What does LA Board of Supervisors desire for the database that Anthony Marrone and Kathryn Barger requested on 9/21/2025 the same day President Trump announced Stargate - 500\$ billion budget? I put in the request for 238.5 billion to bring US cybercommands database to LA county publicly at the hearing. For the pilot I set the base enrollment of \$10,000 for members of the police and fire departments with a maximum payout of 40,000 if they get an A and local fire and police chiefs should determine their grading system but there will be items that should be clearly defined for State and Federal policies including the US Constitution and Bill of Rights, priority 1.</p> <p>Either way, the South Pasadena fire department needs assurances before they volunteer to do this rollout. Chief Llyod offered a meeting with the South Pasadena Police chief, but I recommend someone from Kathryn Barger's office reach out to South Pasadena Fire Department to help them understand this is to help protect all citizens equally and facilitate evacuations, fire protection, enhance critical infrastructure for the next fire as documented in your meetings which is in the slide for requirements below.</p> <p>docs.google.com/presentation/d/15svClyD96QXH_eLMRfqMy6vGdUJSIfZVm2nKWxIA4/edit?usp=sharing</p> <p>Here is the presentation for the high level requirements for Federal, State and Local, the budget, incentivization plan for employee's that elect to enroll in the</p>

President Trump Response Jan 21, 2025, \$500 Billion Healthcare AI Stargate - Healthcare

"I am not an advocate for frequent changes in laws and Constitutions. But laws and institutions must go hand in hand with the progress of the human mind. As that becomes more developed, more enlightened, as new discoveries are made, new truths discovered and manners and opinions change, with the change of circumstances, institutions must advance also to keep pace with the times." — Thomas Jefferson
