			Ashley Azulay	As a Calabasas resident, I strongly oppose the use of the Calabasas landfill for wildfire debris. My home is a mere mile downwind from the landfill and I am terrified for the health of my children, myself and my husband. There must be an alternative location to dump this toxic waste. It seems so odd that we cannot even dump paint at this waste site and yet somehow the toxic burn debris from the wildfire has been approved. Please find an alternative site, away from homes, schools and parks to give us County of Los Angeles residents a fighting chance at a healthy long life.
