		<p>I have made a complaint with OIG and received an email from Troy Rodriguez, in an effort to gather more information.</p> <p>The problem is, this is being done anonymously and leaves me with neither names or badge numbers.</p> <p>I am reaching out to you, as a woman, hoping your perspective, as a woman, can understand the severity of these activities.</p> <p>I have provided some information below for your reference:</p> <p>Stephanie Cruz Rojas Liliana Rojas Millie Escolero Zully Cruz Briana Lopez</p> <p>3711 1/2 Sawtelle Blvd Los Angeles CA 90066</p> <p>15522 Orange Ave, Apt 20 Paramount, CA 90723</p> <p>1562 390 8352</p> <p>Also, I'd like to point out, these activities originate from the city of Inglewood, perhaps in relation to crime prevention programs within that city. However, my mother, siblings, and daughter have no relation to the City of Inglewood, yet still, it seems that they were the first subjected to these abusive schemes.</p> <p>The misuse of biotechnology and biomaterials to alter an individual's face is a crucial aspect, as this is not used for crime prevention or criminal justice purposes, but to humiliate and degrade a women's identity. The loss of proteins, collagen, and symmetry can be evidently seen. This type of control gives these men the ability to have control over women physically, mentally, and emotionally.</p> <p>There appears to be many excuses and many reasons to implement these activities and continue to be a persistent force within our lives and homes, but the truth of the matter is that nothing justifies abusing women. Any legal matter should be addressed in a legal setting. Private regulation is not acceptable, or even legal.</p> <p>I hope to hear from you soon.</p>

		I respectfully request the Supervisors to study the LA County defense of a WRIT of MANDATe filed in LA Superior Court 24STCP03660. Originally it

				was filed against the City of Santa Monica but Judge Steven Goorvich said in his original ruling of 24STCP02741 on August 29, 2024 said that it must include the LA County RR/CC, hence a second WRIT was filed when more evidence and information came to my awareness of the real reasons the City of Santa Monica didn't want to include me in the ballot. I would like to once again respectfully address Supervisor Mitchell to alert her one of her staff member is close friends with Anastasia Foster, a candidate that violated the California Election Code in the filing of the affidavit of her nomination papers. Councilmember Torrosis should reconsider the support of an indefensible position as it exposes the County to litigation and Ethics Violation. reason why I submitted my application on February 26, 2025 to be considered for a seat at the Governance Reform Task Force. Copouncilmember Torrosis and Councilmember Dan Hall has clear a conflicts of interest. Anastasia Foster allowed Dan Hall to campaign using the channels of a beloved local non for profit Meals on Wheels and also appeared in his campaign materials.

Hello Zoe!

I have checked with the FIN department and learned that the 1099's went out a few weeks ago, so you should have received yours by now. They are looking into what happened, and if necessary, I will work with them to get yours reissued.

Thanks so much and have a great weekend!

Hi David,

For amounts under 600, the city did not issue 1099s. The vendor can use the check copy as proof.

Thanks

Hi Alicia,

Is this a similar issue like with the other vendor?

This vendor seems to have not received a 1099—not sure if it got lost in the mail or if they were not mailed one due to their 1099 vendor settings.

Please advise, thank you!

Luis Hernandez

Dear Concerned Party:

This is in response to your correspondence received into the CDRH Office of Regulatory Programs, Division of Regulatory Programs 3 (Surveillance Support), Allegation of Regulatory Misconduct Team on 01/02/2025.

Thank you for providing this information to the Food and Drug Administration (FDA). Information from regulated industry and/or complainants may be helpful to us in identifying problems with marketed products and possible violations of the laws that we enforce. We take such reports seriously, and we will evaluate this matter to determine what follow-up action is appropriate. The type and extent of any follow-up is dependent upon the nature of the problem reported, the potential impact on the public health, and the availability of our resources.

Please note that if it is determined that the information you provided is reporting an adverse event, quality problem, malfunction/failure, and/or use errors involving a medical device, it will be referred to MedWatch, the Agency's voluntary reporting program for adverse events. Information that is forwarded to MedWatch will be treated as anonymous so that the reporter identity will not be revealed to a manufacturer/third party. For future reference, adverse events involving medical devices may

be submitted via a MedWatch Voluntary Report. You may contact the Center for Devices and Radiological Health, MDR Team at MDRPolicy@fda.hhs.gov or 301-796-6670, with questions about Medical Device Reporting, including interpretation of MDR policy.

While FDA does not provide information on ongoing investigations, information can be obtained pursuant to a Freedom of Information Act (FOIA) request, once an investigation is closed. Requests for this information can be submitted via the agency online FOIA submission address at <http://www.accessdata.fda.gov/scripts/foi/FOIRequest/index.cfm>, or in writing to the following address:

CAUTION: External Email. Proceed Responsibly.

The primary dilemma here, is the mishandling of neural data, as well as the use of bio responsive

materials to hold primary control over individuals and their every day routine and relationships. The employment of these materials to cause changes to facial characteristics easily recognized by facial recognition technologies, occurs on a daily, sometimes even hourly basis. These activities are rooted in misogynist ideals, and are intended to humiliate and degrade with the power to demand submission.

I would also like to make note of the fact that, although these activities may be intended for specific agendas or investigations, our presence and non consensual participation, derives from linkage from a previous marriage.

Greetings,

We are in receipt of your responses. Upon review, it appears that the information you provided is insufficient to warrant an investigation. Kindly reply this e-mail with further clarification of the following:

1. What are the names of the Sheriff's Department employees engaging in fraud and/or misconduct?
2. You indicated that LASD misused biotechnological resources, violated ethical standards and public trust.
 - a. Can you provide specific examples of how LASD engaged in this misconduct?
 - b. When and where did this occur?
 - c. Are there witnesses? If so, what are their names and contact information?
 - d. Do you have evidence to support these claims? If so, please provide them for our review.

Thank you in advance for your assistance.

Subject: LASD misuse

CAUTION: External Email. Proceed Responsibly.

This letter serves to bring to your attention that biotechnology tools, including biological agents and bio-responsive materials, may be mishandled by the

Los Angeles County Sheriff's Department (LASD).

The allegations include:

1. Destruction of Commercial Goods: Contamination or degradation of household products, wash water, clothing, and bedding items, leading to material and financial loss. Contamination of kitchen area, food, and utensils. Contamination of pet food.

2. Contamination of Environments: Improper use resulting in the pollution of wash water areas, posing risks to public health and the environment. (Resistant biological agents in toilet, sink, and bathtub.)

3. Facial Alteration as a Weapon: Use of biological tools to alter individuals' facial features, seemingly for purposes of humiliation, coercion, or control, which is an egregious abuse of power and technology.

4. Improper use in minors bedroom. (Bedding and clothing)

Such actions, if verified, represent a gross misuse of advanced biotechnological resources and a violation of ethical standards and public trust.

Furthermore, this is improper disbursement of payment for labor involving abuse. Immediate investigation and accountability measures are

necessary to prevent further harm and ensure responsibility.

Thank you
