBAP case file for Del Aire.

Thank you.

Keith M Pittluck

Dear LA County Board of Supervisors
I have been a resident of Del Aire for over 34 years and also taught within the community for close to 30 years. I am writing about the South Bay Area Plan-Project No. PRJ2022-004615-(2 and 4). Clearly, fair and equitable housing is necessary, and I can see why the expansion of mixed use housing along our corridors and near the Metro station is important to meet this goal. However, the County's plan to meet this goal seems to me to have some serious flaws and will be detrimental to this community.

For several months, members of our neighborhood have written letters, attended meetings, and tried to share our legitimate concerns with the proposed blanket upzoning in North Del Aire, but our concerns have apparently been dismissed. At the Regional Planning Commission meeting, the commissioners even lamented that they agreed with our concerns but said they had to move the plan forward due to timing, not facts.

PLEASE look at the Del Aire map and re-assess the rezoning proposed for Del Aire! Del Aire is a diverse, mixed income community with mostly first-time home buyers and multi-family homes.

As a former teacher for almost 30 years in this local Wiseburn School District and a parent of three children who received an excellent education at Del Aire Elementary School within this district and community, I am concerned about the impact this up-zoning will have upon our children's education. does not have the capacity to serve a huge influx of additional students. The study looked at the entire project area and assessed the capacity of schools by looking at the combined ability of all schools in all 8 unincorporated communities. Parents can't send their children from Del Aire to West Carson or El Camino Village for kindergarten so why was the study completed in this way?

The proposed upzoning will triple the number of housing units in a ¼ sq. mile area. Rezoning our entire single-family neighborhood is overreaching as it is not necessary in order to achieve the state mandated housing goals. The upzoning in Del Aire will provide 3X the mandated housing for all of Del Aire and Wiseburn in a ¼ square mile concentrated in north Del Aire. Based on the State of CA's Regional Housing Needs Allocation (RHNA) goals, by 2029, Del Aire and Wiseburn need to add 383 units. The submitted PEIR maps propose upzoning a 1 / 4 sq. mile area of North Del Aire to H18 which will add 3 times the mandated RHNA allocation in that one small section alone! Rezoning at this magnitude will cause push out residents whose families have lived here for decades. The Housing element lists Del Aire is a sensitive community at high risk of Displacement. Yet this was not considered as Del Aire is next to a transit center and is considered a transit Opportunity Area. Upzoning Del Aire will put residents in jeopardy as it will further stretch the resources of the Sheriff's department in an area that already has the longest reporting time of any of the SBAP communities. Adding thousands of people to a ¼ mile area is unsafe and will put residents in harm. According to LASD, the South Sheriff's station is understaffed and has no plans for construction of new or expansion of existing facilities.. At the Regional Planning Commission meeting, the commissioners even lamented that they agreed with our concerns but said they had to move the plan forward due to timing, not facts. PLEASE look at the Del Aire map and re-assess the rezoning proposed for Del Aire! Del Aire is a diverse, mixed income community with mostly first-time home buyers and multi-family homes.

shocking the failure to address the needs for unhoused, under-housed (where people are displaced and forced to live in places that cannot comfortably fit them) and for young people generally. There is nothing you don't know: the rents and prices to own are exceedingly high.

The proposals you are pushing are a mess that will only make our current problems worse. Suspending the HAA, the Housing Element Law, the Density Bonus Law, the commercial-corridors upzoning laws, the parking-reductions-near-transit law, the 5-hearing limit and objective-standards definition of SB 330 are all NIMBY fantasies. Meanwhile you are decidedly avoiding actual solutions for the state to upzone, to remove CEQA barriers, or do anything else to facilitate dense housing development in the safest parts of L.A. County.

The state itself will probably keep you from getting this NIMBY arrogance from happening. The insurance companies will surely reject it. There is no joy from me to side with insurance companies that are doing active damage to people who have lost their loved ones and homes. But you adding to the trauma by all but enforcing the longterm skyrocketing inflation that is undermining our great city is not acceptable.

Please consider these ideas that would help people whose houses were destroyed.

*Let people build and live in ADUs before main houses, so fire victims can get housed sooner.

* In non-very-high-fire-severity areas, streamline SB 9 lot splits to help people pay for rebuilding their houses.

*Remove design standards that delay permitting for main houses, ADUs, and SB 9 homes.

* Do keep safety standards, most obviously fire resistance but also earthquake protections in particular.

*Encourage and streamline use of density bonus, to get more desperately needed housing.

We cannot continue to lose citizens, most especially the lifeblood of Los Angeles for 150 years, the young aspirational people who set roots and move the dynamism of our city. Pricing working class and middle class families out of the county as a whole is a financial, electoral and spiritual disaster in the making. We are already in the process of losing four seats at minimum in Congress after 2030. I work in an entertainment business that is not only losing jobs hand over fist but in our Zoom era is all but guaranteeing that creatives and union workers both move away and stay away.

Urging you to take this opportunity to improve the lives of so many that have

			<p>lost so much in this tragedy. Stop burying your heads in the sand. Build more housing - healthier, denser, environmentally improved, safer and yet more attractive aesthetically and for true diversity. We are in pain but doing just more of the same is a recipe for future disaster. We in Los Angeles have the keys to make America a far healthier, more wealthy and stronger country than ever before. People want to be here, to look to the future, to lead. Please gather a much better plan to get there quickly, with understanding and simply better than this proposal.</p> <p>Sincerely, Mitch Solomon</p>
		Mitch Solomon	<p>I strongly disapprove and oppose the proposals found in "Los Angeles County Recovery Efforts and Building Urgency into Implementation of Long-Term Disaster Support". It is especially disheartening that my Board Supervisor Kathryn Barger is one of the lead sponsors of this destructive bill, most especially against this tragic backdrop at a moment that is begging for forward leaning direction.</p> <p>I have lived in Los Angeles for 30 years, the last nine in Eagle Rock. It is shocking the failure to address the needs for unhoused, under-housed (where people are displaced and forced to live in places that cannot comfortably fit them) and for young people generally. There is nothing you don't know: the rents and prices to own are exceedingly high.</p> <p>The proposals you are pushing are a mess that will only make our current problems worse. Suspending the HAA, the Housing Element Law, the Density Bonus Law, the commercial-corridors upzoning laws, the parking-reductions-near-transit law, the 5-hearing limit and objective-standards definition of SB 330 are all NIMBY fantasies. Meanwhile you are decidedly avoiding actual solutions for the state to upzone, to remove CEQA barriers, or do anything else to facilitate dense housing development in the safest parts of L.A. County.</p> <p>The state itself will probably keep you from getting this NIMBY arrogance from happening. The insurance companies will surely reject it. There is no joy from me to side with insurance companies that are doing active damage to people who have lost their loved ones and homes. But you adding to the trauma by all but enforcing the longterm skyrocketing inflation that is undermining our great city is not acceptable.</p> <p>Please consider these ideas that would help people whose houses were destroyed.</p> <p>*Let people build and live in ADUs before main houses, so fire victims can get housed sooner.</p> <p>* In non-very-high-fire-severity areas, streamline SB 9 lot splits to help people</p>

		<p>pay for rebuilding their houses.</p> <p>*Remove design standards that delay permitting for main houses, ADUs, and SB 9 homes.</p> <p>* Do keep safety standards, most obviously fire resistance but also earthquake protections in particular.</p> <p>*Encourage and streamline use of density bonus, to get more desperately needed housing.</p> <p>We cannot continue to lose citizens, most especially the lifeblood of Los Angeles for 150 years, the young aspirational people who set roots and move the dynamism of our city. Pricing working class and middle class families out of the county as a whole is a financial, electoral and spiritual disaster in the making. We are already in the process of losing four seats at minimum in Congress after 2030. I work in an entertainment business that is not only losing jobs hand over fist but in our Zoom era is all but guaranteeing that creatives and union workers both move away and stay away.</p> <p>Urging you to take this opportunity to improve the lives of so many that have lost so much in this tragedy. Stop burying your heads in the sand. Build more housing - healthier, denser, environmentally improved, safer and yet more attractive aesthetically and for true diversity. We are in pain but doing just more of the same is a recipe for future disaster. We in Los Angeles have the keys to make America a far healthier, more wealthy and stronger country than ever before. People want to be here, to look to the future, to lead. Please gather a much better plan to get there quickly, with understanding and simply better than this proposal.</p> <p>Sincerely, Mitch Solomon</p>
	Nick Vojdani	Don't support the elements that make housing, transit development harder in the county. Board should be making it dramatically easier to build more housing, expand transit, and make streets safer. There is too much in this proposal that does the opposite
	Roslin Castell	Why the focus on building? When we can deploy solar_powered mobile living structures that retinal scan for employment verification and scurry. Temporary structures outside of libraries and other public bickering spaces. Moved in the face of disasters. Solar, fire-resistant panels. Maybe if you give us half of the 12 million annually wasted on armed guards at library we will eben be able to make them fly by mid next year.
Other	Lotus H Lancelot	
	Maria Hernandez	The Board needs to reevaluate their priorities. Spending millions of dollars on additional funding for homelessness is a waste. Stop funding the woke programs/initiatives and start funding the basic services for your tax paying

	constituents.
Nancy Rae STONE	<p>As noted in Item 30 of the Recovery Ordinance, it is important that the County pursue exemption from SB35 requirements, RHNA goals and pursues the suspension of Builder's Remedy in the current Housing Element cycle. With the extent of damage and rebuilding needed, it is more than reasonable to expect that the cost of building materials and the demand for labor will impact the cost of construction and project production not only in the fire-damaged zones, but across the County (and beyond). It is folly for the State to think that the municipalities affected should be held to Housing Element rules that bear no relationship to reality. Density advocates may oppose this measure but we should all remember that they (including State Senator Scott Weiner and his allies) were the same voices that sought to permit higher density development in high fire severity zones. Imagine the loss of life with dense housing built in hillsides with one road and/or narrow road access. Those fleeing for their lives in many locations would never have survived had there been greater densities of residents in the HFSZs. It will likely be impossible for municipalities in this region to reach their RHNA goals in this housing cycle as the cost of construction rises and projects (even those already approved) no longer "pencil out." These things will need to be monitored. Meanwhile, the threat of Builder's Remedy must be suspended. Developers should not be empowered determine where their own developments are built in our communities under Builder's Remedy. They have no interest in doing urban planning, in creating livable communities. They are profit motivated. Unfortunately with a disaster the extent of our recent Southern California fires, there are too many opportunities to seek profit at the expense of others. Please adopt your emergency motion and particularly the language in Item 30 that references suspension of Builder's Remedy, RHNA, SB 35 requirements, etc.</p>
Regina Whitcomb	<p>I was assured by a sheriff's deputy to ignore the cell phone alerts. I live south of the station. He said that if the need arose to evacuate, they would drive the streets with the bullhorns and knock on doors. This never happened. When I left my house around 5 AM it was because of the smoke. It wasn't until I drove away that I saw the roaring flames and houses at the end of my block fully engulfed. I knew I could not turn around to grab more. I fully believed I'd be away for just a few nights and that my home would be fine. It was completely destroyed. Maybe my life was too.</p>
Ronald L Hill	<p>I am a 58 year old male. I am overweight and Wegovy would be an excellent means of helping reduce my weight and any future health issues that will result from my obesity. I exercise, I pay very close attention to my diet, yet certain medications make it impossible for me to lose weight.</p> <p>Wegovy would help the entire United States in fighting our ongoing morbid obesity crisis yet Novo Nordisk has the market cornered until 2031.</p> <p>My insurance "Motion Picture Health Insurance" has denied Ozempic and/or Wegovy. My out of pocket would be \$1639 per month!</p> <p>For a nation facing morbid obesity epidemic, there seems like something is</p>

				<p>wrong.</p> <p>I get it, Large Pharmaceutical Companies have extremely effective lobbyists, but law makers should step up and either require Novo Nordisk to offer this life saving medication at a reduced/reasonable price, or cancel their monopoly on something that is a national epidemic and allow generic, free market trade determine a reasonable price.</p> <p>I am pleading with you, as someone trying to eat and exercise right, there are other factors involved that need to be addressed. I'm not an idealist, I am very pragmatic, but this is going to turn out poorly if you don't represent us.</p>
			Rosalia Espino	<p>Why wasn't Janes village in Altadena notified to evacuate on January 7, 2025? Friends that lived less than 2 miles from my neighborhood received evacuation notices at 7:30pm. I never received an evacuation notice on my phone, door knock or police announcement.</p>

Hello, my name is Jason Bautista.

I am writing in support of the Immigrants Are Los Angeles Coalition. I represent the Thai Community Development Center (Thai CDC), and I work in District #1.

Immigrants drive LA County's cultural richness, economic growth, and resilience. But systemic barriers—language access, information gaps, and housing instability—hinder access to vital services. With growing federal hostility, LA County has a responsibility to invest in immigrant communities.

Many programs and investments IRLA pushed for under the federal stimulus funding were one-time investments. This is a critical time to increase capacity and resources to address the urgent and growing needs of immigrant communities. These investments must be renewed!

We conducted listening sessions with scores of organizations and community members across all supervisorial districts, and they reiterated the need for continued investments in preventative housing supports, addressing the potential increase in exploitation of immigrant workers, and including immigrants in key county programs like the County's BREATHE program.

There must be prompt follow up and investments under the Immigrants Are LA Budget Priorities for the fiscal year 2025/2026. These policy proposals are part of our continued efforts to strengthen support for immigrant communities and must result in collaborative efforts with the Board of Supervisors to ensure equitable, sustainable and impactful outcomes.

Thank you for your time and attention to this matter.

Sincerely,

Jason Bautista

To the Board of Supervisors,

I am writing to strongly express my deep disapproval for the proposals found in "Los Angeles County Recovery Efforts and Building Urgency into Implementation of Long-Term Disaster Support". In particular, I would like to focus on my Supervisor Kathryn Barger and ask to consider your constituents here.

I have lived in Los Angeles for 30 years, the last nine in Eagle Rock. It is shocking the failure to address the needs for unhoused, under-housed (where people are displaced and forced to live in places that cannot comfortably fit them) and for young people generally. There is nothing you don't know: the rents and prices to own are exceedingly high.

The proposals you are pushing are a mess that will only make our current problems worse. Suspending the HAA, the Housing Element Law, the Density Bonus Law, the commercial-corridors upzoning laws, the parking-reductions-near-transit law, the 5-hearing limit and objective-standards definition of SB 330 are all NIMBY fantasies. Meanwhile you are decidedly avoiding actual solutions for the state to upzone, to remove CEQA barriers, or do anything else to facilitate dense housing development in the safest parts of L.A. County.

The state itself will probably keep you from getting this NIMBY arrogance from happening. The insurance companies will surely reject it. There is no joy from me to side with insurance companies that are doing active damage to people who have lost their loved ones and homes. But you adding to the trauma by all but enforcing the longterm skyrocketing inflation that is undermining our great city is not acceptable.

Please consider these ideas that would help people whose houses were destroyed.

*Let people build and live in ADUs before main houses, so fire victims can get housed sooner.

* In non-very-high-fire-severity areas, streamline SB 9 lot splits to help people pay for rebuilding their houses.

*Remove design standards that delay permitting for main houses, ADUs, and SB 9 homes.

* Do keep safety standards, most obviously fire resistance but also earthquake protections in particular.

*Encourage and streamline use of density bonus, to get more desperately needed housing.

We cannot continue to lose citizens, most especially the lifeblood of Los Angeles for 150 years, the young aspirational people who set roots and move the dynamism of our city. Pricing working class and middle class families out of the county as a whole is a financial, electoral and spiritual disaster in the making. We are already in the process of losing four seats at minimum in Congress after 2030. I work in an entertainment business that is not only losing jobs hand over fist but in our Zoom era is all but guaranteeing that creatives and union workers both move away and stay away.

Urging you to take this opportunity to improve the lives of so many that have lost so much in this tragedy. Stop burying your heads in the sand. Build more housing - healthier, denser, environmentally improved, safer and yet more attractive aesthetically and for true diversity. We are in pain but doing just more of the same is a recipe for future disaster. We in Los Angeles have the keys to make America a far healthier, more wealthy and stronger country than ever before. People want to be here, to look to the future, to lead. Please gather a much better plan to get there quickly, with understanding and simply better than this proposal.

Sincerely,
Mitch Solomon

Hi, my name is Lotus Lancelot. I am calling in support of the Immigrants Are Los Angeles Coalition. I represent Translatin@ coalition AND I live/work in District under Bob Archuleta and Blanca Pacheco

Immigrants drive LA County's cultural richness, economic growth, and resilience. But, systemic barriers—language access, information gaps, and housing instability—hinder access to vital services. With growing federal hostility, LA County has a responsibility to invest in immigrant communities.

Many programs and investments IRLA pushed for under the federal stimulus funding were one-time investments. This is a critical time to increase capacity and resources to address the urgent and growing needs of immigrant communities. These investments must be renewed!

We conducted listening sessions with scores of organizations and community members across all supervisorial districts, and they reiterated the need for continued investments in preventative housing supports, addressing the potential increase in exploitation of immigrant workers, and including immigrants in key county programs like the County's BREATHE program.

There must be prompt follow up and investments under the Immigrants Are LA Budget Priorities for the fiscal year 2025/2026. These policy proposals are part of our continued efforts to strengthen support for immigrant communities and must result in collaborative efforts with the Board of Supervisors to ensure equitable, sustainable and impactful outcomes.

Thank you for your time and attention to this matter.

Sincerely,
Lotus Lancelot.

Hi, my name is Louie Zarate. I am calling in support of the Immigrants Are Los Angeles Coalition. I represent the TransLatin@ Coalition and I live in District #2.

I am a current HIV ambassador with the TransLatin@ Coalition. I decided to continue my work with the LGBTQ+ community to fight for the rights of trans immigrants. My friend Emily Garcia was a trans woman who changed my perspective on trans and immigrant allyship forever. At first, she was afraid to tell me about her identity, fearing judgment. But as she found support in organizations that uplift trans voices, she grew into a more confident and empowered woman. A trans woman who migrated to the US and worked multiple jobs to support herself. She struggled. We worked together, lived together, and laughed together. Before her passing, she was also able to get her sisters and her mother safely into the United States. Her courage inspired me to be here today, to honor her and others like her.

I believe in fighting for the rights of TGI individuals just like Emily Garcia. If trailblazers like Marsha P. Johnson and Sylvia Rivera could ignite change for the queer community, I too can stand as an ally to advocate for justice and equality for the TGI and immigrant communities. While I am only one person, I hope my voice can help inspire other allies to join this movement—a movement that is not only worth fighting for but essential for a better and more inclusive future.

FOR HOMELESS

ACA 10

HOUSING

ACA 10 would establish a right to housing in the CA constitution creating an obligation for state and local jurisdictions to take measures and create policies that prevent homelessness, prohibit forced evictions, address housing discrimination and other barriers to adequate housing.
